

APPLICANTS FOR THE DIRECTOR VACANCY

- 1) Denis Breslin
- 2) Girard Brenneman
- 3) Richard Jensen
- 4) Timothy Larson
- 5) Donald Lahr
- 6) Ken Dally

STATEMENT OF QUALIFICATIONS:

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

I am an instrument rated pilot and own a Cessna 210 hangared at SMX. I have been flying for 30 years and have over 3,000 flying hours.

My undergraduate and graduate studies were in business. I am a businessman with 20 years experience working in hi-tech companies and in the last 20 years I have owned and subsequently sold 11 small retail businesses.

Previous to the Central Coast, my wife and I lived in Big Bear where I was a member of several boards. I was elected to a 4-year term on the City Council, served for 4 years on the Wastewater Management Board, and was the Chairman of the Board of the Chamber of Commerce. I am familiar with the role of a board and how to work with others to resolve issues brought before the board.

The Airport Board has two factions they must address. One is the aviation community, i.e. pilots and tenants, and the other the general public; the traveling public as well as the residents of Santa Maria. As a Board member I will consider the position of both groups when making decisions and do not come to the Board with a specific agenda.

I would like to be a member of the Airport Board because I enjoy airplanes and airports, like serving on boards, and giving back to the community. I have the education, background and experience to become an effective member of the Santa Maria Public Airport District Board as it moves into the future.

CERTIFICATION:

I certify that I reside within the boundaries of the Santa Maria Public Airport District, and that the information contained in this application is true and correct. I authorize the verification of the information in this application.

STATEMENT OF QUALIFICATIONS:

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

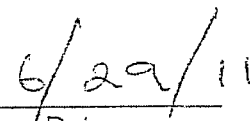

As a hangar tenant, a nine year private pilot, AOPA member, and avid General Aviation enthusiast I believe that I can offer a fresh perspective representing the pilot community. I believe it is absolutely necessary to preserve the authenticity and affordability of general aviation for all to enjoy. I also believe that a pilot majority or at least prominent presence on this board is necessary to preserve and represent the interests of the pilot community. With the influence of this board I would like to implement measures to market and advertise on behalf of KSMX to encourage more local aviation tourism and potential business. KSMX has unlimited potential for growth and I believe more progressive and aggressive strategy and implementation can enable this potential. An unreliable Self-Serve fuel definitely inhibits growth and tourism while being one of the only GA airports with an onsite hotel in CA promotes the possibility. With a small budget and persistence, KSMX could be considered a huge aero-vacation spot over the likes of NAPA or Catalina, but with my travels all over Southern California hardly any one of the thousands of pilots I have come in contact with has ever even heard of the place. In additions to exposure, I believe SMX to offer the most ideal training environment. I would have to say it's an absolute shame that a Flight School has not been able to survive at this location and would be eager to invite and help sustain such business and enterprise. I know several hundred young airmen on Vandenberg Air Force Base that would love to learn how to fly with a VA friendly school. With its ideal location and limited overhead as compared to expensive Southern California real estate, KSMX could be the "most" affordable option on the central coast. It is obvious that money makes airplanes fly, and the struggling economy doesn't help, but I think some energy and efforts should be put towards our next generation of youth flyers. As a hangar tenant, I would easily say the average age of hangar tenants is easily over 40. I mean no offense by this, however at the age of 28, it would be nice to see and encourage the presence of the next generation of pilots. As a military officer I believe my leadership experience could be an asset to the board. I pose a strong voice with a conservative viewpoint and am anxious to induce change for the good and uphold traditions. Thank you for your consideration!

STATEMENT OF QUALIFICATIONS

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

The love of Aviation has been in my blood since I was little. My father was an aerospace engineer who was employed by Lear in Santa Monica. I grew up at that airport around airplanes. After completing my bachelors degree in Biology and Education I earned my pilots license in 1974. Although I pursued a career in Medicine I was still an active pilot during Dental School. When it was time to select a place to practice I started looking up and down the state. One of the things which helped me select Santa Maria was the quality and exceptional facilities of the Santa Maria Public Airport. I have been flying out of this airport, and it has been my home, ever since.

I have run a successful Dental practice in Santa Maria since 1980. I have had to manage a business through up and down economies, maintain healthy relations with my employees and invest in the future growth and technologies of my career field. The common sense approach which I have used to be successful in my field is also applicable to running the Airport District. I know that investment in the future is essential while maintaining a healthy view towards debt and revenue. I feel I can provide an important perspective and be a contributing member to the Airport Board regarding the budget and the future operations of the Airport.

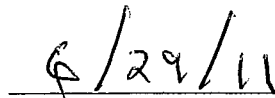

I also would like to state that I am passionate about aviation! I am knowledgeable about most aspects of flying. I have been a pilot for 38 years while holding advanced ratings. I have owned two aircraft and have excellent relations with most of the businesses at our airport. I understand their struggles while understanding the need for management of the airport's resources and facilities, as you would in any business. I look forward to volunteering my time and energies to help manage the wonderful facilities and staff of the Santa Maria Public Airport. I look forward to giving back to the aviation community, due to the joy that aviation has given me, as one of the Airport Board Members.

Lastly, I have run for the Airport Board in the past election and only lacked a thousand votes or so from being elected, so there was support in the community for my serving on the Board. Thank you for your considering me to fill this vacated position. It would be an honor!

CERTIFICATION

I certify that I reside within the boundaries of the Santa Maria Public Airport District, and that the information contained in this application is true and correct. I authorize the verification of the information in this application.

FAA	Santa Maria	Safety Counselor/ FAAST Team rep	1990	present

STATEMENT OF QUALIFICATIONS:

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

I have been in aviation for over 48 years as a pilot, instructor, and manager in FAR part 91, 121, and 135 operations. My experience in the business segment of aviation, and thus spending so much time on airports, has given me a good understanding of how airports function and their place in the community. For the past 20 years I have worked with local, regional, and national agencies as an FAA safety representative for the Santa Maria Airport. As an airplane owner, I am able to interact with the local aviation community and the issues affecting local operations. I have been an Orutt Homeowner, and have flown out of Santa Maria since 1989. Santa Maria is a great airport and I would like to help assure its continued growth and prosperity.

STATEMENT OF QUALIFICATIONS:

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

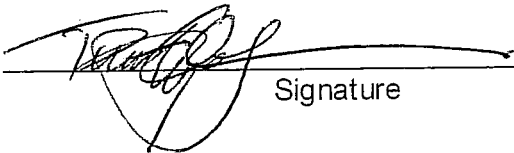

I am a Santa Maria native, father of two, and local business owner. I am a graduate of the University of San Diego, with two degrees Business Admin (Finance) & History. In addition, I currently serve on the SM Landmark Committee.

I believe that Santa Maria as a whole is poised for substantial growth and development in the near future. The Santa Maria Airport is a key component to the successful expansion of our local trade & commerce.

It would be an honor to participate and contribute to the progression of the work of the previous Airport Board Members. My skillset allows for a current perspective with the ability to adapt today's technology and further the improvement of Santa Maria, CA. Thank you in advance for your consideration.

STATEMENT OF QUALIFICATIONS:

Please briefly describe your qualifications and why you are interested in serving on the Board of Directors.

I was fortunate to grow up and go to school in the Santa Maria Valley. As young boys, my brothers and I would ride our bikes to the airport to watch the planes come and go. At sixteen I attended flight school and took lessons as a student pilot. Later as part of the business community I realized what an important role our airport plays in local matters. In 2004 I ran for, and was elected to the Santa Maria Public Airport District Board of Directors. During my tenure, I was deeply involved in a number of projects including the new baggage claim facility; passenger loading terminal; the upgrade of the fire station; negotiations with Cal Fire; upgrading the mobile home park; and the current runway extension. Our most challenging accomplishment was the search for and recruitment of the current District Manager which took the greater part of a year. It was well worth the effort. For your consideration, I have attached a list of my community and business affiliations both past and present. I would be pleased to serve again on the Board of Directors of the Santa Maria Public Airport District.

Respectfully submitted,

Donald A. Lahr
