for 1st District Supervisor Salud Carbajal
and the other members of the Board.

30 June 2014

1st of all, great thanks for the job
you do for us. We are exceptionally
appreciative. This time, however, I
write expressing 100% against the
decision re: Crown Castle Project
for the following reasons; I will try
to be brief:

- 1) Their plan is sloppy & not well
thought out.
- 2) We have masses of wires for
Verizon, Lab. Cor, 2dism + They
are dangerous and an eye sore.
- 3) The FIRE DANGER is enormous.
Please drive through Montecito + in
some areas, the trees are meshed in

with the wires and when we
can to ask to have them trimmed
they do not respond!

4) The radiation w/ so many
wires creates a threat (as you
know. A T+T has had to change
plans in some places because of this

5) An community generates more than
eight.6 billion dollars in assessed

property value; this should be con-
sidered in that this provides a
significant portion of the property
taxes used throughout the county.

6) The Monticello Community Plan has created + the
kept a well-planned community together.
It's all about money. Crown Castle, and we
should not be subjected to their selfish wishes.

Yours
2791

Sincerely, Virginia Pastagnola -
