Dear County Executive Officer Mona Miyasato,

I'm writing to formally request that the Santa Barbara County Board of Supervisors discuss and make a motion to adopt residential Property Assessed Clean Energy (PACE) at the upcoming May 10 meeting.

I would like for my neighbors and I to have the option to make energy efficiency and water conservation upgrades to our homes through PACE financing and the HERO program.

Over 400 cities and counties in California have already given their residents access to the HERO Program, allowing more people to qualify for improvements that can help lower their utility bills, improve the comfort of their home, and reduce their energy and water consumption.

HERO has a good track record in hundreds of localities around California, and would be a valuable option for our community to have as well.

Thank you for your service.
