SECTION 1 NFWF AGREEMENT ADMINISTRATION

1.1. Amendments.

During the life of the Project, the NFWF Subrecipient is required to immediately inform in writing the NFWF Grants Administrator of any changes in contact information, Key Personnel, scope of work, indirect cost rate, as well as any difficulties in completing the performance goals articulated in the Project description. NFWF Subrecipients must request an amendment from NFWF upon determination of a deviation from the original Grant Agreement as soon as such deviation is detected. NFWF reserves the right to approve, deny and/or negotiate any such request. Alternatively, NFWF may initiate an amendment if NFWF determines an amendment is necessary at any time. Amendment requests are to be submitted via NFWF's grants management system.

1.1.1. Budget Amendment Request.

If the NFWF Subrecipient determines that: 1) the amount of the budget is going to change in any one direct cost category by an amount that exceeds 10% of the Award, or 2) there is a need to increase indirect costs, the NFWF Subrecipient must seek prior written approval via an amendment request in NFWF's grants management system.

1.1.2. Extension of Performance Period.

If additional time is needed to complete the approved Project, the NFWF Subrecipient should contact the NFWF Grants Administrator at least 45 calendar days prior to the project period expiration date to initiate the no-cost extension request process in NFWF's grants management system. In addition, if there are overdue reports required, the NFWF Subrecipient must ensure that they are submitted along with or prior to submitting the no-cost extension request.

1.2. Matching Contributions.

Matching Contributions consist of cash, contributed goods and services, volunteer hours, and/or property raised and spent for the Project. Matching Contributions for the purposes of this Project must meet the following criteria: (1) Are verifiable from the NFWF Subrecipient's records; (2) Are not included as contributions for any other federal award; (3) Are necessary and reasonable for the accomplishment of project or program objectives; (4) Are allowable under OMB Cost Principles; (5) Are not paid by the U.S. Government under another federal award except where the federal statute authorizing a program specifically provides that federal funds made available for such program can be applied to matching or cost sharing requirements of other federal programs when authorized by federal statute; (6) Are provided for in the approved budget when required by the federal awarding agency; (7) Are committed directly to the project and must be used within the period of performance as identified in this Agreement; (8) Otherwise conform to the law; and, (9) Are in compliance with the requirements of Section 3.3 of this Agreement concerning Compliance with Laws.

1.2.1. Documentation and Reporting of Matching Contributions.

The NFWF Subrecipient must retain supporting documentation, including detailed time records for contributed services, original receipts, appraisals of real property, and comparable rentals for other contributed property, at its place of business in the event of an audit of the NFWF Subrecipient as required by applicable federal regulations. The NFWF Subrecipient must report match progress in Payment Requests and Financial Reports.

1.2.2. Assessing Fair Market Value.

Fair market value of donated goods, services and property, including volunteer hours, shall be computed as outlined in §200.306 of 2 CFR Subtitle A, Chapter II, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, (hereinafter “OMB Uniform Guidance”), regardless of whether this Agreement is federally funded.

1.3. Payment of Funds.

To be eligible to receive funds, NFWF Subrecipient must submit to NFWF (1) an original executed copy of this Agreement for the Project; (2) any due financial and programmatic reports; and (3) a complete and accurate Payment Request via NFWF’s grants management system. At any time, NFWF reserves the right to require submission of source documentation, including but not limited to timesheets, cash receipts, contracts or subaward agreements, for any costs where the NFWF Subrecipient is seeking reimbursement by NFWF. NFWF reserves the right to retain up to ten percent (10%) of funds until submission and acceptance of final reports.

1.3.1. Reimbursements.

NFWF Subrecipient may request funds on a reimbursable basis. Reimbursement requests must include expenditures to date and an explanation of any variance from the approved budget.

1.3.2. Advances.

NFWF Subrecipient may request advance payment of funds prior to expenditure provided that the NFWF Subrecipient: (1) demonstrates an immediate need for advance payment; (2) documents expenditure of advanced funds; 3) maintains written procedures that minimize the time elapsing between the transfer of funds and disbursement; and (4) has established appropriate financial management systems that meet the needs and standards for fund control and accountability. Approval of any advance payment of funds is made at the sole discretion of NFWF, based on an assessment of the NFWF Subrecipient’s needs.

1.3.3. Interest.

Any interest earned in any one year on funds advanced to the NFWF Subrecipient that exceeds \$500 must be reported to NFWF, and the disposition of those funds negotiated with NFWF. Interest amounts up to \$500 per year may be retained by the NFWF Subrecipient for administrative expense.

1.4. Reports.

1.4.1. Interim Programmatic Reports.

The NFWF Subrecipient will submit interim programmatic reports to NFWF based on the reporting schedule in Line 21 of the Cover Sheet to this Agreement, as may be amended at NFWF's sole discretion. The interim programmatic report shall consist of written statements of Project accomplishments and updated metric values since Project initiation, or since the last reporting period, and shall be submitted via NFWF's grants management system. NFWF may require specific formatting and/or additional information as appropriate.

1.4.2. Interim Financial Reports.

NFWF may require specific formatting and/or additional information as appropriate.

1.4.3. Annual Financial Report.

The NFWF Subrecipient will submit annual financial reports to NFWF based on the reporting schedule in Line 21 of the Cover Sheet to this Agreement, as may be amended at NFWF's sole discretion. The NFWF Subrecipient must enter a justification when there is a difference between the amount disbursed by NFWF and the amount expended by the grantee. Failure to submit an annual financial report in a timely manner will delay payment of submitted payment requests.

1.4.4. Final Reports.

Based on the reporting schedule in Line 21 of the Cover Sheet to this Agreement, the NFWF Subrecipient will submit (1) a Final Financial Report accounting for all Project funds received, Project expenditures, and budget variances (if any) compared to the approved budget; (2) a Final Programmatic Report summarizing and documenting the accomplishments and metric values achieved during the Period of Performance; (3) copies of any publications, press releases and other appropriate products resulting from the Project; and (4) photographs as described in Section 1.4.4.1 below. The final reports and digital photo files should be uploaded via NFWF's grants management system. Any requests for extensions of final report submission dates must be made in writing to the NFWF Grants Administrator and approved by NFWF in advance. NFWF may require specific formatting and/or additional information as appropriate.

1.4.4.1. Photographs.

NFWF requests, as appropriate for the Project, a representative number of high-resolution (minimum 300 dpi) photographs depicting the Project (before-and-after images, images of species impacted, and/or images of staff/volunteers working on the Project). Photographs should be uploaded with the Final Programmatic Report via NFWF's grants management system as individual .jpg files. The Final Programmatic Report narrative should list each photograph, the date the

photograph was taken, the location of the photographed image, caption, photocredit, and any other pertinent information (e.g., species, activity conducted) describing what the photograph is depicting. By uploading photographs to NFWF's grants management system the NFWF Subrecipient certifies that the photographs are unencumbered and that NFWF and Project Funders have a fully paid up non-exclusive, royalty-free, irrevocable, perpetual, worldwide license for posting of Final Reports and for any other purposes that NFWF or the Project Funder determines appropriate.

1.4.5. Significant Developments.

The NFWF Subrecipient shall report on events that may occur between the scheduled performance reporting dates that have a significant impact on the Project. Such reporting shall be made as soon as the following conditions become known:

1.4.5.1. Problems, delays, or adverse conditions which will materially impair the ability to meet the Project objective, including but not limited to the objective itself, its schedule and/or the budget. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the matter; and/or,

1.4.5.2. Favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or produce more or different beneficial results than originally planned.

1.5. Reports and Payment Requests.

All reports, financial, programmatic, or otherwise, or payment requests under a federal award must be submitted by a representative of the NFWF Subrecipient who has the NFWF Subrecipient's full authority to render such reports and requests for payment and to provide required certifications as set forth in 2 CFR 200.415, as applicable.

1.6. Record Retention and Access.

1.6.1. Retention Requirements for Records.

As funding source end dates may be extended over time, the NFWF Subrecipient will be notified of the most up-to-date record retention requirements upon closure of this Award. If any litigation, claim, or audit is started (irrespective of the NFWF Subrecipient's involvement in such matter) before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings or pending matters involving the records have been resolved and final action taken. NFWF shall notify NFWF Subrecipient if any such litigation, claim or audit takes place or if funding source end date(s) is extended so as to extend the retention period. Records for real property and equipment acquired with federal funds must be retained for at least three (3) years following disposition of such real property. For awards solely funded with funding sources with "N/A" listed as

the end date, NFWF Subrecipient shall maintain all records connected with this Agreement for a period of at least three (3) years following the date of final payment or the Period of Performance end date, whichever is later.

1.6.2. Access to Records.

NFWF or any of its authorized representatives shall have access to such records and financial statements upon request, as shall Inspectors General, the Comptroller General of the United States or any of their authorized representatives if the Funding Source or any funding entity (*i.e.*, a secondary funding source) is a federal agency and/or any portion of the Project provided herein is paid with federal funds. The rights of access in this section are not limited to the required retention period but last as long as the records are retained.

SECTION 2 NFWF AGREEMENT CLAUSES

2.1. Restrictions on Use of Funds.

The NFWF Subrecipient agrees that any funds provided by NFWF and all Matching Contributions will be expended only for the purposes and programs described in this Agreement. No funds provided by NFWF pursuant to this Agreement or Matching Contributions may be used to support litigation expenses, lobbying activities, or any other activities not authorized under this Agreement or otherwise unallowable under the Federal Cost Principles set forth in the OMB Uniform Guidance.

Part 200); and (3) ensure that such subaward or contracting complies with the requirements in Section 3.3 of this Agreement concerning Compliance with Laws. NFWF Subrecipient shall also include in any subaward or contract a similar provision to this, requiring the use of proper grant and contracting procedures and subsequent flow down of federal, state, and local requirements to lower-tiered subawardees and contractors.

2.4. Unexpended Funds.

Any funds provided by NFWF and held by the NFWF Subrecipient and not expended at the end of the Period of Performance will be returned to NFWF within ninety (90) days after the end of the Period of Performance.

2.5. Publicity, Acknowledgment of Support, and Disclaimers.

2.7. Website Links.

The NFWF Subrecipient agrees to permit NFWF to post a link on any or all NFWF websites to any websites created by the NFWF Subrecipient in connection with the Project.

2.8. Evaluation.

These efforts use both data collected by grantees as part of their NFWF grant as well as post-award project data collected by third-party entities commissioned to conduct a program evaluation. The NFWF Subrecipient agrees to cooperate with NFWF by providing timely responses to all reasonable requests for information

to assist in evaluating the accomplishments of the Project period of five (5) years after the project end date.

The NFWF Subrecipient agrees to provide to NFWF and any Funding Source identified in this Agreement a non-exclusive, royalty-free, irrevocable, perpetual, worldwide license to use, publish, copy and alter the NFWF Subrecipient's intellectual property created using this award for non-commercial purposes in any media – whether now known or later devised – including posting such intellectual property on NFWF's or Funding Source websites and featuring in publications.

2.10. System for Award Management (SAM) Registration.

The NFWF Subrecipient must maintain an active SAM registration at www.SAM.gov until the final financial report is submitted or final payment is received, whichever is later. If the NFWF Subrecipient's SAM registration expires during the required period, NFWF will suspend payment to the NFWF Subrecipient until the SAM registration is updated.

2.11. Arbitration.

All claims, disputes, and other matters in question arising out of, or relating to this Agreement, its interpretation or breach, shall be decided through arbitration by a person or persons mutually acceptable to both NFWF and the NFWF Subrecipient. Notice of the demand for arbitration shall be made within a reasonable time, not to exceed three years, after the claim, dispute, or other matter in question has arisen. The award rendered by the arbitrator or arbitrators shall be final. The terms of this provision will survive termination of this Agreement.

2.12. Indemnity.

The NFWF Subrecipient shall indemnify and hold harmless NFWF, any Funding Source identified in this Grant Agreement, their respective officers, directors, agents, and employees in respect of any and all claims, injuries, losses, diminution in value, damages, liabilities, whether or not currently due, and expenses including without limitation, settlement costs and any legal or other expenses for investigating or defending any actions or threatened actions or liabilities arising from or in connection with the Project. The terms of this provision will survive termination of this Agreement.

2.14. Choice of Law/Jurisdiction.

This Agreement shall be subject to and interpreted by the laws of the District of Columbia, without regard to choice of law principles. By entering into this Agreement, the NFWF Subrecipient agrees

to submit to the exclusive jurisdiction of the courts of the District of Columbia. The terms of this provision will survive termination of this Agreement.

2.15. Stop Work.

NFWF may, at any time, by written order to the NFWF Subrecipient, require the NFWF Subrecipient to stop all, or any part, of the work called for by this Agreement for a period of 90 days after the order is delivered to the NFWF Subrecipient. The order shall be specifically identified as a stop-work order issued under this section. Upon receipt of the order, the NFWF Subrecipient shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to this Agreement covered by the order during the period of work stoppage. Within a period of 90 calendar days after a stop-work order is delivered to the NFWF Subrecipient, or within any extension of that period to which the parties shall have agreed, NFWF shall either cancel the stop-work order or terminate the Agreement under section 2.16.

2.16. Termination.

2.16.1. Upon the occurrence of any of the following enumerated circumstances, NFWF may terminate this Agreement, or any portion thereunder, upon receipt by the NFWF Subrecipient of NFWF's written notice of termination, or as otherwise specified in the notice of termination:

2.16.1.5. NFWF learns that NFWF Subrecipient has an organizational conflict of interest, or any other conflict of interest, as determined in the sole discretion of NFWF, that NFWF believes, in its sole discretion, cannot be mitigated; or,

2.16.1.6. after written notice and a reasonable opportunity, the NFWF Subrecipient is unable to cure a perceived non-compliance with any material term (other than those enumerated at 2.16.1.1 – 2.16.1.5) of this Agreement. The cure period shall be considered the timeframe specified by the Funding Source(s), if any, minus one (1) to five (5) days or as agreed upon by the Parties in writing, or if no time is specified by the Funding Source(s), ten (10) days or as otherwise agreed upon by the Parties. Within this time period the NFWF Subrecipient shall, as determined by NFWF, (a) satisfactorily demonstrate its compliance with the term(s) originally believed to be in non-compliance; or (b) NFWF, at its sole

discretion, may determine that NFWF Subrecipient has satisfactorily demonstrated that reasonable progress has been made so as not to endanger performance under this Agreement; or,

2.16.1.7. if the Funding Source issues an early termination under the funding agreement(s) covering all or part of the Project at issue hereunder.

2.16.2. Either Party may terminate this Agreement by written notice to the other Party for any reason by providing thirty (30) days' prior written notice to the other Party.

2.16.3. In the event of termination of this Agreement prior to Project completion, the NFWF Subrecipient shall immediately (unless otherwise directed by NFWF in its notice if NFWF initiated the termination) undertake all reasonable steps to wind down the Project cooperatively with NFWF, including but not limited to the following:

2.16.3.1. Stop any portion of the Project's work that is incomplete (unless work to be completed and a different date for termination of work are specified in NFWF's notice).

2.16.3.2. Place no further work orders or enter into any further subawards or contracts for materials, services, or facilities, except as necessary to complete work as specified in NFWF's notice.

2.16.3.3. Terminate all pending Project work orders, subawards, and contracts for work that has not yet commenced.

2.16.3.4. With the prior written consent of NFWF, promptly take all other reasonable and feasible steps to minimize and/or mitigate any damages that may be caused by the failure to complete the Project, including but not limited to reasonable settlements of any outstanding claims arising out of termination of Project work orders, subawards, and contracts. NFWF will reimburse the NFWF Subrecipient for non-cancelable allowable costs incurred by the NFWF Subrecipient prior to termination that cannot be mitigated. However, the foregoing is subject to the complete reimbursement of such costs by the Funding Source; accordingly, any amounts ultimately not paid, or which are recouped by the Funding Source, are subject to recoupment by NFWF.

2.16.3.5. Deliver or make available to NFWF all data, drawings, specifications, reports, estimates, summaries, and such other information and material as may have been accumulated by the NFWF Subrecipient under this Agreement, whether completed or in progress.

Each provision of this Agreement is distinct and severable from the others. If one or more provisions is or becomes invalid, unlawful, or unenforceable in whole or in part, the validity, lawfulness and enforceability of the remaining provisions (and of the same provision to the extent enforceable) will not be impaired, and the Parties agree to substitute a provision as similar to the offending provision as possible without its being invalid, unlawful or unenforceable.

2.19. Interpretation and Construction.

2.19.1. This Agreement shall be interpreted as a unified contractual document with the Sections and the Attachments having equal effect, except in the event of any inconsistency between them. In the event of a conflict between any portion of this Agreement and another portion of this Grant Agreement, first the Sections will apply in the following order of precedence: 5, 4, 3, 1, 2 and 6, and then any supplemental attachments.

2.19.2. The title designations of the provisions to this Agreement are for convenience only and shall not affect the interpretation or construction of this Agreement.

2.19.3. Every right or remedy conferred by this Agreement upon or reserved to the Parties shall be cumulative and shall be in addition to every right or remedy now or hereafter existing at law or in equity, and the pursuit of any right or remedy shall not be construed a selection.

2.19.4. The failure of NFWF to exercise any right or privilege granted hereunder or to insist upon the performance and/or compliance of any provision of this Agreement, a referenced contractual, statutory or regulatory term, or an Attachment hereto, shall not be construed as waiving any such right, privilege, or performance/compliance issue, and the same shall continue in full force and effect.

2.19.5. Notwithstanding any express statements regarding the continuation of an obligation beyond the expiration or termination of this Agreement, the rights and obligations of this Agreement, which by their nature extend beyond its expiration or termination, shall remain in full force and effect and shall bind the Parties and their legal representatives, successors, heirs, and assigns.

Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. This pre-award waiver is only applicable to matching contributions; the NFWF Award listed on line 12 of the Cover Page of this Agreement must be expended within the period of performance listed on line 11.

Department of Commerce (DOC) Compliance Requirements.

The NFWF Subrecipient must comply with the terms and conditions of a DOC financial assistance award, including applicable provisions of the OMB Uniform Guidance (2 C.F.R. Part 200), and all associated Terms and Conditions set forth in the Department of Commerce Financial Assistance Standard Terms and Conditions Dated April 30, 2019, available at http://www.osec.doc.gov/oam/grants_management/policy/. See 2 C.F.R. § 200.101(b)(1) (Applicability), which describes the applicability of 2 C.F.R. Part 200 to various types of Federal awards and §§200.330-332 (Subrecipient monitoring and management). Additionally, the NFWF Subrecipient must flow these requirements down to all subrecipients and contractors, including lower tier subrecipients.

Equipment Reporting.

Equipment or supplies (aggregate supplies, not per unit) at a cost of \$5,000 or greater per unit value, including its fair market value, must be inventoried at least once every two years and at award closeout (2 CFR 200.313). NFWF Subrecipients may use the outdated SF-428 form series to report on tangible property or submit their own customized report including a description of federally owned equipment, identification information, acquisition cost, and acquisition date. More guidance on property definitions and forms is posted online at coast.noaa.gov/funding/forms.html.

Handling of Environmental Data or Peer Reviewed Publications.

- a) Data Sharing: Environmental data collected or created under this Grant, Cooperative Agreement, or Contract must be made publicly visible and accessible in a timely manner, free of charge or at minimal cost that is no more than the cost of distribution to the user, except where limited by law, regulation, policy, or national security requirements. Data are

to be made available in a form that would permit further analysis or reuse: data must be encoded in a machine-readable format, preferably using existing open format standards; data must be sufficiently documented, preferably using open metadata standards, to enable users to independently read and understand the data. The location (internet address) of the data should be included in the final report. Pursuant to NOAA Information Quality Guidelines, data should undergo quality control (QC) and a description of the QC process and results should be referenced in the metadata. Failure to perform quality control does not constitute an excuse not to share data. Data without QC are considered “experimental products” and their dissemination must be accompanied by explicit limitations on their quality or by an indicated degree of uncertainty.

- b) Timeliness: Data accessibility must occur no later than publication of a peer-reviewed article based on the data, or two years after the data are collected and verified, or two years after the original end date of the grant (not including any extensions or follow-on funding), whichever is soonest, unless a delay has been authorized by the NOAA funding program.
- c) Disclaimer: Data produced under this award and made available to the public must be accompanied by the following statement: “These data and related items of information have not been formally disseminated by NOAA, and do not represent any agency determination, view, or policy.”
- d) Failure to Share Data: Failing or delaying to make environmental data accessible in accordance with the submitted Data Management Plan, unless authorized by the NOAA Program, may lead to enforcement actions, and will be considered by NOAA when making future award decisions. Funding recipients are responsible for ensuring these conditions are also met by sub-recipients and subcontractors.
- e) Funding acknowledgement: Federal funding sources shall be identified in all scholarly publications. An Acknowledgements section shall be included in the body of the publication stating the relevant Grant Programs and Award Numbers. In addition, funding sources shall be reported during the publication submission process using the FundRef mechanism (<http://www.crossref.org/fundref/>) if supported by the Publisher.
- f) Manuscript submission: The final pre-publication manuscripts of scholarly publications produced with NOAA funding shall be submitted to the NOAA Institutional Repository at <http://library.noaa.gov/repository> after acceptance, and no later than upon publication, of the paper by a journal. NOAA will produce a publicly-visible catalog entry directing users to the published version of the article. After an embargo period of one year after publication, NOAA shall make the manuscript itself publicly visible, free of charge, while continuing to direct users to the published version of record.
- g) Data Citation: Publications based on data, and new products derived from source data, must cite the data used according to the conventions of the Publisher, using unambiguous labels such as Digital Object Identifiers (DOIs). All data and derived products that are used to support the conclusions of a peer-reviewed publication must be made available in a form that permits verification and reproducibility of the results.

Scientific Integrity.

- a) *Maintaining Integrity.* The NFWF Subrecipient shall maintain the scientific integrity of research performed pursuant to this grant or financial assistance award including the prevention, detection, and remediation of any allegations regarding the violation of scientific integrity or scientific and research misconduct, and the conduct of inquiries, investigations, and adjudications of allegations of violations of scientific integrity or scientific and research misconduct. All the requirements of this provision flow down to subrecipients.
- b) *Peer Review.* The peer review of the results of scientific activities under a NOAA grant, financial assistance award, or cooperative agreement shall be accomplished to ensure consistency with NOAA standards on quality, relevance, scientific integrity, reproducibility, transparency, and performance. NOAA will ensure that peer review of "influential scientific information" or "highly influential scientific assessments" is conducted in accordance with the Office of Management and Budget (OMB) Final Information Quality Bulletin for Peer Review and NOAA policies on peer review, such as the Information Quality Guidelines.
- c) In performing or presenting the results of scientific activities under the NOAA grant, financial assistance award, or cooperative agreement and in responding to allegations regarding the violation of scientific integrity or scientific and research misconduct, the NFWF Subrecipient and all subrecipients shall comply with the provisions herein and NOAA Administrative Order (NAO) 202-735D, Scientific Integrity, and its Procedural Handbook, including any amendments thereto. That Order can be found at <https://nrc.noaa.gov/ScientificIntegrityCommons.aspx>.
- d) *Primary Responsibility.* The NFWF Subrecipient shall have the primary responsibility to prevent, detect, and investigate allegations of a violation of scientific integrity or scientific and research misconduct. Unless otherwise instructed by the grants officer, the recipient shall promptly conduct an initial inquiry into any allegation of such misconduct and may rely on its internal policies and procedures, as appropriate, to do so.
- e) By executing this grant, financial assistance award, or cooperative agreement the NFWF Subrecipient provides its assurance that it has established an administrative process for performing an inquiry, investigating, and reporting allegations of a violation of scientific integrity or scientific and research misconduct; and that it will comply with its own administrative process for performing an inquiry, investigation, and reporting of such misconduct.
- f) The NFWF Subrecipient shall insert this provision in all subawards at all tiers under this grant, financial assistance award, or cooperative agreement.

SECTION 6 OTHER REPRESENTATIONS, CERTIFICATIONS, STATEMENTS AND CLAUSES

NFWF Subrecipient acknowledges that all or part of this Agreement may be funded by a non-federal source that requires certain representations, certifications, and other statements relating to the use of such funds or performance of the Project. These representations, certifications and other statements are set forth below. Unless otherwise stated in this Agreement, the execution and submission of this Agreement serves as affirmative acknowledgement of and agreement with the below representations, certifications, and other statements. Further, should circumstances of the NFWF Subrecipient change during the performance of this Agreement that would render one of these representations, certifications and/or other statements inaccurate, invalid or incorrect, the NFWF Subrecipient shall promptly notify NFWF of such change in circumstance. Finally, NFWF reserves the right to update and require subsequent acknowledgement of and agreement with new or revised representations, certifications, and other statements at no additional cost under this Agreement.

Project Summary: Carpinteria Creek Bank Stabilization and Habitat Restoration

April 2025

Santa Barbara County Flood Control & Water Conservation District

The 2017-18 Thomas Fire and debris flow were devastating to the region, including Carpinteria Creek watershed. The Gobernador Debris Basin serves an important debris-control and flood protection service in this watershed. Downstream of the debris basin site, Carpinteria Creek has been subject to repeated storm damage and erosion. The east bank was severely eroded in 2018 and again in 2023 and 2024. The storm damage removed riparian vegetation and resulted in sediment eroding in the creek.

Carpinteria Creek is critical habitat for southern steelhead trout, a state and federally designated endangered species. Carpinteria Creek provides habitat for other aquatic and riparian species such as southwestern pond turtle, coast range newt, two-striped garter snake, and migratory birds.

A proposed bank-restoration and revegetation project would improve the riparian corridor, stabilize the bank to minimize further erosion, and provide vegetation and shade along approximately 300 linear feet of the creek that is currently barren and exposed.

The proposed concept is to restore the damaged banks by placing boulder and streambed material along the toe of the creekbank, and placing mixed-grade rock and soil at approximately 3:2 slope along the eroded bank. Willow cuttings would be incorporated into the sediment placement as a bio-technical bank protection method. Additional cuttings and native plant species would be installed along the slope to achieve a dense and rapid-growing riparian vegetation community.

The work area comprises two sections of the southern bank of the creek, a total of approximately 300 linear feet and 4,500 square feet. The Flood Control District owns the underlying property along the south side of the creek and the access road. The adjacent property at the bridge crossing and within a portion of the creek bed and bank is privately owned; the owner is supportive of the project and would be a cooperative partner in providing irrigation water and accommodating construction activity during the work.

The work is estimated to take 3-4 weeks. Flood Control District engineering and environmental staff would devote time to planning, permitting, and design. Flood Control District maintenance crew and equipment could perform the installation, estimated with 2 staff for 15 days, 9 hour days. Flood Control's native plant landscaping contractor would perform the plant installations and irrigation. The project budget includes Flood Control District staff time, rock and sediment sourcing, plant materials, installation, and labor.

Santa Barbara County Flood Control District has documented procurement procedures and will be able to will be able to comply with the 2 CFR 200 procurement standards. Santa Barbara County Flood Control has competitively solicited bids for native plant installation and landscaping services from local vendors. A vendor selected and approved through the competitive procurement process would perform

the landscaping services at the contracted rates for labor and materials, as competitively bid. All other services would be performed by County staff.

Budget

Costs were estimated by conferring with experienced heavy equipment operators, landscape contractors, engineering staff, environmental staff, and comparison the County's similar recent projects. Costs for cubic yardage of materials is estimated by County engineering staff.

Monitoring and Site Management

Ongoing monitoring and site management will be performed by the Flood Control District. After the initial installation in summer/fall 2025, the Flood Control District would perform maintenance inspections for plant conditions and irrigation repairs quarterly for 1-2 years, then bi-annually as needed for an additional 2-4 years. The Flood Control District will be responsible for costs and implementation of plant replacement and irrigation repairs, outside of the project budget above. The Flood Control District's Annual Routine Creek Maintenance Program includes standard procedures for inspections, maintenance, and management of creek restoration sites; it is expected that this Project, once installed, can readily be accommodate within the Flood Control District's standard annual maintenance program. The site is adjacent to a Flood Control District access road that leads to Gobernador Debris Basin, and important Flood Control facility; therefore the project area will remain within Flood Control District's purview of inspections and periodic assessments for the indefinite future.
