Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Board of Supervisors: Please accept this comment to Item # A-26 on behalf of the Committees for Land, Air, Water and Species (CLAWS). CLAWS is a public benefit organization committed to preservation and protection of our region's natural resources and, inter alia, advancing alternative transportation projects to improve sustainability and equity in our region.

CLAWS supports approval of item A-26, to complete the final link in the initial Modoc Multi-purpose Trail. Actions that improve safety for bicyclists and increase accessibility provide immeasurable long term community benefits. This is an important project that needs to be completed.

Thank you for considering our views
