Dear Chair Hart and Board Members,

Thank you for holding this hearing to consider public input regarding racial equity and criminal justice issues in the wake of the tragic deaths of George Floyd and so many others. The Environmental Defense Center stands in solidarity with Black Lives Matter and our allies who demand justice and an end to the killing and unequal treatment of black people by police. We seek reform of the criminal justice system and commit to support racial justice.

We urge the County to address these important issues and to include all affected sectors of our community in the discussion.

Thank you for your consideration,
Linda Krop

As a community member who has grown up in Santa Barbara, who has been a student here and is now a teacher serving the future generations I do not feel safe with Sheriff Brown in power. For years Bill Brown has allowed inmates to die and be harmed because of poor and inhumane conditions. He has continually neglected the calls of the community for transparency and has blatantly lied about working with ICE. Bill Brown is a public health issue.

We want real civilian oversight of the police. Why isn't the county funding and supporting mental health, housing support, and education for those at risk and vulnerable? Instead the county representatives are supporting racist neglectful and violent leaders like Bill Brown.

Bill Brown does not serve the people, he serves white supremacy. We are defunding white supremacy and will no longer adhere to racist neglectful noncompliant people in power.
