 Re: Allocation of Coastal Resources Enhancement Fund Awards - 19--00442

Lookout Park is a coastal gem. I began working with County Staff on a project to open the East End of the park (which affords the most stunning views and space to the public) beginning in early 2016. Although there have been roadblocks, we have preserved and with tremendous community input have a design ready project. Jill Van Wie has done an astounding job developing the community vision into a shovel ready park design. At this point, we only need secure the funding to go out to bid and hopefully break ground this fall. Noteworthy, this space has been designed as a large group area which will provide a beautiful venue for weddings and other events. This, in turn will be a funding source for the County for years to come. The estimated cost for this phase one is \$550,000. Phase two would add a restroom at the site. The project also dovetails nicely with the County proposed improved parking along Wallace Avenue which would help support a larger group area. I implore you to support the years long efforts of many to bring this project to fruition.

I would be honored to give you a tour of the site or answer any questions about the process you may have. We respectfully request your support in funding this project.

Regards,
 Suzy Cawthon
