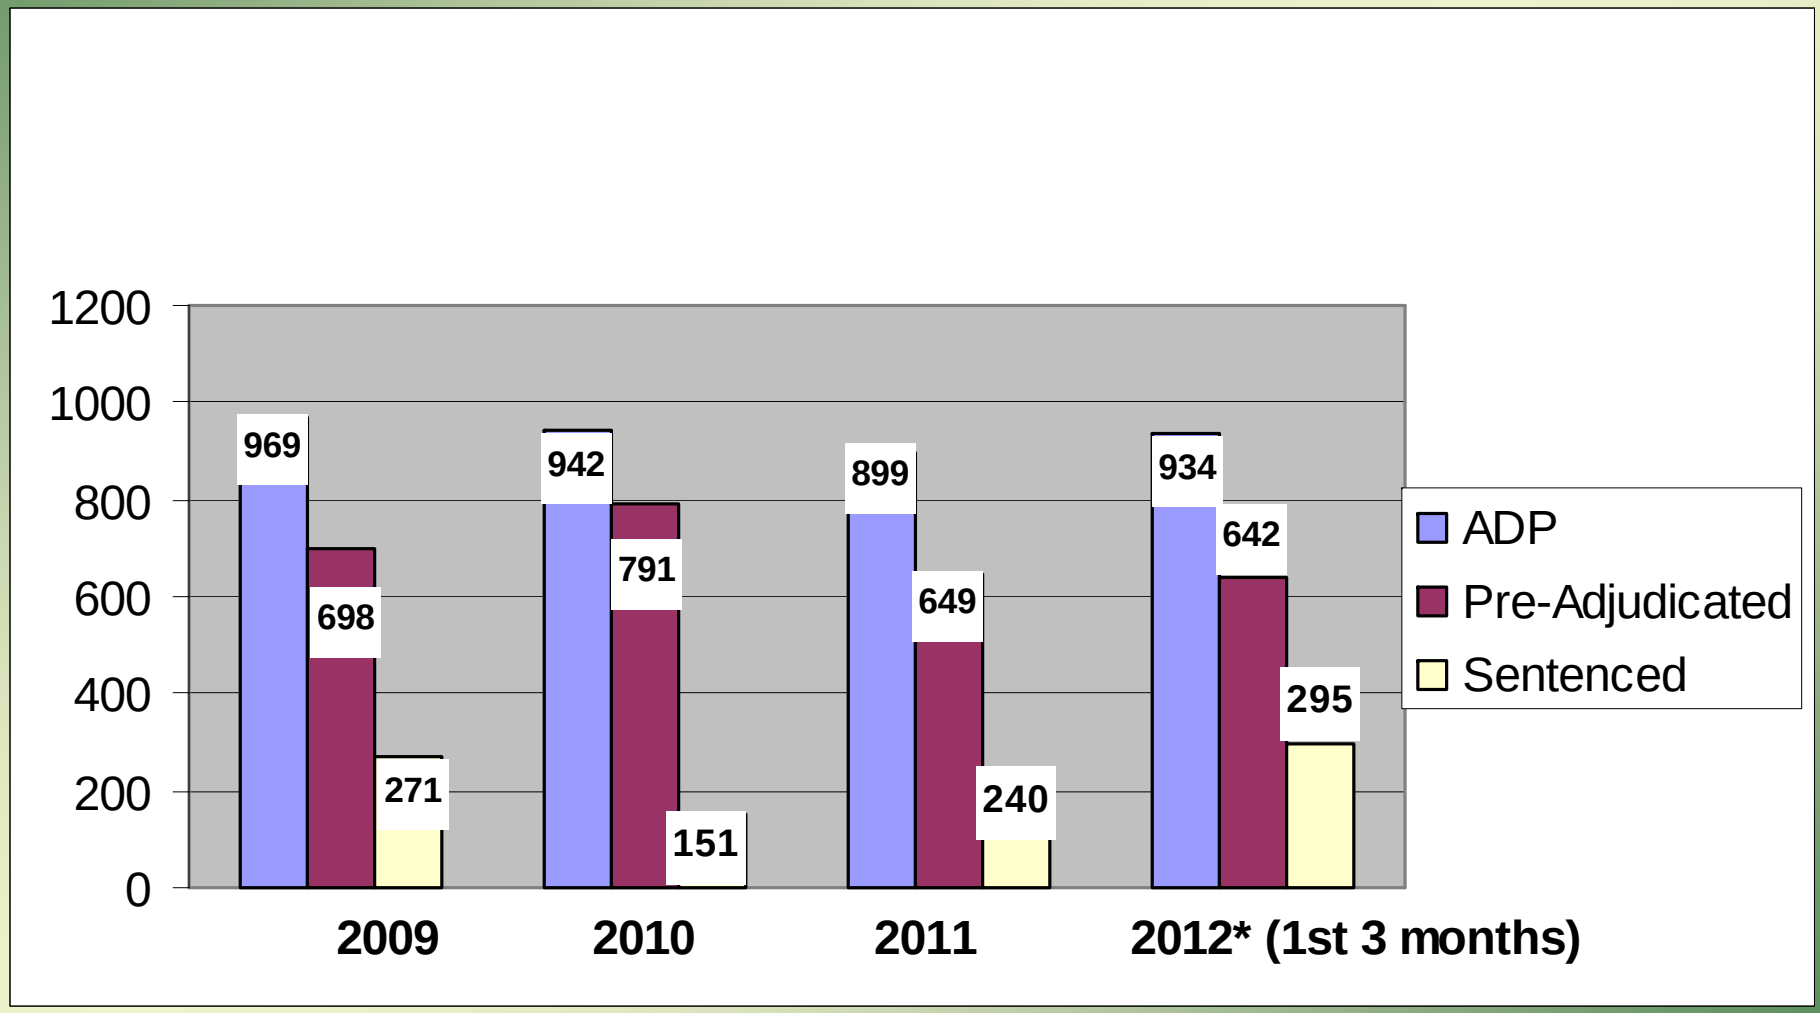
- -Daily transmission of names of those entering and released from jail to ADMHS
- -Medications on Discharge program for stabilized mental health patients
- -"Real-time" communication with clinics and PHF

Multidisciplinary Meetings to brainstorm solutions / placements for challenging cases

Jail Facilities Population Comparison



Looking Forward...

Where do challenges continue to exist?

- Increasing Average Daily Population (ADP)
- Decreasing availability of County specialty clinics
- AB109 implications—keeping inmates with chronic medical and mental health issues for longer periods
  - Insurance Options
- Diminishing programs and resources in the community for mental health patients
