Subject: Proposed Revisions to Coastal Zoning Ordinance

As an owner of a single-family home on Padaro Lane, please consider my strong objections to the proposed revisions to the Coastal Zoning Ordinance that are now being considered.

My family and I have not received adequate notice of the upcoming hearing. I received far greater notice in connection with the LPC and Toro Canyon Plan hearings. Moreover, the content of the proposed changes take far too much control away from local decision making. I want key decisions that impact our community to be made locally.

Please protect our community, and say "NO" to these changes.

Thank you in advance for your consideration.
