Subject: For official record

Dear Board of Supervisor,

I oppose the construction of ATT cellular tower structure at Kings Church (Case Number: 13CUP-00000-00014) because this structure is too close to the residential houses and schools in the area. I was not informed about this construction although I live within 400 meters from the proposed structure. I have serious concerns regarding the impacts of electromagnetic radiation on the community (health, property value as well as impacts on the environment). I do not think ATT adequately addressed these concerns. I ask that you approve this appeal and move the ATT tower to a more appropriate location.

I request that this e-mail is included as a part of the official record.

Sincerely,
Roman Lutchyn, PhD
Resident of HOA Sungate Ranch
