For Agenda Of: 06/07/11
Placement: Administrative
Estimated Tme:
Continued Item: No
If Yes, date from:
Vote Required: Majority

TO: Board of Directors, Flood Control and Water Conservation District

FROM: Department Scott D. McGolpin, Public Works Director, 568-3010
Director(s)
Contact Info: Thomas D. Fayram, Deputy Public Works Director, 568-3436

SUBJECT: March 2011 Storm Repair Projects, Fourth and Fifth Supervisorial Districts

County Counsel Concurrence

As to form: N/A

Other Concurrence: N/A

As to form: No

Auditor-Controller Concurrence

As to form: N/A

Recommended Actions:

- a. Approve the March 2011 Storm Repair Project for Bradley Channel and find that the proposed concrete repair of the Bradley Channel liner is exempt under California Environmental Quality Act (CEQA) guidelines, Section 15301 (b), pertaining to the repair of the approximately 380 ft. long section between Jones St. and Stowell Road, with no associated expansion of the existing use. Direct staff to file the Notice of Exemption with the Clerk of the Board (POST);
- b. Authorize the Public Works Director to advertise and receive bids for the March 2011 Storm Repair Project for Bradely Channel;
- c. Approve the March 2011 Storm Repair Project for Rodeo/San Pasqual Channel and find that the proposed concrete repair of the Rodeo/San Pasqual Channel liner is exempt under California Environmental Quality Act (CEQA) guidelines, Section 15301 (b), pertaining to the repair of the approximately 200 ft. long section approximately 1200 ft south of the Santa Ynez River, with no associated expansion of the existing use. Direct staff to file the Notice of Exemption with the Clerk of the Board (POST); and
- d. Authorize the Public Works Director to advertise and receive bids for the March 2011 Storm Repair Project for Rodeo/San Pasquel Channel.

Summary Text:

In March 2011, Santa Barbara County received a significant amount of rainfall that caused damage to existing flood control facilities. These projects will repair two of the facilities that were damaged by the storm event.

March 2011 Storm Repair for Bradley Channel

A portion of the concrete lined Bradley Channel, located just east of HWY 101 in the Santa Maria Valley was damaged during the March 2011 storm event. The segment of damaged channel is approximately 380 feet long located between Jones Street and Stowell Road. The repair generally will consist with removing the entire width of concrete channel and replacing it in kind. The project will also include a longitudinal concrete cut-off wall to prevent future damage.

March 2011 Storm Repair for Rodeo/San Pasqual Channel

A portion of the concrete lined Rodeo/ San Pasqual Channel, located in the Lompoc Valley, east of the City of Lompoc was damaged during the March 2011 storm event. The segment of damaged channel is approximately 200 feet long located roughly 1200 South of the Santa Ynez River. The repair generally will consist with removing the easterly concrete slope panels and replacing them in kind. The project will also include a longitudinal concrete cut-off wall to prevent future damage.

Background:

The Bradley Channel was originally constructed by Caltrans in the early 1960's as part of its realignment of US 101 to its current location. By agreement the channel is owned and maintained by the Santa Barbara County Flood Control District.

The Rodeo/San Pasqual Channel was constructed in the early 1960's by the Soil Conservation Service as part of a project to reduce flooding in the Lompoc Valley. By agreement this channel is owned and maintained by the Santa Barbara County Flood Control District.

Fiscal and Facilities Impacts:

Budgeted: No

Fiscal Analysis:

<u>Funding Sources</u>	<u>Current FY Cost:</u>	<u>Annualized On-going Cost:</u>	<u>Total One-Time Project Cost</u>
General Fund			
State			
Federal			
Fees			
Other:			
Total	\$ -	\$ -	\$ -

Narrative:

A State of Emergency was declared for the March storm event so these projects are eligible to submit to CalEma for state reimbursement. Construction costs will not occur until next fiscal year so a final budget adjustment will be processed to pay for these projects.

Staffing Impacts:

Legal Positions:

FTEs:

Special Instructions:

Direct the Clerk of the Board to:

1. post the attached CEQA Notices of Exemptions and
2. send a copy of the minute order and stamped copies of both Notice of Exemptions to the Flood Control office, Attn: Christina Lopez.
