**Grievance Review**  
**August 2019**

To: Shawn Lammer, Lieutenant

From: Mark V. Mahurin, Grievance Oversight Coordinator

**Dental: Zero (0) Grievances (0.00%)**

There were zero (0) grievances related to dental treatment for August and there were no appeals filed for this month.

**Mental Health: Three (3) Grievances (15.00%)**

During this period, there were three (3) grievances related to mental health for review. Two (2) were for Mental Health medications, and the other was for mental health treatment. Two (2) resulted in treatment by the Psychiatrist and each was started on medications. One (1) prescription has not been filled because the patient continues to refuse scheduled appointments with the Psychiatrist. There were no appeals filed and no grievances required follow-up to determine an appropriate outcome.

**Medications: Five (5) Grievances (25.00%)**

I reviewed five (5) grievances related to medications other than mental health medications. Treatment and medication adjustments resolved each of these requests. One (1) was a complaint of medication being stopped in error, and this complaint was founded. One (1) was a complaint that medications were stopped, however the patients BP is within normal limits. Monitoring by the MD will continue. Two (2) were general requests for medication, and one (1) was a complaint of medication from prison is not being given. These medications require an appointment with the MD to be continued. There were no appeals filed during this month and no grievances required follow-up to determine an appropriate outcome.

**Medical: Twelve (12) Grievances (60.00%)**

I reviewed twelve (12) general medical grievances for this period. Sick call, MD and follow-up appointments or other similar actions addressed the majority of these complaints. One (1) was a complaint about staff behavior that is under review by WellPath. Three (3) grievances were because the patients are refusing to attend medical appointments, preventing continuation of care. No appeals were filed and none of the grievances required follow-up to determine a resolution.

**Observations & Recommendations:**

The average time between the grievance filing and a response from medical or mental health during this period is 3.3 days. No grievances exceeded the fifteen (15) day response requirement.

During this period, the total number of medical related grievances remains low in comparison to prior quarters. While there was a slight increase by three grievances this month comparative to last month, we remain well below the monthly average of thirty (30) for the previous year. When comparing the twenty (20) grievances filed for this month to the average of nineteen (19) grievances per month filed in the previous quarter, this is an increase of 5.00%.

**Grievance Review**  
**August 2019**

In the month of August, there were 1,264<sup>1</sup> requests for medical related services, of which twenty (20) or 1.6% resulted in a grievance. This is a 36% decrease comparative to the average of 2.5% during the previous quarter.

During this same period, there were eighty-nine (89) total grievances filed, of which twenty (20), or 22.5% were medical related.

In the month of August, the sheriff's office received five (5) community inquiries. Each of these were appropriately addressed by medical.

Respectfully,

Mark V. Mahurin

**Patient complaint is founded.** Patient was to receive Pred Forte in left eye X 4 daily until seen by Sansum Ophthalmology on 8/16/19. The medication was stopped in error, and was restarted 8/6/19.

Patient was sent for a CT on 7/29/19. Results were unremarkable. Lab test results are also not remarkable. Patient was treated by Psychiatrist on 8/9/19, but patient refuses to take any medication.

Duplicate to 16131. Patient has refused to see the Psychiatrist for follow-up appointments. Cerexa and Trazadone cannot continue without treatment by the Psychiatrist.

Patient has been seen for his left eye issue on multiple occasions. No treatment is indicated.

Patient has been seen for this condition many times. The discoloration is due to improperly following diabetic treatment for a prolonged period and is not reversible.

1-Dental 0

Patient has been under ongoing care, receiving treatment 7/31, 8/1, 8/8 and 8/11/19. Patient x-rays showed no fractures, dislocations, bone abnormalities or degenerative changes.

Patient submitted a request on 8/17 and another on 8/18/19 for back pain treatment. No other requests are on file. Patient was treated for back pain on 8/19/19.

2-Mental Health 3

Patient was treated on 8/16, and 8/19/19. Cysts were drained on 8/19/19 and patient was placed on antibiotics.

3-Medication 5

4-Medical 12

Patient was seen by a mental health therapist on 8/13 and 8/19/19. Patient was treated by the Psychiatrist on 8/22/19 and was started on medication.

Patient was seen at intake on 7/23/19 and stated he had a ruptured ACL. Patient has not submitted a sick call slip for any treatment. Patient directed to submit a request.

Patient medications were scheduled to start on 8/23/19. Records indicate the medication was started as directed on 8/23/19 and patient has received all doses as directed to date.
