CONTRACTOR shall pay all taxes, levies, duties, and assessments of every nature due in connection with any work under this Agreement and shall make any and all payroll deductions required by law. COUNTY shall not be responsible for paying any taxes on CONTRACTOR's behalf, and should COUNTY be required to do so by state, federal, or local taxing agencies, CONTRACTOR agrees to promptly reimburse COUNTY for the full value of such paid taxes plus interest and penalty, if any. EXHIBIT A

STATEMENT OF WORK

I. PROGRAM DESCRIPTION

Intensive family services are family centered services or resources that assist families by strengthening parent and family functioning while keeping children safe. These services are designed to prevent the removal of children from their home or reunify the family if the children have been removed. Services are comprehensive and family focused to fit the individual needs of each family.

The Child Welfare Services (CWS) Intensive Family Services Program (IFSP) is an active and engaging family and community-based service model that targets families active with the child welfare system whose child is at imminent risk of placement outside of the home, or to facilitate the safe and permanent return of the child to the parent/caregiver's home and care, if they have been removed. If the family cannot be stabilized to receive the child safely home, then an alternative permanent plan for the child will be developed as identified in the agency's concurrent plan. The goal is to remove the risk of harm to the child instead of removing the child from their home. By maintaining the child safely in their own home, the child will avoid the trauma of separation and placement.

II. TARGET POPULATION

IFSP clients shall meet the following requirements:

- A. Children and their families participating in voluntary family maintenance services; children who have been placed in the care of their parent(s) under the supervision of the Juvenile Court; or children who have been placed in out-of-home care under the supervision of the Juvenile Court; **and**
- B. Children who are at imminent risk of placement without intensive family services or planned return of child requires intensive family services for the successful re-integration of the children into the family; **and**
- C. The parent/caregiver is willing to engage in the intense family services provided.

III. DUTIES AND RESPONSIBILITIES

- A. CONTRACTOR shall:
 - i. **Length of Services** – Provide intensive family services typically for six to nine months unless otherwise approved by COUNTY, which includes step-down services, and pre- and post-reunification work. Intensive family services may be extended up to an additional three months if needed for continued support and follow-up visits to maintain positive changes.
 - ii. **Service Model** – Intensive family services shall be culturally responsive and include trauma informed services to support approximately 34-55 families competently and safely caring for children in their own home to prevent removal. Provide effective treatment involving all family members to improve parenting skills, protective capacities, parent-child interaction and attachment, as well as a range of parental life competencies such as communication and problem solving. Interventions shall be provided in individual or group settings and cater to the individual needs of the family. The model shall have particular emphasis on engaging the parents

in behavior change and readiness for participation in community services as appropriate to their needs (mental health, substance abuse, domestic violence, etc.) and when applicable preparation for their child's return including parent/child visitation. Intensive family services shall be family-centered, culturally competent, trauma-informed, and consistent with the legal framework of the child welfare system and its values.

- iii. **Referral Process** - Upon referral from CWS worker, the CONTRACTOR's intake coordinator will contact the referring CWS worker in order to gather information regarding the child/family's protective factors, presenting problem, and level of acuity to triage and appropriately assign the family to a clinician/clinical team. Once assigned, a clinician/clinical team will be made available to see the family within 48 hours to begin assessment and treatment planning.
- iv. **Service Location** - Provide intensive family services almost entirely in the home, school, or other natural environment of the family. Therapeutic services can be administered in group settings if necessary and supportive to the client.
- v. **Contact Service Frequency** – Provide service intensity that is determined by CONTRACTOR for family needs and treatment planning. IFSP treatment is provided anywhere from one to several times per week based on need. Direct face-to-face contact and therapeutic services at the onset of treatment are encouraged and offered up to five hours per week, with frequency decreasing over the course of treatment as appropriate. CONTRACTOR staff shall be available through a crisis hotline 24 hours a day, 7 days a week.
- vi. **Referral Response Time** - Be available to contact families within 48 hours of the referral.
- vii. **Engagement** - Use a trauma-responsive, collaborative and friendly approach to engage and motivate families.

CONTRACTOR shall establish treatment plans within 30 days of service implementation. Periodic assessments are administered every six months after commencement of services and at termination.
- ix. **Crisis Stabilization** - CONTRACTOR staff is available by phone 24 hours a day, 7 days a week and can assist in de-escalation and crisis diffusion to create a safe environment for the child. Crisis stabilization is facilitated using evidence-based and trauma-informed techniques. All IFSP staff have the ability to recognize and report safety concerns and instances of suspected child abuse and/or neglect. Crisis stabilization may include coordinating respite care to facilitate a rapid return to the family.
- x. **Evidence-based interventions** - Utilize a range of evidence-based, clinical interventions, including but not limited to crisis intervention, parent child interaction therapy, family systems therapy motivational interviewing, parent education, skill building, and cognitive-behavioral therapy to increase protective factors in the family.
- xi. **Behavior Change** – Use cognitive and behavioral research-based and trauma informed practices and behavioral interventions targeted to improve the protective capacity of the parent(s) and to reduce and eliminate safety threats to children and prevent recurrence of child abuse and/or neglect.

- xv. **Small Caseloads** - Have low caseloads to enable CONTRACTOR to be accessible and provide intensive family services with clinical supervision.
- xvi. **Community Support** – Provide community linkage, coordination and interactions to family by collaborating with and advocating for the family with community service providers. Act as a broker of intensive family services for the family. Provide family timely access to community services, increase parental and family social connections and concrete social networks, and increase social and emotional competence of children.
- xvii. **Homemaker/ Parent Aid Services** – Provide in-home support services to help parents build their capacity to fulfill parenting and homemaker responsibilities such as job seeking, budgeting, cooking, problem solving, advocacy and age appropriate development and discipline. These services are provided as an adjunctive service and shall not be primary interventions delivered to the family.
- xviii. **Follow-up Service/Aftercare and Discharge Planning** - Provide families with interim reinforcement following an intensive period of intervention for a minimum of 30 days. This may include service provision subsequent to CWS case closure to include well-defined, written discharge planning shared with the family and CWS to include at a minimum:
