Contract Award: TBD - Agreement for Services of Independent Contractor with A-1 Commercial Sweeping Inc.

# Emergency Work Actions

## Transportation Division

Transportation has been responding to storm event 23STM1 under the Proclamation of Local Emergency declared by the Director of Emergency Services on January 9, 2023 and the Board Resolution 23-5, the Proclamation of a State of Emergency beginning on December 27, 2022, Federally Declared Emergency (EM3591-CA) and Federally Declared Disaster (DR 4683). The following work to remove debris from various county roads; to clear culverts; to implement protective measures; and to perform emergency repairs must be completed on an emergency basis in order to establish emergency and public roadway access, to protect existing property and alleviate financial impacts. Use of competitive procurement proposals or formal bids or awarding would delay the urgent action required to address public safety, access and welfare.

### Emergency Contract work for the E. Mountain Drive Washout, Site 1J05

General Project Work Description: FEMA Category C The project generally consists of reconstructing the roadway structural section using aggregate base and asphalt and reconstructing an overside drain destroyed by the adjacent Cold Springs Creek by the January 9, 2023 storm event. Work beginning week of January 30, 2023.

Project location description: The work occurs in the unincorporated area of Santa Barbara County on East Mountain Drive from Cold Springs Debris Basin north to 400' east of Cold Springs Creek.

**Bid opening on January 27, 2023 Bid Amount: \$117,920 Emergency Solicited Bid Contract issued under Public Works Director Authority to Lash Construction per Resolution 19-327.**

### Contract work for Debris Assessment and Monitoring Activities:

General Project Work Description: NV5 and Twining are conducting debris assessment and monitoring activities in accordance with QA/QC IDIQ Board Contracts 21086 and 21088 in support of Transportation Division emergency debris management projects in response to the Jan 9, 2023 storm event. Comprehensive debris monitoring is required to ensure emergency project cost reimbursement eligibility through FEMA and Cal OES.

Project Location Description: This work will occur in various project locations throughout the County.

**IDIQ QA/QC Federally Procured Board Contracts 21086 and 21088 in the amount of \$400,000 each are being used to perform this work.**

### Contract work for Emergency Surveying Services

General Project Work Description: MNS Engineers, Tetra Tech, and DPSI will perform emergency survey work to prepare topographic surveys for critical damage sites on various County roads. Topographic surveys are immediately needed to engineer repair solutions associated to roadway slipouts which have reduced the travelway width to less than one lane, disallowing emergency service access. This survey work will be for designing CAT B emergency repairs or CAT C permanent roadway repairs.

Project Location Description: This work will occur in various project locations throughout the County that are defined as critical in order to restore emergency access.

**SURVEY IDIQ Request for proposal was competitively solicited and vendors were selected based on qualifications. Contracts in the amount of \$950,000 per vendor are being executed under Public Works Director authority per Resolution 19-327.**
