Background:

The Department of Behavioral Wellness (BWell) provides a continuum of mental health and substance use disorder services to Santa Barbara County residents, in part, through contracted providers, including Community-Based Organizations (CBOs). The Board approved a contract with Good Sam (BC 21-031) to deliver Alcohol and Drug Program and Mental Health Services in June 2021. Good Sam provides shelter, affordable housing, clean and sober living, withdrawal management, substance use disorder (SUD) treatment, CREDO47 Proposition 47 services and education outreach. Good Sam also provides mental health shelter beds for homeless clients with mental illness, Homeless Clinician services, Coronavirus Emergency Supplemental Funding (CESF) services, and AB 1810 Diversion services.

ADP Amendments:

CREDO 47 and Step Down Housing, Proposition 47 - On February 4, 2020, the Board approved the County's acceptance of the multi-year Board of State and Community Corrections (BSCC) Cohort II Grant Award (No. BSCC 506-19) for the implementation of the Proposition 47 (Prop 47) Crisis Intervention, Diversion and Support (CIDS) program and approved Good Sam to provide a Stabilization Center and Step-Down Housing with funding provided by No. BSCC 506-19 for the term of the agreement from August 15, 2019 through May 15, 2023.

On July 26, 2022, the County received a letter from the BSCC announcing that the County was selected to receive a Prop. 47 Cohort III Grant Award for \$6 million (No. BSCC 514-22) with the grant period of September 1, 2022 through June 1, 2026. The No. BSCC 514-22 will also be presented for approval by the Board at the January 24, 2023 Hearing to continue the CREDO47 Program and partnership between the Santa Barbara County Public Defender's Office (co-lead), Department of Behavioral Wellness (co-lead), Sheriff's Office, District Attorney's Office, and local community-based organizations, including Good Samaritan Shelter to divert individuals with a history of mental illness and/or substance use from the criminal justice system to trauma-informed crisis stabilization and comprehensive mental health and substance use wraparound services, including screening at three points of entry: in the field via Co-Response Team, at the jail during booking, and prior to arraignment. Once diverted, the CREDO47 Stabilization Center provides medical monitoring, sobering services, support transitioning from jail and assistance transitioning to substance use treatment. Step-Down Housing provides clients with comprehensive case management services, housing assistance, and social services.

Approval of this amendment to the Good Sam agreement, which is contingent on the Board's approval of the Prop. 47 funds at the January 24, 2023, Board hearing, will allow ADP BWell to:

1. Extend the ADP program services for Exhibit A-3 CREDO 47 and Exhibit A-7 Step Down Housing programs through June 30, 2024;
2. Add funding to the agreement for FY 22-23 and FY 23-24 for Exhibit A-3 CREDO 47 and Exhibit A-7 Step-Down Housing; and
3. Add Case Management services to Exhibit A-7 Step Down Housing.

ADP Drug Medi-Cal Organized Delivery System (DMC-ODS) - In addition, approval of this second amendment will allow for reallocation of DMC-ODS funds due to year-end adjustments for actual services.

MHS Service Amendments:

AB 1810 Services Safe and Stable Housing - On January 28, 2020, the Board approved the County's acceptance of the multi-year grant agreement with the Department of State Hospital (DSH) AB 1810 (No. 19-79011-000) and approved a budget revision that added \$1,425,645 in BWell MHS Funds. The DSH Diversion Program is a collaboration between DSH and county governments to develop or expand

diversion programs for individuals with serious mental health disorders who have committed certain felony crimes and were found by the Court to qualify for diversion services, referred to as “Felony Mental Health Diversion Clients (FMHD),” and could be determined Incompetent to Stand Trial (IST).

Good Sam provides diversion housing in the form of six beds at Life House, Case Management, and a live-in House Manager for FMHD clients who do not pose an unreasonable risk to the public. This program will link FMHD clients with Assertive Community Treatment (ACT)-level services provided by Justice Alliance (JA) while clients are in the residential program and connect them with family members, preexisting treatment providers, and other natural community supports.

In September 2022, DSH informed the County of an amendment to the AB 1810 grant that provides \$2,218,000 in funds and extends the program to December 31, 2024 and adds a new category of FMHD clients who are currently on the DSH waitlist, and raises the number of clients served by 4 for a total of 22 clients served overall. The DSH AB 1810 (No. 19-79011-000 A1) will also be presented for approval by the Board at the January 24, 2023, Board Hearing.

Approval of the recommended actions will allow BWell to enter into an agreement with Good Sam to provide housing that would help divert the aforementioned individuals into a Residential Treatment Program instead of jail. Although this amendment decreases the Safe and Stable Housing funds by \$70,000, it adds a service to support clients living at Life House, the Safe and Stable housing provided by Good Sam. It adds a 0.5 FTE Homeless Clinician to Exhibit A-13 and adds funding to this program. Funds will be used to provide services to support AB 1810 clients living at Life House.

CESF Program services – On January 25, 2022 the Board approved first amendment to the BSCC CESF Program Grant Agreement (No.122-20 A-1) for a one-time, no cost extension of the Grant Agreement for an additional year through January 1, 2023 with no change to the grant amount. The no cost extension allows the County to carryover unused funds from one year to the next. This amendment will allow BWell to carryover unspent funds from FY 21-22 to FY 22-23 by \$157,585 for the procurement of additional supplies and to extend the program for 12 months to January 23, 2023. The funds will be used by Good Sam for additional supplies and to procure a second vehicle specially prepared to transport clients who may be positive for COVID-19.

Homeless Housing Case Management Services – Due changes in the No Place Like Home Program, funded the Department of Housing and Community (HCD), the Home Key Homeless Housing Case Management services (Exhibit A-11) will be billed directly from Good Sam to HCD. BWell will no longer fund the program but will need to track the services funded by Good Sam services. This change will allow BWell to fund and add Case Management services for the Depot Street homeless housing project.

Mental Health Homeless Clinician – The Board’s approval of the DSH AB 1810 Agreement (No. 19-79011-000 A1), presented for approval by the Board at the January 24, 2023 Hearing, will allow for added Clinician services to be provided for clients at the AB 1810 program at the Safe and Stable Life House.

With the approval of this second amendment, Good Sam will be able to provide uninterrupted and comprehensive shelter, alcohol and drug services, and mental health services to Santa Barbara County residents and reallocate funds from one year to the next.

Narrative:

The above-referenced Sobering Center and Step-Down Housing are funded by BSCC Proposition 47 carry-over grant funding, which was included in the FY 22-23 Approved Budget. Services for the Sobering Center and Step-Down Housing for FY 23-24 will be funded by the new Prop. 47 Cohort III, which is contingent upon Board approval, scheduled for the January 24, 2023 Board Hearing. Funding for AB 1810

services will be funded by the DSH AB No. 1810 19-79011-000 A1 funds, which is contingent upon Board approval scheduled for the January 24, 2023 Board Hearing. The CESF Program services will be funded by BSCC through CESF carry-over grant funds, approved by the Board on January 23, 2022 and which were included in the FY 22-23 Approved Budget, and will be included in the FY 23-24 proposed budget, and will be contingent upon Board approval.

Key Contract Risks: The BSCC Prop. 47 Grant Agreement includes a budget contingency clause in Exhibit B, Section 3 which provides that the grant agreement is valid and enforceable only if sufficient funds are made available through the annual transfer of savings generated by Proposition 47 from the General Fund to the Safe Neighborhoods and Schools Fund and subsequent transfer from the Safe Neighborhoods and Schools Fund to the Second Chance Fund (Gov. Code, § 7599.1 & Pen. Code, § 6046.2.) On or before July 31st of each fiscal year, the Department of Finance will calculate the state savings associated with Proposition 47 and certify the calculation to the State Controller who shall transfer those funds to the Safe Neighborhoods and Schools Fund (Gov. Code, § 7599.1.) The grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of the BSCC Grant Agreement is contingent upon the availability of sufficient funding transferred to the Safe Neighborhoods and Schools Fund and subsequent transfer to the Second Chance Fund. If funding for any fiscal year is reduced or falls below the Cohort 2 Prop 47 Request For Proposals estimate, the BSCC may cancel the agreement or propose it be amended with the County's approval. If the County does not agree to amend the BCSS Grant Agreement, the agreement will be canceled and the County will have no obligation to continue providing services.

For the AB 1810 grant agreement, in order for the County to receive funds, it must meet target population goals defined as a Mental Health Diversion Client participating in the program for a minimum 30 days or completing the program within 30 days. The project team anticipates no difficulty in meeting the targets. The contract requires the County to provide all services to Diversion Clients including medical care. If County is unable to serve the proposed number of Clients due to actual client costs exceeding the level of funds available, the contract may be amended by DSH. The contract also includes a budget contingency clause which absolves the State from liability to pay funds or other consideration under the Agreement if funds are not budgeted for the program in which case the County may cease providing services under the Agreement. The County may also cancel the contract upon 50 days' written notice to DSH.

For CESF program funding, the grant agreement includes a budget contingency clause that absolves BSCC from liability to pay funds or other considerations under the agreement if funds are not budgeted for the program. Also, as with any contract funded by State and Federal sources, there is a risk of future audit disallowances and repayments. Behavioral Wellness contracts include language requiring contractors to repay any amounts disallowed in audit findings, minimizing financial risk to the County.
