Recommended Actions:

That the Board of Supervisors:

- a) Approve and authorize the Chair to execute the attached Statement of Final Quantities for Construction of Ortega Ridge Road Slide Repair MS-TDA Wall Project, Project No. 820672; First Supervisorial District for work performed and materials supplied by Raminha Construction, Inc. (a Tri-County Vendor), 6805 Sycamore Road, Atascadero, CA 93422, in the amount of \$683,344.77; and;
- b) Determine that the project was found by the Board to be exempt from the provisions of California Environmental Quality Act pursuant State Guidelines Section 15301(c) on February 14, 2017, a Notice of Exemption was filed on that basis, and the proposed action is within the scope of that Notice of Exemption.

Summary Text:

This item is on the agenda to approve the project as constructed and the attached Statement of Final Quantities. On April 9, 2019, your Board awarded the above referenced contract to Raminha Construction, Inc., and construction began on May 13, 2019. The Director of Public Works accepted this project as completed on August 2, 2019. Construction costs were within the Board awarded construction contract amount.

Background:

The project is located on Ortega Ridge Road, approximately 850 feet north of Greenwell Avenue, near Summerland. The County developed and funded the project in coordination with CalRecycle and GHD Services Incorporated (GHD) to construct a long-term solution to the differential settlement and cracking of the roadway surface and creep failure of the supporting embankment at the project site. The project constructed a Mechanically Stabilized Earth (MSE) wall utilizing Tire-Derived Aggregated (TDA) as a lightweight fill material. This project will reduce the load imposed on the underlying earthen materials and provide lateral resistance to the roadway fill.
