Re: Support for MarBorg Industries Zones 4 & 5 Franchise Hauling Contracts

Dear Supervisors:

As a local family business owner that has spent decades developing critical infrastructure to support the County of Santa Barbara's ever expanding organics processing and recycling needs, I urge you to support MarBorg Industries' proposal to provide franchise solid waste and recycling services in North County.

As another local family business, MarBorg Industries has also spent decades investing in our local infrastructure and understands the need to support our local network of processors and recyclers.

It is vitally important to local businesses like Engel and Gray, Inc. and our Regional Compost Facility, that the County Board of Supervisors supports local businesses that build upon and support the local infrastructure that our community depends on.

Engel & Gray, Inc. looks forward to working with MarBorg Industries to continue to provide North County residents with robust organics recycling programs. We have been working and providing composting services to zones 4 & 5 since 2000. We are confident this team of Engel & Gray, Inc. and MarBorg industries will continue building healthy soil with quality local compost.

Sincerely,

Bob Engel  
President  
Engel & Gray, Inc
