

# Orcutt Regional Basins

- ❖ Amend the Reimbursement Agreement with Di-Mac Development, Inc. for Regional Retention Basin B to close the accounting.
- ❖ Repeal Ordinance No. 4313, Orcutt Area Regional Drainage Fees:
  - Orcutt Community Plan (OCP) first adopted in 1997 included Regional Basins.
  - Regional Basins problematic with timing of construction and upfront funding requirements, topographic constraints, and costs to convey storm water from project site to regional basin. Because of this, OCP amended the Regional Basin Policy in 2013. Development now retains on-site.
