**Interests & Experiences**

**Please explain why you are interested in serving, and what experience you bring to the Committee. Attach additional documentation as necessary.**

I had previously applied to serve on the Isla Vista Recreation and Park district board, I didn't end up being appointed to that position. I was glad I pushed myself to apply for it and when the opportunity to apply to the Human Services Commission was brought up to me I was excited to have the chance to work in government and begin helping others. From what I have read about the HSC they are doing exactly what I want to do, helping those that aren't always given attention to or helped. I don't have much experience working in a government setting but I have been in leadership roles were I have had to work in a team setting. I believe that I am good at being able to cooperate and collaborate with others to ensure the best outcome for whatever we are working on.

**Give any information explaining qualifications, experience, training, education, volunteer activities, community organization memberships, or personal interests that bear on your application for the above Board, Commission or Committee. Attach additional documentation as necessary.**

I don't have many years being a part of the workforce but I have been able to learn how to be in a leadership role. I was president of the St.George Youth Center teen leadership group where I lead a group of 10 teenagers and helped organize and supervise community events. These events were able to run smoothly because of good leadership and communication throughout the entire team. I was also assistant manager three days a week while working at the United Family Thrift Store and learned valuable skills on how to manage money and organize people to run the store efficiently and effectively. At my current job I worked alone initially but I know have a coworker who I have to supervise and quality check all our work to create the best products that represent what the company is offering. I am currently on my second year at Santa Barbara City College where I am studying political science, a topic that I enjoy learning about and am hoping to end up working in the government, helping others.
