RE: Countywide Recreation Master Plan Update (Departmental Agenda Item No. 4)

Dear Honorable Chair Hartmann and Members of the Board of Supervisors:

The City of Goleta supports the County of Santa Barbara Countywide Recreation Master Plan and thanks the County for their work in developing this plan. Goleta recognizes the stated goal of the master plan to facilitate multi-agency cooperation to foster efficient improvements to recreation facilities and services countywide is of great benefit to the residents of the City of Goleta. The proposed use of zoning and other incentives to streamline the permitting of parks and other recreational amenities, along with the comprehensive nature of this plan promises to guide the development of recreational facilities and implementation of recreational programs across the County. The City of Goleta recognizes that in the long term, this plan can be successful in bringing much needed recreational amenities to both unincorporated areas of the County and to cities within the County.

The City of Goleta supports the goals of the Recreation Master Plan and encourages the proposed expansion of scope of the document and the allocation of resources requested by the Community Services Department. This action item would also support our City's Strategic Plan, in particular the objective to "Encourage and help facilitate public trail access from the community to the rural foothills and mountainous areas of the Los Padres National Forest."

Sincerely,

Jaime A. Valdez
City of Goleta Neighborhood Services Director
