TO: Board of Directors
Santa Barbara County Flood Control and Water Conservation District

FROM: Phillip M. Demery
Public Works Director

STAFF CONTACT: Thomas Fayram, Deputy Public Works Director, Ext. 3436
Matt Griffin, Civil Engineer, Ext. 8074

SUBJECT: **Kovar, Getty, and Hobbs Basins Interconnect Project (SM8311),
Fourth and Fifth Supervisorial District**

Recommendation(s):

That the Board of Directors:

- A. Approve the Kovar, Getty, and Hobbs Interconnection Project and the attached CEQA Notice of Exemption (post); and
- B. Authorize the Public Works Director to advertise and receive bids for the project.

Alignment with Board Strategic Plan:

The recommendations are primarily aligned with Goal No. 2. A Safe and Healthy Community in Which to Live, Work, and Visit.

Executive Summary and Discussion:

This project is located within the City of Santa Maria near its western boundary. The interconnecting project proposes to install approximately 180 linear feet of storm drain, three slide gates, and construct a reinforced concrete gate box. The project will also remove 30 linear feet of existing concrete pipe.

The project will allow for improved maintenance operations of the three basin system. With the adjustment of the slide gates the basins can be interconnected to one another in any combination to allow for drainage or equalization of basin water surface elevations.

Mandates and Service Levels:

This project will improve flooding conditions in the area.

Fiscal and Facilities Impacts:

A budget revision will be processed to pay for costs associated with this project. Costs will be paid from Dept: 054, Acct: 8700, Fund: 2560, Program: 3005.

Special Instructions:

Direct the Clerk of the Board to send a copy of the minute order of this action to the Flood Control office, Attn: Christina Lopez.
