

BOARD OF SUPERVISORS
COUNTY OF SANTA BARBARA, CALIFORNIA

ORDINANCE NO. _____

An Ordinance Adopting a Schedule of Fees for Services Provided by the Department of Public Works in Connection with the Issuance of Permits for, and Related Supervision of, Encroachments and Excavations in County Road Right of Way

SECTION 1. Purpose and Findings.

Due to the inadequacy of current fees, the issuance of encroachment permits and related supervision caused the County to incur a deficit. Adjustment of the fee schedule is therefore necessary to recover up to the full cost of providing these services. Fees and bonds are authorized to be required pursuant to California Streets & Highways Code sections 1464 and 1467.

Pursuant to Government Code Section 54985, the Board of Supervisors has determined reasonably necessary fees to recover the cost of providing the services set forth above based on fee studies of the cost required to provide each service. The fee amounts set forth and adopted in this Ordinance are based upon the results of a fee study dated March, 2023 and updated by the Director of Public Works based on the current Consumer Price Index to reflect the current cost of providing the services and enforcing the related regulations and statutes governing encroachments and excavations in County Highways.

In adopting this ordinance, the Board finds that the fees charged by this ordinance are set in an amount equal to or less than reasonably necessary to recover the County's average actual cost of providing the services and enforcing the regulations for which the Department of Public Works charges.

The setting of these fees is exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Sections 14 15273(a)(1) and 15378(b)(5) and California Public Resources Code section 21080(b)(8)(A) and (B), as the action is an administrative activity approving charges that are for the purpose of meeting operating expenses, which will not result in direct or indirect physical changes in the environment.

SECTION 2. General Provisions.

The Board of Supervisors of the County of Santa Barbara, State of California, ordains as follows:

- a) The Purpose and Findings set forth above are found to be true and connect.
- b) Pursuant to Government Code section 54985, the rate schedule shown in Exhibit "A," attached hereto and incorporated herein by this reference, is adopted for the services set forth therein, all of which are related to Road Excavation and Encroachment Permits.
- c) The Director of Public Works shall annually review and may adjust fees adopted herein pursuant to the changes to the Consumer Price Index (CPI). Adjustments to the fees shall be rounded to the nearest dollar and become effective no earlier than July 1 of each year and appropriate notice shall be provided to the public 60 days prior to the adjustment effective date. CPI adjustments shall be based on the All Urban Consumers, Los Angeles-Anaheim-Riverside area and shall use the percent change of that index from January to December of the year prior to the effective date;
- d) All Public Works and other fees not expressly revised by this Ordinance shall remain in effect.
- e) The Rate Schedule set forth in exhibit "A" shall supersede the previous Rate Schedule adopted in November, 2007, and any previous schedules.
- f) Upon a showing of good cause, the Board of Supervisors may adjust or waive the fees set forth in Exhibit A;
- g) The Rate Schedule adopted hereby shall be effective 60 days following the Board of Supervisors' final action adopting this Ordinance.

SECTION 3. Severability.

If any section, subsection, sentence, clause or phrase of this Ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this Ordinance. The Board of Supervisors hereby declares that it would have passed this Ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

SECTION 4. Effective Date.

This Ordinance shall take effect and be in force thirty (30) days from the date of its passage, with the Rate Schedule taking effect thirty (30) days thereafter, and before the expiration of fifteen (15) days after its passage, it, or a summary of it, shall be published once, with the names of the members of the Board of Supervisors voting for and against the same in the Santa Barbara Independent, Santa Maria Times, and Lompoc Record, newspapers of general circulation published in the County of Santa Barbara.

EXHIBIT "A"

PUBLIC WORKS TRANSPORTATION DIVISION

Permit Fee Schedule

The County of Santa Barbara Public Works Transportation Division requires payment for service costs associated with the issuance of permits for, and related supervision of, encroachments and excavations in County Road Right of Way for the unincorporated areas of Santa Barbara County and, when requested, for the Cities of Santa Maria, Lompoc, Buellton, Solvang, Santa Barbara, and Carpinteria. The Division reviews each document for compliance with State Law and local Ordinances before submitting final documents to applicable parties. The Public Works Department uses the criteria outlined below to determine whether a FIXED FEE or DEPOSIT shall be required. The Public Works Permit Fees are listed in this Exhibit below.

1. FIXED FEE

A FIXED FEE is collected when a project has a consistently predictable level of staff review for that document type. If a fixed fee is collected at application submittal, applicants will not be billed for additional costs unless the project raises complex issues causing the project to be more expensive to process than is typical for cases on which the fixed fee was based. In such cases, the Director or designee may convert the fixed fee project to a full cost recovery billing. Staff will notify the Financially Responsible Party in writing before the project is converted to a cost recovery billing process. An Agreement for Payment of Processing Fees form, identifying the Financially Responsible Party in case of conversion to a full cost recovery project, shall be collected at project submittal for land development projects.

2. DEPOSIT FOR FULL COST RECOVERY

A DEPOSIT is collected when a project requires a higher level of review or has a significant chance that it will deviate substantially from the average project of its type. An Agreement for Payment of Processing Fees form, identifying a Financially Responsible Party, shall be collected at project submittal. A DEPOSIT is also collected at project submittal and will be retained to ensure cost reimbursement. Additional deposits will be requested when the project balance has been determined to be less than the remaining estimate of work to be performed before closure of the project. Actual charges (hourly rates) will be applied to project deposits on a monthly basis.

After project documents are reviewed and approved for recording and all project related costs have been charged, the applicant will receive a refund of any remaining balance, unless the project balance is less than twenty (\$20) dollars.

3. EXPEDITED PROCESSING

EXPEDITED PROCESSING is a voluntary process whereby the applicant can request that a project be reviewed by a qualified county contractor, as selected by the Division, or regular county employee on overtime or request to have work performed outside of normal business hours. This request must be made in writing. It is at the discretion of the Division to approve or deny the request contingent upon the availability of staff to work overtime and/or contractor availability.

EXPEDITED PROCESSING COST: Any project that is subject to this section will require 1 ½ (one and one-half) times the initial fee for FIXED FEE or 1 ½ (one and one-half) times the initial deposit for DEPOSIT projects. Hourly overtime charges will be charged against the deposit at 1 ½ (one and one-half) times the normal hourly approved billing rate of county staff processing the project. All indirect costs will also be paid (overnight mail, etc.) by the applicant. The applicant will be charged all consultant costs (direct and indirect).

4. IN PROGRESS PROJECT FEES

All permit applications submitted prior to the effective date of the Rate Schedule, as set forth in the Ordinance adopting the Rate Schedule, are not subject to it and all fees, with the exception of hourly rates, will be paid in accordance with the previously adopted Ordinance. Permit applications submitted on or after the effective date of this Ordinance shall be subject to this Ordinance.

5. CPI ADJUSTMENT

The Director of Public Works shall annually review and may adjust fees adopted herein pursuant to the changes to the Consumer Price Index (CPI). Adjustments to the fees shall be rounded to the nearest dollar and become effective no earlier than July 1 of each year and appropriate notice shall be provided to the public 60 days prior to the adjustment effective date. CPI adjustments shall be based on the All Urban Consumers, Los Angeles - Long Beach - Anaheim area and shall use the percent change of that index from January to December of the year prior to the effective date.

6. NON-PAYMENT OF FEES OR DEPOSITS

The Division will not provide final approval until all processing costs have been paid. For DEPOSIT applications, work will be held in abeyance until the DEPOSIT amount estimated by staff has been paid. Failure to pay initial deposit within ten (10) calendar days and/or additional deposits within thirty (30) calendar days of billing date shall be grounds for suspension of processing of the project. If the owner or applicant owes an amount due on any other permits for Encroachments and Excavations in County Highways Road Right of Way, any past due amount must be paid by the applicant before the Division will accept a subsequent application from the applicant. Further, the applicant will be required to submit full estimated costs of processing plus 50% at the time the deposit for the subsequent application is due.
