## **Alignment with Board Strategic Plan:**

The recommendation(s) are primarily aligned with Goal No. 1, An Efficient Government Able to Respond Effectively to the Needs of the Community.

## **Executive Summary and Discussion:**

On Thursday, July 22, 2004, one (1) bid was opened for the Construction of 2004/2005 Measure 'D' Preventive Maintenance Application of Fog Seal Coat in the 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> Supervisorial Districts, County Project No. 820515. Windsor Fuel Company (Not a Local Vendor) submitted the low responsible bid in the amount of \$424,010.60, which was 27% above the Engineer's Estimate.

Staff has performed an analysis of the bids received and has determined that the costs were too high and exceed the approved funding allotment for this project. It has been reported that the sharp increase in cost of materials (oil), transportation, insurance and workers compensation in California this year have contributed to the increased expense of performing work of this type.

This project would have consisted of the application of Fog Seal Coat on the existing pavement surface at various locations throughout Santa Barbara County. The utilization of Fog Seal Coat was one of the strategies the Department employed in the annual Preventive Maintenance Program. Your Board approved the project as part of the FY 2004/2005 Capital Improvement Plan. The specific project locations were approved by your Board in the FY 2004/2005 Road Maintenance Annual Plan (RdMap) and are attached for your information. Approximately 42 lane miles of County maintained roadway were to be resurfaced as a result of this project.

The Department recommends rejecting the bid for this project in accordance with Article 25, Section 20393 of the California Public Contract Code. The Department will review its options regarding the pavement management strategy to be utilized for the streets and roads included in this project.
