Re: Helicopter Permits

I am writing in expressing my opinion regarding helicopter permits.

Once you start this permitting, we will turn into a view full of noise and loss of privacy.

If it is good for one, then it will be good for all. I have 4 acres, live on Shepard Mesa and for sure can land a helicopter in our level back yard.

What would that be like?

What if we all had room and a need?

Is it fare for just a few people to have this privilege?

What if we join with our nice neighbors who may get permitted and we all land on that pad, will we need a traffic controller?

You can see this might be a real problem...I live in Carpinteria to get away from all that type of activity.

Please think about making this Permit Helicopter a true NO.

Thank you for excepting my note.

Sincerely,
Janet Shaw
