Cite specific CEQA and/or CEQA Guideline Section: CEQA Section 15061(b)(3) states that “the activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA”.

Reasons to support exemption findings (attach additional material, if necessary)

The proposed action is the amendment of an existing contract to conduct additional CEQA review for the Tajiguas Landfill Resource Recovery Project to increase the contract amount and extend the contract term. The contract amendment is an administrative action that would not result in any impact on the environment and is required to ensure that the Tajiguas Landfill Resource Recovery Project is reviewed in compliance with CEQA. Therefore, it can be seen with certainty that there is no possibility that this activity may have a significant effect on the environment.
