Field & Seed Crops

- Beneficial rainfall in 2024 created excellent grazing conditions that allowed ranchers to increase herd sizes or extend grazing for heavier cattle.
- More accurate regional data during this period also led to improved rangeland valuations.

Recommended Actions

That the Board of Supervisors:

- Receive and file the Santa Barbara County Crop and Livestock report for 2024.
- Find that the proposed action does not constitute a “project” within the meaning of California Environmental Quality Act, pursuant to 14 CCR 15378(b)(5), as it consists of organizational and administrative activities.
