COUNTY OF SANTA BARBARA
BOARD OF SUPERVISORS
NOTICE OF PUBLIC HEARING
Tuesday, May 24, 2022
In Santa Barbara
The meeting starts at 9:00 a.m.

NOTICE IS HEREBY GIVEN that on Tuesday May 24, 2022, the Board of Supervisors will hold a public hearing to consider Case No. 22APL-00000-00004, an appeal of the County Planning Commission's February 2, 2022, approval of the 4701 Foothill Road Development Plan and Coastal Development Permit (Case Nos. 19DVP-00000-00016 and 19CDP-00000-00017). The appeal was filed by Carla Singer.

The Proposed Project includes a request for a Development Plan for proposed structural changes to onsite development, and a Coastal Development Permit for structural changes as well as the proposed cannabis cultivation use. The complete project description is below. The project descriptions for each entitlement are included in the Conditions of Approval.

The Proposed Project is a request to allow propagation of immature plants (nursery) and mixed-light cultivation of cannabis in 468,000 sq. ft. (10.74 acres) of space within a permitted 492,251-sq.-ft. (11.30-acre) greenhouse that has historically been used for growing cut flowers. Cultivation will utilize timed-drip irrigation and recycled water in an elevated pot system. No drying, trimming, curing, or processing of harvested cannabis will occur onsite. Harvested cannabis will be transported offsite by a licensed third party distributor and will be processed at an offsite location. The Proposed Project site (containing cannabis activities) is located on APN 004-003-008 located at 4701 Foothill Road in the Carpinteria Area, within the Carpinteria Agricultural Overlay District, First Supervisorial District; however, the Proposed Project includes the voluntary merger with an adjacent parcel containing no existing or proposed cannabis activities, APN 004-005-002, at 1495 Sterling Avenue. Prior to issuance of the Coastal Development Permit, these two parcels will be voluntarily merged in order for the Proposed Project to comply with lot coverage requirements of the AG-I Zone.
