Subject: Proprsed rezone of Key sites 15 and 16 housing element of Orcutt

I strongly opposed the changes in rezoning of Key sites 15 and 16 to the Housing Element of the Housing Element in Orcutt to be voted on January 27, 2009. I oppose the adding of 370 multifamily units to this area as we do not have now have adequate water supply, schools, shopping and especially roads for this many units. This project would add 300 to 700 cars daily as most new homes must have two incomes and 2 cars to simply sustain the mortgages. I purchased a home in Orcutt 2004 because this location had the serene, quiet and beautiful atmosphere I love. Please reconsider your plans and do not change the rezoning of Area 15 and 16.

Sincerely.
Mrs. Mary Ellen Schaeffer
