

Attachment A1
Statement of Additional Work

With respect to the approximate 2 acres of restored areas (consisting of the seepage marsh near the historic quarry and the Arroyo Quemado riparian corridor near the bridge crossing), Ag Land Services will provide the following additional work:

1. Irrigate the restored areas (seepage marsh and bridge crossing) as directed by RRWMD;
2. Provide maintenance of plants and irrigation system (Maintenance to occur 1 – 2x per month as needed/directed by RRWMD);
3. Provide control and removal of non-native invasive plants (e.g., poison hemlock, fennel, castor bean, thistle, etc.) within the restored areas; and
4. Install replacement plants as directed by RRWMD.
