9. TAXES

CONTRACTOR shall pay all taxes, levies, duties, and assessments of every nature due in connection with any work under this Agreement and shall make any and all payroll deductions required by law. COUNTY shall not be responsible for paying any taxes on CONTRACTOR's behalf, and should COUNTY be required to do so by state, federal, or local taxing agencies, CONTRACTOR agrees to promptly reimburse COUNTY for the full value of such paid taxes plus interest and penalty, if any. These taxes shall include, but not be limited to, the following: FICA (Social Security), unemployment insurance contributions, income tax, disability insurance, and workers' compensation insurance.

10. CONFLICT OF INTEREST

CONTRACTOR further covenants that in the performance of this Agreement, no person having any such

interest shall be employed by CONTRACTOR. CONTRACTOR must promptly disclose to COUNTY, in writing, any potential conflict of interest. COUNTY retains the right to waive a conflict of interest disclosed by CONTRACTOR if COUNTY determines it to be immaterial, and such waiver is only effective if provided by COUNTY to CONTRACTOR in writing.

COUNTY shall be the owner of the following items incidental to this Agreement upon production, whether or not completed: all data collected, all documents of any type whatsoever, all photos, designs, sound or audiovisual recordings, software code, inventions, technologies, and other materials, and any material necessary for the practical use of such items, from the time of collection and/or production whether or not performance under this Agreement is completed or terminated prior to completion. CONTRACTOR warrants that any Copyrightable Works and Inventions and other items provided under this Agreement will not infringe upon any intellectual property or proprietary rights of any third party. CONTRACTOR at its own expense shall defend, indemnify, and hold harmless COUNTY against any claim that any Copyrightable Works or Inventions or other items provided by CONTRACTOR hereunder infringe upon intellectual or other proprietary rights of a third party, and CONTRACTOR shall pay any damages, costs, settlement amounts, and fees (including attorneys' fees) that may be incurred by COUNTY in connection with any such claims. This Ownership of Documents and Intellectual Property provision shall survive expiration or termination of this Agreement.

12. NO PUBLICITY OR ENDORSEMENT

13. COUNTY PROPERTY AND INFORMATION

All of COUNTY's property, documents, and information provided for CONTRACTOR's use in connection with the services shall remain COUNTY's property, and CONTRACTOR shall return any such items whenever requested by COUNTY and whenever required according to the Termination section of this Agreement. Technical Approach

Project Understanding and Approach

The County of Santa Barbara Flood Control and Water Conservation District (District) is in coordination with the county planner and developer of the Legacy Estates for the improvement of the Village Square Tract offsite storm drain system located in the County of Los Alamos. This storm drain system will collect surface runoff from the surrounding region and eventually discharge into San Antonio Creek.

The project consists of the construction of approximately 2,745 linear feet of 48" diameter RCP, 358 linear feet of 60" diameter RCP, and 700 linear feet of 72" diameter RCP. Additional work includes the installation of 15 storm drain manholes, bollards, concrete overflow weir structure, headwall, trash rack, outfall protection, crushed rock lined v-ditch, and an aggregate base ranch (access) road. All storm drain pipes equal to or greater than 48" in diameter will be owned by the District.

Through issuance of the subject RFQ/RFP, the County of Santa Barbara is seeking the services of a qualified construction management team to provide construction management, inspection, and materials testing.

Based on our evaluation of the County's RFQ/RFP, we have identified key elements on the following pages and in our scope of work that we believe will be critical to the success of the project. Our overall goal is to apply this knowledge and experience to deliver the project on-time, within budget, and of high quality.

Communication Strategy: Communication is essential in successfully resolving (or eliminating) problems encountered during construction. Understanding our role in relation to the roles of the County and the developer's project engineer is a top priority on this project. We will work closely with project stakeholders from beginning to end, including County staff, design team, construction team, utility providers, the local community and residents, and patrons traveling to and from surrounding communities. The resident engineer must attune to impacts of each portion of the project on stakeholders and communicate effectively (verbally and in writing) in the event adjustments are necessary.

Traffic Handling & Construction Staging: As discussed, communication of the traffic handling and staging plans will be imperative to inform stakeholders of what's ahead. We will work closely with the Contractor to fully understand their weekly and monthly work activities plan. Disruption to the flow of traffic must be minimized to avoid public discontent and complaints. We have recent experience with similar projects and we understand the importance of public safety requirements and the need to have well thought out traffic handling plans as work progresses from one stage to the next.

Coordination: Early and constant coordination between all stakeholders will be critical to the success of this project. Our experience informs us that a coordinated and smooth start is imperative to making the remainder of the project go well. Multiple steps must be addressed prior to trench excavation, such as back fill and compaction testing, concrete testing, trench shoring, and trench paving. We will confirm these steps are incorporated into the contractor's schedules such that they are continuously aware of their work and meeting deadlines.

Scope of Work and Project Deliverables

We offer the County of Santa Barbara expertise in construction management, inspection, and engineering; schedule review; communication and documentation; management of submittals; and more.

Knowledge and experience in the construction of storm drains, access roadway construction, and overall construction work are critical prerequisites for the construction management team responsible for overseeing the safe and

DocuSign Envelope ID: 9D8309C1-40BE-4116-AB39-CD8C19E9A5A5

effective construction of the project. In addition to being intimately familiar with the project plans and specifications, the construction management team must have a thorough understanding and background using Caltrans standard specifications, Standard Plans for Public Works Construction, County, State and Federal regulations.

Task 1.1 Document Control

We will establish a working relationship with County staff to implement procedures for the efficient processing and management of project documents. This includes preparation; project submittals; project schedules; and correspondence. All project files will be handed over to the County at the end of the project.

Task 1.2 On-Site Construction Management and Inspection

We will have a dedicated Resident Engineer in charge of construction management operations. Our team will also include a Construction Inspector who will be on-site to monitor the daily construction operations and provide coordination, a special inspector to assist with necessary special inspections for the project, and an office engineer to facilitate the flow of information between team members. We will make sure that construction will comply to the plans and specifications.

During observation and monitoring of the quality of the construction work, we will provide the following:

- Maintain daily on-site project reports for inspections, observations and construction activities. Reports will contain a record of weather, work on-site, number of workers, work accomplished, problems encountered, solutions agreed upon, and other similar relevant data as the County may require.
- Maintain photo and video record of construction progress.
- Monitor construction activities to see that elements of project are furnished, installed, and constructed, per contract documents.
- Prepare required notices of non-conformance when materials, construction installation process, or quality of work does not meet the requirements of the contract. Notices will be issued to the contractor stating the nature of the deviation and requiring the contractor to perform corrective action. Non-compliance issues will be documented with photographs and in writing.
- File appropriate reports.
- Provide special inspection and/or testing, including overseeing special testing related to storm drain pipelines and appurtenances, if needed. Conduct daily inspections and other special inspections required for project.
- Monitor contractor's work and recommend special testing as needed.

Task 1.3 Coordination

We will coordinate with the contractor, county staff, county inspectors, materials technicians, and other entities in a timely manner and avoid unnecessary delays to the project.

Task 1.4 Submittals

We will provide timely submittal review and acceptance including review of material and equipment submittals for compliance with contract documents. We will maintain the submittal log and records.

Task 1.5 Photo Documentation

Document pre-site condition including work area and conform limits, during construction conditions and issues, and post construction site conditions with photos. We will also establish and implement procedures for review and processing of project documentation. We will organize project documents for ease of retrieval using project binders and storing them electronically, as well.

Task 1.6 Tracking Changes

We will track any changes to the plans as they occur and later implemented in record drawings at the completion of the project.

Task 1.7 Punch List

We will compile detailed “punch lists” and inspect them for completion; perform final walk-through with the SBCFCD Project Manager and/or its representative, other County personnel as needed, and the contractor. We will oversee the complete performance of punch list items and final clean-up before the contractor moves off-site.

INDEMNIFICATION

CONTRACTOR agrees to indemnify, defend (with counsel reasonably approved by COUNTY) and hold harmless COUNTY and its officers, officials, employees, agents and volunteers from and against any and all claims, actions, losses, damages, judgments and/or liabilities arising out of this Agreement from any cause whatsoever, including the acts, errors or omissions of any person or entity and for any costs or expenses (including but not limited to attorneys' fees) incurred by COUNTY on account of any claim except where such indemnification is prohibited by law. CONTRACTOR'S indemnification obligation applies to COUNTY'S active as well as passive negligence but does not apply to COUNTY'S sole negligence or willful misconduct.

NOTIFICATION OF ACCIDENTS AND SURVIVAL OF INDEMNIFICATION PROVISIONS

CONTRACTOR shall notify COUNTY immediately in the event of any accident or injury arising out of or in connection with this Agreement. The indemnification provisions in this Agreement shall survive any expiration or termination of this Agreement.

INSURANCE

CONTRACTOR shall procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the CONTRACTOR, its agents, representatives, employees or subcontractors.

A. Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** Insurance Services Office (ISO) Form CG 00 01 covering CGL on an "occurrence" basis, including products-completed operations, personal & advertising injury, with limits no less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate.
2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if CONTRACTOR has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than \$1,000,000 per accident for bodily injury and property damage.
3. **Workers' Compensation:** Insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than \$1,000,000 per accident for bodily injury or disease. *(Not required if CONTRACTOR provides written verification that it has no employees)*
4. **Professional Liability:** (Errors and Omissions) Insurance appropriate to the CONTRACTOR'S profession, with limit no less than \$2,000,000 per occurrence or claim, \$2,000,000 aggregate.

If the CONTRACTOR maintains broader coverage and/or higher limits than the minimums shown above, the COUNTY requires and shall be entitled to the broader coverage and/or the higher limits maintained by the CONTRACTOR. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the COUNTY.

B. Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. **Additional Insured** – COUNTY, its officers, officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the CONTRACTOR'S insurance at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 forms if later revisions used).
2. **Primary Coverage** – For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary insurance primary coverage at least as broad as ISO CG 20 01 04 13 as respects the COUNTY, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the COUNTY, its officers, officials, employees, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it.
3. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the COUNTY.
4. **Waiver of Subrogation Rights** – CONTRACTOR hereby grants to COUNTY a waiver of any right to subrogation which any insurer of said CONTRACTOR may acquire against the COUNTY by virtue of the payment of any loss under such insurance. CONTRACTOR agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not the COUNTY has received a waiver of subrogation endorsement from the insurer.
5. **Deductibles and Self-Insured Retention** – Any deductibles or self-insured retentions must be declared to and approved by the COUNTY. The COUNTY may require the CONTRACTOR to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
6. **Acceptability of Insurers** – Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum A.M. Best's Insurance Guide rating of "A- VII".
7. **Verification of Coverage** – CONTRACTOR shall furnish the COUNTY with proof of insurance, original certificates and amendatory endorsements as required by this Agreement. The proof of insurance, certificates and endorsements are to be received and approved by the COUNTY before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the CONTRACTOR'S obligation to provide them. The CONTRACTOR shall furnish evidence of renewal of coverage throughout the term of the Agreement. The COUNTY reserves the right to require complete, certified copies of all required

insurance policies, including endorsements required by these specifications, at any time.

8. **Failure to Procure Coverage** – In the event that any policy of insurance required under this Agreement does not comply with the requirements, is not procured, or is canceled and not replaced, COUNTY has the right but not the obligation or duty to terminate the Agreement. Maintenance of required insurance coverage is a material element of the Agreement and failure to maintain or renew such coverage or to provide evidence of renewal may be treated by COUNTY as a material breach of contract.
9. **Subcontractors** – CONTRACTOR shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and CONTRACTOR shall ensure that COUNTY is an additional insured on insurance required from subcontractors.
10. **Claims Made Policies** – If any of the required policies provide coverage on a claims-made basis:
 - i. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
 - ii. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.
 - iii. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the CONTRACTOR must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.
11. **Special Risks or Circumstances** – COUNTY reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Agreement. CONTRACTOR agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of COUNTY to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of COUNTY.
