State California Accidental Release Prevention Program Fee	270.00 / Facility	270.00 / Facility

***AGRICULTURAL FACILITY ABOVE GROUND FUEL TANK EXEMPTION**
Motor vehicle fuel above ground tanks at agricultural facilities having a capacity of 1,100 gallons or less are exempt from the Business Plan inventory reporting requirements. The facility must submit a one-time Business Plan and Site Map to the Santa Barbara County Fire Department, complete an exemption form and pay a One Time Only Agricultural Exemption Registration fee. If, however, the cumulative fuel storage capacity of all tanks at a single facility is greater than 20,000 gallons, the above ground fuel tank exemption would not apply.

****REMOTE SITE EXEMPTION**

Remote sites are exempt from the Business Plan if the hazardous material inventory amounts are equal to or less than all of the following: 500 cu. ft. compressed inert gases; 500 GAL combustible liquids used as a fuel source (diesel, fuel oil, kerosene); 200 GAL electrolytes in closed containers; 500 GAL lubricating and hydraulic fluids; and 1200 GAL flammable gas used as a fuel source (propane). The facility has to submit a one-time Business Plan to the Santa Barbara County Fire Department, complete an exemption form and pay a One Time Only Remote Site Exemption Registration fee. A remote site is defined as an unstaffed facility located in an isolated sparsely populated area, the facility is secured and not accessible to the public and warning signs are posted and maintained for hazardous materials pursuant to the CA Fire Code.

***** EXCEPTIONAL TIME & CONSULTATION FEES** Surcharges based on actual costs will apply when, in the opinion of the fire chief, circumstances develop that require extraordinary time for issues including but not limited to special research, consultation or numerous inspections to ensure compliance.
