Subject: Housing Element Update

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

For your upcoming December 5 meeting,

I understand both the requirement and the need for new affordable housing in the county, but take exception to the board's current intent to put all the potential rezoning in the Goleta Valley.

Rezoning should be more equitably distributed. The fact that Montecito and Summerland have no parcels targeted for rezoning, even though there are orchards and horse properties in those areas, shows preferential treatment.

Please represent all the people of the county, not only the wealthy and powerful.

Thank you,
Sherrri Trichler
