**Summary Text:**

This item is on the agenda to approve the 2019/2020 Hardscape Repair; Pavement Preservation and Preventive Maintenance; Countywide Pavement Rehabilitation; and the Road Repairs for Thomas Fire and 1/9 Debris Flow Disaster construction projects as constructed and approve the attached Statements of Final Quantities.

**Background:**

Construction of these projects completed half of the Capital Maintenance listed in the FY 2019/20 Road Maintenance Annual Plans (RdMAP). The project locations were in all Supervisorial Districts. Hardscape repairs were necessary before pavement work can be considered on the street as dictated by the Americans with Disabilities Act (ADA). This included removing trees that were infringing on the sidewalk and road as necessary, replanted street-tree approved species, built ADA-compliant curb ramps, and removed and replaced damaged concrete, curb, and gutters.

On February 11, 2020, your Board dedicated \$10.1M from a settlement of the Thomas Fire and 1/9 Debris Flow Southern California Edison (SCE) claim toward restoring haul routes and roads within the Montecito community and Carpinteria areas devastated by this event. Public Works assembled this pavement rehabilitation project and repaired and repaved 29 of those roadway sections, or approximately 28 lane miles.
