Dear Honorable Supervisors,

On behalf of the NCFG, we are submitting a brief email in support of the Busy Bee Project. Below we have included a link to the results of an independent study showing no trace of cannabis terpenes in wine and Pence's documentation to be false. These are certified lab results testing the wine bottled by Mr. Pence at his winery from the time that there was a 50-acre grow operation right next to his property. The results show zero terpenes. This evidence debunks this speculation and conjecture that Mr. Pence's grapes may be harmed by cannabis.

We have included the link below to view the full scientific results:

- [Santa Barbara County Planning Commission testimony](#)
