This letter is written to express my protest to the proposed rate increase. My property consists of a single family residence of approx 1,000 sf (3 bdr, 1 bath) and seven small units totalling approx 3900 sf. The units each are 2 bdr, 1 bath, no laundry hookups, no dishwasher, no waste disposal. There are a total of 11 people currently residing in the seven places with two water meters to the East + West side of property. The current water usage is 10 CCF per meter or a monthly charge of \$21.58 per meter. The current sewer charges are \$5827.84 or approximately \$70 monthly per unit.
