Subject: please support Goleta Beach 2.0

Dear Supervisors,

Please support the Goleta Beach Park - Goleta Beach 2.0 project. What to do about Goleta Beach has been problematic for years now. It was one of the first issues I learned about when coming to Santa Barbara in 2003 to teach Coastal Law and Policy. Now we finally have a plan that will meet with Coastal Commission approval, not cause loss of beach further along the coastline and bring management into better alignment with nature. Please support the measure.

Thank you,
Gail
