

# ATTACHMENT 7: FINDINGS FOR APPROVAL SHORT-TERM RENTAL ORDINANCE

CASE NO. 17-ORD-00000-00008

## 1.0. CEQA GUIDELINES EXEMPTION FINDING

The Board of Supervisors finds that the proposed project, 17-ORD-00000-00008, is exempt from environmental review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15061(b)(3) and Section 15265. Please see Attachment 9, Notice of Exemption, of the Board letter dated October 3, 2017, as supported by the attachments to the October 3, 2017, Board letter incorporated herein by reference.

## 2.0 ADMINISTRATIVE FINDINGS

In compliance with Section 35-180.6 of the Coastal Zoning Ordinance, Article II of Chapter 35 of the Santa Barbara County Code (Article II), prior to the approval of an Amendment to the Comprehensive Plan, Development Code, or Zoning Map, the review authority shall first make all of the following findings, as applicable:

### 2.1 The request is in the interests of the general community welfare.

The proposed ordinance amendment is in the interest of the general community welfare since the amendment will serve to: (1) define and clarify the overlay zone districts that permits the land use of Short-Term Rentals; (2) add new development standards and restrictions pertaining to the land use of Short-Term Rentals which will serve to minimize potential adverse impacts to the surrounding area; and (3) define “Short-Term Rental,” and other associated terms, as analyzed in the Board letter dated October 3, 2017, and its attachments, which are hereby incorporated by reference. The ordinance provides for an overlay zone where the use of Short-Term Rentals will be permitted, with regulations, in the coastal area where Short-Term Rentals have existed historically. Additionally, the ordinance maintains the integrity and intent of residential zone districts by prohibiting the use of Short-term Rentals outside of the overlay district in residential and agricultural zones. Therefore, the proposed ordinance is in the interest of the general community welfare.

### 2.2 The request is consistent with the County Comprehensive Plan, the requirements of state planning and zoning laws, and the County zoning ordinances.

Adoption of the proposed ordinance, as analyzed in the Board letter dated October 3, 2017, and its attachments, which are hereby incorporated by reference, will provide more effective implementation of the State planning and zoning laws (including, but not limited to, the Coastal Act) by revising Article II to provide a clear and efficient permit process that will benefit the public. The proposed ordinance defines “Short-Term Rental” and other applicable uses. The proposed ordinance identifies an overlay zone in which Short-Term Rentals will be permitted, with regulations, in the coastal area where Short-Term Rentals have existed historically.

Short-Term Rentals have the potential to provide low cost visitor lodging depending upon the location and other community factors. The proposed ordinance is consistent with the adopted policies and development standards of the Comprehensive Plan including the Community and Area Plans. The proposed

ordinance amendment is also consistent with the remaining portions of Article II that this ordinance would not revise. Therefore, the ordinance may be found to be consistent with the Comprehensive Plan including the Community and Area Plans, the requirements of State Planning and Zoning Laws, and Article II.

**2.3 The request is consistent with good zoning and planning practices.**

The proposed ordinance, as analyzed in the Board letter and its attachments, dated October 3, 2017, which are hereby incorporated by reference, clearly and specifically addresses the land use of Short-Term Rentals within the unincorporated areas of Santa Barbara County. It is consistent with sound zoning and planning practices to regulate land uses for the overall protection of the environment and community values, since it provides for clear direction on where the land use is allowed, and adds new development standards and restrictions pertaining to the land use that will serve to minimize potential adverse impacts to the surrounding area. As discussed in Finding 2.2, above, the amendment is consistent with the Comprehensive Plan including the Community and Area Plans, and the County Comprehensive Plan, and Article II. Therefore, adoption of the proposed ordinance is consistent with good zoning and planning practices to regulate land uses.
