Dear Supervisors
Thank you for taking my email to read into the record.

In response to the March 20, 2020 letter from the EDC to the Santa Barbara County Board of Supervisors:

The State of California currently mandates that onshore oil and gas operators retain liability upon a transfer of assets.

The State of California approved AB 1057 to ensure that operators comply with financial obligations.

Climate Change is a global issue. Does Santa Barbara County want to constrict innovative GHG solutions by utilizing only local mitigation and not global innovation?

Thank you for your time.
