Agenda Item 22-00142

Supervisors,

Please, end the emergency! stop the masking of all men, women & children. If masking were affective for Covid every manufacturer would be promoting masks through every possible news outlet. But, they don't. Because, masks are not intended for this use. Otherwise, they would be clearly approved and written on the box. But manufacturers do not want product liability for unintended uses! Clearly, masking restricts breathing, and forces one to in jest recycled asphyxiating breaths. In addition, Covid 19-Vaccination, ought to be a personal choice.

Further, those who wear eye glasses most have problems with masks causing annoying fogging of the lenses, creating potentially dangerous distracting vision issues. Nevada recently eliminated masking, Florida has not masked, as well as other states. Your job is to protect everyone equally and safely, not politically!

Thank You,

Chuck Williams
