PUBLIC HEALTH & SAFETY  
GRANT PROGRAM  
COHORT 2**

**PROPOSAL PACKAGE\*  
COVER SHEET**

**Submitted by (Name of eligible applicant):**

County of Santa Barbara Department of Behavioral Wellness

**DATE SUBMITTED TO THE BSCC:**

January 29, 2021

*\*The Proposition 64 Public Health and Safety Grant Program Proposal Package is provided in a fillable format. Using the Tab key will allow the applicant access to those areas requiring information.*

## PROPOSITION 64 PUBLIC HEALTH & SAFETY GRANT PROGRAM: PROPOSAL CHECKLIST

A complete proposal package for funding under the Proposition 64 PH&S Grant Program must contain the following items:

	<b>Required Items:</b>	✓
1	Cover Sheet (previous page)	☒
2	Proposition 64 PH&S Grant Program Proposal Checklist <ul style="list-style-type: none"> <li>Originally signed in blue ink by the authorized signatory (e-signatures are acceptable)</li> </ul>	☒
3	Applicant Information Form <ul style="list-style-type: none"> <li>Originally signed in blue ink by the authorized signatory (e-signatures are acceptable)</li> </ul>	☒
4	Proposal Abstract <ul style="list-style-type: none"> <li>No more than one (1) page</li> </ul>	☒
5	Proposal Narrative to include Project Need, Project Description, Project Evaluation Sections <ul style="list-style-type: none"> <li>No more than eight (8) pages</li> </ul>	☒
6	Project Work Plan <ul style="list-style-type: none"> <li>No more than 2 pages using the template provided (see Appendix L for instructions)</li> </ul>	☒
7	Budget Information (Budget Table & Narrative) <ul style="list-style-type: none"> <li>Use BSCC templates provided</li> <li>Budget Narrative must be no more than four (4) pages</li> </ul>	☒
8	Additional Request for Proposals Information, if applicable <ul style="list-style-type: none"> <li>No more than two (2) pages</li> </ul>	☐
9	Letter(s) of Commitment	☒
10	Letter of Eligibility (see Appendix B)	☒
11	Certification of Compliance with BSCC Policies on Debarment, Fraud, Theft and Embezzlement (Appendix F) <ul style="list-style-type: none"> <li>Originally signed in blue ink by the authorized signatory (e-signatures are acceptable)</li> </ul>	☒
12	Criteria for Non-Governmental Organizations Receiving Proposition 64 Public Health and Safety Grant Funds (Appendix K) <ul style="list-style-type: none"> <li>Originally signed in blue ink by the authorized signatory (e-signatures are acceptable)</li> </ul>	☒
	<b>Optional:</b>	
13	Governing Board Resolution (Appendix E) <i>Note: The Governing Board Resolution is due prior to contract execution but is <u>not</u> required at the time of proposal submission.</i>	☐

**I have reviewed this checklist and verified that all required items are included in this proposal packet:**

**X**

  
Applicant Authorized Signature (Blue Ink Only or E-signature) (see Applicant Information Form, Part O, next page)

**Proposition 64 Public Health & Safety Grant Program  
Request for Proposals Document**

**Proposal Abstract**

The Proposal Abstract may not exceed one (1) page.

Behavioral Wellness Department's Alcohol and Drug Program proposes a three-pronged approach to combat youth cannabis use. ADP will hire three Alcohol and Drug Services Specialists to assist with the development of Student Assistance Programs and peer leaders to provide prevention and early intervention in schools (virtually and in-person) with direct linkages to higher levels of care as needed. ADP will also partner with Public Health for youth driven social media campaigns to increase the perception of harm around cannabis use. ADSS staff and peer leaders will collaborate with School Resource Officers when students face disciplinary action. Additionally, the ADP Prop 64 team will facilitate training for students, school staff, and SROs, about the impacts of youth cannabis use, with opportunities also extended to parents and community members. This comprehensive approach will be supported by existing ADP and Behavioral Wellness programs with a focus on program sustainability well beyond grant funding.

## Proposal Narrative

The Proposal Narrative section may not exceed eight (8) pages in total. See pages 19-20 for corresponding Rating Factors and Criteria.

### 1. Project Need (Percent of Total Value: 25%)

According to Lucille Packard Foundation, Santa Barbara County has one of the highest cannabis youth use rates in the State. Recognizing the need for counseling services, cannabis growers in Carpinteria contributed \$189,000 to the Council on Alcoholism and Drug Abuse (CADA) to provide treatment services in southern Santa Barbara County. The Los Angeles Times and Santa Barbara Independent wrote articles indicating that the amount of cannabis being grown and consumed in Santa Barbara County is so great that the county could be renamed "CannaBarbara". (LA Times, 6/26/19; SB Independent, 5/28/20). The Independent also stated that "Santa Barbara is second only to Humboldt County in its embrace of the lucrative crop" (SB Independent, 5/28/21).

Schools currently do not have the resources needed to provide youth with robust cannabis education, prevention, and early intervention programs and staff may be unaware of community resources when students need a referral to services. While some schools have a School Resource Officer (SRO) program, officers have limited resources to help address issues around cannabis use. Behavioral Wellness' ADP funding sources are limited to Drug Medi-Cal (DMC) and Substance Abuse Prevention and Treatment Block Grant funding for clients who meet medical necessity for treatment. While SABG funding for primary prevention services is nestled in local communities, there is still a significant gap within the schools and when coordinating linkages to services for youth prevention and treatment services. County Public Health (PHD) has limited cannabis information on its website and few resources to coordinate social media campaigns and nearly all of local cannabis tax revenues are allocated to the county CEO's office for developing business and licensing protocols, with some funding for law enforcement to identify illegal grow operations.

The need for primary and secondary prevention, SBIRT and care coordination services is evidenced by the fact that over 75% of transitional-aged youth (12 to 24) in our Substance Use Disorder (SUD) treatment system report that cannabis is their drug of choice. To further complicate the need, the County has limited substance use referral sources for youth who may meet medical necessity for treatment, but are never enrolled in treatment programs. Santa Barbara County is home to approximately 60,000 transitional-aged youth

with approximately 275 in Behavioral Wellness (BWell) treatment programs. Taking into consideration that 10% to 15% of the general population have some form of SUD misuse, Santa Barbara's treatment rate of 0.45% falls significantly below the threshold. Adolescents especially do not have access to adequate prevention, screening, early intervention and referral resources since those resources do not exist in their natural environments and they lack direct connection with resources outside of their communities. The results from the most recent CalSCHLS (formerly California Healthy Kids Survey) data (2018) reveals cannabis usage rates within 30 days of the survey are 10% of 9th graders, 17% for 11th grade and 36% for non-traditional students. These indicated were an increase from 2016 data, with a 7% increase in use by 11th grade students. The survey was not administered in many of our schools during the 2019/20 school year due to COVID restrictions.

## **2. Project Description (Percent of Total Value: 50%)**

Behavioral Wellness proposes a Health Student Initiative (HIS) program that focuses mainly on PPA1 with support for PPA2 and PPA3. Our Public Health Department (PHD) will collaborate with Behavioral Wellness and community youth to develop robust social media campaigns for general education and increase the perception of harm around cannabis, which has eroded with the legalization of recreational use. We will also partner with Santa Barbara County Sheriff's Office to support SRO efforts when addressing cannabis prevention and use at County middle and high schools starting with a commitment from the Santa Maria Joint Unified High School District to provide services in their schools. In the fall of 2020, Behavioral Wellness was awarded a Mental Health Student Services Act grant from the Mental Health Services Oversight and Accountability Commission to create partnerships with County schools. ADP will be able to utilize the new collaborations to further identify schools with high need for AOD services to participate in the proposed program.

Behavioral Wellness will collaborate with schools to provide a foundation for Student Assistance Programs (SAP) which will provide a full array of primary and secondary prevention, support groups, screening, care coordination, and Services, Brief Intervention and Referral to Treatment (SBIRT). SAPs will be led by peer leaders within the school and will be supervised by an Alcohol and Drug Services Specialist (ADSS) who will be State of

CA certified and experienced in alcohol and other drug counseling. If the school has a School Resource Officer (SRO) program, peer leaders will assist SROs, when appropriate, to address cannabis use among the students.

Funding allocated to PHD will help create age appropriate, peer-driven social media campaigns to educate students, families and communities about cannabis use with the goal of increasing perception of harm. Many adults and youth do not understand or believe messages about the negative impacts of high THC potency, especially when using concentrated oils through vaping.

ADSS staff will be responsible for directly linking students to prevention, treatment and ancillary services, when indicated. ADP has established the Strengthening Families Program (SFP) throughout each region of the County. SFP is an evidence-based family educational and skills-building training that focuses on improving parenting skills and family relationships while reducing harmful behavioral and improving social competencies and school performance and will be utilized when interacting with youth and their families.

HSI staff will also be responsible for providing a full range of educational presentations and materials to teachers, nurses, administrators and School Resource Officers. Educational, training topics may include Cannabis and Human Development, the Process of Substance Use, Addiction and Recovery, Motivational Interviewing, and the Adolescent Community Reinforcement Approach (A-CRA) and other SUD Treatment Models

Our CalOMS treatment data and feedback among youth and their families indicates that providing services in the schools is essential for youth engagement. Student Assistance Programs (SAPs) and Strengthening Families Program (SFP) are SAMHSA evidenced-based practices with proven success rates nationally and, in the case of the SFP, effective current practices. Motivational Interviewing is now the bedrock of all communication and counseling practices due to its client centered, non-confrontational and culturally sensitive methods. The Adolescent Community Reinforcement Approach (A-CRA), in combination with harm reduction, is among the best treatment models to address the contextual factors of adolescent substance use, and has been successfully implemented in Santa Barbara before through a SAMHSA grant.

County schools and the Sheriff's Department have requested BWell/ADP provide additional services on campus, particularly for care coordination, substance use disorder (SUD) / alcohol and other drug (AOD) prevention, SBIRT and educational services aimed

at reducing student involved with cannabis. Social media campaigns by our experienced PHD will reinforce HIS's efforts and publicize valuable cannabis information to the public. An overwhelming number (75%) of transitional-aged youth (12-24) in our substance use disorder (SUD) treatment system report cannabis as their drug of choice and the most recent CalSCHLS (formerly California Healthy Kids Survey) data (2018) reveals cannabis usage within 30 days rates of 10% of 9th graders, 17% for 11th grade and 36% for non-traditional students. All three indicators saw an increase from 2016 data, with a 7% increase in use by 11th grade students. With limited resources to address cannabis use in the schools, youth who may meet medical necessity for treatment do not receive referrals to County or community resources at anticipated levels. Santa Barbara County is home to approximately 60,000 transitional-aged youth with approximately 275 in Behavioral Wellness (BWell) treatment programs. Taking into consideration that 10% to 15% of the general population have some form of SUD misuse, Santa Barbara's treatment rate of 0.45% falls significantly below the threshold.

ADP has developed programs to meet the complex needs of children, transitional-aged youth and adults where trauma is ubiquitous. ADP pioneered the use of trauma-informed counseling and has been using Seeking Safety for over 15 years within our perinatal and women's system of care. Youth development, prevention and intervention services will be trauma-informed, culturally relevant, developmentally appropriate and community driven. We also have a fully integrated cultural competency plan supporting the belief that clients should be assessed and treated within their preferred cultural context. Additionally, our prevention, SBIRT and counseling models are built upon Motivational Interviewing, a culturally sensitive communication model.

HSI staff and peers will collaborate with the School Resource Officers (SRO) to assist law enforcement in addressing SUD issues before they become legal issues for students. ADSS staff will assist SROs to establish trust with students and school staff and they will be able to call upon the ADSS's and peer leaders to assist in screening and interventions that are beyond the scope of the deputies. SROs, peer leaders and ADSS staff will collaborate to triage cases and work with students and their families on deciding action plans for treatment and repairing harm caused by the student's cannabis use.

SROs report significant levels of opioid, methamphetamine and cannabis use and abuse in the high schools. Although the focus of this grant will be cannabis, we anticipate

providing SBIRT services, including medication assisted treatment (MAT) for some clients. Therefore, all staff involved in this grant will be trained in assessing client need for MAT treatment services with linkages to ADP and community services related to opioid treatment and MAT services.

The Mental Health Student Services Act programming is designed to increase youth access to mental health and AOD services. One of the primary goals for both grants is to integrate youth substance use and mental health services. ADP's Healthy Student Initiatives, MHSSA and EPI programs will serve as interwoven referral sources covering education, prevention, and early intervention with direct access to higher levels of care. MHSSA will help create partnerships in previously underserved school districts, allowing this Initiative to have an impact beyond the confirmed commitment of the Santa Maria Joint Union High School District.

Grant funding will support three (3.0 FTE) Alcohol and Drug Services Specialists (ADSS) to develop or enhance school SAP plans in coordination with school staff, students and law enforcement personnel. They will also recruit, train and supervise peer leaders who will provide services to students and their families. ADSS staff will develop and facilitate outreach activities at local community events in order to reinforce Public Health messaging, advertise programming and identify individuals and families who may benefit from SBIRT and AOD treatment activities. Services will be delivered using an age and culturally appropriate approach in order to destigmatize and de-dramatize substance abuse and treatment activities. When appropriate, Harm Reduction (HR) activities will be utilized and framed in a way so clients understand that treatment will continue, even if they cannot stop using quickly. HR can be seen as an allowance for individuals and youth especially to not only continue using SUD, but to continue using with adult approval.

Public Health social media campaigns will consist of research-based, youth developed messaging identifying the negative impacts, including on the brain, that are associated with cannabis use.

### **3. Project Evaluation (Percent of Total Value: 15%)**

ADP proposes to collaborate with Dr. Jill Sharkey (UCSB) as she has extensive experience with program oversight and evaluation efforts focused on youth. Dr. Sharkey will serve as the program's external evaluator and will work collaboratively with BWell's

Research and Evaluation (R&E) team to ensure accurate data collection, analyses and reporting accuracy.

Dr. Jill Sharkey is heavily engaged in community-based research designed to understand optimal ways to support youth in schools and juvenile justice, behavioral health, and child welfare systems. She has completed several evaluation projects funded by the California Board of State and Community Corrections including a four-year project to examine racial and ethnic disparities in juvenile justice and four multi-year projects to various cities in Santa Barbara County (Lompoc, Carpinteria, Santa Barbara, and South County) to evaluate the California Gang Reduction, Intervention and Prevention (CalGRIP) Program. Her recent federal grant work has included two projects funded by the Substance Abuse and Mental Health Services Agency (SAMHSA): Evaluation of Santa Barbara Veterans Entering Treatment Services 2017 to 2020 (1 H79 TI080118-01) and Bridges to Recovery 2010-2013 (H 79 TI 022513-01). Dr. Sharkey's experience with practical application of research and evaluation in vulnerable-population serving institutions paired with her experience as a school psychologist working within systems has prepared her to lend expertise to this proposed project.

Evaluation activities will be aligned with service delivery goals such that each assessment and/or data point informs prevention, screening, or intervention. Process data tracking will help ensure that providers address and route referrals, as well as adhere to, the assessment protocol. Intake assessments will guide intervention planning and provide a baseline for improvement. Consumer surveys will provide immediate feedback on how to improve the program. Outcome data will indicate for whom the program is helpful and, overall, what percentage of participants meet project goals and objectives.

The evaluation will include process and outcome evaluation measures. Process evaluation measures, such as referrals and referral outcomes and numbers of participants in particular program aspects, will be tracked through an online tracking program, such as SmartSheet. A consumer survey will be collected at three months and analyzed with descriptive statistics and consensual qualitative coding. Outcome measures (youth and parent reports) will be collected at intake and discharge.

Consumer Survey is an 11-item survey reduced from the Mental Health Statistics Improvement Program Family and Youth Satisfaction Surveys (Shafer & Temple, 2013). The resulting survey includes three-item scales of “outcome” and “cultural sensitivity” as well as three single items (I like this program, the location was convenient, and this program has helped my family). The final two items are open ended and designed to elicit qualitative program feedback, “What did you like most about this program?” and “What can we improve about this program?” The consumer survey is administered three months into the program and guides continuous program improvement.

Consumer Satisfaction Survey is an X-item survey reduced from the Treatment Perceptions Survey. The resulting survey measures perceptions of care/satisfaction with SUD services across 5 domains (access, quality, outcome, care coordination and general satisfaction).

Outcome Measures – California Healthy Kids Survey (CHKS). The CHKS is administered to California students every other year in seventh, ninth, and eleventh grades. School districts receive reports of aggregated data. The CHKS includes myriad questions about substance use; questions focused on marijuana (e.g., During the past 30 days, on how many days did you use marijuana (smoke, vape, eat, or drink) will be tracked in 2021 (baseline) and 2023 (outcome). Students referred to treatment will be given the ASAM Criteria to create a comprehensive assessment and service plan. Dimensions 4 (Readiness for Change) and 5 (Relapse, Continued Use, or Continued Problem Potential) are the key outcomes being tracked for this project. School Level data outcomes will be tracked including average daily attendance and disciplinary infractions for marijuana use.

To collect and report on the required performance measures, the internal Research and Evaluation team, will have access to their Electronic Health Records (EHR) that provides functionality for progress notes, treatment plans, medication tracking, and outcomes tracking. Utilizing an online data tracking source, Dr. Sharkey will have access to data collected by BWell's Research and Evaluation team for analyses. This resource will track each step of the evaluation process including due dates for intake materials (within 30 days), the window for the consumer survey (within two weeks of the three-month due date), and the window for discharge data (within one month of discharge). The tracking

method will also alert the evaluation team when data has been received. A Project ID number will be used and no identifying or treatment information will be included in the data. The evaluation team will use this tracking method to send weekly reminders to providers when various assessments are due. This tracking sheet will also assess process outcomes.

Project coordinators will be responsible for tracking referrals and referral outcomes as well as conducting intake assessments. They will record all process, intake, consumer survey, and outcome data in the shared database. The evaluator will have administrator access to this database. Permissions will be allocated such that the evaluator will be able to log in to the database but not have access to any student personal information. Behavioral Wellness and Evaluator will develop a Memorandum of Understanding that details financial and data sharing agreements.

To answer the evaluation questions, a pre-/post-test research design will be used. Baseline data will first be collected when a youth client enters the program. The same data measures will then be collected at subsequent regular intervals and analyzed to document change over time. Process data will be analyzed with counts and percentages. Consumer satisfaction will be analyzed with descriptive statistics and consensual qualitative coding. Quantitative outcomes will be analyzed through repeated-measures analysis of variance.

To answer the evaluation questions, a pre-/post-test research design will be used. Baseline data will first be collected when a youth client enters the program. The same data measures will then be collected at subsequent regular intervals and analyzed to document change over time. Process data will be analyzed with counts and percentages. Consumer satisfaction will be analyzed with descriptive statistics and consensual qualitative coding. Quantitative outcomes will be analyzed through descriptive statistics (for outcome indicators) and multivariate analysis of variance (for pretest posttest ASAM scores).

## Prop 64 PH&S Grant Program Request for Proposals Project Work Plan

The Project Work Plan may not exceed two (2) pages. See Appendix L for full instructions.

<b>(1) Goal:</b>	Develop a support system for school districts and students by implementing the Student Assistance Programs to identify and coordinate referrals to and engagement with early intervention and treatment programs.		
Objectives (A., B., etc.)	1.A.: Collaborate with 6 schools to implement a Student Assistance Program adhering to evidence-based standards 1.B.: Reduce disciplinary infractions for substance use by 10% from three-year (2019-2020; 2018-2019, 2017-2018) baseline average at each participating school. 1.C.: Increase average daily attendance rates by 10% from three-year baseline at each participating school. 1.D.: Conduct consumer survey youth and parent satisfaction.		
Project activities that support the identified goal and objectives		Responsible staff/ partners	Timeline
			Start Date      End Date
1.1 Train local school leaders on the SAP model including the identification of marijuana use behaviors. 1.2 Collaborate with School Leadership (Superintendents, Principals or teachers) to develop a Student Assistance Program plan for school districts that will be supportive of a SUD peer-to-peer intervention in the schools. 1.3 Collaborate with 6 schools to develop a format for referring students with behaviors related to SUD. 1.4. Develop a referral process to identify students and level of services.		Peer Leaders/Identified trainer	April 1, 2021      August, 2021
<b>(2) Goal:</b>	Increase perception of harm of marijuana use for youth utilizing a peer-to-peer model.		
Objectives (A., B., etc.)	2.A. Work with School Districts to strengthen or develop peer-to-peer model programming in the school system for students referred by Student Assistance Programs. 2.B. Train 3 Peer Coordinators and 12 peer leaders to work with local school districts to develop 1 peer support group in 6 schools. 2.C. Increase self-reported perception of harm of marijuana use by 10% for students in grades 9 and 11 in participating districts as measured by the CHKS		
Project activities that support the identified goal and objectives		Responsible staff/ partners	Timeline
			Start Date      End Date
2.1: Train 4 district leaders and teachers on the Peer-to-Peer model, SBIRT and referral process. 2.2: Develop and implement a peer-to-peer model plan for schools. 2.3: Train 3 Peer Coordinators and 12 peer leaders in peer-to-peer model		Peer Leaders/Identified trainer	April 2021      September 2021
<b>(3) Goal:</b>	Develop and implement early intervention and treatment support systems to High School youth in schools for marijuana substance abuse.		
Objectives (A., B., etc.)	3.A. Implement SBIRT to identify and provide brief substance use intervention to youth within the schools 3.B. Engage 75% of students referred to SAP and/or Peer to Peer Intervention with substance-related concerns for ASAM screening and referral to appropriate level of care. 3.C. After ASAM screening, intervention and or treatment, 30% of students will be more motivated to change their cannabis use patterns and significantly reduce their cannabis use.		
Project activities that support the identified goal and objectives		Responsible staff/ partners	Timeline
			Start Date      End Date
3.1: Peer -to-Peer leaders will identify referred students for SUD assessment. 3.2: Identify students and refer to group early intervention. 3.3: Provide services through school year.		Peer Leaders	September 2021      June 2021
<b>(4) Goal:</b>	Reduce marijuana consumption utilizing local media campaigns to educate youth on the impacts of use.		
Objectives (A., B., etc.)	4.A. Create and develop local campaign using videos, state image ads for messaging 4.B. Reduce self-reported marijuana use by 10% for students in grades 9 and 11 in participating districts as measured by the CHKS		
Project activities that support the identified goal and objectives			Timeline

	Responsible staff/ partners	Start Date	End Date
4.1: Develop or identify a media campaign to address underage marijuana use. 4.2: Distribute marijuana media campaign to local media outlets to include social media and other media outlets.	Prevention staff/Provider	April 2021	March 2022

## Proposal Budget

### 4. Project Budget – Table and Narrative (Percent of Total Value: 10%)

**A. Budget Table** (use the table provided below): Applicants are limited to the use of the Line Item categories listed and are not required to request funds for every Line Item listed. If a budget line item is not applicable for the proposed project, complete with entering \$0.

**Total Grant Funds Requested:** Complete this column, for the total grant funds requested for the full 3-Year grant funding term (May 1, 2021 to April 30, 2024) for all grant related activities/items. The Total amount for this column must equal the dollar amount provided in Section E of the Application Information Form. Use whole numbers only.

**Grant Funds Proposed for PPA 1** (Youth Development/Youth Prevention & Intervention): Of the grant funds requested within each line item for the “Total Grant Funds Requested” column, complete this column for the grant funds to be used specifically for the mandatory PPA 1- Youth Development/Youth Prevention & Intervention for the full 3-Year grant funding term (May 1, 2021 to April 30, 2024). This column **MUST** total at least ten percent (10%) of the Total Grant Funds Requested column and must equal the dollar amount provided in Section F of the Application Information Form. Use whole numbers only.

**Please verify total amounts as columns do not auto-calculate.**

PROPOSED BUDGET LINE ITEMS	GRANT FUNDS REQUESTED		*GRANT FUNDS PROPOSED FOR PPA 1
1. Salaries and Benefits	\$ 635,631	→	\$ 632,631
2. Services and Supplies	\$	→	\$
3. Professional Services	\$ 90,000	→	\$
4. Non-Governmental Organizations (NGO) Contracts	\$	→	\$
5. Indirect Costs / Administrative Overhead (may not exceed 10% of grant award)	\$ 87,264	→	\$
6. Equipment / Fixed Assets	\$	→	\$
7. Data Collection / Enhancement	\$	→	\$
8. Program Evaluation	\$ 147,000	→	\$
9. Sustainability Planning	\$	→	\$
10. Other (include travel & training costs)	\$	→	\$
11. Financial Audit	\$	→	\$
<b>TOTAL</b>	<b>\$ 959,895</b>	<b>→</b>	<b>\$ 632,631 *</b>

\* This column **MUST** total at least ten percent (10%) of the Total Grant Funds Requested.

## Budget Narrative

The Budget Narrative may not exceed four (4) pages. Dollar amounts must be in whole numbers and match the corresponding Line Item amounts provided in the Budget Table.

### 1. **Salaries and Benefits:** \$ 635,631

These funds will be utilized to fund Alcohol & Drug Service Specialist, supported by School Resource Deputies, and provide outreach prevention and early intervention to students and neighboring communities.

Alcohol & Drug Service Specialist – Civil Service, 1 FTE, \$117,781 Annual Salary including 35% in benefits. This position will provide prevention services in the Santa Barbara area and will be the lead Alcohol & Drug Service Specialist.

Alcohol & Drug Service Specialist – Extra Help, 1 FTE, \$63,245 Annual Salary including 35% in benefits. This position will provide prevention services in the Santa Maria area.

Alcohol & Drug Service Specialist – Extra Help, 0.5 FTE, \$30,851 Annual Salary including 35% in benefits. This position will provide prevention services in the Lompoc area.

All Alcohol and Drug Service Specialists will either be State certified alcohol and other drug (AOD) counselors, Licensed Mental Health Practitioners (LMHP) or LMPH interns.

The essential duties and functions of each position are anticipated to be as follows:

Orientation, Education and Training for School Staff and Peers

25%

Student Outreach and Client Engagement, including direct SBIRT Services

35%

Care coordination, including collaboration with SRDs and SUD Treatment facilities

25%

Supervision and Mentorship of Peers

15%

### 2. **Services and Supplies:** \$

### 3. **Professional Services:** \$ 90,000

On an annual basis, \$30,000 will be given provided to the Santa Barbara Public Health Department for conduct Social Media Campaign efforts. This will include the

use of videos and state image ads for messaging educating targeted audiences on the impacts of cannabis use focused on reducing youth cannabis use.

**4. Non-Governmental Organizations (NGO) Contracts: \$**

**5. Indirect Costs (not to exceed 10% of the actual total direct project costs): \$ 87,264**  
9.09% of the total grant request will be allocated Indirect costs. These are shared costs that cannot be directly assigned to a particular activity but are necessary to the operation of the organization and the performance of the project.

**6. Equipment / Fixed Assets: \$**

**7. Data Collection / Enhancement: \$**

**8. Program Evaluation: \$ 147,000**

Dr. Jill Sharkey, subcontractor through University of California Santa Barbara, will receive \$35,000 on an annual basis to perform program evaluation for the Proposition 64 Public Health and Safety Grant Program. Dr. Sharkey will ensure data integrity, accuracy and outcome perspectives. She has successfully collaborated on several Santa Barbara County grants. Dr. Sharkey will include at least one UCSB graduate student to assist with research/data details, and both will also provide technical assistance and program guidance to the grant staff, including coordinating efforts with our internal Research and Evaluation Department. Specifics of Dr. Sharkey's deliverables and costs are as follows:

**Data Entry, Analysis and Reporting**

Quarterly, UCSB will analyze and report data to the local Steering Committee and BSCC. In addition to using the assessment data to evaluate program and client outcomes, data will be used to improve program effectiveness. Feedback will be provided by UCSB to County at least quarterly and more frequently as needed through ad hoc meetings. Topics will include issues that have arisen around data collection, progress towards use of the assessments for treatment planning and evaluation purposes, and monitoring subpopulation disparities.

- With County input, UCSB will develop the Local Evaluation Plan due to the BSCC on July 1, 2021.
- UCSB will assist our internal Research & Evaluation Department to develop quarterly reports.
- With County input, UCSB will develop the final Local Evaluation Report due to BSCC on October 31, 2024.

Personnel:

Funds are requested for the Principal Investigator (PI; Dr. Jill D. Sharkey) and one Graduate Student. The PI will be highly involved in the project and will be responsible for the development and implementation of the evaluation plan and for all reports to local and state audiences. The Graduate Student will be responsible for project coordination and will manage data collection and analysis and report preparation and develop the project alongside the PI. Benefits are included per the University rates for Dr. Sharkey and the Graduate Student, including tuition, fees and UC Student Health Insurance

Behavioral Wellness Research & Evaluation team will be allotted \$14,000 on an annual basis to provide program and evaluation services. The Research & Evaluation team will capture and organize data for Dr. Sharkey's team, assist with data analysis and develop the experience and integrate processes to sustain program evaluation beyond grant funding. Existing County Behavioral Wellness Clinical Psychologists will be employed to work on the grant. Details are as follows:

The Internal BWell Evaluator (Dr. Patricia Gonzalez, in kind, 5% effort) will oversee Research and Evaluation team's program planning and design, data collection, and reports detailing clinical outcomes and program effectiveness. This person is considered key staff, and she will work collaboratively with Dr. Jill Sharkey to meet the grant reporting requirements.

The Research Analyst/Epidemiologist (to be selected, ~25% FTE) will oversee the grant data management and reporting system by, assisting with database development, data entry, designing data reports, running routine reports, verifying data quality, and preparing data files for UCSB External evaluation team.

Technical Assistance. Research and Evaluation will review all data transmitted for quality and completeness and to identify methods to improve the quality of the data being collected. Research Analyst will be part of the Behavioral Wellness team.

Internal communications. Research Analyst will communicate internally with program staff about the project to ensure that all evaluation activities are completed in a timely manner.

**9. Sustainability Planning: \$**

**10. Other (include travel and training costs): \$**

**11. Financial Audit: \$**

RE: Letter of Commitment – Prop 64 Grant Application

To Whom it May Concern:

The County of Santa Barbara Public Health Department supports the County of Santa Barbara Behavioral Wellness Department's application for the BSCC Proposition 64 Safety Grant. Cannabis is an increasing issue among youth in our schools, as evidenced by over 50% of our current clients reporting that cannabis is their preferred drug of choice. Possession of cannabis is also the most prevalent drug offense when interacting with youth on school campuses and in the community. Public Health will collaborate with Behavioral Wellness to address youth cannabis use in our community.

In collaboration with Behavioral Wellness and community youth, Public Health will coordinate social media outreach campaigns focused on cannabis prevention. We are excited about the possibility of partnering with Behavioral Wellness to ensure our youth are well educated on the impacts of cannabis use and have access to services when needed.

Sincerely,

DocuSigned by:

RE: Letter of Commitment – Prop 64 Grant Application

To Whom it May Concern:

The County of Santa Barbara Sheriff's Office supports the County of Santa Barbara Behavioral Wellness Department's application for the BSCC Proposition 64 Safety Grant. Cannabis is an increasing issue among youth in our schools, as evidenced by over 50% of our current clients reporting that cannabis is their preferred drug of choice. Possession of cannabis is also the most prevalent drug offense when interacting with youth on school campuses and in the community. The Sheriff's Office welcomes the opportunity for our School Resource Deputies (SRD) to partner with Behavioral Wellness staff to address cannabis use in our assigned schools as well as provide intervention and treatment assistance.

Drug and alcohol specialists, supported by SRDs, will provide outreach, prevention and early intervention to our students and neighboring communities. Alcohol and drug counselors, SRDs and peer support specialists will collaborate to identify students who may need assistance with cannabis use, including providing interventions before legal action may be taken. Additionally, students, parents, school staff and other stakeholders will be provided with cannabis prevention, early intervention and linkages to treatment services. We are excited about the possibility of partnering with Behavioral Wellness to ensure our youth are well educated on the impacts of cannabis use and have access to services when needed.

Sincerely,

Richard Brittingham  
Sheriff's Lieutenant

**APPENDIX F**  
**Certification of Compliance with BSCC Policies**  
**Regarding Debarment, Fraud, Theft, and Embezzlement**

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to applicants that have been:

1. debarred by any federal, state, or local government entities during the period of debarment; or
2. convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation.

By checking the following boxes and signing below, applicant affirms that:

- I/We are not currently debarred by any federal, state, or local entity from applying for or receiving federal, state, or local grant funds.
- I/We have not been convicted of any crime involving theft, fraud, or embezzlement of federal, state, or local grant funds within the last three years. We will notify the BSCC should such debarment or conviction occur during the term of the Grant contract.
- I/We will hold subgrantees and subcontractors to these same requirements.

A grantee may make a request in writing to the Executive Director of the BSCC for an exception to the debarment policy. Any determination made by the Executive Director shall be made in writing.

**APPENDIX K**  
**Criteria for Non-Governmental Organizations Receiving**  
**Proposition 64 Public Health and Safety Grant Funds**

(Page 1 of 2)

The Proposition 64 Public Health and Safety (Prop 64 PH&S) Grant Program Request for Proposals (RFP) includes requirements that apply to non-governmental organizations that receive funds under this grant. All grantees are responsible for ensuring that any contracted third parties continually meet these requirements as a condition of receiving Prop 64 PH&S funds. The RFP describes these requirements as follows.

Any non-governmental organization that receives Prop 64 PH&S grant funds (as either subgrantee or subcontractor) must:

- Have been duly organized, in existence, and in good standing for at least six months prior to the effective date of its fiscal agreement with the BSCC or with the Prop 64 PH&S grantee. Non-governmental entities that have recently reorganized or have merged with other qualified non-governmental entities that were in existence prior to the six-month date are also eligible, provided all necessary agreements have been executed and filed with the California Secretary of State prior to the start date of the grant agreement with the BSCC or the start date of the grantee-subcontractor fiscal agreement.
- Be registered with the California Secretary of State's Office, if applicable;
- Have a valid business license, Employer Identification Number (EIN), and/or Taxpayer ID (if sole proprietorship);
- Have any other state or local licenses or certifications necessary to provide the services requested (e.g., facility licensing by the Department of Health Care Services), if applicable; and
- Have a physical address.

In the table below, provide the name of the Grantee and list all contracted parties.

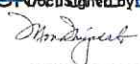

**Grantee:**

Name of Contracted Party	Address	Email / Phone	Meets All Requirements
University of Santa Barbara, Dr. Jill Sharkey	The Gevirtz Graduate School of Education; University of California Santa Barbara; Santa Barbara CA 93106-9490	(805) 893-3441 jsharkey@education.ucsb.edu	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
			Yes <input type="checkbox"/> No <input type="checkbox"/>
			Yes <input type="checkbox"/> No <input type="checkbox"/>
			Yes <input type="checkbox"/> No <input type="checkbox"/>

Grantees are required to update this list and submit it to the BSCC any time a new third-party contract is executed after the initial assurance date. Grantees shall retain (on-site) applicable source documentation for each contracted party that verifies compliance with the requirements listed in the Prop 64 PH&S Grant RFP. These records will be subject to the records and retention language found in Appendices A and C of the Standard Agreement.

Unless prior approval is obtained, the BSCC prohibits disbursement or reimbursement to any NGO that does not meet the requirements listed above and for which the BSCC does not have a signed grantee assurance on file.

**A signature below is an assurance that all requirements listed above have been met.**
