TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

DECLARATION OF COVENANTS, CONDITIONS AND RESTRICTIONS IMPOSED ON REAL PROPERTY

THIS DECLARATION of covenants, conditions and restrictions is made for the benefit of the City of Santa Barbara (hereinafter "City"), by BATH STREET PARTNERS, a California limited partnership (hereinafter "Owner"), as of this 29th day of May, 1985.

1. Owner is the owner of certain real property described in Exhibit A, attached hereto, incorporated herein by this reference and hereinafter referred to as the "Real Property".

2. Owner sought a discretionary development approval for the Real Property from the City of Santa Barbara.

3. On April 10, 1984, the City Council granted Owner approval of a development plan and a parking modification subject to certain conditions which were imposed for the benefit of the public. Some of those conditions were required to be set forth in a recorded document which runs with the Real Property.

4. In consideration of the issuance of said approval and of the benefit conferred thereby on the Real Property, Owner hereby covenants and agrees with the City to record this Declaration and impose the following terms, conditions, covenants, restrictions and limitations upon the possession, use and enjoyment of the Real Property. Owner agrees as follows:

a. Owner shall include in any lease agreement for tenants of the Real Property the following provisions:

Optically SCANNED Document

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

1. Variable work schedules for the tenant's employees shall be encouraged;

2. Preferential parking shall be provided for carpools;

3. The tenant/employer should make available to employees information relating to the ridesharing programs administered by the Area Planning Council. Tenant/employers shall provide a minimum of twelve (12) monthly bus passes for employee use and bus route and schedules shall be posted in a central location (such as lunchroom).

b. Construction trips during any construction period on the real property shall be scheduled during off-peak hours. Owner agrees that Haley Street driveways shall not be used for construction traffic.

c. The owner waives the right to protest the formation of any and all public improvement districts.

d. The following high traffic generating uses shall not take place on the real property:

1. Fast food restaurants;

2. Supermarket, mini-market and convenience center;

3. Medical clinic or emergency medical center;

4. Sale of alcoholic beverages for off-site use except beer and wine.

5. Owner hereby declares that the Real Property is held and hereafter shall be held, conveyed, hypothecated, encumbered, leased, rented, used, and occupied subject to the above-referenced covenants, conditions, restrictions and limitations, all of which are declared and agreed to be in furtherance of Owner's interest. All of the above-stated covenants, conditions, restrictions and limitations are intended to constitute both equitable servitudes and covenants running with the land.

6. Any purchaser of the Real Property, by the acceptance of a deed therefor, whether from Owner or from any subsequent owner of the Real Property, or by the signing of a contract or agreement to purchase the same, shall, by the acceptance of such deed or by the signing of such contract or agreement be deemed to have consented to and accepted the covenants, conditions, restrictions and limitations set forth herein.

LEGAL DESCRIPTION

PARCEL ONE:

Those portions of Block 233 in the City of Santa Barbara, County of Santa Barbara, State of California, according to the Official Map thereof, described as follows:

Commencing at a point on the Northwesterly line of Haley Street at the most Easterly corner of said Block 233; thence South 41°30' West 165.00 feet to a cross cut in the pavement; thence North 48°30' West at right angles to said Haley Street 56 feet to a 1/2 inch iron survey pipe marked RE 2786 and the true point of beginning of Parcel One; thence first, South 41°30' West parallel to the Northwesterly line of Haley Street 50.00 feet to a 1/2 inch iron survey pipe marked RE 2786; thence second, North 48°30' West at right angles 56.00 feet to a 1/2 inch iron survey pipe; thence third, North 41°30' East at right angles 50 feet to a 1/2 inch iron survey pipe; thence fourth, South 48°30' East at right angles 56.00 feet to the point of beginning.

PARCEL TWO:

Beginning at a point on the Northwesterly line of Haley Street, distant thereon 150 feet Southwesterly from the most Easterly corner of said Block; thence Southwesterly along said street line 15 feet; thence at right angles Northwesterly 225 feet to the Northwesterly line of the tract of land described in the Deed to John F. Blair recorded November 12, 1903, in Book 95, Page 78 of Deeds, Records of said County; thence at right angles Northeasterly along said line 15 feet; thence at right angles Southeasterly 225 feet to the point of beginning.

PARCEL THREE:

The Northwesterly 60 feet of the following-described property in Block 233 of the City of Santa Barbara, situate in the City of Santa Barbara, County of Santa Barbara, State of California, according to the Official Map thereof, described as follows:

Beginning at the most Easterly corner of said Block 233; thence Northwesterly along the Southwesterly line of Bath Street 180.00 feet; thence at right angles Southwesterly 150.00 feet; thence at right angles Southeasterly 180.00 feet to a point on the Northwesterly line of Haley Street; thence, at right angles Northeasterly and along the Northwesterly line of said Haley Street 150.00 feet to the point of beginning.

Optically SCANNED Document

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

PARCEL FOUR:

That certain lot, piece or parcel of land in Block 233 in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at a point on the Southwesterly line of a 15 foot easement or right of way, in said Block 233, said point being 165.00 feet Southwesterly from the Southwesterly line of Bath Street, measured at right angles thereto and 112 feet Northwesterly from the Northwesterly line of Haley Street, measured at right angles thereto; thence first, along the Southwesterly line of said easement or right of way and its prolongation North 48°30' West 113.00 feet to a 1/2 inch iron survey pipe; thence second, at right angles South 41°30' West 50.00 feet to a 1/2 inch iron survey pipe; thence third, at right angles South 48°30' East 113.00 feet; thence fourth, at right angles North 41°30' East 50.00 feet to the place of beginning.

PARCEL FIVE:

The Southeasterly 120 feet of the following-described property in Block 233 of the City of Santa Barbara, situate in the City of Santa Barbara, County of Santa Barbara, State of California according to the Official Map thereof, described as follows:

Beginning at the most Easterly corner of said Block 233, thence Northwesterly along the Southwesterly line of Bath Street 180.00 feet; thence at right angles Southwesterly 150.00 feet; thence at right angles Southeasterly 180.00 feet to a point on the Northwesterly line of Haley Street; thence at right angles Northeasterly and along the Northwesterly line of said Haley Street 150.00 feet to the point of beginning.

PARCEL SIX:

Beginning at a point on the Northwesterly line of Haley Street at the most Easterly corner of said Block 233; thence South 41°30' West 165.00 feet to a cross cut in the pavement and the true point of beginning; thence South 41°30' West along the Northwesterly line of Haley Street 50.00 feet to a cross cut on the top of a stone retaining wall; thence North 48°30' West at right angles to said Haley Street 56.00 feet to a 1/2 inch iron survey pipe marked RE 2786; thence North 41°30' East at right angles 50 feet to a 1/2 inch iron survey pipe marked RE 2786; thence South 48°30' East at right angles 56.00 feet to the true point of beginning.

Re: APN: 37-152-28, 310 W. Haley St., Zone: C-P

Property records indicate that you are the owner of the referenced property.

This office is in receipt of information to the effect that a woodworking shop is being operated at the above referenced parcel.

On June 22, 1984, I visited your property for a site inspection and noted that this is the case.

Please be advised that your property is in violation of City of Santa Barbara Zoning Ordinance as follows: Municipal Code 28.54.030 in that a woodworking shop is being operated in a C-P zone.

It is requested that you abate this situation by July 31, 1984 and advise this office in writing or by telephoning 963-1663, extension 27, between the hours of 8 & 9 a.m. or 4 & 5 p.m., Monday through Friday, upon accomplishment.

Your cooperation is solicited in the resolution of this zoning issue.

David Dawson

Attention: Mr. Milt Moeschlin
Mr. David Dawson

Gentlemen:

As a follow-up to last week's meeting, we wish to advise you, as per our agreement, that we intend to comply with your allowance and recommendation that Mr. Robert Ayers of Ayers Repair, located at 310 W. Haley Street, Santa Barbara, be allowed to continue operating his business on those premises until termination of his existing Lease, which is February 14, 1983.

As you are aware, our plans are to develop a new use for this property. We are currently formulating a concept that will allow us to redevelop the land to its highest and best use to benefit us as property owners as well as the visual appearance to the citizens of the City of Santa Barbara.

As you know, Westpac Shelter Corporation is involved in a number of businesses and developments in our community and it is always our policy to comply with all laws and ordinances. We did, in fact, check with your office before we began marketing the above-mentioned property and somewhere along the way there seems to have been a misunderstanding. Therefore, at this time we will do the change of use without admitting guilt or waiving any rights we might have if for some reason a problem should arise in the future, which we do not anticipate at this time.

Optically SCANNED Document

We appreciate the cooperative and equitable manner in which you gentlemen have handled this situation and

Re: Parcel No. 37-152-28
Location: 310 W. Haley
Zone: C-P

Dear Mr. Dawson:

I received a copy of your letter dated June 21, 1982, to our tenant, Ayers Repair, at the above-mentioned address.

In your letter you stated that there has been a "change that has taken place from a service station to an auto repair facility" and that you had confirmed this by a visit to the site on June 14, 1982. At this time I would like to inform you that on January 26, 1982, we called a Mr. Moeschlin, of the Community Development Department Zoning Division, to discuss our use of this property for an auto repair business. Mr. Moeschlin advised us that this would be acceptable, as long as no engine rebuilding or major work took place on the premises. He did not inform us of any violation of the Municipal Code as you have pointed out, otherwise we would not have entered into a real property lease with Mr. Robert Ayers, owner of Ayers Repair.

It is therefore requested that a meeting be scheduled with yourself, Mr. Moeschlin, the individual responsible for overall decision making in this department, and myself. I am greatly concerned about the information we received in January regarding this matter. We would like to resolve this matter as quickly as possible as the real property lease for this property commenced in February of this year and ends in February of 1983. We have done everything in our

Optically SCANNED Documents

power to act in the best of faith. This is a totally new twist for us. The City must be more consistent in the information that is given out.

I anxiously await your reply in reference to this matter.

Sincerely,

WESTPAC SHELTER CORPORATION

Re: Parcel No. 37-152-28; 310 W. Haley St. (Zone C-P)

Dear Sirs:

This office is in receipt of information to the effect that the use of the property has changed from a service station to an auto repair facility. I visited the referenced property for a site inspection on June 14, 1982 and noted that this is the case.

You are located in a C-P zone and while a gas station that performs minor automotive service and repairs is a permitted use with a conditional use permit, a business that performs only auto repairs is not permitted.

Please be advised that the referenced property is in violation of City of Santa Barbara Zoning Ordinance as follows: Municipal Code 28.54.030- operation of an auto repair facility in a C-P zone. I have included a copy of the appropriate municipal code for your information.

It is requested that you abate this situation by August 4, 1982, and advise this office in writing or by telephoning 963-1663 extension 33 upon accomplishment.

If you care to discuss this issue or have any further questions, please feel free to call the telephone number above. Your cooperation is solicited in the resolution of this zoning issue.

Sincerely,

David D. Dawson

Mr. Albert Hayes
310 West Haley Street
Santa Barbara, California

Dear Mr. Hayes:

Re: Signs

Enclosed herewith you will find a form letter which is being sent to all service station operators in the City.

As you know, Santa Barbara is famous for its natural beauty. The lack of garish signs is one of the reasons for this.

It is felt that the reason for some of the clutter of signs in many stations is that the operator is unaware of the requirements of the Sign Ordinance. He is also unaware of the fact that the more signs he puts up around the station, the more cluttered it becomes and consequently repels rather than attracts new customers.

We hope that the enclosed diagram will be of help to you in determining which of your signs do not comply with the Ordinance, and if you need help in interpreting the meaning of what is said in our letter and what is indicated on the diagram, we will be glad to help you. Our phone number is 966-7171.

We hope that we can count on your cooperation just as we have in the past to help clean up the nonconforming signs.

Very truly yours,

Re: Shell station at 310 W. Haley St. - Building Permit #18936

Gentlemen:

A grading permit is required as per Ordinance. Plans indicate approximately two thousand cubic yards plus. Allowances are being made for the building area only.

Application and fees for the grading permit are enclosed.

Very truly yours,

William B. Wade
Building Director

127 East Carrillo Street
Santa Barbara, California

Gentlemen:

Landscape plans were scheduled to be presented to the Architectural Board of Review on September 26, 1966.

Due to some questions raised by the Board that are to be answered by the representative of either the owner or the lessee, the Board was unable to consider and take action on these plans until such time as a representative shall be in attendance.

Please be advised of this situation and have a representative appear at the next meeting on October 3, 1966 in the Council Chamber of City Hall.

Very truly yours,

William B. Wade

Gentlemen:

Final plans for a Shell Service Station and sign plans for the same station were presented to the Architectural Board of Review on August 22, 1966.

After review and discussion, it was moved that the plans be approved subject to the following conditions:

1. Presentation of exterior colors before installation of exposed wall covering.

2. Landscaping plans prior to installation of paving.

It was also moved that the plans for the proposed signs be approved as submitted.

This approval is for architectural design only and does not imply that the plans reviewed comply with all City and State laws or ordinances.

Occupancy of this building will not be permitted until the above items have been completed.

CITY OF SANTA BARBARA
PUBLIC WORKS DEPARTMENT
AUGUST 9, 1966

TO: W. Don MacGillivray, Mayor, and
Members of City Council

FROM: R. D. Hogle, Public Works Director

SUBJECT: Recommendation for Approval of Final Lot Split Map for Bertley Murray, City Parcels 37-152-16, 17, 18 and 19, located ~~at~~ Haley and Bath Streets ~~—~~ 310 W. Haley

RECOMMENDATION:

That the Council approve subject lot split.

change to 37-152-28 as 8/9/66.

DISCUSSION:

On May 12, 1966 the Lot Split Advisory Agency approved the tentative map subject to the Building Department's requirement that buildings which are located on existing property lines be removed.

We have been notified by the Building Director that proper provisions in writing have been made by the applicants, Mr. Murray and Mr. Castagnola.

The final map is in accordance with Ordinance 2872 and this Department hereby recommends approval.

R. D. Hogle
Public Works Director

Dear Mr. Wade:

This letter is to advise you that we are about to enter into a long term lease with Shell Oil Co. for the engineered portion of the above named parcels having been prepared and submitted to your department by Penfield and Smith Engineers, Inc.

Before said lease can be signed it is necessary for them to have the legal description after split and recordation.

Shell Oil is now calling for bids for demolition of buildings on all above stated parcels and to set an actual date for demolition it is rather difficult to state. However, we as individuals and owners of the property will comply fully with the existing Building Code and also with respect and responsibility to all lot lines so effected.

Very truly yours,

Bartley T. Murray

George V. Castagnola

Re: Lot Split City Parcels 37-152-16, 17, 18 & 19
located at Haley and Bath Streets

Dear Mr. Murray:

We have received a final map from Penfield & Smith Engineers, Inc. on subject lot split for City Council approval and recordation.

Please be advised that we cannot process this final lot split map until such time as we obtain approval of the City Building Department or their condition of approval, namely "that buildings which are located on existing property lines be removed".

This is a courtesy letter to remind you of this matter in order not to delay this application. We would suggest you clear this with the Building Department.

Very truly yours,

R. D. Hogle
Public Works Director

Santa Barbara,
California

Dear Mr. Murray:

At a regular meeting held May 12, 1966, the Lot Split Advisory Committee approved your request to divide into two parcels City Parcels 37-152-16, 17, 18 & 19, located at 310 W. Haley Street, as shown on tentative map prepared by Penfield and Smith, and dated March 1966.

The approval was made subject to the recommendation of the Building Director that buildings which are located on existing property lines be removed.

If you have any questions regarding this lot split please contact Mr. Joseph Connell of the Public Works Department.

Sincerely,

Bruce N. Thompson
City Planning Director

Dear Sir:

Preliminary plans for a service station to be erected at 310 West Haley Street were presented to the Architectural Board of Review on March 14, 1966.

After review and discussion, the plans were approved in concept only, subject to C-P plot plan approval by the Planning Commission.

This approval is for preliminary design concept only and does not imply that the plans reviewed comply with all City and State laws or ordinances.

Very truly yours,

William B. Wade
Building Director
Secretary Architectural

Santa barbara, CA 93101

Subject: Conversion of Bath/Haley Shell to Mini-Mart

Gentlemen:

The Owner of this Project has asked me to advise you that, due to excessive construction costs, he is no longer going to pursue the CUP, and would like this Project removed from any future Planning Commission agendas. The costs to meet City ERC and staff's idealistic requirements for large areas of new landscaping and driveway rebuilding, all well beyond anything specifically required by Ordinance, would equal approximately one-third of the construction cost.

The service station will revert back to providing full lubrication and mechanical repair services.

City of Santa Barbara
Attn: Dave Davis, Chief Planner

Inter-Office Mail

Dear Commissioners:

This is to let you know the West Downtown Neighborhood Planning Council has reservations about the proposed mini-market for the corner of Haley and Bath Streets. Our reservations stem from the absence of a comprehensive plan for this area -- a plan now being completed by the West Downtown Task Force.

We hope that West Downtown developments will be held off until the completion of the West Downtown Task Force recommendations. At that time we will have a better knowledge of what is appropriate for our area.

Sincerely,

Ed Reynolds

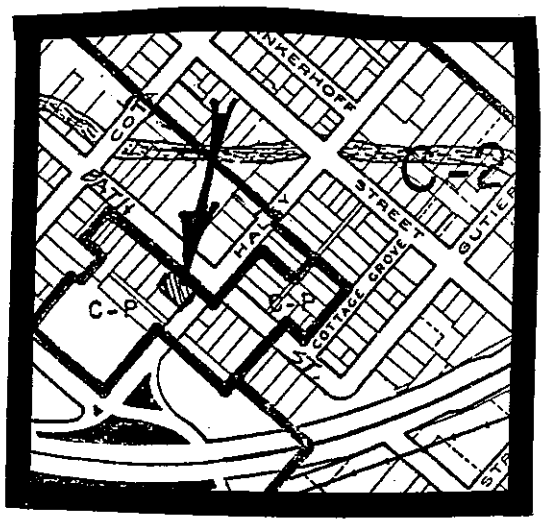
PLANNING COMMISSION STAFF REPORT
December 4, 1980

APPLICANT: Robert E. Johnson for Bath St. Partners

LOCATION: 310 West Haley Street

PARCEL #: 37-152-28

REQUEST: A Conditional Use Permit to convert an existing service station into a mini market; Site Plan Approval for the proposed mini market.



SITE DESCRIPTION:

General Plan: Twelve dwelling units per acre

Zoning: C-P

Environmental Assessment: Negative Declaration

Lot Size: 18,000 sq. ft. (.41 acre)

Existing Use: Service Station

Topography: Level, draining toward Haley Street

Access: Haley and Bath Streets

Adjacent Land Uses:
North: Bath Street/residential
South: Vacant lot
East: Vacant lot
West: Haley/residential

PROJECT DESCRIPTION:

Parking: Required - 8 spaces
Provided - 9 spaces

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

I. INTRODUCTION

The applicant proposes to convert an existing service station to a service station and mini market. The applicant stated that the proposed mini market use will be temporary, between two (2) and three (3) years. The existing station has three sets of gas pumps, two of which are parallel to Haley Street and one of which is parallel to Bath Street. The canopy and service island parallel to Bath Street is scheduled to be removed and replaced by landscaping and parking spaces. The existing driveway on Bath Street nearest to the Haley/Bath intersection will be removed. Curbs and gutters to match the existing sidewalk will be installed.

Access to and from Bath Street will be gained from a two way driveway approximately 90 feet from the corner of Bath and Haley. Two accessways will remain open on Haley Street. The driveway closest to the Bath/Haley intersection will be a one-way entrance. The other driveway will be a one-way exit.

II. ORDINANCE REQUIREMENTS

The proposed mini market meets all of the ordinance requirements for a Conditional Use Permit (CUP) with the exception of providing a decorative fence six feet in height along the Northern Property line. The applicant has requested that a row of boxed trees and shrubs between the trees be used to provide the decorative screen. This would enable the applicant to reuse the trees in landscaping future development of the site. The Planning staff believes that a row of trees six (6) feet in height fulfills the intent of the CUP ordinance requirement by screening the surrounding property and improving the visual quality of the mini market.

III. MAJOR ISSUES

Traffic and Circulation

The intersection at Bath and Haley Streets is heavily congested and has peak hour service problems. The Transportation Department has reviewed this proposal and recommended that the driveway on Haley Street closest to the corner of Bath and Haley be redesigned according to the City's modified "alley" approach standards. The modified alley approach facilities exiting from the street into the service station by smoothing out the curb, gutter and driveway ramp. This should reduce congestion by allowing a less obstructed turning ability. This recommendation has been incorporated into the revised site plan.

The Transportation Department has also requested that the Bath/Haley intersection be reviewed in six months with regards to congestion and delays resulting from cars entering and exiting the mini market/service station. A condition has been included to address this concern.

As was previously mentioned the applicant has indicated to both the Environmental Review Committee (ERC) and the Planning Staff that the mini market is a temporary use of the property. Since there are traffic concerns associated with the Bath/Haley intersection, the ERC has conditioned the Negative Declaration so that the CUP is given a time limitation, so that the traffic concerns can be reconsidered. The time limitation required by the ERC is for two (2) years. The applicant has since stated that the use would

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

remain for up to three (3) years. Staff is recommending a condition that the time limitation on the CUP approval be for three (3) years. The applicant stated that he will return to the ERC to extend the time period to three (3) years.

IV. RECOMMENDATION

The Planning staff believes that this project adequately satisfies the intent of the CUP ordinance and recommends that the Planning Commission make the appropriate findings and approve the Conditional Use Permit and Site Plan subject to the following conditions:

V. CONDITIONS OF APPROVAL

1. The Architectural Board of Review shall review and approve the following:
   a. Bicycle parking shall be provided (at least two (2) spaces).
   b. Landscaping shall be provided to screen buildings and parking areas.
   c. Asphalt berms shall be provided along the edges of all ground level landscaping.
2. In accordance with the Transportation Department recommendation, after six (6) months the applicant shall complete a traffic evaluation on the Haley/Bath intersection with respect to this project. Such evaluation shall be in conjunction with Transportation Department data on accidents and congestion at the intersection.
3. The CUP approval will expire two (2) years from the date of Planning Commission approval. In the event the applicant returns to the Environmental Review Committee to extend the time period to three (3) years, the expiration date will be three (3) years from the date of Planning Commission approval.
4. The northwest corner of the lot will remain unobstructed and shall not be used for parking or storage.

Amended

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-80-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

SB-80-80 310 W. HALEY STREET: A proposal by Robert Johnson, agent for Bath Street Partners, to convert the Bath-Haley Shell station to a 1,490 square foot mini-market on Assessors Parcel No. 37-152-28. Total land area is 18,000 square feet. Eight (8) off-street parking spaces to be provided. Current zoning is C-P.

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Traffic study or report be submitted to determine best access and restrictions for driveways and parking layout.
2. Bicycle facilities be provided.
3. Additional landscaping be provided to screen buildings.
4. Unused raised concrete island and canopy be removed.
5. CUP should be reconsidered after two years.

Concerns expressed over metal building.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, by 5:00 p.m. October 27, 1980. A fee is required to defray the cost to the City of appellant action.

TO: Planning Commission

FROM: Planning Division DD/TL

SUBJECT: PROPOSED MINI MARKET CONVERSION ON THE CORNER OF BATH AND HALEY

BACKGROUND AND DISCUSSION

An application was received for a Conditional Use Permit for a mini market conversion of the Shell service station on the Corner of Bath and Haley Streets. The site plan for the proposed conversion did not meet the minimum requirements outlined in the Conditional Use Permit Ordinance. The applicant requested that the Planning Commission waive the requirements which had not been included in the site plan (see attached letter from applicant). However, there is no provision in the Conditional Use Permit Ordinance which allows for a waiver of the minimum requirements.

In addition to the minimum ordinance requirements, the Planning Division and Traffic Department had other concerns about the proposal. The Planning staff met with the applicant's agent and explained that there was no provision for a waiver of the minimum CUP ordinance requirements and that the staff had other planning concerns as well.

On Wednesday, November 12, the applicant's agent informed staff that the applicant is willing to revise the site plan to incorporate the minimum ordinance requirements and resolve some planning issues. A revised site plan was not available to staff at the time of this staff report, therefore, adequate review was not possible.

CONCLUSION AND RECOMMENDATION

Staff believes that the major issues involved with the mini market conversion can be resolved. However, the Transportation and Planning staffs must be allowed adequate time to review the revised site plan prior to making a recommendation to the Planning Commission. The Planning staff requests that the Planning Commission continue this item until the December 4, 1980 meeting.

Santa Barbara, CA 93101

Subject: CUP Application, Conversion to Mini-mart
310 West Haley Street

Dear Mr. Scruggs;

Please incorporate the following request into our CUP application for this project; we would like to be relieved of compliance with portions of Ordinance No. 4033;

Subsection 34j - screening of restroom entrances. This is a condition that has existed legally since the service station was built in 1971. Further, the restroom entrances face an un-used alley, and the property on the opposite side of the alley is vacant and owned by this applicant.

Subsection 34k - six-foot screen fence on northerly property line. This too is a condition that has existed legally since 1971. Further, the adjacent property is zoned commercial, is vacant, and is owned by this applicant.

Thank you for your assistance.

Sincerely,

Robert E. Johnson, AIA

Inter-Office Mail

Dear Commissioners:

This is to let you know the West Downtown Neighborhood Planning Council has reservations about the proposed mini-market for the corner of Haley and Bath Streets. Our reservations stem from the absence of a comprehensive plan for this area -- a plan now being completed by the West Downtown Task Force.

We hope that West Downtown developments will be held off until the completion of the West Downtown Task Force recommendations. At that time we will have a better knowledge of what is appropriate for our area.

Sincerely,

Ed Reynolds

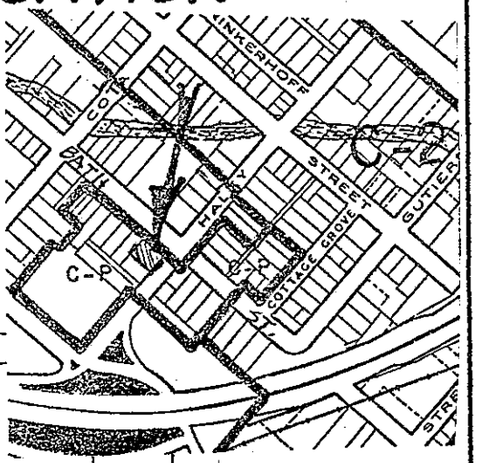
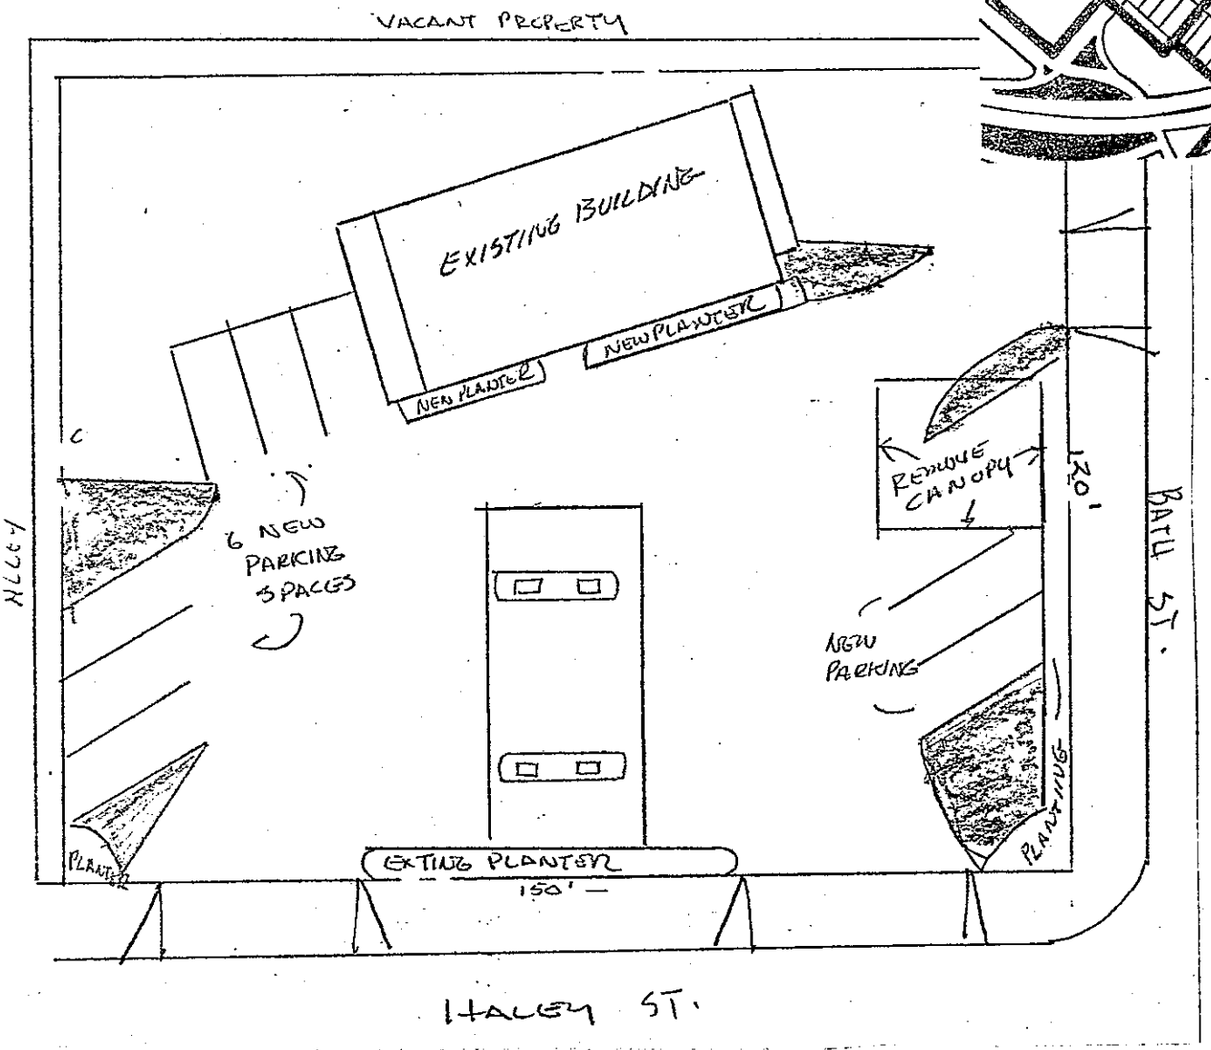
BATH STREET PARTNERS

Conditional Use Permit

PLOT PLAN AND LOCATION





NOTICE IS HEREBY GIVEN that the Planning Commission of Santa Barbara has set a hearing for the application of

Application of Robert Johnson, Agent for Bath Street Partners for a conditional use permit under provisions of Section 28.94 and Section 28.54.030.3 (3) and 28.94.030.34 J&K of Title 28 of the Muicipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to City Parcel 37-152-28, located at 310 West Haley Street in a C-P restricted commercial zone in order to permit a portion of an existing service station to be converted into a mini-market, having 1,490 square feet of floor area; and to not provide the required screening for the existing restrooms, nor to provide the required fence, six (6) feet high abutting a vacant parcel at the rear of the existing service station.

The above notice is sent to you because your property is within 450 feet of the property in this request. If you have any question in regard to the above, please call 963-1663, Extension 51.

DATE: NOVEMBER 20, 1980

TIME: The Planning Commission meeting will commence at 1:00 p.m.

PLACE: Council Chambers
City Hall

The Planning Commission will hear the agenda items in the order that they appear on the agenda.

NOTE: Continuances will not be granted unless there are exceptional circumstances.

(2) On corner lots, a minimum of one hundred fifty square feet of planter area shall be provided on the property adjacent to the corner intersection;

(3) At least ten percent of the area not covered by buildings on the parcel shall be landscaped.

j. Rest Rooms. The entrance to all rest rooms shall be screened from abutting properties by a decorative screen.

k. Fencing. A decorative fence six feet in height from finished grade shall be provided on all property lines that do not abut a street, alley or parking area, with the exception that a fence may not be required for a service station that is an integral part of a commercial, industrial or office center or where combined landscaping will be achieved with such adjacent properties.

l. Operations and Storage.

(1) Repair of vehicles is only permitted within an enclosed building;

(2) All servicing of vehicles other than the minor servicing shall be conducted within an enclosed building;

(3) All materials, products and merchandise shall be stored and displayed only within an enclosed building;

(4) No used or discarded automotive parts or equipment or visible junk or wrecked vehicles shall be located or stored outside the service station building;

(5) Trash shall be stored in areas screened from public view by a fence with a minimum height of six (6) feet. Trash shall not be stored or piled above the height of the fence.

m. Fire Department Approval. Prior to the issuance of any building permit for a service station or any portion thereof, the Fire Department shall review the plans and approve said plans if they comply with applicable Fire Department ordinances and regulations.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SECTION 5. Subsection 3 (2) of Section 28.63.030 pertaining to the C-1 Zone is amended to read as follows:

3. Any of the following uses:

. . .

(2) Automobile service station or automobile service station/mini-market, and accessory uses, limited to incidental tire and tube repairing, battery servicing, automobile lubrication and other minor automotive service within the building not including auto body repair with a conditional use permit issued pursuant to Subsection 28.94.030.34 of this Code.

SECTION 6. Subsection 3 (4) of Section 28.66.030 pertaining to the C-2 Zone is amended to read as follows:

3. Any of the following uses:

. . .

(4) Automobile super service station or automobile service station/mini-market including automobile laundry or car wash and auto steam cleaning establishment provided that all tire and tube repairing, battery, servicing, and steam cleaning shall be conducted wholly within a building with a conditional use permit issued pursuant to Subsection 28.94.030.34 of this Code.

SECTION 7. Subsection 4 is added to Section 28.87.205 and reads as follows:

4. Compliance with Section 28.87.205 shall not be required for automobile service stations and automobile service station/mini-markets that have a conditional use permit issued pursuant to Subsection 28.94.030.34 of this Code.

SECTION 8. Subsection 34 is added to Section 28.94.030 and reads as follows:

34. Automobile service station, automobile service station/mini-market or conversion to an automobile service station/mini-market shall be subject to the following conditions, standards and limitations:

a. Conditions. Specific conditions may be imposed to carry out the purposes of this Code.

b. Lot area. The minimum area of the parcel or lot shall not be less than 8,000 square feet.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

5. SCOPE OF ENVIRONMENTAL IMPACT REPORT:

SB-76-80 Regional Wastewater Reclamation Study: A joint powers agreement between the City of Santa Barbara; the Carpinteria County, Montecito, Montecito County and Summerland County Water Districts and the Carpinteria and Summerland Sanitary Districts. The study will evaluate the feasibility of using reclaimed wastewater for landscape irrigation, agriculture irrigation and groundwater recharge in the south coastal region of Santa Barbara County.

COMMITTEE ACTION

Dreier/Anderson to concur with staff recommendation on scope of EIR. 3-0

6. REQUEST FOR RECONSIDERATION:

SB-75-80 Southwest Corner of De la Vina and Nogales Streets: A proposal by Audax, agent for Dr. Gregory Dahlen to construct a 30,500 square foot, three (3) story condominium project consisting of medical offices and one (1) two-bedroom apartment on Assessor's Parcel Nos. 25-112-80,-09 and -10. Forty-eight (48) surface and seventy (70) sub-surface off-street parking spaces to be provided. Existing residence to be removed. Current zoning is C-0.

Anderson/Chase This matter will be placed on the agenda for October 31, 1980. This shall be the only reconsideration on this project by the ERC. 2-0-1 Dreier abstaining.

7. EX-AGENDA ITEMS:

The meeting adjourned at 3:45 p.m.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

INITIAL PUBLIC HEARINGS (CONTINUED)

SB-79-80 112 W. Mason Street: A proposal by Peter Koelsch to construct a three (3) unit condominium project consisting of two (2) one-bedroom and one (1) two-bedroom three (3) story units on Assessor's Parcel No. is 33-073-05. Total land area is 6,250 square feet. Current zoning is R-4.

Dreier/Anderson Project be continued to 10/31/80 for Phase I archaeological study to be completed. 3-0

SB-80-80 310 W. Haley Street: A proposal by Robert Johnson, agent for Bath Street Partners to convert the Bath-Haley Shell station to a 1,490 square foot mini-market on Assessor's Parcel No. 37-152-28. Total land area is 18,000 square feet. Eight (8) off-street parking spaces to be provided. Current zoning is C-P.

Anderson/Dreier Requested that a Negative Declaration be prepared with the following conditions: 1) Traffic study or report be submitted to determine best access and restrictions for driveways & parking layout 2) Bicycle facilities be provided, 3) additional landscaping be provided to screen building, 4) unused raised concrete island be removed, 5) CUP should be reconsidered after two years. Concern expressed over metal building. 3-0

SB-81-80 695 Coyote Road: A proposal by Lenvik & Minor, agents for Thomas D. Soule to subdivide Assessor's Parcel No. 21-141-06 into two (2) single family residential lots consisting of 1.13 and 2.03 acres. The total land area is 3.16 acres. Current zoning is A-1.

Anderson/Dreier requested that a Negative Declaration be prepared with the following conditions: 1) No residence until a fire hydrant is installed and approved by Fire Dept., 2) Consider upgrading culvert and energy dissipater as determined by Engineering Report, 3) A geologic report to determine location of any site faults or trace faults; 4) Existing eucalyptus trees should be preserved. Trees removed should be replaced on a 1 to 1 basis; 5) Driveway to be upgraded as per Public Works Dept. standard 3-0

SB-82-80 520 E. Montecito Street: A proposal by J. William Beaver, agent for Ambrose Mill and Lumber Co. to construct a 113,050 square foot business center consisting of four (4) one and two story buildings on Assessor's Parcel No. 17-030-01. Proposed uses are Service-Commercial and Service-Manufacturing. Total land area is 5.97 acres. 272 off-street parking spaces to be provided. Current zoning is M-1.

Anderson/Dreier Finding of potential significant adverse environmental effects and requested a focused EIR to investigate construction related & cumulative impacts of traffic in area, including current traffic counts, anticipated traffic, and mitigation measures for traffic problems. 3-0

SB-83-80 536 E. Arrellaga Street: A proposal by Leifer/Marter Architects, agent for Drs. William Gabriel and Gregory Patchett, to construct a 5,766 square foot three (3) story medical office building on Assessor's Parcel No. 27-260-10. A total of eighteen (18) off-street parking spaces provided on site and on the adjacent property. Existing residence and structures to be removed. Current zoning is C-0.

Anderson/Dreier Continued to 10/31/80 3-0

SB-84-80 411 W. Pueblo Street: A proposal by Leifer/Marter Architects, agent for Dr. William Arnett, to construct a 3,000 square foot three (3) story medical office building on Assessor's Parcel No. 25-171-06. Twelve (12) off-street parking spaces to be provided. Existing residence and other structures to be removed. Current zoning is C-0.

Anderson/Dreier Project to be continued to 10/31/80 for additional architectural profiles and to ABR for concept review. 3-0

SB-85-80 Northeast Corner of Cliff Drive and Weldon Road: A proposal by Designworks, agent for La Verde, Inc., to construct a fifteen (15) unit garden apartment condominium project on Assessor's Parcel Nos. 35-232-01, -02 and -03. Project consists of seven (7) two-bedroom and eight (8) three-bedroom three story units. Thrity-five (35) off-street parking spaces to be provided. Current zoning is R-2. A fifteen (15) unit duplex and single family unit subdivision known as Arroyo Springs has already been approved by the City on this site.

Anderson/Dreier Requested that a Negative Declaration be prepared with following conditions: 1) Height of buildings to minimal impact neighbor's view, 2) An acceleration or turn pocket on Cliff Drive, 3) City to consider timed parking along Weldon if possible, 4) Driveway protection barriers to be provided, 5) The corner undeveloped lot will be maintained by homeowner's ass'n, 6) Lighting of park area will be low intensity, 7) All removed trees will be replaced 1:1, 8) Retaining wall will be built and landscaped to minimize visual impact through landscaping & material type 9) Applicable conditions imposed by Planning Commission on original project should be adhered to. Applicant commended on greatly improved design. 3-0

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

c. Street frontage. Each lot shall have a minimum frontage of not less than one hundred feet on one abutting street.

d. Architecture. The architecture of the service station structures and landscaping shall be reviewed and approved by the Architectural Board of Review. The architectural theme shall be integrated into the design of all improvements of the site including canopies and fencing.

e. Driveways.

(1) New Service Stations. For service stations constructed after the effective date of this Subsection, driveway entrances to the service station shall not be within twenty (20) feet of the curb return (beginning of curve) on corner lots;

(2) Existing Service Stations. For driveway entrances of service stations that have been constructed prior to the effective date of this Subsection, relocation of driveway entrances may be required to minimize interference with the movement and safety of vehicular and pedestrian traffic.

f. Internal Circulation. Where access from an internal circulation system of a shopping center or public parking area is available, direct street access to a service station may be prohibited or restricted.

g. Parking. Parking shall conform to the minimum parking requirements as outlined in 28.90.100 or a minimum of five (5) parking spaces shall be provided or one parking space for each 250 square feet of gross floor area used for mini-market use and one space for each employee shall be provided; whichever is greater.

h. Lighting. Any perimeter flood lighting shall be hooded or shielded so that no direct beams fall upon adjacent residential property. Indirect soft lights and low garden lights shall be used wherever possible, and shall be required as necessary to assure compatibility with adjacent and surrounding properties.

i. Landscaping. All landscaped areas shall be as follows:

(1) A planter shall be provided along all street-side property lines except for driveway openings;

APPLICATION TO THE CITY OF SANTA BARBARA PLANNING COMMISSION

TYPE OF REQUEST: (circle appropriate item) ~~Modification, Special Use Permit, Variance,~~ Conditional Use Permit, ~~Rezoning~~, Site Plan Approval

DATE RECEIVED: _____

I hereby request approval of a mini-market conversion under provisions of Section(s) XXXXXXXXXX or Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to Parcel No. 37-152-28, which is located at 310 West Haley Street, in the City of Santa Barbara in a CP Zone.

I desire this CUP & Site Plan Approval (type of request) in order to: (be specific) CUP 200.00 CHEK 200.00 TL

convert the interior service bays of the existing service station to mini-market use 6402 00 1 10/28/80

Reason for request: (attach a separate letter if necessary) Proper zoning.

Public convenience-will make a market available in neighborhood at extended hours. Improved traffic control, reduced noise, reduced bright lights.

Letter Attached: Yes _____ ~~No~~ X

Signed: Robert E. Johnson, Architect (Authorized Agent)

Address: 729 De la Guerra Plaza

Santa Barbara ZIP 93101

Phone No: 965-5189

Signed: Bath Street Partners (Owner)

Address: 510 Castillo Street

Santa Barbara ZIP 93101

Phone No: 963-6802

I hereby authorize the above person(s) to act as my agent(s) in all matters pertaining to this modification application.

SEE ATTACHED LETTER

THE FOLLOWING MUST BE FILED BEFORE THE APPLICATION CAN BE PROCESSED: (Also see reverse side)

1. Application Form, one (1) copy.
2. Filing Fee, in the following amount:

   Modification - $100.00 per lot
   Special Use Permit - $50.00 for each additional dwelling unit
   Variance - $200.00 plus $10.00 for each additional lot
   Conditional Use Permit - $200.00 plus $10.00 for each additional lot
   Rezoning - $500.00 plus $10.00 for each additional lot
   Site Plan Approval - No fee

3. Ownership List, as set forth on the attached list. Not required for site plan approval.
4. Six (6) copies of plans, (except rezoning applications) containing information as set forth on the back of the application. Rezonings require two (2) copies of the assessor's parcel map with the properties proposed for rezoning marked in red.
5. Transparency- 8½" x 10" size
6. Evidence that the Environmental Assessment has been completed.
7. Justification of the particular request as set forth on the back of the application.

NOTE:

Regular Planning Commission meeting days are the first and third Thursdays of each month. The deadline for filing all of the items listed below is 5:00 p.m. on the 23rd day preceding the Planning Commission meeting day at which this request is to be heard. The deadline days regularly occur, therefore, on Tuesdays, and on a Monday when Tuesday is a holiday.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

CHECK LIST

1. Application is on the [redacted] side of this form.

2. Filing Fee, see front of application.

3. Ownership List, attached

4. Six (6) copies of a site plan drawn to scale (8½" x 11" sheet or multiple thereof) and showing:
   a. Dimensions of the lot(s) including street locations and net lot area, where applicable.
   b. Dimensions of existing and proposed buildings and structures showing setbacks from property lines.
   c. Layout and dimensions of parking and driveways showing number of parking spaces.
   d. Identification and dimensions of any proposed changes.
   e. Landscape plan to show the following:
      (1) All areas to be landscaped including areas to be left in natural condition.
      (2) All proposed and existing trees with those to be removed so indicated.
   f. Scale and North arrow.

5. Transparency 8½" x 10"

6. Negative Declaration, Environmental Impact Report, or Statement that item is categorically exempt.

7. Justification. In order to approve a request the Planning Commission must make the appropriate findings. The applicant must provide this information.
   a. MODIFICATIONS
      (1) The granting of a modification of yard, or lot area regulations is necessary to secure an appropriate improvement on the property, to prevent unreasonable hardship, or to promote uniformity of improvement.
      (2) The granting of a modification of fence, wall, or hedge regulations is necessary to secure an appropriate improvement on the lot in question.
      (3) The granting of a modification of parking requirements will not be inconsistent with the purposes and intent of the Zoning Ordinance.

   b. SPECIAL USE PERMIT
      (1) The special use permit is necessary to secure an appropriate improvement on the property, to prevent unreasonable hardship, or to promote uniformity of improvement

   c. VARIANCE
      (1) There are exceptional or extraordinary circumstances or conditions applicable to this property, or to the intended use thereof, that do not apply generally to the property or class of use in the same zone or vicinity.
      (2) The granting of the requested variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or vicinity in which this property is located.
      (3) The requested variance is necessary for the preservation and enjoyment of a substantial property right of the applicant; said property right being possessed by other property in the same zone and vicinity.
      (4) The granting of this variance will not adversely affect the comprehensive general plan.

   d. CONDITIONAL USE PERMIT
      (1) Such use is deemed essential or desirable for the public convenience and welfare and is in harmony with the General Plan.
      (2) Such use will not be materially detrimental to the public peace, health, safety, or general welfare and will not materially affect property values in the neighborhood involved.
      (3) This commission approves the location and site development plans, drawings of buildings and landscaping of the proposed use.
      (4) The proposed use is one permitted in the zone for which it is proposed, upon the granting or a conditional use permit.

   e. REZONING
      (1) That the rezoning is in the public necessity, convenience, general welfare, or is good zoning practice.

   f. SITE PLAN APPROVAL

      No specific findings are required.

City Planning Department
May 9, 1966

TO: MAYOR AND CITY COUNCIL

FROM: CITY PLANNING COMMISSION

SUBJECT: C-P plot plan for service station at 310 West Haley Street. Shell Oil Company, applicant. B. Murray and G. Castagnola, owners.

Recommendation: The City Planning Commission unanimously voted to recommend approval of the plot plan labeled "Exhibit A" subject to elimination of the pump on the Bath Street frontage of the property.

Discussion: The Planning Commission recalled another Shell service station at Mission and De la Vina Streets which had a problem with a third pump being too close to a street corner, and it had to be eliminated. The Commission felt that since the applicants own additional property to the north that they could provide more room for the pumps.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

City Planning Department
May 9, 1966

TO: MAYOR AND CITY COUNCIL

FROM: CITY PLANNING COMMISSION

SUBJECT: Application of Bartley T. Murray for a modification of provisions of Section 15.04-1 of the zoning ordinance, as applied to City Parcels 37-152-17, 18 and 19, located at 310 W. Haley Street in a C-P zone, in order to construct a service station without providing the 40 ft. service road required by ordinance. (Mrs. Halen Janes appeal)

Recommendation: Approval

The Planning Commission voted 5 to 2 to recommend approval of the subject modification based on the reason that "the service or frontage road as required by ordinance is not needed in order to best serve the anticipated development of this area".

Location: The proposed station site is located at the northwesterly corner of the intersection of Bath Street and Haley Street near the Haley-Castillo-101 Highway underpass. The site is a combination of parcels 17, 18 and 19. A lot line adjustment will be requested for parcel 17. Applicant also owns adjacent parcels to the north on Bath Street.

Existing: 1) Existing residences on the site are to be removed.
2) Access from the Freeway is by northbound Bath Street off-ramp and return to the Freeway by the northbound Haley Street on-ramp.

Proposed: Applicant proposes to construct a service station with access on both Bath and Haley Streets. A 3-bay station is proposed which requires 9 parking spaces. Modification or relief from the 40 foot service road as required by ordinance is requested. The pump islands would be placed in this 40 foot area and no service road or continuous frontage road is proposed.

The Planning Staff has discussed the need or desirability of providing such a service or frontage road in this C-P area and does not believe such a road to be needed.

The projected northerly extension of the Castillo underpass connection to De la Vina Street has been checked with thePublic Works Dept. and they have reported that the proposed extension will not interfere with the subject property.

APR 26 1966

Set date May 10, 1966 for hearing.

311 Mellifont Ave.
Santa Barbara, Calif.
April 25, 1966

The Mayor and City Council of Santa Barbara
City Hall

Gentlemen:

I wish to appeal a decision by the Planning Commission on April 21, 1966, which granted the following application:

MODIFICATION:

e. Application of Bartley T. Murray for a modification of provisions of Section 15.04-1 of City Zoning Ordinance 2585, as applied to City Parcels 37-152-17, 18 and 19, located at 310 W. Haley Street in a C-P restricted commercial zone, in order to construct a service station without providing the 40 ft. service road required by ordinance.

I enclose a scale map of the 300-block of W. Haley Street, the inked lines indicating the C-P area of more than an acre bisected by a 15-ft. alley which the proposed Shell Oil Station proposes to use for a service road. This alley opens onto Haley Street, a very busy non-parking thorefare.

I pointed out this hazardous situation to the Planning Commission on April 21 and was over-ruled at that time. I therefore submit to you that a 40-ft service road is a necessity as recognized by the law under Zoning Ordinance 2585.

Please notify me as to when I may appear before you regarding this matter.

Yours truly

Helen G. Janes

Mrs. Helen G. Janes

RE: APPEAL
ZONING ORD. 25[illegible]

H JANES
311 MCLEMONT

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

RESOLUTION NO. 36

SUBJECT:

Application of Bartley T. Murray for a modification of provisions of Section 15.04-1 of City Zoning Ordinance 2585, as applied to City Parcels 37-152-17, 18 and 19, located at 310 W. Haley Street in a C-P restricted commercial zone, in order to construct a service station without providing the 40 ft. service road required by ordinance.

WHEREAS, the City Planning Commission has held the required public hearing on the above application; and

WHEREAS, 0 persons appeared to speak in favor of the application and 1 persons appeared to speak in opposition thereto, and the following exhibits were presented for the record:

a. Revised plot plan labeled "Exhbit A".

WHEREAS, the matter having been fully considered by this Commission and 6 Commissioners having viewed the subject property, the Planning Commission finds as follows:

1. The service or frontage road as required by ordinance is not needed in order to best serve the anticipated development in this area.

NOW, THEREFORE IT IS RESOLVED that the City Planning Commission hereby approves the subject request, subject to the following conditions:

a. Refer to C-P plot plan approval letter.

Passed and adopted this 21 day of April, 1966, by the Planning Commission of the City of Santa Barbara, by the following vote:

AYES:	5	Abstained:	0
NOES:	2	Absent:	2

CITY PLANNING COMMISSION
SANTA BARBARA, CALIFORNIA

I hereby certify that the above Resolution was adopted by the Santa Barbara City Planning Commission at its meeting of the above date.

Mary Louise Days
Secretary

NOTE: This action of the City Planning Commission shall become effective 10 days from date of mailing of this resolution copy, unless appealed to City Council within that time, and shall remain in effect thereafter unless the conditions have not been met or unless the modification is unused, abandoned or discontinued for a period of 6 months.

April 26, 1966

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

4e. MURRAY MODIFICATION

RECOMMENDATION: Approval

The service or frontage road as required by ordinance is not needed in order to best serve the anticipated development in this area. Therefore the proposed location of the pump islands and building is not objectionable.

Note: As a separate action from the above, it is recommended that the staff be instructed to prepare an ordinance amendment for Section 15.04 which would make the service or frontage road optional at the recommendation of the Planning Commission instead of mandatory as the ordinance now reads.

Staff Recommendation
4-21-66

See C-P plot plan file for that recommendation

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

City Planning Commission
Staff Report
April 21, 1966

4e. MURRAY (CASTAGNOLA) MODIFICATION request at 310 W. Haley Street in a C-P restricted commercial zone, in order to construct a service station without providing the 40 ft. service road required by ordinance. Also C-P plot plan approval as requested by Shell Oil.

LOCATION: The proposed station site is located at the northwesterly corner of the intersection of Bath Street and Haley Street near the Haley-Castillo-101 Highway underpass.

Note: Subject station site is a combination of parcels 17, 18 and 19. A lot line adjustment will be requested for parcel 17. Applicant also owns adjacent parcels to the north on Bath St.

EXISTING:

1) Existing residences on the site are to be removed.

2) Access from the Freeway is by northbound Bath Street off-ramp and return to the Freeway by the northbound Haley Street on-ramp.

PROPOSED: Applicant proposes to construct a service station with access on both Bath and Haley Streets. A 3-bay station is proposed which requires 9 parking spaces. Modification or relief from the 40 foot service road as required by ordinance is requested. The pump islands would be placed in this 40 foot area and no service road or continuous frontage is proposed.

The Planning Staff has discussed the need or desirability of providing such a service or frontage road in this C-P area and does not believe such a road to be needed.

The projected northerly extension of the Castillo underpass connection to De la Vina Street has been checked with the Public Works Dept. and they have reported that the proposed extension will not interfere with the subject property.

CITY OF SANTA BARBARA
PUBLIC WORKS DEPARTMENT
APRIL 4, 1966

TO: Jack E. Leaman, Planning Director
City Planning Commission

FROM: R. D. Hogle, Public Works Director

SUBJECT: Planning Commission Agenda of April 7, 1966

The following COMMENTS, NOT RECOMMENDATIONS, are made for information purposes on the particular items as they appear on the Commission agenda:

Item 2a.

General topography of the area is rolling hillside with several deep ravines. This condition has resulted in slow development of the area with extremely limited public improvements. The majority of the area is unsewered and served by private sewage disposal facilities. Rametto Road and Summit Road are each substandard City streets with approximately 14 to 20 foot wide pavement.

Item 2b.

Indio Muerto Street and Alisos Street are each substandard City streets. Indio Muerto Street is improved with paving but no concrete improvements. Alisos Street is totally unimproved. Any discussion of abandonment of Alisos Street should include the understanding that such abandonment is subject to approval by the State Division of Highways since the affected properties would be left with no other access than the U.S. 101 on-ramp.

Item 2c.

Maricopa Drive is planned for an extension westerly to tie into Mesa Verde Drive and possibly Pesetas Lane.

Item 5a.

The extension of the Castillo Street underpass to tie into De La Vina Street will not interfere with subject property.

R. D. Hogle
Public Works Director

SANTA BARBARA CITY PLANNING COMMISSION

APPLICATION FOR MODIFICATION

Date Filed: _____ Request for _____ $15 Fee Paid

Address of Property Involved: 310 West Haley at Bath Street

City Parcel No.: 37 - 152 - 17, 18 and 19

Zone Classification: C-P

Provisions of Ord. 2585 to be modified: 15.04-1

NOTE: The following must be complied with or application will be rejected as incomplete:

Submit Two (2) Copies of Application and of a Plot Plan Showing:

1. Lot Dimensions
2. Setbacks & Dimensions of all Structures
3. Street frontage(s)
4. Identification & Dimensions of any Proposed Changes
5. Scale and North Arrow
6. Parking design & Dimensions

Specific Request:

(Parking or Loading Area Requirements, Height, Yard, Lot Area, Fence, Wall or Hedge Regulations)

Construct a service station without providing the 40 foot service road required.

Reason for Request: (In certain cases, a separate letter giving detailed explanation is recommended)

This provision of CP Zone should not apply as owners and City Planning Staff agree this is not best type of development for this property.

ATTN: Dan McLaughlin

RE: 315 W. Haley St.

Dear Dan:

The installation of the ductwork on Suite E of above referenced address required one change in duct size from the approved plans. The size of duct out of the furnace and the return air duct have to be reduced from twenty inch (20") diameter to eighteen inch (18") diameter for a short distance from the furnance in order to clear the steel beam overhead. This reduced size is only for a short distance and the resulting increase in static pressure is not significant and is an acceptable change from the approved plans.

Sincerely,

LENVIK & MINOR, ARCHITECTS

Kenneth O. Minor, AIA

DECLARATION OF COVENANTS, CONDITIONS AND RESTRICTIONS

IMPOSED ON REAL PROPERTY

THIS DECLARATION of covenants, conditions and restrictions is made for the benefit of the City of Santa Barbara (hereinafter "City"), by HALEY LAND COMPANY, a general partneship (hereinafter "Owner"), as of this 21st day of December, 1983.

1. Owner is the owner of certain real property pursuant to a Lease, the recorded Memorandum of which is attached hereto as Exhibit "A." The real property described in the Memorandum shall be referred to as the "Real Property."

2. Owner sought a discretionary development approval for the Real Property from City's Planning Commission.

3. On July 7, 1983, said Planning Commission granted Owner an approval subject to the recordation of certain conditions which were imposed for the benefit of the public.

4. In consideration of the issuance of said approval and of the benefit conferred thereby on the Real Property, Owner hereby covenants and agrees with the City to impose the following terms, conditions, restrictions and limitations upon the possession, use and enjoyment of the Real Property:

(a) So long as the enclosure of office space as approved by the Planning Commission on July 7, 1983, continues, Owner shall provide not less than thirty-four (34) vehicular spaces for use by the occupants and invitees of the building for which such approval was given. Such spaces shall be provided in the vicinity of the Real Property in compliance with applicable City ordinances.

Optically SCANNED

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

(b) The uses of the property shall be limited to general office purposes, in accordance with applicable zoning regulations, and shall exclude any use for any purposes related to the practice of medicine involving the visits by patients to the premises.

5. Owner hereby declares that the Real Property is held and hereafter shall be held, conveyed, hypothecated, encumbered, leased, rented, used, and occupied subject to the above-referenced covenants, conditions, restrictions and limitations, all of which are declared and agreed to be in furtherance of Owner's interest. All of the above-stated covenants, conditions, restrictions and limitations are intended to constitute both equitable servitudes and covenants running with the land.

6. Any purchaser of the Real Property, by the acceptance of a deed therefor, whether from Owner or from any subsequent owner of the Real Property, or by the signing of a contract or agreement to purchase the same, shall by the acceptance of such deed or by the signing of such contract or agreement, consent to and accept the covenants, conditions, restrictions and limitations set forth herein.

7. This Declaration shall be binding upon the successors and assigns of Owner and the heirs, personal respresentatives, grantees, lessees, sublessees, contract purchasers, and assignees of Owner and any subsequent owner of the Real Property.

8. It is further agreed that said covenants, conditions, restrictions and limitations may be cancelled in their entirety or in their application to any portion of said Real Property only by mutual agreement of any successor in title to the Real Property, or portion thereof, and City.

IN WITNESS WHEREOF, the Owner hereto has executed this Declaration on the day and year first above written.

DEC 20 1983 #2

DECISION AND FINDINGS OF THE SANTA BARBARA CITY COUNCIL WITH RESPECT TO DENIAL OF AN APPEAL AND APPROVAL OF A NON-RESIDENTIAL USE IN A RESIDENTIAL ZONE CONCERNING THE PROPERTY AT 315 WEST HALEY STREET.

WHEREAS, on July 7, 1983 the City Planning Commission conducted a public hearing concerning the application of Lenvik and Minor, as agent for Liselotte McFarland, for 1) a conditional use permit under the provisions of Section 28.94.030.10 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit an office complex to provide thirty-four (34) required off-street parking spaces on an adjacent residentially zoned (R-4) property; and 2) a modification of provisions of Section 28.90.100.10a of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit thirty-four (34) off-street parking spaces instead of the required forty-three (43) spaces concerning Assessor's Parcel No. 37-192-01 and a previously state-owned parcel having no parcel number assigned located at 315 West Haley Street (hereinafter sometimes referred to as "Project Site") in a C-P Restricted Commercial Zone and a R-4 Hotel-Motel Multiple Family Residence Zone; and

WHEREAS, at said public hearing a number of persons spoke in favor and in opposition to the proposal; and

WHEREAS, on said date the Commission approved said applications with conditions; and

WHEREAS, on July 13, 1983, the applicant appealed the portion of Condition D of the Planning Commission's decision to the City Council, which stated: "[N]o medical office use shall be permitted"; and

WHEREAS, the City Council conducted a public hearing on

Digitally SCANNED Document

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

August 23, 1983, reconsidered the matter on August 30, 1983 and conducted another public hearing on September 20, 1983; and

WHEREAS, having reviewed the file in this matter, received and considered testimony from the applicant, the applicant's representative, additional comments from the Planning Commission and other persons both supporting and opposing the application;

NOW THEREFORE, the City Council does determine and find as follows:

A. The appeal is denied.

B. The proposed use, with the approved conditions, is approved as a non-residential use in a residential zone.

C. The following findings of fact are made:

1. The application proposed to add approximately 4,000 square feet of floor area to an existing commercial structure of approximately 4,500 square feet.

2. In 1980, the Planning Commission approved a project at 315 West Haley for an office building with approximately 4,500 square feet with parking on the first floor and offices on the second floor.

3. When the Planning Commission approved the plan in 1980, the project was represented as a low traffic generating architects' office. Higher traffic generating uses on the Project Site were considered inappropriate at that time amd are still inappropriate.

4. When the Planning Commission approved the plan in 1980 and granted a modification to permit eighteen (18) parking spaces rather than the twenty-two (22) required parking spaces, a

///

Electronically SCANNED Document

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

condition limited the parcel to office use thereby reducing the need for a higher parking ratio.

5. The proposed addition would add approximately 4,000 square feet of floor area to the existing building by enclosing the ground floor and relocating the parking to adjacent vacant parcels in the R-4 Zone.

6. The Project Site is located on the southeast corner of the congested Castillo/Haley intersection.

7. Left turns will not be permitted into the Project Site from westbound Haley Street and all traffic must enter from the east.

8. Access to eastbound Haley Street is limited to Castillo Street due to the proximity to the Route 101 Freeway.

9. Vehicles that desire to enter the Project Site from the west downtown must make circuitous movements through the adjacent neighborhood.

10. Some individuals rushing for emergency medical treatment may not be in the best state of mind to negotiate difficult driveway ingress and obey all traffic signs.

11. Medical offices are high traffic generators and the Castillo/Haley intersection congestion would be exacerbated by the increased traffic.

12. The exclusion of medical office use is necessary to justify the parking modification because there are no on-street parking spaces adjacent to the Project Site.

Digitally SCANNED Document

D. The following conclusions of law are made:

1. Without all of the attached conditions which are attached hereto and marked Exhibit A, the necessary findings to

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

justify the modification cannot be made.

2. Without all of said conditions, the modification would be inconsistent with the purposes and intent of this title and would cause an increase in the demand for parking space or loading space in the immediate area.

3. Without all of said conditions, all of the findings to justify a conditional use permit cannot be made.

4. Without all of said conditions and limitations,

a. Such use would not be desirable to the public convenience and welfare;

b. Such use would be materially detrimental to the public peace, health, safety and general welfare; and

c. Adequate access and off-street parking is not provided in a manner and amount so that the demands of the development for such facilities are adequately met without altering the character of the public streets in the area at any time.

E. Matter herein expressed as a Conclusion of Law which is later deemed to be a Finding of Fact hereby is found to be a Finding of Fact and any matter herein expressed as a Finding of Fact which is later deemed to be a Conclusion of Law hereby is found to be a Conclusion of Law.

F. Pursuant to Code of Civil Procedure Section 1094.6, this decision may be challenged by filing a petition for writ of mandate within 90 days of the date of approval hereof.

Adopted December 20, 1983

DEC 20 1983 #2

CONDITIONS OF APPROVAL

315 WEST HALEY STREET

A. All conditions of the previous modification apply unless superceded by the following conditions.

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the northbound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

E. Applicant shall secure an encroachment agreement or other appropriate agreement from CalTrans to establish an increased line of sight at the Haley/Castillo Street curve to at least 150 feet.

F. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

Architects Lemmb & Minor : Ken Minor

Subject: Untempered glass being used adjacent to doors and other human impact areas.
Reference: U.B.C. 1979 Section 5401 and 5406(a)

The glazing in question is not tempered glass. The location, size and type of glass is very clear on the approved plans and tempered glass is not called for. Because of this and because of the rigidity of the steel mullions on windows C & F we will accept the windows as installed. We will accept window B adjacent to the door from lease space C with the condition that a substantial mullion be added as per 5406(a) exception 3. We will also accept window A on the N.W. wall facing Haley St. with the condition that a substantial mullion be added as per 5406(a) exception 3.

RE: 315 West Haley

Dear Anna:

Enclosed please find a copy of the approved site plan for the above referenced project, one set of site development drawings for the second phase addition which is currently scheduled to go before the City Council on August 2, 1983, a proposed interim landscape plan and the performance bond.

As you and I discussed, it is our desire to bond for some of the improvements for the current project under construction. I have outlined those areas of finished paving for which we propose to substitute class II base material. This will enable us to proceed with the final parking plan without having to rip out paving within a few weeks. In addition we propose to bond for the landscaping not installed at this time. Landscaping at Haley Street and around the entry will be provided as shown in the enclosed sketch. We therefore ask that the balance of the landscaping be bonded for.

I know that this type of request is not looked on favorably by the City but I feel that the timing of the second phase warrants the bonding of this work. Lenvik & Minor Architects are occupying the upstairs portion and we

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

must vacate our current facilities on or about July 31, 1983.

We anticipate the parking lot improvements for phase II to be constructed within sixty (60) days from the approved date and the whole project to be completed in 160 days.

It is our understanding that the bond should be in the amount of the work plus ten percent (10%). The cost for landscaping is $7,039.00 and paving $2,000.00 for a total of $8,434. The bond amount would therefore be $10,000.00.

Sincerely,

LENVIK & MINOR, ARCHITECTS

RE: 315 West Haley

Dear Anna:

Enclosed please find a copy of the approved site plan for the above referenced project, one set of site development drawings for the second phase addition which is currently scheduled to go before the City Council on August 2, 1983, a proposed interim landscape plan and the performance bond.

As you and I discussed, it is our desire to bond for some of the improvements for the current project under construction. I have outlined those areas of finished paving for which we propose to substitute class II base material. This will enable us to proceed with the final parking plan without having to rip out paving within a few weeks. In addition we propose to bond for the landscaping not installed at this time. Landscaping at Haley Street and around the entry will be provided as shown in the enclosed sketch. We therefore ask that the balance of the landscaping be bonded for.

I know that this type of request is not looked on favorably by the City but I feel that the timing of the second phase warrants the bonding of this work. Lenvik & Minor Architects are occupying the upstairs portion and we

Re: 315 West Haley Street

Carl:

Apparently an issue has arisen during an inspection by your office on the above project about the suitability of the gypsum sheathing on the exterior wall surfaces. Because the board was installed and rained upon, the fireproof integrity was questioned.

Our knowledge and research indicates that, in this case, no problem has occurred. I have spoken to Mr. Walter Pruter of the Lathing and Plastering Bureau and Terry Supple and Ken Chapman of U.S. Gypsum. (Mr. Chapman participated in a seminar given to the City & County officials about 6 months ago and some of your staff may remember this subject being discussed.) His letter regarding this project is enclosed for your information. All of the individuals spoken to indicated that as long as the material has been allowed to dry again and that no significant paper deformation has occurred, the fireproof integrity remains in tact. There are some areas where paper has been torn and the gypsum damaged due to other causes and these areas shall be replaced. However, based on the above information we consider the majority of the installation to be in conformance with UBC requirements

ARCHITECTS

Feb. 18,1983

TO: Lenvik & Minor Architects
Att. Dave Jones
Subject: Wet gypsum board

BIS W. Hatley

Dave, per our conversation on this date,Feb. 18,1983, I will document whar I tild you during our phone conversation.

It is my understanding that type X gypsum board has been applied to a job on 4- East Wanonali St. in Santa Barbara, Ca. and that after the ~~material was~~ applied that the material had gotten wet from a rain. You told me that the material did not have any insulation behind it nor had the felt paper been appled prior to, or since the rain storm. Your question was will the water ruin the the board. The answer is no. If the board has nothing on either side to stop the sun and wind from drying out the core the material in fact would actually gain strength. However if the material was exposed to several days of rain, it is possible that the material could be damaged. In my 35 yrs. experience, 15 as a drywall and lath applicator, and 20 yrs. as as a rep. with USG, I have never had a problem with material that was allowed to sun and wind dry after a moderate rain when it was applied on walls that had been exposed to rain. There is an exception. If the material was vapor sealed on either side then a sweating condition could result in a deterioration of the gypsum board. This is also true when the material is left in units or stacks and allowed to set in or be exposed to several hard rains, or stand in water. The condition you stated that the materila is applied to the structure, and has had good ventilation since the exposure to rain should present no problem whatsoever.

Request for extension of Bldg. Permit # 1059

Dear Mr. Minor:

This office has received your request for an extension of the above referenced permit.

In accordance with the provisions of Section 303 of the Uniform Building Code, your request is hereby approved. The extension granted is for a period of 180 days. The permit will now expire on July 1, 1982. No further extensions can be granted.

Very truly yours,

Carl Brogan

Re: Building Permit 315 West Haley Street

Dear Bill:

This letter is a request for a 180 day extension for the above referenced building permit.

As you are well aware financing for new projects is extremely difficult. Even though we have actively pursued construction financing we have been unable to finalize funding for our office at this time.

Our permit expires January 2, 1982. I would ask for the permit to be extended to July 1, 1982.

Sincerely,

LENVIK & MINOR, ARCHITECTS

Kenneth O. Minor, AIA

Re.: 315 W. Haley

Dear Ms. MacFarlane:

This office has been advised by the Division of Land Use Controls that you are in violation of the Santa Barbara Municipal Code with regard to your property at 315 W. Haley Street. Since the demolition of the building at that address, complaints have been received that trailers and automobiles are being stored on the property. Although you have had numerous communications from the City Zoning Inspector, it is our understanding that you have not complied with the requests to remove the vehicles.

This is to inform you that if no action is taken by you to abate this violation within fifteen days of the date of this letter, a criminal complaint will be filed against you.

Very truly yours,

A. Barry Cappello
City Attorney

Re: 315 W. Haley

Dear Ms. MacFarlane:

This is to remind you that the matter of the illegally stored trailers on the above property has not been resolved. In fact, there is now in addition to the trailers, one or more autos also illegally parked there on.

As per my letter of May 24, 1977, this violation must be abated with no further delay either by removing the trailers or improving the lot to meet City standards.

Trusting you will give the above matter your urgent attention, I am,

Very truly yours,

DIVISION OF LAND USE CONTROLS

RE: 315 W. Haley
Zone C.P.

Dear Mrs. MacFarlane:

Referring to my previous letter to you May 24 last, it was my understanding that you were to arrange for the removal of the illegally stored trailers on your property at 315 W. Haley on or before June 13, 1977.

An inspection of the subject property June 20 disclosed the trailers still stored thereon.

Please take immediate steps to abate this violation of City Ordinance Sec. 28.90.001, paragraph 9 so that legal action on the part of the City to obtain compliance need not be taken.

Very truly yours,

DIVISION OF LAND USE CONTROLS

Leonard P. Prewett

TO: Richard D. Thomas, City Administrator

FROM: Director

SUBJECT: DEMOLITION OF DANGEROUS BUILDING AT 315 WEST HALEY (COUNTY ASSESSOR'S PARCEL 37-192-01)

The subject building, located on the parcel described in Instrument No. 3855, Book 485, Page 262 of Official Records, has been demolished in accordance with the Uniform Code for the Abatement of Dangerous Buildings. The work was done by Villalba Co. for the lump sum price of $1,350.00.

It is requested that the City Clerk file this notice, establish a date and time of a hearing, and that the method of cost allocation be determined by Council to recover the monies expended for demolition from the property owner.

Pursuant to Section 401(c) of the above Code, the following person is entitled to notification of the hearing:

ORDER TO DEMOLISH DANGEROUS BUILDING

TO: Robert Puddicombe, Director of Public Works

FROM: James M. Perry, Building Official

SUBJECT PROPERTY:

Address: 315 West Haley Street

City Parcel No.: 37-192-01

Legal Description: Instrument No. 3855, 3/25/49, Book 485, Page 262, Official Records

Description of Building: Vacant dwelling

You are hereby notified that the above described building has been inspected by the Building Official of the City of Santa Barbara and it is found and determined that such building is a dangerous building under the provisions of Section 302 of the Uniform Code for the Abatement of Dangerous Buildings. The required Notice and Order having been issued and served, and with neither compliance being had within the time specified therein nor appeal timely made, demolition of subject structure is hereby ordered.

Under the provisions of Section 801 of the Uniform Code for the Abatement of Dangerous Buildings, this order is issued to the Director of Public Works of the City of Santa Barbara, the work to be accomplished by City personnel or by private contract under the direction of the Director. The cost of this work shall be paid from the Repair and Demolition Fund. For further details regarding performance of work and recovery of cost please refer to Chapters 8 and 9 of the Uniform Code for the Abatement of Dangerous Buildings.

NOTICE AND ORDER

To: Ms. Liselotte M. MacFarlane

405 Wyola Road

Santa Barbara, California 93105

Subject Property:

Address: 315 West Haley Street

City Parcel No.: 37-192-01

Legal Description: Instrument No. 3855, 3/25/49, Book 485, Page 262, Official Records.

Description of Building: Vacant dwelling

You are hereby notified that the above described building has been inspected by the Building Official of the City of Santa Barbara and it is found and determined that such building is a dangerous building under the provisions of Section 302 of the Uniform Code for the Abatement of Dangerous Buildings. The conditions found to render the building dangerous include, but may not be limited to:

Structural deterioration; an attractive nuisance to children; a harbor for vagrants; health and fire hazards.

The Building Official has determined that subject building must be demolished, or, at owner's option, repaired in accordance with the City's Building Codes. You are hereby ordered to secure the required permits to accomplish the demolition or repair within sixty (60) days of the date of this order, and to complete the demolition or repair

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

within ninety (90) days of the date of this order.

If the required work is not completed within the time specified above, the Building Official will proceed to cause the work to be done and charge the costs thereof against the property or its owner.

Any person having any record, title, or legal interest in subject building may appeal from this Notice and Order to the Board of Appeals, provided that the appeal is made in writing as provided in the Code, and filed with the Building Official within thirty (30) days from the date of service of this Notice and Order. Failure to appeal will constitute a waiver of all right to an administrative hearing and determination of the matter, and this Order shall thereupon become final. Any person who fails to comply with such final order is guilty of a misdemeanor and the Building Official may cause such person to be prosecuted.

Liselotte M. MacFarlane
405 Wyola Road
Santa Barbara, California 93105

Subject: 315 West Haley Street

Reference: Our notices dated February 3, 1970, April 30, 1973, August 29, 1973, September 18, 1973, June 11, 1975, and July 21, 1975

Dear Mrs. MacFarlane:

Reference is made to our two latest notices to you in which the dwelling structure on your property at the above subject location was declared a nuisance and ordered to be closed to entry. A recent visit to the site disclosed that the structure is again open to entry. Further, the dwelling structure on your property constitutes a fire hazard and a hazard to public welfare by reason of dilapidation and abandonment as specified by City of Santa Barbara Ordinance 3827 - Building Code, and is hereby declared to be a public nuisance. Accordingly, this public nuisance shall be abated by rehabilitation or demolition.

Such rehabilitation or demolition operations shall commence within ten (10) days of the date of this notice and shall be completed within ninety (90) days from the commencement thereof. If such operations are not commenced as ordered, the demolition of the structure may be ordered by this office and the cost, plus 10% for administrative overhead, shall constitute a special assessment against the property and shall be added to the next regular bill of taxes levied against the lot.

Very truly yours,

Philip W. Healey
Acting Building Officer

Chapter 8
PERFORMANCE OF WORK OF REPAIR OR DEMOLITION

General

Sec. 801. (a) Procedure. When any work of repair or demolition is to be done pursuant to Section 701 (c) 3 of this Code, the Building Official shall issue his order therefor to the Director of Public Works and the work shall be accomplished by city personnel or by private contract under the direction of said Director. Plans and specifications therefor may be prepared by said Director, or he may employ such architectural and engineering assistance on a contract basis as he may deem reasonably necessary. If any part of the work is to be accomplished by private contract, Standard Public Works contractual procedures shall be followed.

(b) Costs. The cost of such work shall be paid from the Repair and Demolition Fund, and may be made a special assessment against the property involved, or may be made a personal obligation of the property owner, whichever the City Council shall determine is appropriate.

Repair and Demolition Fund

Sec. 802. (a) General. The City Council shall establish a special revolving fund to be designated as the Repair and Demolition Fund. Payments shall be made out of said fund upon the demand of the Director of Public Works to defray the costs and expenses which may be incurred by the city in doing or causing to be done the necessary work of repair or demolition of dangerous buildings.

(b) Maintenance of Fund. The Council may at any time transfer to the Repair and Demolition Fund, out of any money in the General Fund of the City, such sums as it may deem necessary in order to expedite the performance of the work of repair or demolition, and any sum so transferred shall be deemed a loan to the Repair and Demolition Fund and shall be repaid out of the proceeds of the collections hereinafter provided for. All funds collected under the proceedings hereinafter provided for, shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund.

APPROVED

Chapter 9
RECOVERY OF COST OF REPAIR OR DEMOLITION

Account of Expense, Filing of Report: Contents

Sec. 901. The Director of Public Works shall keep an itemized account of the expense incurred by the city in the repair or demolition of any building done pursuant to the provisions of Section 701 (c) 3 of this Code. Upon the completion of the work of repair or demolition, said Director shall prepare and file with City Clerk a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the building or structure is or was located, and the names and addresses of the persons entitled to notice pursuant to subsection (c) of Section 401.

Report Transmitted to Council—Set for Hearing

Sec. 902. Upon receipt of said report, the City Clerk shall present it to the City Council for consideration. The City Council shall fix a time, date and place for hearing said report, and any protests or objections thereto. The City Clerk shall cause notice of said hearing to be posted upon the property involved, published once in a newspaper of general circulation in the city, and served by certified mail, postage prepaid, addressed to the owner of the property as his name and address appear on the last equalized assessment roll of the county, if such so appear, or as known to the Clerk. Such notice shall be given at least 10 days prior to the date set for hearing and shall specify the day, hour, and place when the Council will hear and pass upon the Director's report, together with any objections or protests which may be filed as hereinafter provided by any person interested in or affected by the proposed charge.

Protests and Objections—How Made

Sec. 903. Any person interested in or affected by the proposed charge may file written protests or objections with the City Clerk at any time prior to the time set for the hearing on the report of the Director. Each such protest or objection must contain a description of the property in which the signer thereof is interested and the grounds of such protest or objection. The City Clerk shall endorse on every such protest or objection the date it was received by him. He shall present such protests or objections to the City Council at the time set for the hearing, and no other protests or objections shall be considered.

Hearing of Protests

Sec. 904. Upon the day and hour fixed for the hearing the City Council shall hear and pass upon the report of the Director together with any such objections or protests. The Council may make such revision, correction or modification in the report or the charge as it may deem just; and when the

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Council is satisfied with the correctness of the charge, the report (as submitted or as revised, corrected or modified) together with the charge, shall be confirmed or rejected. The decision of the City Council on the report and the charge, and on all protests or objections, shall be final and conclusive.

Personal Obligation or Special Assessment

Sec. 905. (a) General. The City Council may thereupon order that said charge shall be made a personal obligation of the property owner or assess said charge against the property involved.

(b) Personal Obligation. If the City Council orders that the charge shall be a personal obligation of the property owner, it shall direct the City Attorney to collect the same on behalf of the city by use of all appropriate legal remedies.

(c) Special Assessment. If the City Council orders that the charge shall be assessed against the property it shall confirm the assessment, cause the same to be recorded on the assessment roll, and thereafter said assessment shall constitute a special assessment against and a lien upon the property.

Contest

Sec. 906. The validity of any assessment made under the provisions of this Chapter shall not be contested in any action or proceeding unless the same is commenced within 30 days after the assessment is placed upon the assessment roll as provided herein. Any appeal from a final judgment in such action or proceeding must be perfected within 30 days after the entry of such judgment.

Authority for Installment Payment of Assessments with Interest

Sec. 907. The City Council, in its discretion, may determine that assessments in amounts of $500.00 or more shall be payable in not to exceed five equal annual installments. The Council's determination to allow payment of such assessments in installments, the number of installments, whether they shall bear interest, and the rate thereof shall be by a resolution adopted prior to the confirmation of the assessment.

Lien of Assessment

Sec. 908. (a) Priority. Immediately upon its being placed on the assessment roll the assessment shall be deemed to be complete, the several amounts assessed shall be payable, and the assessments shall be liens against the lots or parcels of land assessed, respectively. The lien shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens except for state, county and municipal taxes with which it shall be upon a parity. The lien shall continue until the assessment and all interest due and payable thereon are paid.

(b) Interest. All such assessments remaining unpaid after 30 days from the date of recording on the assessment roll shall become delinquent and

shall bear interest at the rate of 7 percent per annum from and after said date.

Report to Assessor and Tax Collector: Addition of Assessment to Tax Bill

Sec. 909. After confirmation of the report, certified copies of the assessment shall be given to the City Assessor and the City Tax Collector, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for municipal purposes.

Filing Copy of Report with County Auditor

Sec. 910. If the County Assessor and the County Tax Collector assess property and collect taxes for the city, a certified copy of the assessment shall be filed with the County Auditor on or before August 10th. The descriptions of the parcels reported shall be those used for the same parcels on the County Assessor's map books for the current year.

Collection of Assessment: Penalties for Foreclosure

Sec. 911. The amount of the assessment shall be collected at the same time and in the same manner as ordinary municipal taxes are collected; and shall be subject to the same penalties and procedure and sale in case of delinquency as provided for ordinary municipal taxes. All laws applicable to the levy, collection and enforcement of municipal taxes shall be applicable to such assessment.

If the City Council has determined that the assessment shall be paid in installments, each installment and any interest thereon shall be collected in the same manner as ordinary municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for sale as provided for ordinary municipal taxes.

Repayment of Repair and Demolition Fund

Subject: Fire Inspection of 315 West Haley Street - #37-192-01

Dear Mr. MacFarlane:

A fire inspection of the above premises was conducted by this department on June 19, 1975. Several items were found to be in violation of the Uniform Fire Code, Ordinance #3682. The following requirements shall be met in order to comply with this code:

(1) Remove high weeds, trash and piles of combustibles from property. Sec. 27.201 (a)

(2) The structure on the aforementioned property is unsafe and constitutes a fire hazard. All such unsafe buildings are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedure specified in Chapters 4 through 9 of the Uniform Code for the Abatement of Dangerous Buildings or by any other procedures provided by law. Sec. 1.207 (b)

A reinspection will be made on or about July 30, 1975. If there are any questions, please feel free to contact this office.

Your cooperation in this matter will be appreciated.

Yours truly,

R. G. Wickman, Fire Chief

June 11, 1975

Liselotte M. MacFarlane
405 Wyola Road
Santa Barbara, California 93105

Subject: 315 West Haley Street

Dear Mrs. MacFarlane:

A recent inspection of the dwelling structure on your property at the above subject location disclosed the existence of certain substandard conditions. These conditions are defined as substandard by the Uniform Building Code, Volume III - Housing, which is a part of Santa Barbara City Ordinance 3484 - Building Code, and shall be abated by repair or demolition within thirty (30) days of the date of this notice.

Following is a list of corrections to be made in order to make the structure conform to minimum housing requirements:

1) Repair floor structure to eliminate deteriorated flooring and floor supports.
2) Repair exterior and interior wall and interior ceiling covering material to eliminate cracks and holes.
3) Paint exterior walls to provide adequate weather protection.
4) Repair window sash to make operable and replace broken glass.
5) Provide insect screens on all openable windows.
6) Repair exterior doors to prevent dampness and entry of pests.
7) Provide smooth, non-porous floor surface in kitchen.
8) Remove trash and combustibles from interior and yard.
9) Replace lavatory fixture which has been removed from bathroom.
10) Raise water supply spout of bathtub to a height of one inch, minimum, above the rim of the fixture.
11) Cover all exposed electrical wiring at fixtures, including non-metallic sheathed cable on walls, in approved manner.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

The structure is open and accessible and appears abandoned, which defines it as an attractive nuisance. This condition shall be abated within ten (10) days by closing all windows and doors to prevent entry by children. The dwelling was posted as "Unsafe for Human Occupancy" on June 10, 1975, at 10 a.m.

Permits, as applicable, shall be obtained at this office before starting rehabilitation work.

Very truly yours,

DAVID W. WARBURTON
Building Officer

Re: 315 West Haley Street

Dear Ms. MacFarlane:

On January 23, 1970, the structure on your property at the above referenced location was posted "Unsafe for Human Habitation." It is unlawful to occupy this structure pending correction of the condition thereof. A list of the items requiring correction was sent to you on February 3, 1970.

Permits have not been taken from this office to cover any work to be performed on this structure. Your intentions regarding the future disposition of this structure shall be made known to the Building Department within ten days.

In accordance with provisions of the Santa Barbara City Building Code, Ordinance 3484, this substandard building may be declared a public nuisance and shall be abated by repair, rehabilitation, demolition, or removal. Failure to abate the conditions can result in legal proceedings against the owner of such property.

Inquiries on this matter may be directed to the Building Department, 636 Garden Street, Santa Barbara, telephone 966-7171.

Very truly yours,

O. F. Ziebarth
Building Director

CERTIFIED MAIL

Ms. Liselotte M. MacFarlane
405 Wyola Road
Santa Barbara, California 93105

Subject: 315 West Haley Street
Reference: Our letter dated April 30, 1973

Dear Ms. MacFarlane:

Permits shall be obtained at this Department for the abatement work on the above subject property by August 24, 1973. A list of the substandard conditions existing on your property was mailed to you, dated February 3, 1970. Also, the structure was posted as "Unsafe for Human Habitation" on January 23, 1970.

The substandard conditions are a violation of Santa Barbara City Ordinance No. 3484. Failure to abate these conditions is punishable by a fine of not more than Five Hundred ($500.) Dollars or by imprisonment for not more than six (6) months, or both.

Your immediate attention to this matter will be appreciated. Inquiries may be directed to the undersigned Inspector.

Very truly yours,

O. F. ZIEBARTH

Mr. Maurice Dunn
315 W. Haley Street
Santa Barbara, California

Dear Mr. Dunn:

An inspection of your property at 315 W. Haley Street, Santa Barbara, California, revealed that substandard conditions exist.

This building was posted "Unfit for human habitation" on January 2, 1970.

Enclosed are copies of corrections to be made.

Permits for work on some of these items must be obtained from the Building Department, 636 Garden Street, before any work is started.

In lieu of repairs, the structures may be demolished.

Please write or phone this office at 636 Garden Street, Phone 966-7171, for an appointment within ten days, in lieu of a formal hearing.

Very truly yours,

FRANK W. MOORE

Re: 315 W. Haley Street

Dear Sir:

An inspection of the property at the above address reveals that there are six inoperative and unlicensed vehicles on the property.

Chapter 10.58 of the Municipal Code of the City of Santa Barbara states that dismantled or inoperative vehicles on private or public property is declared to constitute a public nuisance.

You are hereby requested to remove the vehicles from their present location within the next ten days, to avoid further action by this Department. You are requested, also, to remove the trash and combustables around the building.

If you have any questions on this matter, please call the Building Department at 636 Garden Street, Santa Barbara.

Very truly yours,

FRANK W. MOORE

RE: Tri-Counties Regional Center, Permit #BLD97-1153

Dear Chris,

I am enclosing our updated plans for the above referenced project. These have now been revised per the City plan check. The following comments should aid in pointing out the changes we have made to the drawings with respect to the plan check. The information in this letter should be forwarded to the plan checker in order to facilitate plan re-check. Please call me if you have any questions. Thank you.

Plan Check Correction List

3. The exit illumination is accomplished through the dotted fixtures suffixed with the "E" designation on sheet E-2 (types A2E, A4E, and BE). I have included a cut sheet of the PS1100 battery pack for the linear fluorescent emergency fixtures. The "EM" designation for type BE indicates an emergency battery pack for the compact fluorescent downlight.

4. The "ELN" suffix on the exit sign specification in the Light Fixture Schedule, on sheet E-1, represents a standby nickel-cadmium battery unit integral to the exit sign. I have included a cut sheet of the specified fixture. A new exit sign has been added to the new exit out of the west wing, on the south wall.

10. Notes have been added to sheet E-2 in order to address the light fixtures in the 1-hour corridor. See note #10 and the Existing Light Fixture note on sheet E-2.

15. The electrical plans are now stamped and signed.

16. Three sets of plans, signed and stamped, are included with this letter for resubmittal.

Sincerely,

Alan J. Noelle, PE

CONSTRUCTION

- 20-gauge, black steel housing permanently sealed. Housing provides extra room for wire routing in ballast channel
- Dual-voltage input capability (120V or 277V)
- Polarized quick-connect pilot light/test switch assembly simplifies installation.

PERFORMANCE

- Operates one or two 2' – 4' fluorescent T8 – T12 lamps (2T8 option required for two T8 operation), one 2 – 4' fluorescent HO, VHO, long compact (biax) or one 6' – 8' fluorescent (T8 –T12) for 90 minutes. Compatible with electronic, rapid start, instant start, slimline, preheat or trigger start ballast in standard or energy-saving configurations.
- Protects against partial or isolated power outages. Low-glare, shadow-free illumination provides excellent visibility for safe building evacuation.
- Unit wires two ways: on night light circuit (permanently energized) or on switchable circuit (unswitched circuit to battery pack and switched circuit to the fixture ballast). Unit will strike "normally off" lamp.

BATTERY

- Sealed, maintenance-free, high-temperature nickel cadmium battery. Ensures long life over wide temperature ranges. 24-hour battery recharge after 90-minute discharge.
- External battery connectors allows battery pack to be disabled for maintenance and installation.
- Pilot light and test switch provide visual and manual means of monitoring system operation. Two ½" holes in fixture channel permit mounting of light/switch in fixture housing or mounting of light behind fixture lens.

ELECTRONIC

- Constant current series resistor-type charger. Capacitive input circuit provides high efficiency and reliable operation.
- High efficiency push-pull inverter is the most effective method of converting DC power to AC power. It provides maximum light output, battery life and reliability.

MOUNTING

- Mounts concealed within fixture wireway for excellent aesthetics and protection against vandalism or on outside of fixture housing if internal space is limited. External mounting requires two accessory kits ELA PSMK or factory option MK. Kit adds 6" maximum to overall length.
- Unique size (1-5/8" x 2-3/8" x 13-5/16") fits a variety of fluorescent troffers, industrials, commercials and strips.

CODES

- UL listed. Meets UL 924, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards.

WARRANTY

- Five-year total customer satisfaction warranty. (For complete details, see warranty sheet in Product Selection Guide.)

ORDERING INFORMATION

Example: **PS1100 2T8**

PS1100

Designation	
PS1100	Battery pack

Options	
2T8[1]	Operates two 2' – 4' T8 lamps
MK	External mounting kit

Accessories[2]

Order as separate item.

ELA RTS11	Remote test switch. Mounts up to 8' away from fixture.
ELA PSMK	External mounting kit. Two required

Notes:

1 2T8 option only recommended for applications with two 2' – 4' T8 lamps

2 See UI-600 sheet for details on other compatible devices

Architectural Die-Cast Aluminum Exits

Features

Solid, die-cast aluminum housing. Standard finish is brushed aluminum face with matte black housing. Special finishes available.

Completely concealed chevron directional indicator knockouts and mounting hardware.

Long-life LEDs with rated life of 25+ years.

A single-face, standard red LED exit consumes only .73 watts of electricity.

LEDs provide uniform graphics illumination. Meets 3/4" letter stroke requirements. Maintains 100% brightness in emergency mode. Non-diffuse option with visible LEDs available.

Industry s first Tru-Green™ LED exit.

Emergency fluorescent model provides 100 percent output from one or two compact fluorescent lamps in normal and emergency modes when ordered with *FO* option.

Emergency exits contain maintenance-free nickel cadmium battery and reliable, solid-state charging system.

Non-emergency LED and incandescent surface-mounted models are UL Listed for damp locations when ordered with DL option.

Universal mounting — top, back or end (canopy included).

Patent pending.

TO: Richard D. Thomas, City Administrator

FROM: Director

SUBJECT: DEMOLITION OF DANGEROUS BUILDING AT 315 WEST HALEY
(COUNTY ASSESSOR'S PARCEL 37-192-01)

The subject building, located on the parcel described in Instrument No. 3855, Book 485, Page 262 of Official Records, has been demolished in accordance with the Uniform Code for the Abatement of Dangerous Buildings. The work was done by Villalba Co. for the lump sum price of $1,350.00.

It is requested that the City Clerk file this notice, establish a date and time of a hearing, and that the method of cost allocation be determined by Council to recover the monies expended for demolition from the property owner.

Pursuant to Section 401(c) of the above Code, the following person is entitled to notification of the hearing:

Ms. Liselotte M. MacFarlane
405 Wyola Road
Santa Barbara, Ca. 93105

Attached is a copy of Chapter Nine of the Code for your information.

for R. W. Puddicombe

Chapter 8
PERFORMANCE OF WORK OF REPAIR OR DEMOLITION

General

Sec. 801. (a) *Procedure.* When any work of repair or demolition is to be done pursuant to Section 701 (c) 3 of this Code, the Building Official shall issue his order therefor to the Director of Public Works and the work shall be accomplished by city personnel or by private contract under the direction of said Director. Plans and specifications therefor may be prepared by said Director, or he may employ such architectural and engineering assistance on a contract basis as he may deem reasonably necessary. If any part of the work is to be accomplished by private contract, Standard Public Works contractual procedures shall be followed.

(b) *Costs.* The cost of such work shall be paid from the Repair and Demolition Fund, and may be made a special assessment against the property involved, or may be made a personal obligation of the property owner, whichever the City Council shall determine is appropriate.

Repair and Demolition Fund

Sec. 802. (a) *General.* The City Council shall establish a special revolving fund to be designated as the Repair and Demolition Fund. Payments shall be made out of said fund upon the demand of the Director of Public Works to defray the costs and expenses which may be incurred by the city in doing or causing to be done the necessary work of repair or demolition of dangerous buildings.

(b) *Maintenance of Fund.* The Council may at any time transfer to the Repair and Demolition Fund, out of any money in the General Fund of the city, such sums as it may deem necessary in order to expedite the performance of the work of repair or demolition, and any sum so transferred shall be deemed a loan to the Repair and Demolition Fund and shall be repaid out of the proceeds of the collections hereinafter provided for. All funds collected under the proceedings hereinafter provided for, shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund.

Optically SCANNED Document

Chapter 9
RECOVERY OF COST OF REPAIR OR DEMOLITION

Account of Expense, Filing of Report: Contents

Sec. 901. The Director of Public Works shall keep an itemized account of the expense incurred by the city in the repair or demolition of any building done pursuant to the provisions of Section 701 (c) 3 of this Code. Upon the completion of the work of repair or demolition, said Director shall prepare and file with City Clerk a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the building or structure is or was located, and the names and addresses of the persons entitled to notice pursuant to subsection (c) of Section 401.

Report Transmitted to Council—Set for Hearing

Sec. 902. Upon receipt of said report, the City Clerk shall present it to the City Council for consideration. The City Council shall fix a time, date and place for hearing said report, and any protests or objections thereto. The City Clerk shall cause notice of said hearing to be posted upon the property involved, published once in a newspaper of general circulation in the city, and served by certified mail, postage prepaid, addressed to the owner of the property as his name and address appear on the last equalized assessment roll of the county, if such so appear, or as known to the Clerk. Such notice shall be given at least 10 days prior to the date set for hearing and shall specify the day, hour, and place when the Council will hear and pass upon the Director's report, together with any objections or protests which may be filed as hereinafter provided by any person interested in or affected by the proposed charge.

Protests and Objections—How Made

Sec. 903. Any person interested in or affected by the proposed charge may file written protests or objections with the City Clerk at any time prior to the time set for the hearing on the report of the Director. Each such protest or objection must contain a description of the property in which the signer thereof is interested and the grounds of such protest or objection. The City Clerk shall endorse on every such protest or objection the date it was received by him. He shall present such protests or objections to the City Council at the time set for the hearing, and no other protests or objections shall be considered.

Hearing of Protests

Sec. 904. Upon the day and hour fixed for the hearing the City Council shall hear and pass upon the report of the Director together with any such objections or protests. The Council may make such revision, correction or modification in the report or the charge as it may deem just; and when the

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Council is satisfied with the correctness of the charge, the report (as submitted or as revised, corrected or modified) together with the charge, shall be confirmed or rejected. The decision of the City Council on the report and the charge, and on all protests or objections, shall be final and conclusive.

Personal Obligation or Special Assessment

Sec. 905. (a) General. The City Council may thereupon order that said charge shall be made a personal obligation of the property owner or assess said charge against the property involved.

(b) Personal Obligation. If the City Council orders that the charge shall be a personal obligation of the property owner, it shall direct the City Attorney to collect the same on behalf of the city by use of all appropriate legal remedies.

(c) Special Assessment. If the City Council orders that the charge shall be assessed against the property it shall confirm the assessment, cause the same to be recorded on the assessment roll, and thereafter said assessment shall constitute a special assessment against and a lien upon the property.

Contest

Sec. 906. The validity of any assessment made under the provisions of this Chapter shall not be contested in any action or proceeding unless the same is commenced within 30 days after the assessment is placed upon the assessment roll as provided herein. Any appeal from a final judgment in such action or proceeding must be perfected within 30 days after the entry of such judgment.

Authority for Installment Payment of Assessments with Interest

Sec. 907. The City Council, in its discretion, may determine that assessments in amounts of $500.00 or more shall be payable in not to exceed five equal annual installments. The Council's determination to allow payment of such assessments in installments, the number of installments, whether they shall bear interest, and the rate thereof shall be by a resolution adopted prior to the confirmation of the assessment.

Lien of Assessment

Sec. 908. (a) Priority. Immediately upon its being placed on the assessment roll the assessment shall be deemed to be complete, the several amounts assessed shall be payable, and the assessments shall be liens against the lots or parcels of land assessed, respectively. The lien shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens except for state, county and municipal taxes with which it shall be upon a parity. The lien shall continue until the assessment and all interest due and payable thereon are paid.

(b) Interest. All such assessments remaining unpaid after 30 days from the date of recording on the assessment roll shall become delinquent and

shall bear interest at the rate of 7 percent per annum from and after said date.

Report to Assessor and Tax Collector: Addition of Assessment to Tax Bill

Sec. 909. After confirmation of the report, certified copies of the assessment shall be given to the City Assessor and the City Tax Collector, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for municipal purposes.

Filing Copy of Report with County Auditor

Sec. 910. If the County Assessor and the County Tax Collector assess property and collect taxes for the city, a certified copy of the assessment shall be filed with the County Auditor on or before August 10th. The descriptions of the parcels reported shall be those used for the same parcels on the County Assessor's map books for the current year.

Collection of Assessment: Penalties for Foreclosure

Sec. 911. The amount of the assessment shall be collected at the same time and in the same manner as ordinary municipal taxes are collected; and shall be subject to the same penalties and procedure and sale in case of delinquency as provided for ordinary municipal taxes. All laws applicable to the levy, collection and enforcement of municipal taxes shall be applicable to such assessment.

If the City Council has determined that the assessment shall be paid in installments, each installment and any interest thereon shall be collected in the same manner as ordinary municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for sale as provided for ordinary municipal taxes.

Repayment of Repair and Demolition Fund

Sec. 912. All money recovered by payment of the charge or assessment or from the sale of the property at foreclosure sale shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund.

Legal Description: Instrument No. 3855, 3/25/49, Book 485, Page 262, Official Records

Description of Building: Vacant dwelling

You are hereby notified that the above described building has been inspected by the Building Official of the City of Santa Barbara and it is found and determined that such building is a dangerous building under the provisions of Section 302 of the Uniform Code for the Abatement of Dangerous Buildings. The required Notice and Order having been issued and served, and with neither compliance being had within the time specified therein nor appeal timely made, demolition of subject structure is hereby ordered.

Under the provisions of Section 801 of the Uniform Code for the Abatement of Dangerous Buildings, this order is issued to the Director of Public Works of the City of Santa Barbara, the work to be accomplished by City personnel or by private contract under the direction of the Director. The cost of this work shall be paid from the Repair and Demolition Fund. For further details regarding performance of work and recovery of cost please refer to Chapters 8 and 9 of the Uniform Code for the Abatement of Dangerous Buildings.

James M. Perry, Building Official
City of Santa Barbara

cc: City Administrator
City Attorney
Director of Finance

Chapter 8
PERFORMANCE OF WORK OF REPAIR OR DEMOLITION

General

Sec. 801. (a) **Procedure.** When any work of repair or demolition is to be done pursuant to Section 701 (c) 3 of this Code, the Building Official shall issue his order therefor to the Director of Public Works and the work shall be accomplished by city personnel or by private contract under the direction of said Director. Plans and specifications therefor may be prepared by said Director, or he may employ such architectural and engineering assistance on a contract basis as he may deem reasonably necessary. If any part of the work is to be accomplished by private contract, Standard Public Works contractual procedures shall be followed.

(b) **Costs.** The cost of such work shall be paid from the Repair and Demolition Fund, and may be made a special assessment against the property involved, or may be made a personal obligation of the property owner, whichever the City Council shall determine is appropriate.

Repair and Demolition Fund

Sec. 802. (a) **General.** The City Council shall establish a special revolving fund to be designated as the Repair and Demolition Fund. Payments shall be made out of said fund upon the demand of the Director of Public Works to defray the costs and expenses which may be incurred by the city in doing or causing to be done the necessary work of repair or demolition of dangerous buildings.

(b) **Maintenance of Fund.** The Council may at any time transfer to the Repair and Demolition Fund, out of any money in the General Fund of the city, such sums as it may deem necessary in order to expedite the performance of the work of repair or demolition, and any sum so transferred shall be deemed a loan to the Repair and Demolition Fund and shall be repaid out of the proceeds of the collections hereinafter provided for. All funds collected under the proceedings hereinafter provided for, shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund.

Chapter 9
RECOVERY OF COST OF REPAIR OR DEMOLITION

Account of Expense, Filing of Report: Contents

Sec. 901. The Director of Public Works shall keep an itemized account of the expense incurred by the city in the repair or demolition of any building done pursuant to the provisions of Section 701 (c) 3 of this Code. Upon the completion of the work of repair or demolition, said Director shall prepare and file with City Clerk a report specifying the work done, the itemized and total cost of the work, a description of the real property upon which the building or structure is or was located, and the names and addresses of the persons entitled to notice pursuant to subsection (c) of Section 401.

Report Transmitted to Council—Set for Hearing

Sec. 902. Upon receipt of said report, the City Clerk shall present it to the City Council for consideration. The City Council shall fix a time, date and place for hearing said report, and any protests or objections thereto. The City Clerk shall cause notice of said hearing to be posted upon the property involved, published once in a newspaper of general circulation in the city, and served by certified mail, postage prepaid, addressed to the owner of the property as his name and address appear on the last equalized assessment roll of the county, if such so appear, or as known to the Clerk. Such notice shall be given at least 10 days prior to the date set for hearing and shall specify the day, hour, and place when the Council will hear and pass upon the Director's report, together with any objections or protests which may be filed as hereinafter provided by any person interested in or affected by the proposed charge.

Protests and Objections—How Made

Sec. 903. Any person interested in or affected by the proposed charge may file written protests or objections with the City Clerk at any time prior to the time set for the hearing on the report of the Director. Each such protest or objection must contain a description of the property in which the signer thereof is interested and the grounds of such protest or objection. The City Clerk shall endorse on every such protest or objection the date it was received by him. He shall present such protests or objections to the City Council at the time set for the hearing, and no other protests or objections shall be considered.

Hearing of Protests

Sec. 904. Upon the day and hour fixed for the hearing the City Council shall hear and pass upon the report of the Director together with any such objections or protests. The Council may make such revision, correction or modification in the report or the charge as it may deem just; and when the

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Council is satisfied with the correctness of the charge, the report (as submitted or as revised, corrected or modified) together with the charge, shall be confirmed or rejected. The decision of the City Council on the report and the charge, and on all protests or objections, shall be final and conclusive.

Personal Obligation or Special Assessment

Sec. 905. (a) **General.** The City Council may thereupon order that said charge shall be made a personal obligation of the property owner or assess said charge against the property involved.

(b) **Personal Obligation.** If the City Council orders that the charge shall be a personal obligation of the property owner, it shall direct the City Attorney to collect the same on behalf of the city by use of all appropriate legal remedies.

(c) **Special Assessment.** If the City Council orders that the charge shall be assessed against the property it shall confirm the assessment, cause the same to be recorded on the assessment roll, and thereafter said assessment shall constitute a special assessment against and a lien upon the property.

Contest

Sec. 906. The validity of any assessment made under the provisions of this Chapter shall not be contested in any action or proceeding unless the same is commenced within 30 days after the assessment is placed upon the assessment roll as provided herein. Any appeal from a final judgment in such action or proceeding must be perfected within 30 days after the entry of such judgment.

Authority for Installment Payment of Assessments with Interest

Sec. 907. The City Council, in its discretion, may determine that assessments in amounts of $500.00 or more shall be payable in not to exceed five equal annual installments. The Council's determination to allow payment of such assessments in installments, the number of installments, whether they shall bear interest, and the rate thereof shall be by a resolution adopted prior to the confirmation of the assessment.

Lien of Assessment

Sec. 908. (a) **Priority.** Immediately upon its being placed on the assessment roll the assessment shall be deemed to be complete, the several amounts assessed shall be payable, and the assessments shall be liens against the lots or parcels of land assessed, respectively. The lien shall be subordinate to all existing special assessment liens previously imposed upon the same property, and shall be paramount to all other liens except for state, county and municipal taxes with which it shall be upon a parity. The lien shall continue until the assessment and all interest due and payable thereon are paid.

(b) **Interest.** All such assessments remaining unpaid after 30 days from the date of recording on the assessment roll shall become delinquent and

shall bear interest at the rate of 7 percent per annum from and after said date.

Report to Assessor and Tax Collector: Addition of Assessment to Tax Bill

Sec. 909. After confirmation of the report, certified copies of the assessment shall be given to the City Assessor and the City Tax Collector, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for municipal purposes.

Filing Copy of Report with County Auditor

Sec. 910. If the County Assessor and the County Tax Collector assess property and collect taxes for the city, a certified copy of the assessment shall be filed with the County Auditor on or before August 10th. The descriptions of the parcels reported shall be those used for the same parcels on the County Assessor's map books for the current year.

Collection of Assessment: Penalties for Foreclosure

Sec. 911. The amount of the assessment shall be collected at the same time and in the same manner as ordinary municipal taxes are collected; and shall be subject to the same penalties and procedure and sale in case of delinquency as provided for ordinary municipal taxes. All laws applicable to the levy, collection and enforcement of municipal taxes shall be applicable to such assessment.

If the City Council has determined that the assessment shall be paid in installments, each installment and any interest thereon shall be collected in the same manner as ordinary municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for sale as provided for ordinary municipal taxes.

Repayment of Repair and Demolition Fund

Sec. 912. All money recovered by payment of the charge or assessment or from the sale of the property at foreclosure sale shall be paid to the City Treasurer who shall credit the same to the Repair and Demolition Fund.

NOTICE OF MUNICIPAL CODE VIOLATION WARNING LETTER

January 15, 2003

Work Training Programs, Inc.
315 West Haley Street
Santa Barbara, CA 93105

CERTIFIED MAIL
ARTICLE NO. 7002 0860 0004 9053 8824

SUBJECT: **NOTIFICATION OF VIOLATION FOR 315 W. HALEY STREET APN: 037-192-012**

Dear Property Owner/Tenant

The purpose of this letter is to inform you, as the property owner and/or tenant of the subject address, 315 W. Haley Street, that you are in violation of the City of Santa Barbara Municipal Code (SBMC) Section 7.16.030 and 7.16.160. On January 14, 2003, an investigation was conducted and the following violation was observed:

✓ **TRASH GENERATED FROM THE ABOVE ADDRESS ILLEGALLY DUMPED ONTO ANOTHER PROPERTY**

The SBMC reads as follows:

7.16.030 Duties of Property Owners.

The ultimate responsibility for removal of refuse, rubble or rubbish from any property, improved or unimproved, occupied or unoccupied, rests with the owner of the property. At his sole discretion, the property owner may contract with the lessee of his property, or any other party, that said lessee or other party assumes responsibility for removal of said refuse, rubble or rubbish; however, failure of the lessee or other party to perform under such a contract shall not relieve the property owner of his responsibility to dispose of refuse, rubble or rubbish accumulated on his property. (Ord. 3568 §3, 1972.)

7.16.160 Adding to, Etc., Regular Refuse Accumulations.

It shall be unlawful for any person to create, cause or add to any refuse accumulation not placed for regular or special haul except as otherwise provided herein. (Ord. 3568 §3, 1972.)

On January 13, 2003, this office received a complaint that five bags of trash were illegally dumped at 630 Bath Street. Upon investigation into the contents of this trash, we discovered multiple items generated from 315 W. Haley Street. Copies of this evidence have been included with this letter.

Optional SCAN Document

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

To avoid paying an administrative fine pursuant to SBMC Chapter 1.25, you must abate this violation immediately. You must inform the party/parties responsible to discontinue such illegal dumping. You must contract enough service to adequately provide for the trash needs of the premises and must always keep the trash lids securely closed and never overflowing.

Your failure to comply will result in this matter being referred to the City Attorney for further action. All appropriate legal remedies and penalties will be considered in achieving the necessary solution. The first, second, and third offenses for violating SBMC Sections 7.16.030 and 7.16.160 carry fines of $100, $200, and $250, respectively. Please be reminded that each day the violation continues constitutes a separate offense. Subsequent notices regarding this violation or a similar violation, within any 12-month period, may be cause for imposing an Administrative Fine without further warnings.

Your cooperation is solicited in the resolution of this matter. If you wish to discuss this issue further or have any questions, please contact me at (805) 564-5371 or Cenen Aparicio, Code Enforcement Officer at (805) 897-2618.

Sincerely,

Cenen aparicio for Tony Raya

DEC 20 1983 #2

DECISION AND FINDINGS OF THE SANTA BARBARA CITY COUNCIL WITH RESPECT TO DENIAL OF AN APPEAL AND APPROVAL OF A NON-RESIDENTIAL USE IN A RESIDENTIAL ZONE CONCERNING THE PROPERTY AT 315 WEST HALEY STREET.

WHEREAS, on July 7, 1983 the City Planning Commission conducted a public hearing concerning the application of Lenvik and Minor, as agent for Liselotte McFarland, for 1) a conditional use permit under the provisions of Section 28.94.030.10 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit an office complex to provide thirty-four (34) required off-street parking spaces on an adjacent residentially zoned (R-4) property; and 2) a modification of provisions of Section 28.90.100.10a of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit thirty-four (34) off-street parking spaces instead of the required forty-three (43) spaces concerning Assessor's Parcel No. 37-192-01 and a previously state-owned parcel having no parcel number assigned located at 315 West Haley Street (hereinafter sometimes referred to as "Project Site") in a C-P Restricted Commercial Zone and a R-4 Hotel-Motel Multiple Family Residence Zone; and

WHEREAS, at said public hearing a number of persons spoke in favor and in opposition to the proposal; and

WHEREAS, on said date the Commission approved said applications with conditions; and

WHEREAS, on July 13, 1983, the applicant appealed the portion of Condition D of the Planning Commission's decision to the City Council, which stated: "[N]o medical office use shall be permitted"; and

WHEREAS, the City Council conducted a public hearing on

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

August 23, 1983, reconsidered the matter on August 30, 1983 and conducted another public hearing on September 20, 1983; and

WHEREAS, having reviewed the file in this matter, received and considered testimony from the applicant, the applicant's representative, additional comments from the Planning Commission and other persons both supporting and opposing the application;

NOW THEREFORE, the City Council does determine and find as follows:

A. The appeal is denied.

B. The proposed use, with the approved conditions, is approved as a non-residential use in a residential zone.

C. The following findings of fact are made:

1. The application proposed to add approximately 4,000 square feet of floor area to an existing commercial structure of approximately 4,500 square feet.

2. In 1980, the Planning Commission approved a project at 315 West Haley for an office building with approximately 4,500 square feet with parking on the first floor and offices on the second floor.

3. When the Planning Commission approved the plan in 1980, the project was represented as a low traffic generating architects' office. Higher traffic generating uses on the Project Site were considered inappropriate at that time amd are still inappropriate.

4. When the Planning Commission approved the plan in 1980 and granted a modification to permit eighteen (18) parking spaces rather than the twenty-two (22) required parking spaces, a

///

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

condition limited the parcel to office use thereby reducing the need for a higher parking ratio.

5. The proposed addition would add approximately 4,000 square feet of floor area to the existing building by enclosing the ground floor and relocating the parking to adjacent vacant parcels in the R-4 Zone.

6. The Project Site is located on the southeast corner of the congested Castillo/Haley intersection.

7. Left turns will not be permitted into the Project Site from westbound Haley Street and all traffic must enter from the east.

8. Access to eastbound Haley Street is limited to Castillo Street due to the proximity to the Route 101 Freeway.

9. Vehicles that desire to enter the Project Site from the west downtown must make circuitous movements through the adjacent neighborhood.

10. Some individuals rushing for emergency medical treatment may not be in the best state of mind to negotiate difficult driveway ingress and obey all traffic signs.

11. Medical offices are high traffic generators and the Castillo/Haley intersection congestion would be exacerbated by the increased traffic.

12. The exclusion of medical office use is necessary to justify the parking modification because there are no on-street parking spaces adjacent to the Project Site.

D. The following conclusions of law are made:

1. Without all of the attached conditions which are attached hereto and marked Exhibit A, the necessary findings to

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

justify the modification cannot be made.

2. Without all of said conditions, the modification would be inconsistent with the purposes and intent of this title and would cause an increase in the demand for parking space or loading space in the immediate area.

3. Without all of said conditions, all of the findings to justify a conditional use permit cannot be made.

4. Without all of said conditions and limitations,

a. Such use would not be desirable to the public convenience and welfare;

b. Such use would be materially detrimental to the public peace, health, safety and general welfare; and

c. Adequate access and off-street parking is not provided in a manner and amount so that the demands of the development for such facilities are adequately met without altering the character of the public streets in the area at any time.

E. Matter herein expressed as a Conclusion of Law which is later deemed to be a Finding of Fact hereby is found to be a Finding of Fact and any matter herein expressed as a Finding of Fact which is later deemed to be a Conclusion of Law hereby is found to be a Conclusion of Law.

F. Pursuant to Code of Civil Procedure Section 1094.6, this decision may be challenged by filing a petition for writ of mandate within 90 days of the date of approval hereof.

Adopted December 20, 1983

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

DEC 20 1983 #2

CONDITIONS OF APPROVAL

315 WEST HALEY STREET

A. All conditions of the previous modification apply unless superceded by the following conditions.

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the northbound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

E. Applicant shall secure an encroachment agreement or other appropriate agreement from CalTrans to establish an increased line of sight at the Haley/Castillo Street curve to at least 150 feet.

F. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

RE: Appeal of Planning Commission
action: 315 West Haley Street

Dear Council Members:

On July 7, 1983 the Planning Commission adopted resolutions 34 and 35 with findings and conditions A through G. I have filed an appeal concerning that portion of Condition D which excludes medical office use on this property.

During discussion by the Commission, concern for traffic safety became the major issue upon which this condition was based. Since the planning staff report did not raise this issue I was not prepared to adequately present the facts as to exisiting site conditions or probable traffic generated by a medical use on these premises. It became obvious during the hearing that assumptions, opinions and suppositions were being made which did not accurately address the traffic safety issue and thereby led to erroneous conclusions. It became apparent that a traffic study was necessary to accurately address the traffic safety issue. I have enlisted the services of Associated Trasportation Engineers (ATE) to prepare a traffic study for the project (see attached report dated July 28, 1983).

The specific uses for the addition will be an emergency medical care facility. This specific type of medical facility is somewhat new to the area and accurate traffic

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

information has been lacking. We requested ATE to monitor other like facilites in the Southern California area to establish a traffic trip generation factor. In addition we requested that they establish existing conditions at the site relative to traffic speed, movement time gaps and sight lines.

Since Medical Use is an allowed use in the C-P zone the only reason for excluding this use must be on the basis of either traffic or parking.

Traffic: The C-P zone allows a multiplicity of uses ranging from residential to retail commercial. The original environmental assessment was prepared on the basis of these uses for 8000 square feet of buidling. A review of this assesment increasing the area to 8500 square feet was also done finding no increase in potential impacts.

When the original 4500 square foot building was approved the applicant volunteered to limit the facility to office uses. This was done to eliminate the commercial retail uses which generate as much as 115 vehicle trips per 1000 square feet, thereby greatly reducing potential traffic generated by development on this property.

The attached traffic study indicates that the emergency medical care use will be consistent with this concept and indeed nearly the same as "general office" uses as approved by the Planning Commission. Since the traffic study indicates that the trip generation of this specific uses is consistent with general office,it seems only fair and equitable to allow this use and thereby eliminate the conditions restricting medical office uses.

Parking: The Parking Ordinance establishes parking ratios in two ways: by zone or by specific use. The C-P zone requires 1 space per 200 square feet. This ration is used to provide

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

adequate parking for the great variety of uses allowed in the C-P zone.

The C-O zone which is specifically establishedd for medical offie use requires a ratio of 1 per 250 as does the R-O zone which is for general professional office use. Finally, the parking requirement for office use is at a ratio of 1 per 250.

Since we are providing parking consistent with medical office use it would not be valid to prohibit medical office use because of parking.

The site will indeed allow the additional four spaces required at the higher ratio but the survey of other like facilities would bear out the validity of a 1 per 250 ratio.

Based upon these arguements we are requesting the elimination of the condition restricting medical office use.

The traffic safety issues are also addressed in the traffic study. Several measures to improve the conditions have already been undertaken. In the original approval for the building construction there was a requirement that provided for a transition stripe on Haley/Castillo to provide a greater margin of safety for cars making right turns into the property. This will be completed in the near future. A condition restricting left turns out of the property and a "NO LEFT TURN" sign was required. The limit of use to office also reduces traffic hazards. The fourth mitigation is the requirement to have a minimum twenty-foot wide driveway approach with a fifteen foot radius to allow quick and unobstructed driveway ingress and egress.

In addition to these requirements a further improvement of sight-lines to and from the driveway is possible. Proposed is a regrading and replanting of a portion of the City right-of-way to the west of the driveway. This will enable a sight-line of 155 to 160 feet thereby increasing stopping times and better assessment of traffic breaks before entering the traffic lanes.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

One additional condition needs to be addressed. Condition G requires a physical barrier to prevent left turns into or out of the premises. This seems quite contrary to the original requirement for driveway width to allow quick ingress and egress. I feel that the added confusion of a complex entry will only increase the hazards and I would request this condition also be stricken.

I am asking for consideration of my appeal repealing these two conditions based upon the belief that the intended uses of the premises will not significantly increase traffic safety problems above that which the Planning Commission approved by resolution 34 and 35.

Respectfully submitted,

I. BACKGROUND

In 1980, a proposal for an 8,000-square-foot office/retail building at 315 West Haley Street was approved by the Planning Commission with a number of conditions. An Initial Study was prepared by the Environmental Analyst, a negative declaration was issued, and construction has proceeded. During this period, the developer had the opportunity to provide the necessary parking on an adjacent property and requested that an additional building area of 500 square feet be approved. The Planning Commission reviewed this request on July 7, 1983. During this meeting, some points were raised that needed further study and clarification.

The purpose of this limited traffic study is to provide clarification for these points. The points to be addressed are:

A. Trip generation of comparable uses
B. Existing off-site conditions
C. Driveway access relating to sight distance
D. Recommended conditions from a traffic safety viewpoint

II. TRIP GENERATION OF COMPARABLE USES

Trip generation is the process by which the future vehicle trips of a proposed development are estimated. This estimation of future trips is important in the planning of public works facilities such as traffic signals, in the estimation of development assessment fees, and in the general environmental review/planning process. As important as this estimation is, it is emphasized that prediction of traffic is only that--an estimate. These estimates are based on trip information about existing facilities. The result is a series of tables with trip generation rates for various specific land uses based on independent variables such as number of motel units or number of square feet of office area.

Trip generation is an issue in this proposal because one of the conditions of approval of this development is a restriction of the building use to general

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

office, with "no medical office use" specifically mentioned. It appears that the reason for this conclusion was based on the higher trip generation rate associated with medical office buildings, as opposed to general office buildings. This study will review the trip generation rates for medical office and general office use, and compare the proposed use to them.

TRIPS GENERATED PER 1000 S.F. OF GROSS BUILDING AREA

	Medical Office		General Office (under 50,000 s.f.)	
	Avg. Daily	Peak Hr. %	Avg. Daily	Peak Hr. %
1982/83 ITE Manual	54.6	16%	24.5	13%
Caltrans Progress Report Summary	42.9	14%	14.9	15%
San Diego Traffic Generators	90	---	20	13%

Within each of these sources there is a large range of rates developed for both uses. Since the ITE Manual is the most widely used, and a standard of the City's Traffic Section, its rates will be used in this analysis.

There is no question that the trips generated by a medical office building would be more numerous than those by a general office building. The question raised was if the developer's proposed use of the building (emergency medical care) had trip generation characteristics similar to those of a medical office. Since there are no existing available studies or sources of information on trip generation for emergency medical care offices, ATE conducted a telephone survey with five similar facilities in the general area. The results of this survey are shown in Figure 1. The range of the daily trip rates for the five emergency medical care centers was from 8.4 trips/1000 s.f. to 41.2 trips/1000 s.f., with an average of 24.2 trips/1000 s.f. Although the survey relied on estimates from some of the office managers, it does indicate a difference, as concerns traffic generation, between emergency medical care offices and standard medical offices. Some of these differences are:

A. The average trip generation rate for emergency medical care offices is 24.2 daily trips per 1000 s.f. (rounded to 25 daily trips/1000 s.f.).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

This is approximately the same as that for general offices, and substantially less than that for medical offices.

B. Since emergency medical care offices are generally open longer hours than medical offices, the daily trips are spread out over a greater period of time. A peak of the facility traffic is less likely to coincide with the street peak hour.

C. The busiest time of the day has a wide variation between the different facilities surveyed, and from day to day for each individual facility. Since there are no appointments, the facility peak hour is a random event each day. The standard medical office has a peak hour that generally coincides with the street peak hour.

D. The average length of stay of a patient is approximately 40-45 minutes.

An estimate of the total number of trips generated by the proposal for the different scenarios follows.

		Medical Office			General Office			Total
	Scenario	Area	Trip Rate	Daily Trips	Area	Trip Rate	Daily Trips	Daily Trips
1.	Applicant's Proposal with no distinction in type of medical use.	4000 s.f.	54.6 trips/ 1000 s.f.	218	4500 s.f.	24.5	110	328
2.	Applicant's Proposal with distinction in type of medical use.	4000 s.f.	25 trips/ 1000 s.f.	100	4500 s.f.	24.5	110	210
3.	Proposal restricting all offices to general office use.	—	—	—	8500 s.f.	24.5	208	208

Based on surveys of similar facilities, it appears that the use of emergency medical care in an office will generate substantially less traffic than a standard medical office. The emergency medical care office will have a low peak hour impact, very likely lower than a general office of similar size.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

III. EXISTING OFF-SITE CONDITIONS

The existing street geometrics were either field measured or scaled from maps. Haley Street is 42 feet wide between Bath Street and Castillo Street, with two 11-foot westbound lanes and one 20-foot eastbound lane. Northbound Castillo Street turns into eastbound Haley Street, with an approximate 100-foot-radius curve at an approximate +6% grade. This is the location of the sight distance problem. A field measurement of sight distance from northbound Castillo Street to the project driveway was approximately 130 feet. This was taken from a driver's eye height of 3.75 feet to a vehicle height in the driveway of 4 feet.

Speed of the existing northbound to eastbound traffic was determined by two methods. A speed survey (Figure 3) was taken during the PM peak hour at a point 130 feet west of the project driveway. This survey indicated an average speed of 20.6 mph, an 85th percentile (often used for design purposes and for setting speed limits) speed of 23 mph, and a 99th percentile speed of 25 mph. A second method of determining speed was used in a signal timing study at this location in June 1983. A floating car was used during the AM and PM peak hours in both directions. The average speed was 21 mph during the AM peak and 20 mph during the noon and PM peak hour. The horizontal curve and the yield sign contribute to vehicles slowing down as they enter the curve.

Traffic volumes during the AM and PM peak hours were recently counted for all turning movements at the Castillo Street/Haley Street intersection. They are shown in Figures 4 and 5. Recent Caltrans hourly counts indicate that northbound Castillo Street to eastbound Haley Street has relatively constant traffic between 7:30 AM and 5:30 PM, with no extreme peak hour.

IV. DRIVEWAY ACCESS RELATING TO SIGHT DISTANCE

The basic concern expressed about this project at 315 West Haley Street is the position of its driveway access at Haley Street. The short sight distance for northbound to eastbound Haley Street vehicles approaching the driveway and the relatively high traffic volumes on Haley Street in both directions are factors

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

which combine for a less than desirable driveway access. There are, however, measures (some of which have already been made conditions of this project) that could improve the situation. These will be discussed in this and the next section.

The existing sight distance, as measured in the field, is approximately 130 feet. The theoretical minimum stopping sight distance, based on vehicle speed, is calculated below.

Stopping Sight Distance = reaction distance + braking distance

$$SSD = (V)(\text{reaction time}) + \frac{V^2}{30(f+g)}$$

V = speed: although the 85th percentile is sometimes used, the 99th percentile will be used in this case; that is, 25 mph or 36.7 fps.

reaction time = 2.5 seconds: recommended reaction time is from 2.0 to 2.5 seconds; since this is on a horizontal curve and the driver may not be looking toward the driveway, the higher end of the recommendation is used.

f = pavement to tire friction factor; 0.38 used for this speed.

g = grade of pavement; +6% used.

$$SSD = (36.7 \text{ fps})(2.5 \text{ s}) + \frac{(25)^2}{30(.38 + .06)} = 91.8 + 47.3 = 139.1 \text{ feet}$$

This indicates that the minimum calculated safe stopping sight distance (139.1 feet) exceeds the actual existing sight distance (130 feet). The field sight distance of 130 feet for this movement could be increased by cutting back the slope of the adjacent property to a straight line slope (approximately 1 to 10). This would be most effective between Haley Street and the telephone pole about 30 feet from the sidewalk into the property. This would increase the sight distance to 155-160 feet.

Sight distance for vehicles traveling westbound on Haley Street is not a problem concerning exiting vehicles from the driveway because left turns are prohibited from the driveway. The westbound Haley Street vehicles turning left into the

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

C. Place a Right Edge Stripe on the Northbound Castillo Street-Eastbound Haley Street Curve

This is a different pavement marking than that recommended by the Public Works Department. Their recommendation of two separate eastbound lanes makes the through lane too narrow and joins it too abruptly to the through movement. A right edge stripe beginning at the BC of the curve and ending at the driveway is not as severe as a right-turn lane, but provides many of the same benefits.

D. Improve the Sight Distance by a Number of Minor Changes

These include:

1. Cut the ivy down that is growing up the chain link fence and the telephone pole near the driveway.
2. Trim the lower branch of the Jacaranda tree near the driveway.
3. Relocate the real estate sign from the chain link fence.
4. The sprinkler control systems and the stone corner marker near the driveway present minor interference to the sight distance. If either were relocated 5-10 feet into the property, some minor benefits would occur.

E. Repaint the YIELD Marking on the Street

The above recommendations will help reduce the accident potential at this location. However, this location should be monitored by the Public Works staff. If this location does show an increase in accidents or other problems, there are more restrictive and larger solutions that can be implemented. These include creating a physical island at the driveway to prevent left turns in or out of the driveway, and reconstructing the curve on northbound Castillo Street to provide greater sight distance and reduced speeds.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

driveway will not present the sight distance problem that driveway exiting vehicles do. However, there will be a minor problem of westbound vehicles waiting to cross the opposing traffic lanes to complete the left turn. This is somewhat mitigated by the upstream traffic signal at the Castillo Street/ Route 101 southbound ramp intersection, where gaps are created.

An additional factor that has not been discussed is that of vehicles on Haley Street backing up across the project driveway while waiting for the traffic signal, either at Castillo Street or at Bath Street. During the PM peak hour, this backup occurs frequently in both directions with the westbound lanes backed past the driveway approximately 20 times. During the AM peak hour the eastbound lanes backed past the driveway approximately 5 times. This situation is another reason for prohibiting left turns from the driveway.

V. RECOMMENDED CONDITIONS FROM A TRAFFIC SAFETY VIEWPOINT

Any time a driveway with an additional 200-400 vehicles per day usage intersects a street with an ADT of 15,000 vehicles per day, there will be an increased possibility of vehicle conflict. To minimize this possibility, there are a number of possible measures. Below is a list of recommended measures and a discussion of each.

A. Prohibit Exiting Left Turns

This was a previous condition and has been posted at the driveway exit already. However, the sign is not a standard sign, and the standard symbol sign with the "no left turn" message below it would probably result in greater compliance.

B. Cut Back the Slope to Increase the Line of Sight from the Northbound Castillo Street Vehicles to the Driveway

The field sight distance could be increased to 155-160 feet by grading a straight slope between the sidewalk edge on Castillo Street and the developed property line.

720--MEDICAL OFFICE BUILDING

Description: A medical office can be defined as a facility which provides diagnoses and outpatient care on a routine basis but which is unable to provide prolonged in-house medical/surgical care. A medical office is generally operated by either a single private physician or a group of doctors.

Since medical functions often overlap with those of medical clinics, some problems exist in making a clear distinction between medical offices and clinics in the source data. This problem has led to variable trip generation rates for each of these facilities depending on the definitions used.

Analyses at six medical office buildings indicate that the employment density averaged 3.7 employees per 1000 gross square feet of building area.

Trip Characteristics: The available data indicate that, for this facility type, an average of 54.6 weekday vehicle trip ends are made for every 1,000 square feet of gross floor area, as shown in the following table. The P.M. peak hour was generally observed to begin at about 4:00 P.M.

Data Limitations: It is recommended that additional studies be conducted to provide a more comprehensive data base.

CITY OF SANTA BARBARA

MEMORANDUM

DATE: September 16, 1983

TO: Richard D. Thomas, City Administrator

FROM: Planning Division, DD/SL

SUBJECT: Appeal of a condition imposed by the Planning Commission on the approval of a Conditional Use Permit and a modification of off-street parking requirements and review of a non-residential use on a residentially zoned parcel located at 315 West Haley Street

I. Background

On August 23, 1983 the City Council held a hearing on the appeal of a condition imposed by the Planning Commission which restricted the site to general office use and precluded medical offices. As the public hearing was not opened during the hearing, the appeal is being reheard by the Council. The main issues under consideration are the adequacy of off-street parking and safety concerns due to increased vehicle trips and turning movement conflicts.

II. Discussion

The Planning Commission concerns, as expressed in their review and comments, center on the issues of traffic safety due to the geometric configurations of the nearby Castillo/Haley intersection, the intensity of existing and projected traffic, and the nature of potential medical office uses for the site (Attachment B). It was the opinion of the Commission that medical offices would exacerbate the existing safety problem by increasing the traffic to and from the site. It was their opinion that medical office use was inappropriate in this location until such time as the traffic patterns in the area were significantly changed. An emergency medical clinic, as proposed by the applicant, was considered to cause even further safety problem due to "emergency" nature of clients driving to the site who may not be in a state of mind to negotiate a difficult driveway ingress or obey traffic signs.

The Public Works Department reviewed the Associated Transportation Engineers (ATE) July 28, 1983 traffic and circulation study which was submitted by the applicant. Public Works did not concur with the traffic generation data in the report and determined that a safety problem exists with the present site distance (Attachment C). The Transportation Staff suggested two conditions including an increase in the sight distance and the provision of a driveway island to prevent left turns in or out of the development. With these conditions, the Department has taken the position that effects from an increase in intensity are mitigated. The Planning Commission and Planning Staff in their review disagreed with this position.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 20 1983 # 41

The applicant has prepared a revised site plan to address the parking and safety concerns. Additional parking spaces have been provided to meet the requirements for the office addition. A driveway barrier has been designed which prevents left turns in and out of the site. Recontouring of the slope and the relocation of fire sprinkler valves are proposed to increase site distance as specified in the Conditions of Approval imposed by the Planning Commission (Attachment A).

III. Conclusion/Recommendation

The concerns remaining with this project involve the following:

A. Parking - Planning Staff believes that the exclusion of medical office use is necessary to justify a parking modification as there are no adjacent on-street parking spaces. If the applicant revises the project to provide the required parking, a modification would no longer be necessary and Staff's concerns regarding parking would be eliminated.

B. Safety - The Planning Commission and Staff continue to have safety concerns regarding medical office uses at this site, especially related to increased traffic of an emergency medical nature. When the original 4,000 square foot office was proposed, Planning Staff's opposition to the project related to parking and circulation issues. The Planning Commission approved that project as it was intended to be a low traffic generating, architect's office. Higher traffic generating uses on this particular site were considered at that time and are still considered inappropriate. As left turns will not be permitted from westbound Haley Street, all traffic must enter from the east. Access to eastbound Haley Street is limited to Castillo Street due to the site's proximity to U. S. 101. Vehicles wishing to access the site from the West Downtown must make circuitous movements through the adjacent neighborhood.

Due to these factors Staff recommends the following:

A. That the City Council deny the appeal to reword the condition.

B. Approve the proposed non-residential use in a residential zone as recommended by the Planning Commission.

CONDITIONS OF APPROVAL

315 WEST HALEY STREET

A. All conditions of the previous modification apply unless superceded by the following conditions.

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the northbound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

E. Applicant shall secure an encroachment agreement or other appropriate agreement from CalTrans to establish an increased line of sight at the Haley/Castillo Street curve to at least 150 feet.

F. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

Planning Commission

Memorandum

Date: August 18, 1983

To: Mayor and City Council

From: Planning Commission

Subject: 315 W. Haley Street-Appeal of Lenvik and Minor Architects-Planning Commission comments on the traffic study.

As requested by the City Council in continuing this item, the Planning Commission has reviewed the new traffic study for the project. The Planning Commission discussed the item at their regular meeting of August 18, 1983. The Planning Commission disagrees with the recommendations of the Transportation staff in their memorandum of August 12, 1983 (attached). The Planning Commission moved on a 4 to 2 vote that the condition prohibiting medical offices (condition D) be upheld on the basis that there are safety problems in the area due to the narrow street, limited sight distance and two-way traffic on Haley Street. The Commission felt that medical offices or similar facilities should not be permitted unless Haley Street is changed to a one-way or that the U.S. Hwy. 101 off ramps are removed or altered to remove the safety issues.

CITY OF SANTA BARBARA

INTER-OFFICE MEMO

DATE: August 12, 1983

DEPARTMENT OF: PUBLIC WORKS

TO: Planning Commission

FROM: Director

SUBJECT: 315 HALEY STREET

Transportation Division Staff has reviewed the traffic engineering study submitted by Associated Transportation Engineers, and performed further studies. We have determined that a safety problem does exist with the present sight distance which would be further exacerbated by a higher intensity of use. Therefore, it is Staff's position that the following be considered conditions of approval for the project:

1. Applicant shall implement grading and other improvements necessary to increase the sight distance to 155 feet as discussed in the July 28 report from Associated Transportation Engineers.

2. Applicant shall agree to construct at his own cost a widened driveway including a traffic island designed to provide a physical barrier to left turns in or out of the development. Construction of this island shall be contingent upon significant increase in accidents involving left turns into or out of the driveway, as determined by the Transportation Engineer.

Staff does not concur with the results of the study concerning traffic generation which was based on a survey of selected medical offices. This survey relied on estimates of office managers instead of actual field measurements.

The peak hour trip generation from general office use will result in approximately one vehicle exiting or entering the project every two minutes while the trips generated for medical office use will result in approximately one vehicle exiting or entering the project every one-and-one-half minutes. If the above conditions of approval are applied, it is Transportation Division Staff's position that effects of an increase in intensity of use are mitigated.

RE: Appeal of Planning Commission action
315 West Haley Street

Dear Mr. Thomas:

As architect and agent for Liselotte McFarland I am appealing the July 7, 1982 action of the Planning Commission regarding the request for a parking modification and Conditional Use Permit.

Resolutions 34 and 35 (see attached resolutions) were adopted with findings and conditions A through G. I am specifically appealing a portion of condition D which excludes medical office use on this property.

This property is zoned C-P which allows a variety of uses including those permitted in R-4, R-Ø and C-O zones. Retail uses are allowed such as banks, restaurants and other retail commercial uses. The applicant has agreed to the elimination of the higher intensity retail uses and will record a deed restriction limiting uses to offices.

CITY OF SANTA BARBARA

MEMORANDUM

DATE: July 29, 1983

TO: Richard D. Thomas, City Administrator

FROM: Planning Division, DD/SL

SUBJECT: Appeal of a condition imposed by the Planning Commission on the approval of a Conditional Use Permit and a modification of off-street parking requirements and review of a non-residential use on a residentially zoned parcel located at 315 West Haley Street.

1. BACKGROUND

On July 7, 1983 the Planning Commission reviewed a proposal to add 4,000 square feet to a 4,500 square foot commercial structure which is currently under construction. A 34 space parking lot would be constructed on an adjacent parcel to provide parking for the original structure as well as sixteen spaces for the office addition.

The Public Works Department reviewed the project and found the proposal acceptable with a change in the location of the yield sign on Haley Street eastbound. The Environmental Analyst also reviewed the project and found the original Negative Declaration for an 8,000 square foot proposal to be adequate. In addition, this project was included in the Downtown Cumulative Traffic Environmental Impact Report which was prepared in 1982. The City Council has established a fee system to accomplish the mitigation measures outlined in that report. The project will contribute fees for intersection improvements based upon trip generation.

The Planning Commission approved the applications for a Conditional Use Permit to allow a parking lot in a residential zone and a modification of off-street parking requirements (16 spaces instead of 20 spaces) on a 6/0 vote. The Commission also recommended approval to the City Council of this non-residential use in a residential zone.

A condition was included in the approval of the applications as follows:

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

The applicant has appealed this condition and suggests that it be reworded to allow medical office uses on site (Attachment A).

II. DISCUSSION

A. Appeal

Planning Staff originally recommended the condition restricting medical office use to mitigate possible parking impacts which may have

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 20 1983 #41

resulted from the request for a modification of off-street parking requirements (see Attachment B). At the Planning Commission meeting, the applicant introduced a new parking plan which provided the required parking by removal of some landscaped areas. He requested that the Commission consider the new parking plan and requested removal of Condition D which prohibits medical offices. Staff indicated that this would be an acceptable alternative.

The Planning Commission expressed concern that increased vehicle trips associated with the office addition could result in hazards from turning movement conflicts. The Commission felt the driveway location posed a safety problem due to its proximity to the Haley/Castillo Street intersection and to a curve with a limited sight distance. The Planning Commission granted the parking modification and voted to retain Condition D, the limitation of uses.

B. Non-residential Use in a Residential Zone

Chapter 28.87.030.5 of the Municipal Code requires that the City Council approve non-residential uses proposed in residential zones, after receiving a recommendation from the Planning Commission. Although this provision of the Municipal Code has not been carried out in the past, projects of this nature will follow this procedure. An amendment which would remove this procedure from the Code is currently being prepared by the Division of Land Use Controls and the City Attorney's office. The draft is expected in August for City Council consideration.

Attached is a memorandum (Attachment C) from the Planning Commission which outlines their action and recommendation.

III. RECOMMENDATION

It is Staff's opinion that the exclusion of medical office uses is necessary to justify the parking modification as there are no adjacent on-street parking spaces. Staff recommends the following:

A. That the City Council deny the appeal to reword the condition because the prohibition of medical office uses will decrease the parking demand.

B. Approve the proposed non-residential use in a residential zone as recommended by the Planning Commission in that the use would not be detrimental nor inconsistent with the neighborhood.

MEMORANDUM

DATE: July 22, 1983

TO: Mayor and Councilmembers

FROM: Planning Commission

SUBJECT: Request for Approval of Non-residential Use in a Residential Zone at 315 West Haley Street.

Chapter 28.87.030.3 of the Municipal Code requires City Council approval for any non-residential uses proposed in a residential zone, after a recommendation has been received from the Planning Commission. The subject project is in the R-4, multiple-family residential zone and therefore reqiures City Council approval. The Planning Commission voted 6/0 to recommend to the City Council that this non-residential use be approved in a residential zone as the proposed parking facility is adjacent to two major streets and U. S. Highway 101. As such, the use would not be detrimental nor inconsistent with the neighborhood.

Building Coverage	4,500 sf (21%)	0
Paving	10,445 sf (44%)	9,025 sf (71%)
Landscaping/Walks	8.010 sf (34%)	3,700 sf (29%)

I. Background

In August 1980 the Planning Commission approved a 4,475 square foot office building on this site and granted a modification to permit eighteen (18) parking spaces instead of the reqiured twenty-two (22) spaces. This modification approval was based on the provision of one (1) space per 250 square feet in lieu of one (1) space per 200 square feet as required in the C-P zone. A condition was added which limited the parcel to office use thereby reducing the need for a higher parking ratio. The approved plan placed the office use on the second floor with parking on the ground floor. This structure is currently under construction.

The current proposal involves the original parcel and two adjacent vacant parcels which are zoned R-4. These parcels are currently being acquired from CalTrans in a surplus land sale and will be leased to the applicant (see Attachments 2 and 3). The proposal is to add 4,00 square feet of office space to the existing structure by enclosing the ground floor area. Parking would be provided on the vacant parcels to the west of the site. A Conditional Use Permit (CUP) is required to allow the parking lot in the R-4 zone and a modificaiton is requested to provide sixteen (16) parking spaces rather than the twenty (20) required spaces. The Environmental Analyst has reviewed this proposal and determined that the original Negative Declaration granted to an 8,000 square foot building would suffice (see Attachments 4 and 5). No new significant environmental impacts were found.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 20 1983 #41

II. Major Issues

A. Parking:

The C-P zone has a parking requirment of one space per 200 square feet of development rather than one space per 250 square feet as required for most other zones. The intent of providing more than the normal amount of parking is to limit the effect of commercial uses on the surrounding residential areas. The C-P zone also allows for retail uses which generally have more associated traffic than will other uses.

This site is not located directly within a residential area, but rather is on the "fringe", adjacent to commercial uses and major traffic corridors (see Attachment 6). Currently there is no on-street parking available on this block of Haley Street. The only off-site parking available would be on Bath Street above and below Haley Street. Bath Street is primarily a residential street.

The applicant has proposed 16 new parking spaces rather than the required 20 spaces. This request results in the provision of a total of 34 parking spaces in lieu of the 42 spaces required by ordinance. A deed restriction currently exists which restricts Parcel 1 to office uses. This restriction was proposed based on the fact that traffic generated by office use is generally one-third that of retail use. The applicant has proposed a parking ratio of one space per 250 square feet and proposes to limit the use of the addition to offices. However, this limitation could include medical offices which can have a trip generation rate three to five times higher than "general office." A condition has been included to preclude medical offices. Biclycle parking is provided on-site as well as a shower and on-site lunch facilities. Bus service is available in the area.

B. Traffic and Circulation:

When the original 4,725 square foot building was before the Planning Commission in 1980 the Staff recommended denial based on unsafe access. The applicant worked with the Public Works Department to redesign the access and the Haley/Castllo Street intersection to provide for safer movements. The Planning Commission approved the project with the new mitigation measures outlined by Public Works (see Attachment 7).

The Public Works Department reviewed the new proposal and found the existing conditions suffice as mitigations with the elimination of the condition which relocates the YIELD sign (see Attachment 8.).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 20 1983 #41

The development of this project would leave a small vacant triangular parcel to the south of the project site. This parcel would be landlocked as it does not have frontage on a public street. A condition has been included to require the recording of an easement to allow access to the parcel through the proposed parking lot.

C. Residential Use

The parking lot is proposed on two parcels totalling 12,725 square feet. These two parcels are zoned R-4 Hotel/Motel/Multiple Residence and could accomodate a range of four, three bedroom units to seven studio units.

This area has recently undergone a rezoning and General Plan Amendment study as recommended in the Housing and Commerical Assessment study. The two vacant State owned parcels however, are located outside the rezoning study area and were not addressed. In the De La Vina area rezone study, Planning Staff recommended that commercial zoning be retained for areas adjacent to the freeway due to noise and traffic considerations. Residential zoning was recommended for interior lands which would be buffered by the commerical fringe. The City Council has not yet taken action on this recommendation.

III. Conclusion and Recommendation

A. Conditional Use Permit: The proposed parking lot would not intrude on or cause conflicts with any adjacent residential areas, therefore Staff recommends that the Planning Commission make the necessary findings and approve the Conditional Use Permit with the attached conditions.

B. Modification: The conditions restricting the building's use to general office and excluding medical offices would mitigate concerns regarding the proposed reduction in parking spaces. Therefore, Staff recommends that the Planning Commission make the necessary findings and approve the modification with the attached conditions.

C. Non-residential Use in a Residential Zone: Staff recommends that the Planning Commission recommend to the City Council that this parking lot be approved on this residential parcel as it is compatible with the surrounding land uses.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 20 1983 #41

IV. Conditions of Approval (as approved by the Planning Commission)

A. All conditions of the previous modification apply unless superceded by the following conditions:

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the north-bound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

E. Applicant shall secure an encroachment agreement or other appropriate agreement from Caltrans to establish an increased line of sight at the Haley/Castillo Street curve to at least 150 feet.

F. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

RE: 315 W. Haley

Dear Stephanie:

The property adjacent to 315 West Haley Street referred to as Parcel Two on the Site Plan for which a CUP is being requested and which is commonly referred to as the "Cal Trans" property is in escrow.

Mr. Richard Godkin is purchasing the property and has authorized us to proceed as agent for the project as submitted to you.

I trust this answers your questions regarding the ownership status of this parcel.

Sincerely,

LENVIK & MINOR, ARCHITECTS

Project Description and Letter of Request
Parking Modification and Conditional Use Permit

315 West Haley Street

The property at 315 West Haley Street is currently zoned C-P. On August 7, 1980 the Planning Commission approved the site plan for a two story office building of 4,475 square feet and a parking modification to allow a ratio of 1 space per 250 square feet in lieu of the required 1 space per 200 square feet. This plan placed the office use on the second floor with parking on the ground level. The justification for this modification was that the owner agreed to a recorded deed restriction limiting the use to office use thereby reducing the need for higher parking ratio (see attached Resolution #48, August 7, 1980).

Our current application includes AP 37-192-02 and two parcels of property zoned R-4 to be made available by a Cal Trans sale of surplus land (Cal Trans Numbers 75-0A-01 and 473-01-01). The acquisition of this land will allow parking to be provided on the adjacent parcels for the existing structure and infill of the ground floor space. We are therefore requesting a CUP to allow this parking in a R-4 zone per section 28-94-030(16) of Title 28. These parcels abut the C.P zone to the east and Castillo Street and U.S. 101 on the west. Parking on this land would not have any impact on other residentially zoned parcels.

We are also requesting a continuation of the parking modification for the 4,000 square foot ground floor addition as originally granted to the second story space. It is understood that the use of the space will be limited to office use per conditions of resolution number 48.

By restricting the use on the parcel to office space the traffic generated is approximately one-fourth that for retail as allowed by the C-P zone. Bus service is available in the immediate area. There is no stated

Attachment 3

SEP 20 1983 #41

impacted parking concerns in the immediate area. Bicycle parking is provided as well as shower facilities for bicyclists. In addition to the above benefits over thirty-four percent of the property is landscaped with on-site lunch facilities provided.

We feel the granting of these two requests will not be inconsistent with the intent and requirements of the zoning ordinance and therefore request your approval.

PLANNING · ZONING · BUILDING · HOUSING

DATE: April 25, 1980

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

RE: 315 W. Haley Street, SB-27-80

Dear Ken,

Per your request, I have reviewed your proposal to add approximately 4,000 sq. ft. to the 4,500 sq. ft. office building currently under construction at the address referenced above. In 1980, the Environmental Review Committee granted a Negative Declaration for a 8,000 sq. ft. building and Transportation Staff and I have determined that the existing ND will suffice for the proposed project. Although the addition will not require any subsequent environmental review, you should be aware that the payment of traffic mitigation fees will be required.

If you have any further questions, please call.

Sincerely,

Pat

August 11, 1980

Mr. E. A. Lenvik
Lenvik & Minor, Architects
4 E. Yanonali
Santa Barbara, Calif. 93101

Dear Mr. Lenvik,

On August 7, 1980, the Planning Commission approved the plot plan for Lenvik and Minor, Architects, to construct an office building at 315 W. Haley Street in a C-P Restricted Office Zone, subject to the following conditions:

A. Prior to preliminary approval by the Architectural Board of Review, the proposal, including elevations, shall be reviewed by the Landmarks Committee for comment.

The Architectural Board of Review and Landmarks Committee shall review the project in terms of its size, scale and architecture. Particular attention shall be paid in terms of the project being located at an entrance to the City.

B. Prior to the issuance of a Certificate of Occupancy, the applicant shall complete the following:

1. The applicant shall waive the right to protest the formation of any public improvement district.

2. Any change in the proposed office use of the building shall be returned to the Planning Commission for review and approval of the parking impact.

3. A "no left turn" sign shall be posted at exit from the property subject to Public Works approval.

C. The following conditions are required by Public Works:

1. Striping and pavement marking changes on Haley and Castillo Streets are to be done by the developer's contractor.

   a. The YIELD legend is to be relocated from the northbound lane on Castillo Street to the eastbound lane of Haley Street, departing its intersection with Castillo Street (see attached sketch).

   b. A right-turn only, entering lane, is to be defined using striping and reflective pavement markers.

Attachment 7

SEP 20 1983 # 41

Lenvik & Minor
315 W. Haley
8/11/80

2.

2. A 15-foot radius is to be constructed on the west end of the property entrance, instead of a standard driveway approach. The profile from the Haley Street curb line to the end of the 15-foot curb return is to be straight, i.e. a typical driveway cross-section rising 0.5 feet in 5 feet is not to be constructed.

3. A 20-foot driveway is to be constructed, requiring a 26-foot curb cut.

4. The location will be monitored by staff. If accident problems develop, left turns in and out might have to be prohibited in the interest of traffic safety.

Sincerely,

Larry Carter
Zoning Officer

PUBLIC WORKS DEPARTMENT

SEP 20 1983 #41

DATE: June 24, 1983

TO: David D. Davis, City Planner

FROM: Director

SUBJECT: 315 WEST HALEY

Transportation Staff have reviewed the proposed addition of 4,000 square feet of office space to the presently approved 4,500 square feet. Staff suggests elimination of the condition calling for relocation of the yield sign as this relocation could cause a safety problem. The other conditions that were placed on the original project will suffice as mitigation measures for the increased intensity of use.

With reference to the request for a modification of the number of required parking spaces, it should be noted that there is no on-street parking allowed in this block of Haley Street.

RE: Traffic Study
315 W. Haley Street

Dear Stephanie:

Enclosed please find a copy of an updated traffic study for proposed office use. We have attempted to firm up the information on trip generation for the emergency medical care facilities. In addition we have addressed the issue of gap times and the traffic pattern on Haley Street and have included this in the study. I beleive this gives a better understanding for the entering and exiting movements to the specific site.

Please review the information and if you have any questions give me a call.

Sincerely,

LENVIK & MINOR, ARCHITECTS

LIMITED TRAFFIC STUDY FOR OFFICE BUILDING,
315 WEST HALEY STREET (ATE #8329)

On July 28, 1983, ATE prepared and submitted the subject report, assessing trip generation and traffic safety aspects of the proposed utilization of the first floor for an emergency medical care facility.

During public hearings on the proposed use, several questions were raised concerning various aspects of our report. It is the purpose of this letter to respond to those questions.

Trip Generation

Based on a telephone survey of similar facilities, we estimated that this type of medical facility would generate about 25 daily vehicular trips per 1000 square feet of gross floor area, and about 2.4 peak hour trips per 1000 square feet. Concern was expressed that the data obtained by telephone might be unreliable, and therefore the ITE rate should apply.

Published data on trip generation of medical office facilities (as opposed to emergency medical care facilities) indicates a wide variation in generation of weekday trips per 1000 square feet of gross floor area:

Source	Rate	Max.	Min.	# of Studies in Data
Arizona DOT	50.0	99.0	13.0	13
ITE 1979	75.0	99.0	38.0	5
ITE 1983 Draft	54.6	99.0	38.0	7
Caltrans District 4	42.9	50.8	22.5	4
San Diego	90.5	99.0	78.4	3

It was precisely because of the wide range in trip generation rates in the published data that ATE undertook studies of similar facilities in this area. In the case of medical office buildings, our report to Patrick Mahoney,

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 15 19

Administrator of St. Francis Hospital, concluded that based on three local area studies, trip rates of greater than 35/1000 square feet for these facilities would be highly unlikely. A copy of that report is attached.

The five emergency medical care facilities covered by telephone survey in the original report for your facility were checked in the field for gross floor area, parking spaces, and daily and peak hour vehicle trips. The following averages were found to exist.

Square Feet	Parking Spaces 1000 sq.ft.	Daily Trips 1000 sq.ft.	P.M.Pk.Hr.Trips 1000 sq.ft.
2918	5.21	34.1	4.04

It is noted that, while the field survey data exceeded our estimate based on the telephone survey, it closely parallels the data obtained for the three medical office facilities cited in the St. Francis Hospital Study, and is substantially less than published averages as noted above. We conclude that daily and p.m. peak hour rates of 35 and 4.04 would be appropriate for estimating trips generated by the medical offices used for emergency medical or normal medical care.

Based on the above data, the total traffic expected to be generated by this facility would be as follows:

	Area	Rate	Daily Trips	P.M. Peak Hour Trips*
Applicant's Proposal				
EMC Facility	4000 s.f.	35.0	140	16
Architect's Office	3220 s.f.	24.5	79	9
General Office	1280 s.f.	24.5	31	4
TOTALS	8500 s.f.	29.4	250	29

* P.M. Peak Hour between 4 and 6

This estimate is compared with the scenario contained in the original report restricting all offices to general, rather than medical, use:

General Office	8500 s.f.	24.5	208	25

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Our conclusion is that trips generated by the combined emergency medical/ office use will be somewhat higher than those which would be generated by office use alone, but would not be as high as average rates contained in published data for medical office buildings.

Traffic Safety

In our original report the primary traffic safety concern was with sight distance from vehicles exiting the driveway. We demonstrated that this issue could be resolved by grading the slope, adjustment of landscaping, etc., to attain more than adequate sight distance.

Concern was expressed in public meetings that regardless of improvements in sight distance, the location was too congested, and that left turns should be prohibited into and out of the driveway. To measure the ability of drivers exiting the site to enter the traffic flow on Haley Street, observations of gaps in traffic flow were made at representative 15-minute periods during the course of a normal weekday with City College in session. For these observations, it was assumed that a vehicle could exit the driveway in a left-turn maneuver given a 5-second gap or greater in the two-way traffic flow on Haley Street. The following table summarizes the number of gaps of 5 seconds or greater, and the average gap length, for each 15-minute period observed.

Time	No. of Gaps 5 Seconds	Avg. Gaps/ 5 Minutes	Avg. Gap Length
7:45-8:00 a.m.	24	8.0	7.8 sec.
8:30-8:45 a.m.	43	14.8	8.1 sec.
11:10-11:25 a.m.	34	11.3	8.4 sec.
12:00-12:15 p.m.	21	7.0	9.2 sec.
12:45-1:00 p.m.	25	8.3	7.7 sec.
2:30-2:45 p.m.	31	10.3	7.9 sec.
4:55-5:10 p.m.	23	7.6	8.8 sec.
5:20-5:35 p.m.	23	7.6	8.4 sec.

In each of the time intervals observed, the acceptable gaps were spread fairly evenly throughout the observation period. The maximum time between gaps was 159.3 seconds, occurring at 5:08 p.m.

Since the number of available acceptable gaps is about three times the expected total entering and exiting peak hour traffic generated by the facility, we conclude that no operational problems would develop due to the operation of this facility, even if left turns were allowed both into and out of the driveway. During our gap studies, it was noted that queues from the signalized intersections occasionally blocked the driveway for short periods of time. The westbound queue is caused by the high volume of left

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

turning vehicles from Haley to southbound Castillo, which must use the left lane (267 vehicles in the evening peak hour). If an optional dual left-turn lane were utilized, with the right lane optional for left, straight or right-turn movements, the queues would be substantially reduced. Queues in eastbound traffic are generally caused by left-turning vehicles from Haley to northbound Bath Street, which obstruct the through movement. A left-turn pocket lane would eliminate these queues, by segregating waiting left-turning vehicles out of the through traffic lane.

Based on the above investigation, the conclusion of our original report that sight distance should be improved remains our principal recommendation. Other measures considered by staff and the planning commission may have the effect of confusing drivers, creating abnormal movements and actually increasing accident potential. Because there are sufficient gaps in traffic to allow ingress and egress to the site without undue delay, accidents at this location should occur no more frequently than at any other driveway on a city street, provided that adequate sight distance is made available as recommended above.

RE: Appeal of Planning Commission Action
315 West Haley St.

Dear Council Members:

At next Tuesday's Council Meeting you have before you again the appeal of the condition excluding medical office use from the above referenced property. As you may or may not know there had been no opening of the public hearing of my appeal. It was therefore determined that a rehearing was in order to allow me to adequately present the appeal. I trust you will bear with me regarding this matter and that the previous action will not prejudice my appeal before you.

I have submitted to the Planning Department a plan entitled "Traffic Mitigation Plan and Parking" which shows all of the items of mitigation to both the traffic safety issue and parking ratios as previously discussed in my letter to you of July 29, 1983.

I have submitted additional traffic information to the Transportation Department staff for their review and comments. I am enclosing a copy of this information regarding trip generation for urgent medical care facilities and more details on the traffic gaps created by the existing signalization of intersections in this area.

I would suggest that the conclusions of this traffic study enable me to make the following positive statements.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

1. The City Transportation Engineer stated to the Planning Commission that existing site lines meet requirements for ingress and egress. Sight lines will be increased to provide even greater maneuvering time. The sight lines are equivalent to one half a city block.

2. All visual obstructions in the sight line have been removed and will remain so.

3. There is no parking on Haley Street to obstruct view thereby keeping sight lines clear. There are literally hundreds of high volume driveways on more heavily travelled streets in the City which have views blocked by parked cars, buildings, hedges and other obstructions.

4. Traffic speed on Haley Street is low (99% less than 25 m.p.h. with the average of 20.6 m.p.h.)

5. Gaps in the traffic pattern occur frequently at regular intervals at about three times the rate necessary for ingress and egress.

6. Haley Street is master planned for one way traffic.

7. Staff recommendation for denial of medical use was that parking be provided at a ratio of 1 space/ 200 s.f. Parking will be provided at this ratio which is in excess of that required by the City Parking Ordinance for Medical Office use.

8. An Urgent Medical Care facility will generate only 42 additional daily trips per day above office use as approved. (35/1000 vs. 24.5/10000 = 10.5/1000 s.f. x 4000 = 42). This relates to 1 additional trip each 15 minutes.

9. Emergency Medical Care facilities have minimal peak hour bulge.

10. The City Transportation Engineers and Associated Transportation Engineers agree that if the improvements mentioned above are implemented the effects of an increase in intensity of use are mitigated. (See Public Works memo 8/12/83).

In addition I would submit to you that the location of the Urgent Medical Care facility on this site will have additional positive benefits.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

1. The facility is located near major arterials. Users will not have to negotiate long distances through residential districts or city streets as required to reach other medical treatment areas (Cottage Hospital area, St. Francis Hospital, La Cumbre intersections).

2. Provide medical services at a lower cost than traditional medical services which are becoming prohibitive.

3. Allow a medical facility in an area other than existing medical centers which are highly impacted by surrounding residential uses and residential streets.

In the Planning Staff's letter to Richard D. Thomas of July 29, 1983 I would like to stress that the basis of their recommendation for denial was based SOLELY on the basis of inadequate parking. We are proposing parking on a ratio in agreement to the Staff's recommendations. Indeed the original staff report to the Planning Commission states that "a condition excluding medical office use would mitigate concerns regarding reduction in parking spaces". Planning Staff stated at that time that parking was the SOLE reason for the condition. Even as recently as the Council Agenda Report of July 29, 1983, page 2 recommendations states, "It is Staff's opinion that the exclusion of medical office uses is necessary to justify the parking modification as there are no adjacent on-street parking spaces". It goes on to state "... that the City Council deny the appeal to reword the condition because the prohibition of medical office use will decrease the parking demand.

There was no mention as to traffic safety being the basis of this condition.

Neither the original environmental assessment nor the reassessment of May 11, 1983 found any traffic safety issues. In addition to this review we have undertaken a detailed study of traffic patterns and traffic safety which concludes by both ATE and the City Transportation staff that traffic conditions are at a level well within the accepted standards for Santa Barbara streets.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

I would therefore request that you grant my appeal to remove the condition excluding medical office use from the property.

Respectfully submitted

LENVIK & MINOR, ARCHITECTS

LIMITED TRAFFIC STUDY FOR OFFICE BUILDING,
315 WEST HALEY STREET (ATE #8329)

On July 28, 1983, ATE prepared and submitted the subject report, assessing trip generation and traffic safety aspects of the proposed utilization of the first floor for an emergency medical care facility.

During public hearings on the proposed use, several questions were raised concerning various aspects of our report. It is the purpose of this letter to respond to those questions.

Trip Generation

Based on a telephone survey of similar facilities, we estimated that this type of medical facility would generate about 25 daily vehicular trips per 1000 square feet of gross floor area, and about 2.4 peak hour trips per 1000 square feet. Concern was expressed that the data obtained by telephone might be unreliable, and therefore the ITE rate should apply.

Published data on trip generation of medical office facilities (as opposed to emergency medical care facilities) indicates a wide variation in generation of weekday trips per 1000 square feet of gross floor area:

Source	Rate	Max.	Min.	# of Studies in Data
Arizona DOT	50.0	99.0	13.0	13
ITE 1979	75.0	99.0	38.0	5
ITE 1983 Draft	54.6	99.0	38.0	7
Caltrans District 4	42.9	50.8	22.5	4
San Diego	90.5	99.0	78.4	3

It was precisely because of the wide range in trip generation rates in the published data that ATE undertook studies of similar facilities in this area. In the case of medical office buildings, our report to Patrick Mahoney,

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

SEP 15 19

Administrator of St. Francis Hospital, concluded that based on three local area studies, trip rates of greater than 35/1000 square feet for these facilities would be highly unlikely. A copy of that report is attached.

The five emergency medical care facilities covered by telephone survey in the original report for your facility were checked in the field for gross floor area, parking spaces, and daily and peak hour vehicle trips. The following averages were found to exist.

Square Feet	Parking Spaces 1000 sq.ft.	Daily Trips 1000 sq.ft.	P.M.Pk.Hr.Trips 1000 sq.ft.
2918	5.21	34.1	4.04

It is noted that, while the field survey data exceeded our estimate based on the telephone survey, it closely parallels the data obtained for the three medical office facilities cited in the St. Francis Hospital Study, and is substantially less than published averages as noted above. We conclude that daily and p.m. peak hour rates of 35 and 4.04 would be appropriate for estimating trips generated by the medical offices used for emergency medical or normal medical care.

Based on the above data, the total traffic expected to be generated by this facility would be as follows:

	Area	Rate	Daily Trips	P.M. Peak Hour Trips*
Applicant's Proposal				
EMC Facility	4000 s.f.	35.0	140	16
Architect's Office	3220 s.f.	24.5	79	9
General Office	1280 s.f.	24.5	31	4
TOTALS	8500 s.f.	29.4	250	29

* P.M. Peak Hour between 4 and 6

This estimate is compared with the scenario contained in the original report restricting all offices to general, rather than medical, use:

General Office	8500 s.f.	24.5	208	25

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Our conclusion is that trips generated by the combined emergency medical/ office use will be somewhat higher than those which would be generated by office use alone, but would not be as high as average rates contained in published data for medical office buildings.

Traffic Safety

In our original report the primary traffic safety concern was with sight distance from vehicles exiting the driveway. We demonstrated that this issue could be resolved by grading the slope, adjustment of landscaping, etc., to attain more than adequate sight distance.

Concern was expressed in public meetings that regardless of improvements in sight distance, the location was too congested, and that left turns should be prohibited into and out of the driveway. To measure the ability of drivers exiting the site to enter the traffic flow on Haley Street, observations of gaps in traffic flow were made at representative 15-minute periods during the course of a normal weekday with City College in session. For these observations, it was assumed that a vehicle could exit the driveway in a left-turn maneuver given a 5-second gap or greater in the two-way traffic flow on Haley Street. The following table summarizes the number of gaps of 5 seconds or greater, and the average gap length, for each 15-minute period observed.

Time	No. of Gaps 5 Seconds	Avg. Gaps/ 5 Minutes	Avg. Gap Length
7:45-8:00 a.m.	24	8.0	7.8 sec.
8:30-8:45 a.m.	43	14.8	8.1 sec.
11:10-11:25 a.m.	34	11.3	8.4 sec.
12:00-12:15 p.m.	21	7.0	9.2 sec.
12:45-1:00 p.m.	25	8.3	7.7 sec.
2:30-2:45 p.m.	31	10.3	7.9 sec.
4:55-5:10 p.m.	23	7.6	8.8 sec.
5:20-5:35 p.m.	23	7.6	8.4 sec.

In each of the time intervals observed, the acceptable gaps were spread fairly evenly throughout the observation period. The maximum time between gaps was 159.3 seconds, occurring at 5:08 p.m.

Since the number of available acceptable gaps is about three times the expected total entering and exiting peak hour traffic generated by the facility, we conclude that no operational problems would develop due to the operation of this facility, even if left turns were allowed both into and out of the driveway. During our gap studies, it was noted that queues from the signalized intersections occasionally blocked the driveway for short periods of time. The westbound queue is caused by the high volume of left

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

turning vehicles from Haley to southbound Castillo, which must use the left lane (267 vehicles in the evening peak hour). If an optional dual left-turn lane were utilized, with the right lane optional for left, straight or right-turn movements, the queues would be substantially reduced. Queues in eastbound traffic are generally caused by left-turning vehicles from Haley to northbound Bath Street, which obstruct the through movement. A left-turn pocket lane would eliminate these queues, by segregating waiting left-turning vehicles out of the through traffic lane.

Based on the above investigation, the conclusion of our original report that sight distance should be improved remains our principal recommendation. Other measures considered by staff and the planning commission may have the effect of confusing drivers, creating abnormal movements and actually increasing accident potential. Because there are sufficient gaps in traffic to allow ingress and egress to the site without undue delay, accidents at this location should occur no more frequently than at any other driveway on a city street, provided that adequate sight distance is made available as recommended above.

NOTICE OF PUBLIC HEARING

Notice is hereby given that the City Council of the City of Santa Barbara has set the date for a hearing to reconsider the appeal of Lenvik & Minor, agent for Liselotte McFarland, from the decision of the Planning Commission approving the following applications with conditions with respect to City Parcel 37-192-01 and a previously state-owned parcel having no parcel number assigned located at 315 West Haley Street in a C-P restricted commercial and a R-4 hotel-motel multiple family residence zone. The appeal is regarding a condition of the following applications: 1) a conditional use permit under provisions of Section 28.94 and 28.94.030.10 of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit an office complex to provide thirty-four (34) required off-street parking spaces on an adjacent residentially zoned (R-4) property; and 2) a modification of provisions of Section 28.90.100.10a of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit thirty-four (34) off-street parking spaces instead of the required forty-three (43) spaces. The condition being appealed is stated as follows: "A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted."

Said date for hearing has been set for September 20, 1983 at 2:00 p.m. in the Council Chamber, City Hall, De la Guerra Plaza, at which time and place any interested person may appear and shall be heard.

INTER-OFFICE MEMO

DATE: August 12, 1983

DEPARTMENT OF: PUBLIC WORKS

TO: Planning Commission

FROM: Director

SUBJECT: 315 HALEY STREET

Transportation Division Staff has reviewed the traffic engineering study submitted by Associated Transportation Engineers, and performed further studies. We have determined that a safety problem does exist with the present sight distance which would be further exacerbated by a higher intensity of use. Therefore, it is Staff's position that the following be considered conditions of approval for the project:

1. Applicant shall implement grading and other improvements necessary to increase the sight distance to 155 feet as discussed in the July 28 report from Associated Transportation Engineers.

2. Applicant shall agree to construct at his own cost a widened driveway including a traffic island designed to provide a physical barrier to left turns in or out of the development. Construction of this island shall be contingent upon significant increase in accidents involving left turns into or out of the driveway, as determined by the Transportation Engineer.

Staff does not concur with the results of the study concerning traffic generation which was based on a survey of selected medical offices. This survey relied on estimates of office managers instead of actual field measurements.

The peak hour trip generation from general office use will result in approximately one vehicle exiting or entering the project every two minutes while the trips generated for medical office use will result in approximately one vehicle exiting or entering the project every one-and-one-half minutes. If the above conditions of approval are applied, it is Transportation Division Staff's position that effects of an increase in intensity of use are mitigated.

315 W. Haley

Proposal reviewed by P.C. was for:

- CUP for a parking lot in a residential R-4 zone.
- Modification of C-P parking requirements to allow 16 instead of 20 spaces; an allowance to go from 1/200 sq ft provided in the C-P zone to 1/250 in the general commercial zones
- Recommend to C.C. for a non-res. use in a res. Zone.

The proposal is to add a 4000 SF addition to a 4,500 s.f. building which was approved in 1980 and is currently under construction. The original approval for the 4500 S.F. building provided parking under the building. The app. is proposing to enclose the parking area under the building and provide the parking on the adjacent R-4 zoned property (which was formerly owned by ~~the~~ Cal Trans).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

The P.C. approved the requests with a condition that the building be restricted to general office uses. The reasons related to the amount of traffic, on the Haley/Castillo curve, and safety impacts. The rationale is that medical offices generate from 45 to 75 ADT's while general offices generate about 24. The P.C. felt that the parking mod. was acceptable; but, that uses on the property should be restricted to the lowest possible traffic generator.

As a point of history and background, the C-P zone

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

C-P zone -

Regmts 1/200 sq ft - revision was set when plg. regs were less restrictive at 1/500. Upon revision of the parking and. this issue was discussed in detail. The decision was to have C-P at 1/200. ~~We ade to maintain the~~ because it is a neighborhood commercial zone in residential areas. The intent is to keep all off street parking off of residential streets. to protect the residential character of the neighborhoods

The P.C. granted the Mod. in this particular location because of its ~~location~~ proximity away from the residential neighborhoods and on the basis that general offices ~~[illegible]~~ uses will not generate a demand for more than 1/250.

However, there was a concern that medical offices will create an additional demand as provided in medical offici

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

traffic generation figures show that med. offices generate 3-5 times higher than general office.

CUP for parking in R-4 -

The P.C. felt that the R-4 parcel given its location and limited access would be very difficult for res. use because of obvious environmental compatability issues. The PC determined that the parking facility was appropriate for that location — all on the

on that basis and

permits that the med. offices would be prohibited and that as such the proposal would meet the intent of the park. ord. and CUP provisions for the P. lot in the res zone

Santa Barbara, CA 93103

RE: Appeal of Planning Commission
action: 315 West Haley Street

Dear Council Members:

On July 7, 1983 the Planning Commission adopted resolutions 34 and 35 with findings and conditions A through G. I have filed an appeal concerning that portion of Condition D which excludes medical office use on this property.

During discussion by the Commission, concern for traffic safety became the major issue upon which this condition was based. Since the planning staff report did not raise this issue I was not prepared to adequately present the facts as to exisiting site conditions or probable traffic generated by a medical use on these premises. It became obvious during the hearing that assumptions, opinions and suppositions were being made which did not accurately address the traffic safety issue and thereby led to erroneous conclusions. It became apparent that a traffic study was necessary to accurately address the traffic safety issue. I have enlisted the services of Associated Trasportation Engineers (ATE) to prepare a traffic study for the project (see attached report dated July 28, 1983).

The specific uses for the addition will be an emergency medical care facility. This specific type of medical facility is somewhat new to the area and accurate traffic

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

information has been lacking. We requested ATE to monitor other like facilites in the Southern California area to establish a traffic trip generation factor. In addition we requested that they establish existing conditions at the site relative to traffic speed, movement time gaps and sight lines.

Since Medical Use is an allowed use in the C-P zone the only reason for excluding this use must be on the basis of either traffic or parking.

Traffic: The C-P zone allows a multiplicity of uses ranging from residential to retail commercial. The original environmental assessment was prepared on the basis of these uses for 8000 square feet of buidling. A review of this assesment increasing the area to 8500 square feet was also done finding no increase in potential impacts.

When the original 4500 square foot building was approved the applicant volunteered to limit the facility to office uses. This was done to eliminate the commercial retail uses which generate as much as 115 vehicle trips per 1000 square feet, thereby greatly reducing potential traffic generated by development on this property.

The attached traffic study indicates that the emergency medical care use will be consistent with this concept and indeed nearly the same as "general office" uses as approved by the Planning Commission. Since the traffic study indicates that the trip generation of this specific uses is consistent with general office,it seems only fair and equitable to allow this use and thereby eliminate the conditions restricting medical office uses.

Parking: The Parking Ordinance establishes parking ratios in two ways: by zone or by specific use. The C-P zone requires 1 space per 200 square feet. This ration is used to provide

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

adequate parking for the great variety of uses allowed in the C-P zone.

The C-O zone which is specifically establishedd for medical offie use requires a ratio of 1 per 250 as does the R-O zone which is for general professional office use. Finally, the parking requirement for office use is at a ratio of 1 per 250.

Since we are providing parking consistent with medical office use it would not be valid to prohibit medical office use because of parking.

The site will indeed allow the additional four spaces required at the higher ratio but the survey of other like facilities would bear out the validity of a 1 per 250 ratio.

Based upon these arguements we are requesting the elimination of the condition restricting medical office use.

The traffic safety issues are also addressed in the traffic study. Several measures to improve the conditions have already been undertaken. In the original approval for the building construction there was a requirement that provided for a transition stripe on Haley/Castillo to provide a greater margin of safety for cars making right turns into the property. This will be completed in the near future. A condition restricting left turns out of the property and a "NO LEFT TURN" sign was required. The limit of use to office also reduces traffic hazards. The fourth mitigation is the requirement to have a minimum twenty-foot wide driveway approach with a fifteen foot radius to allow quick and unobstructed driveway ingress and egress.

In addition to these requirements a further improvement of sight-lines to and from the driveway is possible. Proposed is a regrading and replanting of a portion of the City right-of-way to the west of the driveway. This will enable a sight-line of 155 to 160 feet thereby increasing stopping times and better assessment of traffic breaks before entering the traffic lanes.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

One additional condition needs to be addressed. Condition G requires a physical barrier to prevent left turns into or out of the premises. This seems quite contrary to the original requirement for driveway width to allow quick ingress and egress. I feel that the added confusion of a complex entry will only increase the hazards and I would request this condition also be stricken.

I am asking for consideration of my appeal repealing these two conditions based upon the belief that the intended uses of the premises will not significantly increase traffic safety problems above that which the Planning Commission approved by resolution 34 and 35.

Respectfully submitted,

I. BACKGROUND

In 1980, a proposal for an 8,000-square-foot office/retail building at 315 West Haley Street was approved by the Planning Commission with a number of conditions. An Initial Study was prepared by the Environmental Analyst, a negative declaration was issued, and construction has proceeded. During this period, the developer had the opportunity to provide the necessary parking on an adjacent property and requested that an additional building area of 500 square feet be approved. The Planning Commission reviewed this request on July 7, 1983. During this meeting, some points were raised that needed further study and clarification.

The purpose of this limited traffic study is to provide clarification for these points. The points to be addressed are:

A. Trip generation of comparable uses
B. Existing off-site conditions
C. Driveway access relating to sight distance
D. Recommended conditions from a traffic safety viewpoint

II. TRIP GENERATION OF COMPARABLE USES

Trip generation is the process by which the future vehicle trips of a proposed development are estimated. This estimation of future trips is important in the planning of public works facilities such as traffic signals, in the estimation of development assessment fees, and in the general environmental review/planning process. As important as this estimation is, it is emphasized that prediction of traffic is only that--an estimate. These estimates are based on trip information about existing facilities. The result is a series of tables with trip generation rates for various specific land uses based on independent variables such as number of motel units or number of square feet of office area.

Trip generation is an issue in this proposal because one of the conditions of approval of this development is a restriction of the building use to general

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

office, with "no medical office use" specifically mentioned. It appears that the reason for this conclusion was based on the higher trip generation rate associated with medical office buildings, as opposed to general office buildings. This study will review the trip generation rates for medical office and general office use, and compare the proposed use to them.

TRIPS GENERATED PER 1000 S.F. OF GROSS BUILDING AREA

	Medical Office		General Office (under 50,000 s.f.)	
	Avg. Daily	Peak Hr. %	Avg. Daily	Peak Hr. %
1982/83 ITE Manual	54.6	16%	24.5	13%
Caltrans Progress Report Summary	42.9	14%	14.9	15%
San Diego Traffic Generators	90	---	20	13%

Within each of these sources there is a large range of rates developed for both uses. Since the ITE Manual is the most widely used, and a standard of the City's Traffic Section, its rates will be used in this analysis.

There is no question that the trips generated by a medical office building would be more numerous than those by a general office building. The question raised was if the developer's proposed use of the building (emergency medical care) had trip generation characteristics similar to those of a medical office. Since there are no existing available studies or sources of information on trip generation for emergency medical care offices, ATE conducted a telephone survey with five similar facilities in the general area. The results of this survey are shown in Figure 1. The range of the daily trip rates for the five emergency medical care centers was from 8.4 trips/1000 s.f. to 41.2 trips/1000 s.f., with an average of 24.2 trips/1000 s.f. Although the survey relied on estimates from some of the office managers, it does indicate a difference, as concerns traffic generation, between emergency medical care offices and standard medical offices. Some of these differences are:

A. The average trip generation rate for emergency medical care offices is 24.2 daily trips per 1000 s.f. (rounded to 25 daily trips/1000 s.f.).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

This is approximately the same as that for general offices, and substantially less than that for medical offices.

B. Since emergency medical care offices are generally open longer hours than medical offices, the daily trips are spread out over a greater period of time. A peak of the facility traffic is less likely to coincide with the street peak hour.

C. The busiest time of the day has a wide variation between the different facilities surveyed, and from day to day for each individual facility. Since there are no appointments, the facility peak hour is a random event each day. The standard medical office has a peak hour that generally coincides with the street peak hour.

D. The average length of stay of a patient is approximately 40-45 minutes.

An estimate of the total number of trips generated by the proposal for the different scenarios follows.

		Medical Office			General Office			Total
	Scenario	Area	Trip Rate	Daily Trips	Area	Trip Rate	Daily Trips	Daily Trips
1.	Applicant's Proposal with no distinction in type of medical use.	4000 s.f.	54.6 trips/ 1000 s.f.	218	4500 s.f.	24.5	110	328
2.	Applicant's Proposal with distinction in type of medical use.	4000 s.f.	25 trips/ 1000 s.f.	100	4500 s.f.	24.5	110	210
3.	Proposal restricting all offices to general office use.	—	—	—	8500 s.f.	24.5	208	208

Based on surveys of similar facilities, it appears that the use of emergency medical care in an office will generate substantially less traffic than a standard medical office. The emergency medical care office will have a low peak hour impact, very likely lower than a general office of similar size.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

III. EXISTING OFF-SITE CONDITIONS

The existing street geometrics were either field measured or scaled from maps. Haley Street is 42 feet wide between Bath Street and Castillo Street, with two 11-foot westbound lanes and one 20-foot eastbound lane. Northbound Castillo Street turns into eastbound Haley Street, with an approximate 100-foot-radius curve at an approximate +6% grade. This is the location of the sight distance problem. A field measurement of sight distance from northbound Castillo Street to the project driveway was approximately 130 feet. This was taken from a driver's eye height of 3.75 feet to a vehicle height in the driveway of 4 feet.

Speed of the existing northbound to eastbound traffic was determined by two methods. A speed survey (Figure 3) was taken during the PM peak hour at a point 130 feet west of the project driveway. This survey indicated an average speed of 20.6 mph, an 85th percentile (often used for design purposes and for setting speed limits) speed of 23 mph, and a 99th percentile speed of 25 mph. A second method of determining speed was used in a signal timing study at this location in June 1983. A floating car was used during the AM and PM peak hours in both directions. The average speed was 21 mph during the AM peak and 20 mph during the noon and PM peak hour. The horizontal curve and the yield sign contribute to vehicles slowing down as they enter the curve.

Traffic volumes during the AM and PM peak hours were recently counted for all turning movements at the Castillo Street/Haley Street intersection. They are shown in Figures 4 and 5. Recent Caltrans hourly counts indicate that northbound Castillo Street to eastbound Haley Street has relatively constant traffic between 7:30 AM and 5:30 PM, with no extreme peak hour.

IV. DRIVEWAY ACCESS RELATING TO SIGHT DISTANCE

The basic concern expressed about this project at 315 West Haley Street is the position of its driveway access at Haley Street. The short sight distance for northbound to eastbound Haley Street vehicles approaching the driveway and the relatively high traffic volumes on Haley Street in both directions are factors

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

which combine for a less than desirable driveway access. There are, however, measures (some of which have already been made conditions of this project) that could improve the situation. These will be discussed in this and the next section.

The existing sight distance, as measured in the field, is approximately 130 feet. The theoretical minimum stopping sight distance, based on vehicle speed, is calculated below.

Stopping Sight Distance = reaction distance + braking distance

$$SSD = (V)(\text{reaction time}) + \frac{V^2}{30(f+g)}$$

V = speed: although the 85th percentile is sometimes used, the 99th percentile will be used in this case; that is, 25 mph or 36.7 fps.

reaction time = 2.5 seconds: recommended reaction time is from 2.0 to 2.5 seconds; since this is on a horizontal curve and the driver may not be looking toward the driveway, the higher end of the recommendation is used.

f = pavement to tire friction factor; 0.38 used for this speed.

g = grade of pavement; +6% used.

$$SSD = (36.7 \text{ fps})(2.5 \text{ s}) + \frac{(25)^2}{30(.38 + .06)} = 91.8 + 47.3 = 139.1 \text{ feet}$$

This indicates that the minimum calculated safe stopping sight distance (139.1 feet) exceeds the actual existing sight distance (130 feet). The field sight distance of 130 feet for this movement could be increased by cutting back the slope of the adjacent property to a straight line slope (approximately 1 to 10). This would be most effective between Haley Street and the telephone pole about 30 feet from the sidewalk into the property. This would increase the sight distance to 155-160 feet.

Sight distance for vehicles traveling westbound on Haley Street is not a problem concerning exiting vehicles from the driveway because left turns are prohibited from the driveway. The westbound Haley Street vehicles turning left into the

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

driveway will not present the sight distance problem that driveway exiting vehicles do. However, there will be a minor problem of westbound vehicles waiting to cross the opposing traffic lanes to complete the left turn. This is somewhat mitigated by the upstream traffic signal at the Castillo Street/ Route 101 southbound ramp intersection, where gaps are created.

An additional factor that has not been discussed is that of vehicles on Haley Street backing up across the project driveway while waiting for the traffic signal, either at Castillo Street or at Bath Street. During the PM peak hour, this backup occurs frequently in both directions with the westbound lanes backed past the driveway approximately 20 times. During the AM peak hour the eastbound lanes backed past the driveway approximately 5 times. This situation is another reason for prohibiting left turns from the driveway.

V. RECOMMENDED CONDITIONS FROM A TRAFFIC SAFETY VIEWPOINT

Any time a driveway with an additional 200-400 vehicles per day usage intersects a street with an ADT of 15,000 vehicles per day, there will be an increased possibility of vehicle conflict. To minimize this possibility, there are a number of possible measures. Below is a list of recommended measures and a discussion of each.

A. Prohibit Exiting Left Turns

This was a previous condition and has been posted at the driveway exit already. However, the sign is not a standard sign, and the standard symbol sign with the "no left turn" message below it would probably result in greater compliance.

B. Cut Back the Slope to Increase the Line of Sight from the Northbound Castillo Street Vehicles to the Driveway

The field sight distance could be increased to 155-160 feet by grading a straight slope between the sidewalk edge on Castillo Street and the developed property line.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

C. Place a Right Edge Stripe on the Northbound Castillo Street-Eastbound Haley Street Curve

This is a different pavement marking than that recommended by the Public Works Department. Their recommendation of two separate eastbound lanes makes the through lane too narrow and joins it too abruptly to the through movement. A right edge stripe beginning at the BC of the curve and ending at the driveway is not as severe as a right-turn lane, but provides many of the same benefits.

D. Improve the Sight Distance by a Number of Minor Changes

These include:

1. Cut the ivy down that is growing up the chain link fence and the telephone pole near the driveway.
2. Trim the lower branch of the Jacaranda tree near the driveway.
3. Relocate the real estate sign from the chain link fence.
4. The sprinkler control systems and the stone corner marker near the driveway present minor interference to the sight distance. If either were relocated 5-10 feet into the property, some minor benefits would occur.

E. Repaint the YIELD Marking on the Street

The above recommendations will help reduce the accident potential at this location. However, this location should be monitored by the Public Works staff. If this location does show an increase in accidents or other problems, there are more restrictive and larger solutions that can be implemented. These include creating a physical island at the driveway to prevent left turns in or out of the driveway, and reconstructing the curve on northbound Castillo Street to provide greater sight distance and reduced speeds.

720--MEDICAL OFFICE BUILDING

Description: A medical office can be defined as a facility which provides diagnoses and outpatient care on a routine basis but which is unable to provide prolonged in-house medical/surgical care. A medical office is generally operated by either a single private physician or a group of doctors.

Since medical functions often overlap with those of medical clinics, some problems exist in making a clear distinction between medical offices and clinics in the source data. This problem has led to variable trip generation rates for each of these facilities depending on the definitions used.

Analyses at six medical office buildings indicate that the employment density averaged 3.7 employees per 1000 gross square feet of building area.

Trip Characteristics: The available data indicate that, for this facility type, an average of 54.6 weekday vehicle trip ends are made for every 1,000 square feet of gross floor area, as shown in the following table. The P.M. peak hour was generally observed to begin at about 4:00 P.M.

Data Limitations: It is recommended that additional studies be conducted to provide a more comprehensive data base.

CITY OF SANTA BARBARA

MEMORANDUM

DATE: July 29, 1983

TO: Richard D. Thomas, City Administrator

FROM: Planning Division, DD/SL

SUBJECT: Appeal of a condition imposed by the Planning Commission on the approval of a Conditional Use Permit and a modification of off-street parking requirements and review of a non-residential use on a residentially zoned parcel located at 315 West Haley Street.

1. BACKGROUND

On July 7, 1983 the Planning Commission reviewed a proposal to add 4,000 square feet to a 4,500 square foot commercial structure which is currently under construction. A 34 space parking lot would be constructed on an adjacent parcel to provide parking for the original structure as well as sixteen spaces for the office addition.

The Public Works Department reviewed the project and found the proposal acceptable with a change in the location of the yield sign on Haley Street eastbound. The Environmental Analyst also reviewed the project and found the original Negative Declaration for an 8,000 square foot proposal to be adequate. In addition, this project was included in the Downtown Cumulative Traffic Environmental Impact Report which was prepared in 1982. The City Council has established a fee system to accomplish the mitigation measures outlined in that report. The project will contribute fees for intersection improvements based upon trip generation.

The Planning Commission approved the applications for a Conditional Use Permit to allow a parking lot in a residential zone and a modification of off-street parking requirements (16 spaces instead of 20 spaces) on a 6/0 vote. The Commission also recommended approval to the City Council of this non-residential use in a residential zone.

A condition was included in the approval of the applications as follows:

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted.

The applicant has appealed this condition and suggests that it be reworded to allow medical office uses on site (Attachment A).

II. DISCUSSION

A. Appeal

Planning Staff originally recommended the condition restricting medical office use to mitigate possible parking impacts which may have

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

AUG 2 1983 #23

resulted from the request for a modification of off-street parking requirements (see Attachment B). At the Planning Commission meeting, the applicant introduced a new parking plan which provided the required parking by removal of some landscaped areas. He requested that the Commission consider the new parking plan and requested removal of Condition D which prohibits medical offices. Staff indicated that this would be an acceptable alternative.

The Planning Commission expressed concern that increased vehicle trips associated with the office addition could result in hazards from turning movement conflicts. The Commission felt the driveway location posed a safety problem due to its proximity to the Haley/Castillo Street intersection and to a curve with a limited sight distance. The Planning Commission granted the parking modification and voted to retain Condition D, the limitation of uses.

B. Non-residential Use in a Residential Zone

Chapter 28.87.030.5 of the Municipal Code requires that the City Council approve non-residential uses proposed in residential zones, after receiving a recommendation from the Planning Commission. Although this provision of the Municipal Code has not been carried out in the past, projects of this nature will follow this procedure. An amendment which would remove this procedure from the Code is currently being prepared by the Division of Land Use Controls and the City Attorney's office. The draft is expected in August for City Council consideration.

Attached is a memorandum (Attachment C) from the Planning Commission which outlines their action and recommendation.

III. RECOMMENDATION

It is Staff's opinion that the exclusion of medical office uses is necessary to justify the parking modification as there are no adjacent on-street parking spaces. Staff recommends the following:

A. That the City Council deny the appeal to reword the condition because the prohibition of medical office uses will decrease the parking demand.

B. Approve the proposed non-residential use in a residential zone as recommended by the Planning Commission in that the use would not be detrimental nor inconsistent with the neighborhood.

City of Santa Barbara
P.O. Drawer PP
Santa Barbara, CA 93102

RE: Appeal of Planning Commission action
315 West Haley Street

Dear Mr. Thomas:

As architect and agent for Liselotte McFarland I am appealing the July 7, 1982 action of the Planning Commission regarding the request for a parking modification and Conditional Use Permit.

Resolutions 34 and 35 (see attached resolutions) were adopted with findings and conditions A through G. I am specifically appealing a portion of condition D which excludes medical office use on this property.

This property is zoned C-P which allows a variety of uses including those permitted in R-4, R-Ø and C-O zones. Retail uses are allowed such as banks, restaurants and other retail commercial uses. The applicant has agreed to the elimination of the higher intensity retail uses and will record a deed restriction limiting uses to offices.

PLANNING COMMISSION STAFF REPORT

AUG 2 1983 # 23

July 7, 1983

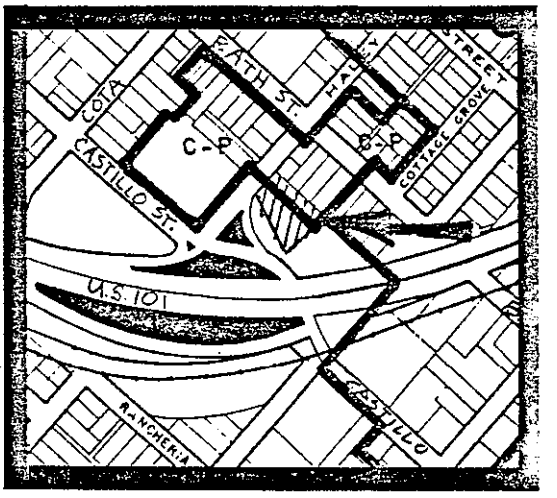
APPLICANT: Lenvik and Minor, Architects

LOCATION: 315 West Haley Street

PARCEL #: 37-192-01 (and State Parcel Nos. 75-0A-01 and 473-01-01)

REQUEST:

- Conditional Use Permit to allow a 34 space parking lot in an R-4, Hotel/Motel/ Multiple Residence Zone
- Modification to allow 16 parking spaces instead of 20 spaces required for the new addition
- Approval of a non-residential use in a residential zone



SITE DESCRIPTION

General Plan: General Commerce and Major Public and Institutional/ Automotive Center

Zoning: C-P Restricted Commercial and R-4 Hotel/Motel/Multiple Residential

Environmental Assessment: Negative Declaration with conditions

Lot Size: Parcel 1: 10,730 sf
Parcel 2: 12,725 sf
Total: 23,455 sf

Existing Use: Parcel 1: Office building under construction
Parcel 2: Vacant

Topography: Sloping gently to the south

Access: Haley Street

Adjacent Land Uses:

North: Commercial and vacant
South: U. S. Highway 101
East: Single family residences/Commercial
West: U. S. Highway 101

4,000 sf office addition	20 spaces	16 spaces
Total	42 spaces	34 spaces

Project Statistics

	Parcel 1	Parcel 2
Building Coverage	4,500 sf (21%)	0
Paving	10,445 sf (44%)	9,025 sf (71%)
Landscaping/Walks	8.010 sf (34%)	3,700 sf (29%)

I. Background

In August 1980 the Planning Commission approved a 4,475 square foot office building on this site and granted a modification to permit eighteen (18) parking spaces instead of the required twenty-two (22) spaces. This modification approval was based on the provision of one (1) space per 250 square feet in lieu of one (1) space per 200 square feet as required in the C-P zone. A condition was added which limited the parcel to office use thereby reducing the need for a higher parking ratio. The approved plan placed the office use on the second floor with parking on the ground floor. This structure is currently under construction.

The current proposal involves the original parcel and two adjacent vacant parcels which are zoned R-4. These parcels are currently being acquired from CalTrans in a surplus land sale and will be leased to the applicant (see Attachments 2 and 3). The proposal is to add 4,000 square feet of office space to the existing structure by enclosing the ground floor area. Parking would be provided on the vacant parcels to the west of the site. A Conditional Use Permit (CUP) is required to allow the parking lot in the R-4 zone and a modification is requested to provide sixteen (16) parking spaces rather than the twenty (20) required spaces. The Environmental Analyst has reviewed this proposal and determined that the original Negative Declaration granted to an 8,000 square foot building would suffice (see Attachments 4 and 5). No new significant environmental impacts were found.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

AUG 2 1983 #23

II. Major Issues

A. Parking:

The C-P zone has a parking requirment of one space per 200 square feet of development rather than one space per 250 square feet as required for most other zones. The intent of providing more than the normal amount of parking is to limit the effect of commercial uses on the surrounding residential areas. The C-P zone also allows for retail uses which generally have more associated traffic than will other uses.

This site is not located directly within a residential area, but rather is on the "fringe", adjacent to commercial uses and major traffic corridors (see Attachment 6). Currently there is no on-street parking available on this block of Haley Street. The only off-site parking available would be on Bath Street above and below Haley Street. Bath Street is primarily a residential street.

The applicant has proposed 16 new parking spaces rather than the required 20 spaces. This request results in the provision of a total of 34 parking spaces in lieu of the 42 spaces required by ordinance. A deed restriction currently exists which restricts Parcel 1 to office uses. This restriction was proposed based on the fact that traffic generated by office use is generally one-third that of retail use. The applicant has proposed a parking ratio of one space per 250 square feet and proposes to limit the use of the addition to offices. However, this limitation could include medical offices which can have a trip generation rate three to five times higher than "general office." A condition has been included to preclude medical offices. Bicycle parking is provided on-site as well as a shower and on-site lunch facilities. Bus service is available in the area.

B. Traffic and Circulation:

When the original 4,725 square foot building was before the Planning Commission in 1980 the Staff recommended denial based on unsafe access. The applicant worked with the Public Works Department to redesign the access and the Haley/Castillo Street intersection to provide for safer movements. The Planning Commission approved the project with the new mitigation measures outlined by Public Works (see Attachment 7).

The Public Works Department reviewed the new proposal and found the existing conditions suffice as mitigations with the elimination of the condition which relocates the YIELD sign (see Attachment 8.).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

AUG 2 1983 #23

The development of this project would leave a small vacant triangular parcel to the south of the project site. This parcel would be landlocked as it does not have frontage on a public street. A condition has been included to require the recording of an easement to allow access to the parcel through the proposed parking lot.

C. Residential Use

The parking lot is proposed on two parcels totalling 12,725 square feet. These two parcels are zoned R-4 Hotel/Motel/Multiple Residence and could accomodate a range of four, three bedroom units to seven studio units.

This area has recently undergone a rezoning and General Plan Amendment study as recommended in the Housing and Commercial Assessment study. The two vacant State owned parcels however, are located outside the rezoning study area and were not addressed. In the De La Vina area rezone study, Planning Staff recommended that commercial zoning be retained for areas adjacent to the freeway due to noise and traffic considerations. Residential zoning was recommended for interior lands which would be buffered by the commercial fringe. The City Council has not yet taken action on this recommendation.

III. Conclusion and Recommendation

A. Conditional Use Permit: The proposed parking lot would not intrude on or cause conflicts with any adjacent residential areas, therefore Staff recommends that the Planning Commission make the necessary findings and approve the Conditional Use Permit with the attached conditions.

B. Modification: The conditions restricting the building's use to general office and excluding medical offices would mitigate concerns regarding the proposed reduction in parking spaces. Therefore, Staff recommends that the Planning Commission make the necessary findings and approve the modification with the attached conditions.

C. Non-residential Use in a Residential Zone: Staff recommends that the Planning Commission recommend to the City Council that this parking lot be approved on this residential parcel as it is compatible with the surrounding land uses.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

AUG 2 1983 #23

IV. Conditions of Approval (as approved by the Planning Commission)

A. All conditions of the previous modification apply unless superceded by the following conditions:

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the northbound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall permitted.

Amend E. Applicant shall ~~secure~~ implement grading or other improvements necessary to increase site distance to 155 to 160 feet. An encroachment agreement or other appropriate agreement from Caltrans to establish ~~an such~~ increased line of sight at the Haley/Castillo Street curve ~~to at least 150 feet.~~ shall be secured.

Amend F. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

RE: 315 W. Haley

Dear Stephanie:

The property adjacent to 315 West Haley Street referred to as Parcel Two on the Site Plan for which a CUP is being requested and which is commonly referred to as the "Cal Trans" property is in escrow.

Mr. Richard Godkin is purchasing the property and has authorized us to proceed as agent for the project as submitted to you.

I trust this answers your questions regarding the ownership status of this parcel.

Sincerely,

LENVIK & MINOR, ARCHITECTS

Project Description and Letter of Request
Parking Modification and Conditional Use Permit

315 West Haley Street

The property at 315 West Haley Street is currently zoned C-P. On August 7, 1980 the Planning Commission approved the site plan for a two story office building of 4,475 square feet and a parking modification to allow a ratio of 1 space per 250 square feet in lieu of the required 1 space per 200 square feet. This plan placed the office use on the second floor with parking on the ground level. The justification for this modification was that the owner agreed to a recorded deed restriction limiting the use to office use thereby reducing the need for higher parking ratio (see attached Resolution #48, August 7, 1980).

Our current application includes AP 37-192-02 and two parcels of property zoned R-4 to be made available by a Cal Trans sale of surplus land (Cal Trans Numbers 75-0A-01 and 473-01-01). The acquisition of this land will allow parking to be provided on the adjacent parcels for the existing structure and infill of the ground floor space. We are therefore requesting a CUP to allow this parking in a R-4 zone per section 28-94-030(16) of Title 28. These parcels abut the C.P zone to the east and Castillo Street and U.S. 101 on the west. Parking on this land would not have any impact on other residentially zoned parcels.

We are also requesting a continuation of the parking modification for the 4,000 square foot ground floor addition as originally granted to the second story space. It is understood that the use of the space will be limited to office use per conditions of resolution number 48.

By restricting the use on the parcel to office space the traffic generated is approximately one-fourth that for retail as allowed by the C-P zone. Bus service is available in the immediate area. There is no stated

Attachment 3

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

AUG 2 1983 #23

impacted parking concerns in the immediate area. Bicycle parking is provided as well as shower facilities for bicyclists. In addition to the above benefits over thirty-four percent of the property is landscaped with on-site lunch facilities provided.

We feel the granting of these two requests will not be inconsistent with the intent and requirements of the zoning ordinance and therefore request your approval.

PLANNING · ZONING · BUILDING · HOUSING

DATE: April 25, 1980

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

RE: 315 W. Haley Street, SB-27-80

Dear Ken,

Per your request, I have reviewed your proposal to add approximately 4,000 sq. ft. to the 4,500 sq. ft. office building currently under construction at the address referenced above. In 1980, the Environmental Review Committee granted a Negative Declaration for a 8,000 sq. ft. building and Transportation Staff and I have determined that the existing ND will suffice for the proposed project. Although the addition will not require any subsequent environmental review, you should be aware that the payment of traffic mitigation fees will be required.

If you have any further questions, please call.

Sincerely,

Pat

Patricia W. Saley

PLANNING · ZONING · BUILDING · HOUSING

August 11, 1980

Mr. E. A. Lenvik
Lenvik & Minor, Architects
4 E. Yanonali
Santa Barbara, Calif. 93101

Dear Mr. Lenvik,

On August 7, 1980, the Planning Commission approved the plot plan for Lenvik and Minor, Architects, to construct an office building at 315 W. Haley Street in a C-P Restricted Office Zone, subject to the following conditions:

A. Prior to preliminary approval by the Architectural Board of Review, the proposal, including elevations, shall be reviewed by the Landmarks Committee for comment.

The Architectural Board of Review and Landmarks Committee shall review the project in terms of its size, scale and architecture. Particular attention shall be paid in terms of the project being located at an entrance to the City.

B. Prior to the issuance of a Certificate of Occupancy, the applicant shall complete the following:

1. The applicant shall waive the right to protest the formation of any public improvement district.
2. Any change in the proposed office use of the building shall be returned to the Planning Commission for review and approval of the parking impact.
3. A "no left turn" sign shall be posted at exit from the property subject to Public Works approval.

C. The following conditions are required by Public Works:

1. Striping and pavement marking changes on Haley and Castillo Streets are to be done by the developer's contractor.

   a. The YIELD legend is to be relocated from the northbound lane on Castillo Street to the eastbound lane of Haley Street, departing its intersection with Castillo Street (see attached sketch).

   b. A right-turn only, entering lane, is to be defined using striping and reflective pavement markers.

Lenvik & Minor
315 W. Haley
8/11/80

AUG 2 1983 #23

2.

2. A 15-foot radius is to be constructed on the west end of the property entrance, instead of a standard driveway approach. The profile from the Haley Street curb line to the end of the 15-foot curb return is to be straight, i.e. a typical driveway cross-section rising 0.5 feet in 5 feet is not to be constructed.

3. A 20-foot driveway is to be constructed, requiring a 26-foot curb cut.

4. The location will be monitored by staff. If accident problems develop, left turns in and out might have to be prohibited in the interest of traffic safety.

Sincerely,

Larry Carter
Zoning Officer

SANTA BARBARA
PUBLIC WORKS DEPARTMENT

AUG 2 1983 #23

DATE: June 24, 1983

TO: David D. Davis, City Planner

FROM: Director

SUBJECT: 315 WEST HALEY

Transportation Staff have reviewed the proposed addition of 4,000 square feet of office space to the presently approved 4,500 square feet. Staff suggests elimination of the condition calling for relocation of the yield sign as this relocation could cause a safety problem. The other conditions that were placed on the original project will suffice as mitigation measures for the increased intensity of use.

With reference to the request for a modification of the number of required parking spaces, it should be noted that there is no on-street parking allowed in this block of Haley Street.

MEMORANDUM

DATE: July 22, 1983

TO: Mayor and Councilmembers

FROM: Planning Commission

SUBJECT: Request for Approval of Non-residential Use in a Residential Zone at 315 West Haley Street.

Chapter 28.87.030.3 of the Municipal Code requires City Council approval for any non-residential uses proposed in a residential zone, after a recommendation has been received from the Planning Commission. The subject project is in the R-4, multiple-family residential zone and therefore reqiures City Council approval. The Planning Commission voted 6/0 to recommend to the City Council that this non-residential use be approved in a residential zone as the proposed parking facility is adjacent to two major streets and U. S. Highway 101. As such, the use would not be detrimental nor inconsistent with the neighborhood.

Application of Lenvik & Minor Architects, agent for Liselotte Mc Farland for a conditional use permit under provisions of Sections 28.94 and 28.94.030.10 of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to City Parcel 37-192-01 & a previously state-owned parcel with no parcel number assigned, located at 315 West Haley Street in a C-P restricted commercial zone and a R-4 hotel-motel multiple family residence zone, in order to permit an office complex to provide thirty-four (34) required off-street parking spaces on an adjacent residentially zoned property.

~~Application of Lenvik & Minor Architects, agent for Liselotte McFarland for a modification of provisions of Section 28.90.100.10a of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to City Parcel 37-192-01 and a previously state-owned parcel having no parcel number assigned located at 315 West Haley Street in a C-P restricted commercial and a R-4 hotel-motel multiple family residence zone,~~ in order to permit thirty-four (34) off-street parking spaces instead of the required forty-three (43) spaces.

Ms. Lawson introduced this item, saying staff recommended approval with conditions. She noted Mr. Minor had with him an alternate parking plan that would not require modification.

Mr. Ken Minor, Lenvik & Minor , answered questions. He asked that the easement to the central parcel proposed over their lot be eliminated. He said that parcel was previously land locked and his project was not creating a new problem. He said the granting of that easement could create xxxxx traffic problems for his project, depending on use of the parcel.

The public hearing was opened and closed.

Planning Commission members expressed concerns with the dangers of egress onto Haley Street.

Mr. Gray said he felt the intensified use in the area created xxxxxxxx hazards andxxxxxxxxxxxxxxxxxxxxxxxxx lack of visibility was a serious problem.

xxxxxxxxxxxxxxxxxxxxxxxxx

Mr. Manz, Public Works, said the plan had been reviewed by Public works and xxxxxxxxx the plan has been approved by them.

Mr. Anderson said he had concerns about the land locked parcel being developed xxxxxxx creating greater traffic exiting . He said he would prefer to see that parcel receive access at some other point.

missing discussion of 2 new conditions (F&G)

MOTION: Gray/Robinson 6-0

ACTION: To approve the conditional use permit, finding that it complies with Title 28, subject to the following conditions:

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

A. All conditions of the previous modification apply unless superceded by the following conditions:

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City. Substantial landscaping shall be provided.

C. The YIELD sign shall not be relocated from the northbound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall permitted.

E. Prior to the issuance of building permits:

1. An easement shall be recorded for access purposes to the adjacent parcel to the south designated by the State of California as Parcel Number 472-01-01.

2. A reciprocal access and parking agreement shall be recorded between Assessor's Parcel No. 37-192-01 and the two parcels to the west designated by the State of California as Parcel Numbers 75-0A-01 and 473-01-01.

or other appropriate agr

F. Applicant shall secure an encroachment agreement/from Caltrans to establish an increased line of site at the Haley Castillo curve to at least 150 feet.

G. A physical barrier either by island in the driveway or other means be provided to prevent left turns in or out of the driveway.

Mrs. Orias said she felt the land locked parcel was not being created by the current action and should not the burden of correcting it should not be placed on this applicant.

MOTION: Orias/Woolson 4/2, Mxc Gray & Robinson dissenting.

ACTION: To amend condition E. of the conditional use permit, eliminating E.1. and the balance simply to be designated as condition E.

Mrs. Woolson said she believed that access to that parcel could better be sought through some other parcel, rather than creating an additional traffic access problem in an already hazardous location.

MOTION: Woolson/Robinson 6/0

ACTION: To approve the modification, finding it is not inconsistent with the purposes and intent of the Zoning Ordinance and will not cause an increase in the demand for parking space or loading space in the immediate area, and subject to the same conditions as those imposed on the conditional use permit.

MOTION: Robinson/ Woolson 6/0

ACTION: To recommend approval to City Council of the non-residential use in a residential ~~neighborhood~~ Zone as the parking facility is between two(2) maja streets and U.S. Hwy 101 and as such will not be inconsistant with the neighborhood.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

CONSENT CALENDAR - to be acted on by a single motion (Con't):

Set date for public hearing:

11. Recommendation to set the date of August 2, 1983 at 2:00 p.m. for hearing the appeal of Lenvik & Minor, agent for Liselotte McFarland, from the decision of the Planning Commission approving the following applications with conditions with respect to City Parcel 37-192-01 and a previously state-owned parcel having no parcel number assigned located at 315 West Haley Street in a C-P restricted commercial and a R-4 hotel-motel multiple family residence zone. The appeal is regarding a condition of the following applications: 1) a conditional use permit under provisions of Sections 28.94 and 28.94.030.10 of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit an office complex to provide thirty-four (34) required off-street parking spaces on an adjacent residentially zoned (R-4) property; and 2) a modification of provisions of Section 28.90.100.10a of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, in order to permit thirty-four (34) off-street parking spaces instead of the required forty-three (43) spaces. The condition being appealed is stated as follows: "A deed restriction shall be recorded which restricts the building to general office. No medical office use shall be permitted."

CITY OF SANTA BARBARA

PLANNING COMMISSION STAFF REPORT

July 7, 1983

APPLICANT: Lenvik and Minor, Architects

LOCATION: 315 West Haley Street

PARCEL #: 37-192-01 (and State Parcel Nos. 75-0A-01 and 473-01-01)

REQUEST:

- Conditional Use Permit to allow a 34 space parking lot in an R-4, Hotel/Motel/ Multiple Residence Zone
- Modification to allow 16 parking spaces instead of 20 spaces required for the new addition
- Approval of a non-residential use in a residential zone

SITE DESCRIPTION

General Plan: General Commerce and Major Public and Institutional/ Automotive Center

Zoning: C-P Restricted Commercial and R-4 Hotel/Motel/Multiple Residential

Environmental Assessment: Negative Declaration with conditions

Lot Size:
Parcel 1: 10,730 sf
Parcel 2: 12,725 sf
Total: 23,455 sf

Existing Use:
Parcel 1: Office building under construction
Parcel 2: Vacant

Topography: Sloping gently to the south

Access: Haley Street

Adjacent Land Uses:

North: Commercial and vacant
South: U. S. Highway 101
East: Single family residences/Commercial
West: U. S. Highway 101

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Parking:

	Parking Required	Parking Provided
4,500 sf existing office	22 spaces	18 spaces (modification approved 1980)
4,000 sf office addition	20 spaces	16 spaces
Total	42 spaces	34 spaces

Project Statistics

	Parcel 1	Parcel 2
Building Coverage	4,500 sf (21%)	0
Paving	10,445 sf (44%)	9,025 sf (71%)
Landscaping/Walks	8.010 sf (34%)	3,700 sf (29%)

I. Background

In August 1980 the Planning Commission approved a 4,475 square foot office building on this site and granted a modification to permit eighteen (18) parking spaces instead of the reqiured twenty-two (22) spaces. This modification approval was based on the provision of one (1) space per 250 square feet in lieu of one (1) space per 200 square feet as required in the C-P zone. A condition was added which limited the parcel to office use thereby reducing the need for a higher parking ratio. The approved plan placed the office use on the second floor with parking on the ground floor. This structure is currently under construction.

The current proposal involves the original parcel and two adjacent vacant parcels which are zoned R-4. These parcels are currently being acquired from CalTrans in a surplus land sale and will be leased to the applicant (see Attachments 2 and 3). The proposal is to add 4,00 square feet of office space to the existing structure by enclosing the ground floor area. Parking would be provided on the vacant parcels to the west of the site. A Conditional Use Permit (CUP) is required to allow the parking lot in the R-4 zone and a modificaiton is requested to provide sixteen (16) parking spaces rather than the twenty (20) required spaces. The Environmental Analyst has reviewed this proposal and determined that the original Negative Declaration granted to an 8,000 square foot building would suffice (see Attachments 4 and 5). No new significant environmental impacts were found.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

II. Major Issues

A. Parking:

The C-P zone has a parking requirment of one space per 200 square feet of development rather than one space per 250 square feet as required for most other zones. The intent of providing more than the normal amount of parking is to limit the effect of commercial uses on the surrounding residential areas. The C-P zone also allows for retail uses which generally have more associated traffic than will other uses.

This site is not located directly within a residential area, but rather is on the "fringe", adjacent to commercial uses and major traffic corridors (see Attachment 6). Currently there is no on-street parking available on this block of Haley Street. The only off-site parking available would be on Bath Street above and below Haley Street. Bath Street is primarily a residential street.

The applicant has proposed 16 new parking spaces rather than the required 20 spaces. This request results in the provision of a total of 34 parking spaces in lieu of the 42 spaces required by ordinance.
A deed restriction currently exists which restricts Parcel 1 to office uses. This restriction was proposed based on the fact that traffic generated by office use is generally one-third that of retail use. The applicant has proposed a parking ratio of one space per 250 square feet and proposes to limit the use of the addition to offices. However, this limitation could include medical offices which can have a trip generation rate three to five times higher than "general office." A condition has been included to preclude medical offices. Biclycle parking is provided on-site as well as a shower and on-site lunch facilities. Bus service is available in the area.

B. Traffic and Circulation:

When the original 4,725 square foot building was before the Planning Commission in 1980 the Staff recommended denial based on unsafe access. The applicant worked with the Public Works Department to redesign the access and the Haley/Castllo Street intersection to provide for safer movements. The Planning Commission approved the project with the new mitigation measures outlined by Public Works (see Attachment 7).

The Public Works Department reviewed the new proposal and found the existing conditions suffice as mitigations with the elimination of the condition which relocates the YIELD sign (see Attachment 8.).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

The development of this project would leave a small vacant triangular parcel to the south of the project site. This parcel would be landlocked as it does not have frontage on a public street. A condition has been included to require the recording of an easement to allow access to the parcel through the proposed parking lot.

C. Residential Use

The parking lot is proposed on two parcels totalling 12,725 square feet. These two parcels are zoned R-4 Hotel/Motel/Multiple Residence and could accomodate a range of four, three bedroom units to seven studio units.

This area has recently undergone a rezoning and General Plan Amendment study as recommended in the Housing and Commerical Assessment study. The two vacant State owned parcels however, are located outside the rezoning study area and were not addressed. In the De La Vina area rezone study, Planning Staff recommended that commercial zoning be retained for areas adjacent to the freeway due to noise and traffic considerations. Residential zoning was recommended for interior lands which would be buffered by the commerical fringe. The City Council has not yet taken action on this recommendation.

III. Conclusion and Recommendation

A. Conditional Use Permit: The proposed parking lot would not intrude on or cause conflicts with any adjacent residential areas, therefore Staff recommends that the Planning Commission make the necessary findings and approve the Conditional Use Permit with the attached conditions.

B. Modification: The conditions restricting the building's use to general office and excluding medical offices would mitigate concerns regarding the proposed reduction in parking spaces. Therefore, Staff recommends that the Planning Commission make the necessary findings and approve the modification with the attached conditions.

C. Non-residential Use in a Residential Zone: Staff recommends that the Planning Commission recommend to the City Council that this parking lot be approved on this residential parcel as it is compatible with the surrounding land uses.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

IV. Conditions of Approval

A. All conditions of the previous modification apply unless superceded by the following conditions:

B. The Architectural Board of Review shall review the landscaping for the parking lot paying particular attention to the project's location at the entrance to the City.

C. The YIELD sign shall not be relocated from the north-bound lane of Castillo Street.

D. A deed restriction shall be recorded which restricts the building to general office. No medical office use shall permitted.

E. Prior to the issuance of building permits:

1. An easement shall be recorded for access purposes to the adjacent parcel to the south designated by the State of California as Parcel Number 472-01-01.

1. A reciprocal access and parking agreement shall be recorded between Assessor's Parcel No. 37-192-01 and the two parcels to the west designated by the State of California as Parcel Numbers 75-0A-01 and 473-01-01.

RE: 315 W. Haley

Dear Stephanie:

The property adjacent to 315 West Haley Street referred to as Parcel Two on the Site Plan for which a CUP is being requested and which is commonly referred to as the "Cal Trans" property is in escrow.

Mr. Richard Godkin is purchasing the property and has authorized us to proceed as agent for the project as submitted to you.

I trust this answers your questions regarding the ownership status of this parcel.

Sincerely,

LENVIK & MINOR, ARCHITECTS

Kenneth O. Minor, AIA

Project Description and Letter of Request
Parking Modification and Conditional Use Permit

315 West Haley Street

The property at 315 West Haley Street is currently zoned C-P. On August 7, 1980 the Planning Commission approved the site plan for a two story office building of 4,475 square feet and a parking modification to allow a ratio of 1 space per 250 square feet in lieu of the required 1 space per 200 square feet. This plan placed the office use on the second floor with parking on the ground level. The justification for this modification was that the owner agreed to a recorded deed restriction limiting the use to office use thereby reducing the need for higher parking ratio (see attached Resolution #48, August 7, 1980).

Our current application includes AP 37-192-02 and two parcels of property zoned R-4 to be made available by a Cal Trans sale of surplus land (Cal Trans Numbers 75-0A-01 and 473-01-01). The acquisition of this land will allow parking to be provided on the adjacent parcels for the existing structure and infill of the ground floor space. We are therefore requesting a CUP to allow this parking in a R-4 zone per section 28-94-030(16) of Title 28. These parcels abut the C.P zone to the east and Castillo Street and U.S. 101 on the west. Parking on this land would not have any impact on other residentially zoned parcels.

We are also requesting a continuation of the parking modification for the 4,000 square foot ground floor addition as originally granted to the second story space. It is understood that the use of the space will be limited to office use per conditions of resolution number 48.

By restricting the use on the parcel to office space the traffic generated is approximately one-fourth that for retail as allowed by the C-P zone. Bus service is available in the immediate area. There is no stated

Attachment 3

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

impacted parking concerns in the immediate area. Bicycle parking is provided as well as shower facilities for bicyclists. In addition to the above benefits over thirty-four percent of the property is landscaped with on-site lunch facilities provided.

We feel the granting of these two requests will not be inconsistent with the intent and requirements of the zoning ordinance and therefore request your approval.

PLANNING · ZONING · BUILDING · HOUSING

DATE: April 25, 1980

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

RE: 315 W. Haley Street, SB-27-80

Dear Ken,

Per your request, I have reviewed your proposal to add approximately 4,000 sq. ft. to the 4,500 sq. ft. office building currently under construction at the address referenced above. In 1980, the Environmental Review Committee granted a Negative Declaration for a 8,000 sq. ft. building and Transportation Staff and I have determined that the existing ND will suffice for the proposed project. Although the addition will not require any subsequent environmental review, you should be aware that the payment of traffic mitigation fees will be required.

If you have any further questions, please call.

Sincerely,

Pat

PLANNING · ZONING · BUILDING · HOUSING

August 11, 1980

Mr. E. A. Lenvik
Lenvik & Minor, Architects
4 E. Yanonali
Santa Barbara, Calif. 93101

Dear Mr. Lenvik,

On August 7, 1980, the Planning Commission approved the plot plan for Lenvik and Minor, Architects, to construct an office building at 315 W. Haley Street in a C-P Restricted Office Zone, subject to the following conditions:

A. Prior to preliminary approval by the Architectural Board of Review, the proposal, including elevations, shall be reviewed by the Landmarks Committee for comment.

The Architectural Board of Review and Landmarks Committee shall review the project in terms of its size, scale and architecture. Particular attention shall be paid in terms of the project being located at an entrance to the City.

B. Prior to the issuance of a Certificate of Occupancy, the applicant shall complete the following:

1. The applicant shall waive the right to protest the formation of any public improvement district.

2. Any change in the proposed office use of the building shall be returned to the Planning Commission for review and approval of the parking impact.

3. A "no left turn" sign shall be posted at exit from the property subject to Public Works approval.

C. The following conditions are required by Public Works:

1. Striping and pavement marking changes on Haley and Castillo Streets are to be done by the developer's contractor.

   a. The YIELD legend is to be relocated from the northbound lane on Castillo Street to the eastbound lane of Haley Street, departing its intersection with Castillo Street (see attached sketch).

   b. A right-turn only, entering lane, is to be defined using striping and reflective pavement markers.

Attachment 7

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

2. A 15-foot radius is to be constructed on the west end of the property entrance, instead of a standard driveway approach. The profile from the Haley Street curb line to the end of the 15-foot curb return is to be straight, i.e. a typical driveway cross-section rising 0.5 feet in 5 feet is not to be constructed.

3. A 20-foot driveway is to be constructed, requiring a 26-foot curb cut.

4. The location will be monitored by staff. If accident problems develop, left turns in and out might have to be prohibited in the interest of traffic safety.

Sincerely,

Larry Carter
Zoning Officer

CITY OF SANTA BARBARA
PUBLIC WORKS DEPARTMENT

DATE: June 24, 1983

TO: David D. Davis, City Planner

FROM: Director

SUBJECT: 315 WEST HALEY

Transportation Staff have reviewed the proposed addition of 4,000 square feet of office space to the presently approved 4,500 square feet. Staff suggests elimination of the condition calling for relocation of the yield sign as this relocation could cause a safety problem. The other conditions that were placed on the original project will suffice as mitigation measures for the increased intensity of use.

With reference to the request for a modification of the number of required parking spaces, it should be noted that there is no on-street parking allowed in this block of Haley Street.

TO: Planning Commission

FROM: Director

SUBJECT: PROPOSED COMMERCIAL BUILDING AND DRIVEWAY AT 315 W. HALEY

Staff has reviewed the preliminary plans for the subject project and finds that the proposed driveway creates a traffic hazard and in the interest of safety it is our recommendation that they not be allowed.

Although a driveway currently exists serving this property, it was associated with a single residence which would generate an average of ten trips per day. The proposed offices would generate at least fifty trips per day, greatly increasing the accident potential at this location.

The property to the west, owned by Caltrans, was just recently denied access because of the same safety problem (see attached). Although this project is further removed from the intersection of Castillo and Haley Streets it still has the basic problem of inadequate visibility. Vehicles entering from the west would have to slow down or stop (should there be parking maneuvers blocking the driveway) before entering. Since following motorists northbound on Castillo Street have to yield to eastbound traffic on Haley Street, they are looking to their left and would rear-end any car slowing down or stopped ahead of them. When exiting from the proposed driveway there is also a lack of visibility to the west.

For the preceding reasons it is this Department's recommendation that the project not be approved as presented. This property and also the Caltrans parcel would be best served by access off Bath Street through an easement.

The following mitigating measures could relieve the safety problem to some extent.

1. Create a turning lane by widening the south side of Haley Street. This would be used by patrons of the proposed project and allow through traffic to flow safely; or

2. Remove the problem of looking to the left in order to yield for eastbound Haley Street traffic by making the north leg of the Castillo/Haley Street intersection right turns only in and out.

I hereby authorize the above person(s) to act as my agent(s) in all matters pertaining to this modification application.

THE FOLLOWING MUST BE FILED BEFORE THE APPLICATION CAN BE PROCESSED: (Also see reverse side)

1. Application Form - One (1) copy.

2. Filing Fee, in the following amount:

   Modification - $250.00 per lot.
   Variance - $250.00 plus $10.00 for each additional dwelling unit.
   Conditional Use Permit - $250.00 plus $10.00 for each additional lot.
   Rezoning - $500.00 plus $10.00 for each additional lot.
   Development Plan Approval - $250.00.
   Local Coastal Plan - Administrative and/or consent items $100.00.
   Planning Commission Review Items - $250.00.

3. Ownership List, as set forth on the attached list.

4. Six (6) Copies of Plans (except rezoning applications) containing information as set forth on the back of the application. Rezonings require two (2) copies of the assessor's parcel map with the properties proposed for rezoning marked in red.

5. Transparency - 8½" x 10" size.

6. Evidence that the Environmental Assessment has been completed.

7. Justification of the particular request as set forth on back of application.

NOTE

Regular Planning Commission meeting days are the first and third Thursdays of each month. The deadline for filing all of the items listed above is 5:00 p.m. 23 days preceding the Planning Commission meeting day at which this request is to be heard. The deadline days regularly occur, therefore, on Tuesdays, and on Monday when Tuesday is a holiday.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

APPLICATION CHECK LIST

Application is on the other side of this form.

Filing Fee. See front of application.

Ownership List. Attached.

Six (6) copies of a site plan drawn to scale (8½"x 11" sheet or multiple thereof) and showing:

a. Dimensions of the lot(s) including street locations and net lot area, where applicable.

b. Dimensions of existing and proposed buildings and structures showing setbacks from property lines.

c. Layout and dimensions of parking and driveways showing number of parking spaces.

d. Identification and dimensions of any proposed changes.

e. Landscape plan to show the following:

1) All areas to be landscaped including areas to be left in natural condition.

2) All proposed and existing trees with those to be removed so indicated.

f. Scale and North arrow.

Transparency 8½" x 10".

Negative Declaration, Environmental Impact Report, or Statement that item is categorically exempt.

Justification. In order to approve a request, the Planning Commission must make the appropriate findings. The applicant must provide written justification for the necessary findings.

a. MODIFICATIONS

1) The granting of a modification of yard or lot area regulations is necessary to secure an appropriate improvement on the property, to prevent unreasonable hardship, or to promote uniformity of improvement.

2) The granting of a modification of fence, wall, or hedge regulations is necessary to secure an appropriate improvement on the lot in question.

3) The granting of a modification of parking space or loading space requirements will not be inconsistent with the purposes and intent of the Zoning Ordinance and will not cause an increase in the demand for parking space or loading space in the immediate area.

b. VARIANCE (All the following)

1) There are exceptional circumstances applicable to the property involved which do not apply generally to other property in the same zone or vicinity.

2) The granting of this variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone, or vicinity in which the property is located.

3) The variance is necessary for the preservation and enjoyment of a substantial property right of the applicant possessed by other property in the same zone and vicinity.

4) The granting of this variance will not adversely affect the Comprehensive General Plan.

c. REZONING

1) That the rezoning is in the public necessity, convenience, general welfare, or is good zoning practice.

d. CONDITIONAL USE PERMIT

NOTE: There are several types of usage requiring conditional use permits, each with its own set of required findings under Municipal Code 28.94.020. You may request a copy of findings related to your particular requested usage at the Division of Land Use Controls.

SANTA BARBARA CITY PLANNING COMMISSION

RESOLUTION NO. 48

SUBJECT: Application of Lenvik and Minor, Architects, for a modification of provisions of Section 28.90.100.4b of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to City Parcel 37-192-01 ;pcated at 315 West Haley Street in a CP Restricted Commercial Zone, in order to permit the construction of an office building with 4475 square feet of floor area and provide 18 parking spaces instead of the required 22 parking spaces.

WHEREAS, the City Planning Commission has held the required public hearing on the above application; and the applicant was present.

WHEREAS, 0 persons appeared to speak in favor of the application and 0 persons appeared to speak in opposition thereto, and the following exhibits were presented for the record:

Application
Negative Declaration
Site Plan, Elevations and Landscape Plan
Staff Report

; and

WHEREAS, the matter having been fully considered by this Commission, the Planning Commission finds as follows:
The modification is not inconsistent with the requirements of the Zoning Ordinance.

NOW, THEREFORE IT IS RESOLVED that the City Planning Commission hereby approves the subject request, subject to the following conditions:

Prior to the issuance of a Certificate of Occupancy, the applicant shall complete the following

1. A deed restriction shall be recorded waiving the right to protest the formation of any public improvement district.
2. A deed restriction shall be recorded restricting the use of the property to office uses.

Passed and adopted this 7th day of August, 1980, by the Planning Commission of the City of Santa Barbara, by the following vote:

WEST DOWNTOWN
Neighborhood Planning Council

423 W. Victoria Street
Santa Barbara, CA 93101

August 5, 1980

Planning Commission
De La Guerra Plaza
Santa Barbara, CA

Honorable Commission Members:

An application is before you at the request of Lenvik and Minor, Architects, for a modification of parking provisions at 315 West Haley Street. The West Downtown neighborhood in which this parcel is located, presently deals with a parking problem, since many employees within the area use on-street parking. The West Downtown Neighborhood Planning Council has already talked with City staff and is informed of future plans for a Resident Permit Parking Program which would alleviate some of the problems we presently encounter. However, until such time that the parking situation within our neighborhood is resolved, no modification of City parking requirements should be approved.

Therefore, please consider carefully your decision regarding this request for modification, taking into account the impacts a decrease in parking would have upon the surrounding neighborhood.

Sincerely,

Edward Reynolds

SUBJECT: PROPOSED COMMERCIAL BUILDING AND DRIVEWAY AT 315 W. HALEY

Staff has reviewed the preliminary plans for the subject project and finds that the proposed driveway creates a traffic hazard and in the interest of safety it is our recommendation that they not be allowed.

Although a driveway currently exists serving this property, it was associated with a single residence which would generate an average of ten trips per day. The proposed offices would generate at least fifty trips per day, greatly increasing the accident potential at this location.

The property to the west, owned by Caltrans, was just recently denied access because of the same safety problem (see attached). Although this project is further removed from the intersection of Castillo and Haley Streets it still has the basic problem of inadequate visibility. Vehicles entering from the west would have to slow down or stop (should there be parking maneuvers blocking the driveway) before entering. Since following motorists northbound on Castillo Street have to yield to eastbound traffic on Haley Street, they are looking to their left and would rear-end any car slowing down or stopped ahead of them. When exiting from the proposed driveway there is also a lack of visibility to the west.

For the preceding reasons it is this Department's recommendation that the project not be approved as presented. This property and also the Caltrans parcel would be best served by access off Bath Street through an easement.

The following mitigating measures could relieve the safety problem to some extent.

1. Create a turning lane by widening the south side of Haley Street. This would be used by patrons of the proposed project and allow through traffic to flow safely; or

2. Remove the problem of looking to the left in order to yield for eastbound Haley Street traffic by making the north leg of the Castillo/Haley Street intersection right turns only in and out.

DATE: July 21, 1980

OPINION NO.: 17-1980

REQUESTED BY: R. W. Puddicombe, Public Works Director

PREPARED BY: James O. Kahan, Deputy City Attorney

SUBJECT: AUTHORITY TO RESTRICT CONSTRUCTION OF DRIVEWAYS AND DRIVEWAY PERMIT STANDARDS AND PROCEDURES

In your memorandum of May 15, 1980, you made an inquiry whether the Public Works Department has sufficient authority under Santa Barbara Municipal Code §28.90.045(1)(f) to prohibit access from Parcel DD 75-OA-01 to Haley Street or whether other authority establishes standards. All references in this opinion to chapters and sections refer to the Santa Barbara Municipal Code, unless otherwise specified.

CONCLUSION

The Transportation Engineer will have authority to prohibit such access. Ordinance 4063, adopted July 15, 1980, amended the Santa Barbara Municipal Code pertaining to parking requirements. Section 28.90.045(1)(d) makes it the duty of the Transportation Engineeer to review and approve all parking plans, and Section 28.90.045(1)(c) authorizes the Transportation Engineer to prepare a current City Standard for Parking Design which shall show the required dimensions and criteria for parking plans and vehicle ramps. This Standard might address the issue of access. In addition, Section §22.60.020 requires a permit prior to commencing any curb, sidewalk or driveway construction. As you are aware, your department is proposing a revision of Chapter 22.60. In any event, the Driveway Permit Standards and Procedures will have to be revised because they are not consistent with the existing Municipal Code.

007145 JUL 28 '80

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

DISCUSSION

Existing Section 28.90.045(1)(f) states:

> "It shall be the duty of the Traffic Engineer to review and approve all parking plans."

Existing Section 28.90.045(1)(d), as amended, states:

> "It shall be the duty of the Transportation Engineer to review and approve all parking plans."

Subsection (f) became Subsection (d) because existing Subsections (d) and (e) were repealed.

Existing Section 28.90.045(1)(c) states:

> "c. The dimensions and turning radii shall be as shown on the Standard for Dimensions of Design Vehicle set forth in City Standard for Parking Lot Design #C-3-377-1, as follows: (See attached chart)."

Section 28.90.045 (1)(c), as amended, states:

> "c. The required dimensions and criteria for parking plans and vehicle ramps shall be as shown in the current City Standard for Parking Design as prepared by the Transportation Engineer and on file with the City Clerk."

Subsection (d) will make it the duty of the Transportation Engineer to review and approve parking plans, and Subsection (c) authorizes the preparation of a Standard which will contain the criteria for such plans. Ordinance No. 4063 was adopted on July 15, 1980 and will become effective on August 14, 1980. At that time, a Standard can be implemented by filing it with the City Clerk.

Another source of authority for regulating the location of driveways is Chapter 22.60 which concerns streets and sidewalks and requires permits for certain types of construction by private parties in streets. For your convenience, I have highlighted certain sections. Section 22.60.020 states:

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

> "No person shall construct, reconstruct, repair, remove or replace any sidewalk, driveway, curb or curb and gutter in any street, alley, court or public place within the City, without first making application for and obtaining a written permit from the Public Works Director to perform such work."

Section 22.60.150 states:

> "The dimensions of curbs or curb and gutter shall be those established by the City Engineer and adopted by resolution of the City Council."

Section 22.60.250 states:

> "It shall be unlawful for any person to commence any curb, sidewalk, driveway, sewer side connection, street excavation, blasting, house moving, heavy load transportation, or other construction, alteration or installation work for which a permit is required by provision of this Code or other ordinance of the City where emergency repairs of utilities or other excavation work done in the protection of the public safety require street excavation prior to permit issuance."

Prohibiting access to a lot because of traffic conditions is not specifically addressed by either Chapter 22.60 or the Driveway Permit Standards and Procedures which were attached to your May 15, 1980 memorandum. An ordinance amending Chapter 22.60 has been prepared by Art Pion and is a pending matter before the Ordinance Committee. It is our suggestion that the authority of the Transportation Engineer to control the location of the curb cuts and driveways be included and that the Transportation Engineer be authorized to establish a Standard for the location or prohibition of curb cuts and driveways in a manner analogous to that contained in Sections 28.90.045(c) and (d). Perhaps one Standard can be prepared pursuant to Section 28.90.045(c) and Chapter 22.60.

In any event, the Driveway Permit Standards and Procedures which you sent this office are not consistent with the existing Code. Section 39.20 is not part of the present Code and appears to have been superseded by Section 22.60.040. Chapter 39.20 was superseded in the 1966 recodification which was then superseded by Section 22.60.040 in the 1976 recodification.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Chapter 39.20 authorized the Mayor to approve curb cuts in excess of 30 feet, but Section 22.60.040 authorizes the City Administrator to approve such curb cuts. There are also numerous references to the Traffic Engineer, who no longer exists. We suggest that you update these Standards and Procedures.

Another source of authority to prohibit certain locations of driveways might be contained in Section 10.08.050 which states:

> "It shall be the general duty of the City Transportation Engineer, under the direction of the Director of Public Works to determine the location, installation and proper timing and maintenance of traffic control devices, to conduct engineering analyses of traffic accidents and to devise remedial measures, to conduct engineering investigation of traffic conditions and to cooperate with other City officials in the development of ways and means to improve traffic conditions, and to carry out any additional powers and duties imposed by ordinances of this City."

When Section 28.90.045, Section 10.08.050 and Chapter 22.60 are read in conjunction, it is clear that the Public Works Department has authority to control the location of driveways because of its authority to review parking plans and approve curb cuts and driveways in any public street.

In reference to Chapter 22.60, it should be emphasized that the word "street" is not limited to the roadway (paved street surface). The word "street" includes curbing and sidewalks [Bonnet v. San Francisco (1884) 65 Cal.230]. The words "highway" and "street" are functionally synonomous [37 Cal.Jur. 3d 108, Highways at §1] and the definition of "highway" includes bridges, drains, and all works incidental to highway construction, maintenance and improvement [Streets and Highways Code §23]. In light of the regulations contained in Chapter 22.60, street would appear to include the dedicated right of way.

The referenced parcel was acquired by the State when the freeway was constructed. The State impaired the access on the south when it constructed the freeway and on Castillo Street when it constructed the underpass and realigned the grade of Castillo Street. The State also realigned the intersection of Haley and Castillo Streets so that the parcel only has a frontage of 20.65 feet on Haley Street, and that

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

frontage is on a curved upgrade. The State recognizes that there is a safety problem relating to access to Haley Street, and your Department believes that there is a safety problem with such vehicular access.

The State believes that it has a landlocked parcel, but DD 75-OA-01 is contiguous to four other parcels (A.O.N. 37-192-01, -07, -08 and -11) and these parcels are under the ownership of three separate parties. If CalTrans desires to sell Parcel DD 75-OA-01 because it is not needed for the Crosstown Freeway project, the owners of the adjoining parcels might be interested in the parcel owned by the State because any of these privately owned parcels could possibly be merged with the State-owned parcel. In addition, vehicular access to the State-owned parcel might not be necessary for development if the developer could obtain other parking on a lot within 500 feet [Amended Section 28.90.100(8)].

The actions of the State have partially landlocked the referenced parcel and the State cannot create vehicular access. In light of these facts, the State does not have a cause of action for inverse condemnation because of impairment of access. If the State sold the referenced parcel, its successors would succeed to rights held by the State and would not have a cause of action against the City for impairment of access. To avoid the possibility of such a lawsuit by the successors to the State, the State should record a condition prohibiting vehicular access from Castillo and Haley Streets. Such a condition would also protect the State from a future lawsuit relating to misrepresentation.

JAMES O. KAHAN
Deputy City Attorney

CITY OF SANTA BARBARA

PLANNING COMMISSION STAFF REPORT

August 7, 1980

APPLICANT: Lenvik & Minor, Architects

LOCATION: 315 West Haley Street

PARCEL #: 37-192-01

REQUEST: Plot plan approval and modification in order to permit construction of a 4475 square foot office building with 18 parking spaces instead of the required 22 parking spaces.

SITE DESCRIPTION:

General Plan: Automotive Center

Zoning: C-P, Restricted Commercial

Environmental Assessment: Negative Declaration with conditions for larger project.

Lot Size: 10,745 square feet (0.24 acres)

Existing Use: Vacant

Topography: Flat, draining to Haley Street

Access: Haley Street

Adjacent Land Uses:
North: Vacant parcel with service station to east and office building to west.
South: U.S. Highway 101
East: Single family dwellings
West: Vacant

PROJECT DESCRIPTION:

Building size:	4,475 square feet
Landscaping:	2,395 square feet (22.3%)
Parking Provided:	18 spaces
Parking Required:	22 spaces

BACKGROUND:

April 25, 1980	Negative Declaration granted
July 15, 1980	Application Received
July 28, 1980	Legal Notice Sent
August 7, 1980	Hearing Set

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

I. ORDINANCE REQUIREMENTS

A. Modification

The applicant is requesting a modification of the parking requirements. The C-P zone requires one parking space per 200 square feet of floor area, or 22 spaces. The applicant is requesting a ratio of one parking space per 250 square feet of floor area, or 18 spaces, and would agree to a condition limiting this parcel to office use only. According to Section 28.54.001 the purpose of the zone is to "provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air, and existing visual amenities." The intent of providing more than the normal amount of parking required for most of the City is to limit the effect of commercial parking on the surrounding residential areas. In addition, this entire block on Haley Street has been "red-curbed" to prohibit parking. This means that the only off-site parking available will be in the primarily residential neighborhood on Bath Street. The limitation to office uses suggested by the applicant may not help either since medical offices generate nearly as much traffic as most of the retail uses allowed in this zone. Also, if the parking area gets crowded and cars waiting for spaces stack up, this could add to circulation problems on Haley Street. (See below)

B. Other

The proposed project meets all other requirements of the Zoning Ordinance.

II. MAJOR ISSUES

A. Access and Circulation

The Public Works Department has indicated that there are serious problems with circulation and access in this location. (See attached memo). The proposed driveway is approximately sixty (60) feet from the end of the curve where automobiles on north-bound Castillo Street make the right turn on to Haley Street. Because they are required to yield to traffic already east-bound on Haley Street, drivers are looking to the left as they enter Haley Street, thus making them vulnerable to drivers slowing or stopping to turn right into the proposed driveway. Also, drivers exiting from the driveway have poor visibility to the west. In the attached memo, the Department of Public Works has outlined measures which would possibly mitigate the circumstances in this area. Such conditions or alterations have not been included in the proposed project.

The Master Environmental Assessment indicates that the Haley Street/Castillo Street intersection is "Capacity Constrained." Also, Haley Street between Castillo and Anacapa Streets is a "peak hour level of service problem area."

B. Land Use

1. City Entrance - Because Castillo/Haley Street is an important entrance to the City, the architecture, size, and scale of the proposed building are very important. The Landmarks Committee has expressed concern in the past regarding new commercial structures constructed at City entrances. The applicant has not submitted elevations of the proposed structure, so there is no way to assess its effect on the surrounding area.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

2. Appropriateness of Commercial Use - The Housing/Commercial Assessment recommends that a large part of the area on the south side of Haley Street be rezoned to residential and that the General Plan also be amended to residential. A recent land use survey (Attachment # 4) shows that almost all of the area is entirely residential. There will be a City Council workship on August 12, 1980 regarding the Housing/Commercial Assessment and Staff expects direction regarding the recommendations in the near future.

III. RECOMMENDATION:

It is Staff's opinion that until the circulation, access, and parking constraints are resolved, the project should not be approved. Staff recommends that the Planning Commission determine that granting of this modification of parking requirements is inconsistent with the purposes and intent of the Zoning Ordinance and not approve the modification and plot plan approval request.

IV. CONDITIONS OF APPROVAL:

If the Planning Commission chooses to approve the modification and plot plan, the following conditions should be included.

A. Prior to preliminary approval by the Architectural Board of Review, the proposal, including elevations, shall be reviewed by the Landmarks Committee for comment.

The Architectural Board of Review and Landmarks Committee shall review the project in terms of its size, scale and architecture. Particular attention shall be paid in terms of the project being located at an entrance to the City.

B. Prior to the issuance of a Certificate of Occupancy, the applicant shall complete the following:

1. A deed restriction shall be recorded waiving the right to protest the formation of any public improvement district.
2. A deed restriction shall be recorded restricting the use of the property to office uses.

TO: Sign Sub-Committee

FROM: Planning Division

SUBJECT: City Attorney and Planning Division Comments on September 21, 1979 Draft of the Sign Ordinance

Over the past several weeks, the Planning Staff and the City Attorney's office have reviewed the proposed Sign Ordinance. Based on this review, we submit the following comments. Specific City Attorney and Planning Staff comments are indicated.

1. City Attorney's Office - "As a general comment, in attempting to read and understand the ordinance, I found it difficult to follow the proposed ordinance. If one approaches the ordinance from the point of view of an applicant who desires to place his sign at a particular location to achieve a particular purpose, it appears that careful reading of the entire proposed ordinance would be necessary to be sure that a requirement or exception is not missed. The outline would be convenient from a Staff review point of view, but would be difficult for a person who wishes to pick up the ordinance and apply it to a particular site and purpose. In my view, a better organization would be to have regulations applying based on the zone and the purpose. A separate section would designate levels of review."

   Planning Staff agrees that a reorganization of the Ordinance is imparative for clear understanding. As you read further into this memo, several ideas for re-organization and rewriting will become evident.

2. 22.70.020.8 Policies, page 3. This policy regarding Sign Committee's designation of Areas for Special Attention should be deleted. The Sign Committee does not have this power; it is reserved to the City Council. The Sign Committee can recommend that districts be formed, but this should be done in agreement with the Landmarks Committee provision in Chapter 22.22 of the Municipal Code (Historic Structures Ordinance).

3. 22.70.020.10 Policies, page 3. This should be deleted from the policies and included in the Sign Committee's policies and guidelines.

4. 22.70.030 Establishment of the Sign Committee
   City Attorney's Office - "Provisions in the ordinance regarding establishment of a Sign Committee could be more appropriately placed in the standard resolution regarding committees adopted by the City. The only language required in the ordinance would be that the City Council shall establish a Sign Committee by resolution. Terms of office and powers and duties would be spelled out in that resolution.

REDEVELOPMENT · ENVIRONMENTAL REVIEW
PLANNING · ZONING · BUILDING · HOUSING

DATE: April 25, 1980

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

CITY OF SANTA BARBARA
PUBLIC WORKS DEPARTMENT

DATE: July 30, 1980

TO: Planning Commission

FROM: Director

SUBJECT: PROPOSED COMMERCIAL BUILDING AND DRIVEWAY AT 315 W. HALEY

Staff has reviewed the preliminary plans for the subject project and finds that the proposed driveway creates a traffic hazard and in the interest of safety it is our recommendation that they not be allowed.

Although a driveway currently exists serving this property, it was associated with a single residence which would generate an average of ten trips per day. The proposed offices would generate at least fifty trips per day, greatly increasing the accident potential at this location.

The property to the west, owned by Caltrans, was just recently denied access because of the same safety problem (see attached). Although this project is further removed from the intersection of Castillo and Haley Streets it still has the basic problem of inadequate visibility. Vehicles entering from the west would have to slow down or stop (should there be parking maneuvers blocking the driveway) before entering. Since following motorists northbound on Castillo Street have to yield to eastbound traffic on Haley Street, they are looking to their left and would rear-end any car slowing down or stopped ahead of them. When exiting from the proposed driveway there is also a lack of visibility to the west.

For the preceding reasons it is this Department's recommendation that the project not be approved as presented. This property and also the Caltrans parcel would be best served by access off Bath Street through an easement.

The following mitigating measures could relieve the safety problem to some extent.

1. Create a turning lane by widening the south side of Haley Street. This would be used by patrons of the proposed project and allow through traffic to flow safely; or

2. Remove the problem of looking to the left in order to yield for eastbound Haley Street traffic by making the north leg of the Castillo/Haley Street intersection right turns only in and out.

TELEPHONE (805) 963-0611

City of Santa Barbara

DATE: July 21, 1980

OPINION NO.: 17-1980

REQUESTED BY: R. W. Puddicombe, Public Works Director

PREPARED BY: James O. Kahan, Deputy City Attorney

SUBJECT: AUTHORITY TO RESTRICT CONSTRUCTION OF DRIVEWAYS AND DRIVEWAY PERMIT STANDARDS AND PROCEDURES

In your memorandum of May 15, 1980, you made an inquiry whether the Public Works Department has sufficient authority under Santa Barbara Municipal Code §28.90.045(1)(f) to prohibit access from Parcel DD 75-OA-01 to Haley Street or whether other authority establishes standards. All references in this opinion to chapters and sections refer to the Santa Barbara Municipal Code, unless otherwise specified.

CONCLUSION

The Transportation Engineer will have authority to prohibit such access. Ordinance 4063, adopted July 15, 1980, amended the Santa Barbara Municipal Code pertaining to parking requirements. Section 28.90.045(1)(d) makes it the duty of the Transportation Engineeer to review and approve all parking plans, and Section 28.90.045(1)(c) authorizes the Transportation Engineer to prepare a current City Standard for Parking Design which shall show the required dimensions and criteria for parking plans and vehicle ramps. This Standard might address the issue of access. In addition, Section §22.60.020 requires a permit prior to commencing any curb, sidewalk or driveway construction. As you are aware, your department is proposing a revision of Chapter 22.60. In any event, the Driveway Permit Standards and Procedures will have to be revised because they are not consistent with the existing Municipal Code.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

DISCUSSION

Existing Section 28.90.045(1)(f) states:

> "It shall be the duty of the Traffic Engineer to review and approve all parking plans."

Existing Section 28.90.045(1)(d), as amended, states:

> "It shall be the duty of the Transportation Engineer to review and approve all parking plans."

Subsection (f) became Subsection (d) because existing Subsections (d) and (e) were repealed.

Existing Section 28.90.045(1)(c) states:

> "c. The dimensions and turning radii shall be as shown on the Standard for Dimensions of Design Vehicle set forth in City Standard for Parking Lot Design #C-3-377-1, as follows: (See attached chart)."

Section 28.90.045 (1)(c), as amended, states:

> "c. The required dimensions and criteria for parking plans and vehicle ramps shall be as shown in the current City Standard for Parking Design as prepared by the Transportation Engineer and on file with the City Clerk."

Subsection (d) will make it the duty of the Transportation Engineer to review and approve parking plans, and Subsection (c) authorizes the preparation of a Standard which will contain the criteria for such plans. Ordinance No. 4063 was adopted on July 15, 1980 and will become effective on August 14, 1980. At that time, a Standard can be implemented by filing it with the City Clerk.

Another source of authority for regulating the location of driveways is Chapter 22.60 which concerns streets and sidewalks and requires permits for certain types of construction by private parties in streets. For your convenience, I have highlighted certain sections. Section 22.60.020 states:

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

> "No person shall construct, reconstruct, repair, remove or replace any sidewalk, driveway, curb or curb and gutter in any street, alley, court or public place within the City, without first making application for and obtaining a written permit from the Public Works Director to perform such work."

Section 22.60.150 states:

> "The dimensions of curbs or curb and gutter shall be those established by the City Engineer and adopted by resolution of the City Council."

Section 22.60.250 states:

> "It shall be unlawful for any person to commence any curb, sidewalk, driveway, sewer side connection, street excavation, blasting, house moving, heavy load transportation, or other construction, alteration or installation work for which a permit is required by provision of this Code or other ordinance of the City where emergency repairs of utilities or other excavation work done in the protection of the public safety require street excavation prior to permit issuance."

Prohibiting access to a lot because of traffic conditions is not specifically addressed by either Chapter 22.60 or the Driveway Permit Standards and Procedures which were attached to your May 15, 1980 memorandum. An ordinance amending Chapter 22.60 has been prepared by Art Pion and is a pending matter before the Ordinance Committee. It is our suggestion that the authority of the Transportation Engineer to control the location of the curb cuts and driveways be included and that the Transportation Engineer be authorized to establish a Standard for the location or prohibition of curb cuts and driveways in a manner analogous to that contained in Sections 28.90.045(c) and (d). Perhaps one Standard can be prepared pursuant to Section 28.90.045(c) and Chapter 22.60.

In any event, the Driveway Permit Standards and Procedures which you sent this office are not consistent with the existing Code. Section 39.20 is not part of the present Code and appears to have been superseded by Section 22.60.040. Chapter 39.20 was superseded in the 1966 recodification which was then superseded by Section 22.60.040 in the 1976 recodification.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Chapter 39.20 authorized the Mayor to approve curb cuts in excess of 30 feet, but Section 22.60.040 authorizes the City Administrator to approve such curb cuts. There are also numerous references to the Traffic Engineer, who no longer exists. We suggest that you update these Standards and Procedures.

Another source of authority to prohibit certain locations of driveways might be contained in Section 10.08.050 which states:

> "It shall be the general duty of the City Transportation Engineer, under the direction of the Director of Public Works to determine the location, installation and proper timing and maintenance of traffic control devices, to conduct engineering analyses of traffic accidents and to devise remedial measures, to conduct engineering investigation of traffic conditions and to cooperate with other City officials in the development of ways and means to improve traffic conditions, and to carry out any additional powers and duties imposed by ordinances of this City."

When Section 28.90.045, Section 10.08.050 and Chapter 22.60 are read in conjunction, it is clear that the Public Works Department has authority to control the location of driveways because of its authority to review parking plans and approve curb cuts and driveways in any public street.

In reference to Chapter 22.60, it should be emphasized that the word "street" is not limited to the roadway (paved street surface). The word "street" includes curbing and sidewalks [Bonnet v. San Francisco (1884) 65 Cal.230]. The words "highway" and "street" are functionally synonomous [37 Cal.Jur. 3d 108, Highways at §1] and the definition of "highway" includes bridges, drains, and all works incidental to highway construction, maintenance and improvement [Streets and Highways Code §23]. In light of the regulations contained in Chapter 22.60, street would appear to include the dedicated right of way.

The referenced parcel was acquired by the State when the freeway was constructed. The State impaired the access on the south when it constructed the freeway and on Castillo Street when it constructed the underpass and realigned the grade of Castillo Street. The State also realigned the intersection of Haley and Castillo Streets so that the parcel only has a frontage of 20.65 feet on Haley Street, and that

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

frontage is on a curved upgrade. The State recognizes that there is a safety problem relating to access to Haley Street, and your Department believes that there is a safety problem with such vehicular access.

The State believes that it has a landlocked parcel, but DD 75-OA-01 is contiguous to four other parcels (A.O.N. 37-192-01, -07, -08 and -11) and these parcels are under the ownership of three separate parties. If CalTrans desires to sell Parcel DD 75-OA-01 because it is not needed for the Crosstown Freeway project, the owners of the adjoining parcels might be interested in the parcel owned by the State because any of these privately owned parcels could possibly be merged with the State-owned parcel. In addition, vehicular access to the State-owned parcel might not be necessary for development if the developer could obtain other parking on a lot within 500 feet [Amended Section 28.90.100(8)].

The actions of the State have partially landlocked the referenced parcel and the State cannot create vehicular access. In light of these facts, the State does not have a cause of action for inverse condemnation because of impairment of access. If the State sold the referenced parcel, its successors would succeed to rights held by the State and would not have a cause of action against the City for impairment of access. To avoid the possibility of such a lawsuit by the successors to the State, the State should record a condition prohibiting vehicular access from Castillo and Haley Streets. Such a condition would also protect the State from a future lawsuit relating to misrepresentation.

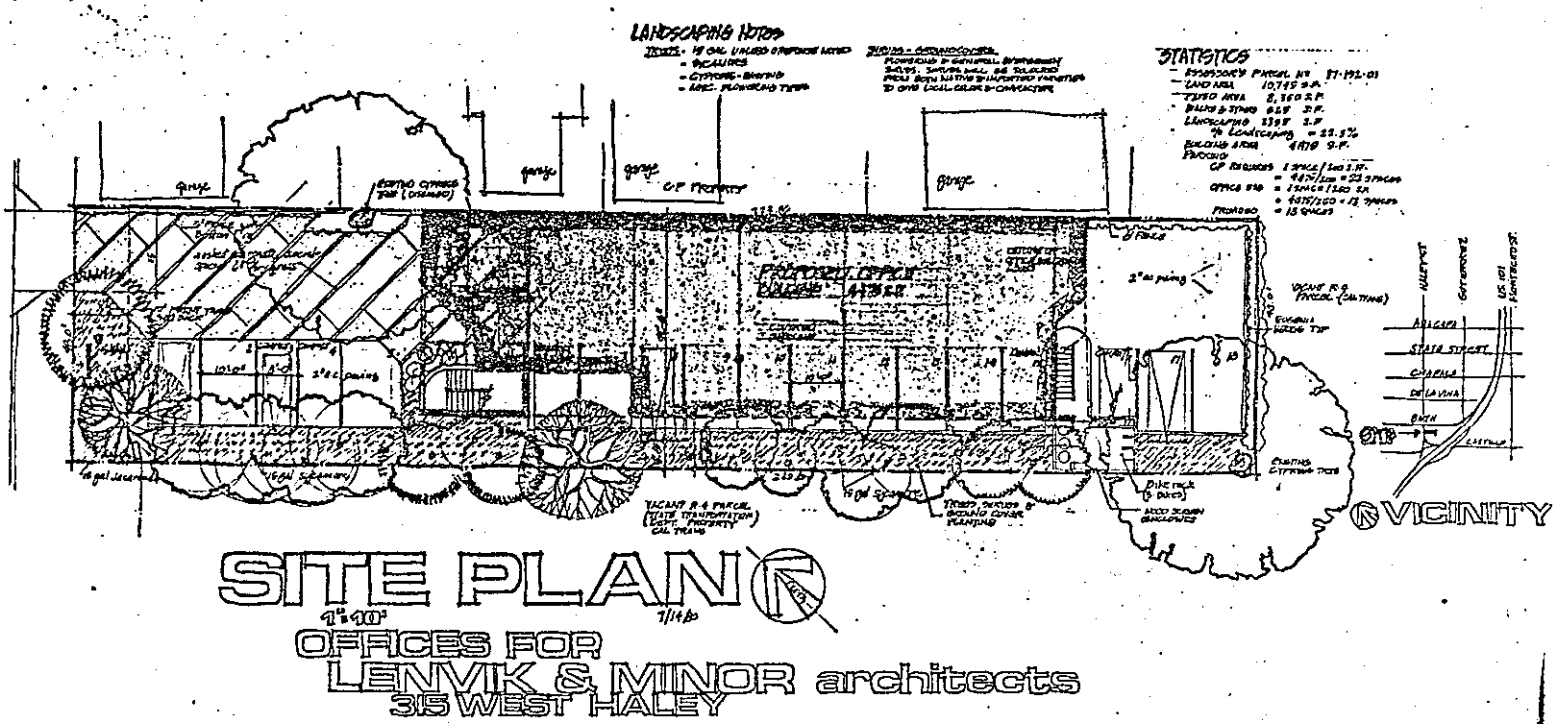
LENVIK & MINOR / MODIFICATION / Site Plan Approval

PLOT PLAN AND LOCATION



NOTICE IS HEREBY GIVEN that the Planning Commission of Santa Barbara has set a hearing for the

Application of Lenvik and Minor, Architects for a modification of provisions of Section 28.90.100.4.b of Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to City Parcel 37-192-01 located at 315 W. Haley Street in a CP Restricted Commercial zone, in order to permit the construction of an office building with 4475 square feet of floor area and provide 18 parking spaces instead of the required 22 parking spaces.

The above notice is sent to you because your property is within 65 feet of the property in this request. If you have any question in regard to the above, please call 963-1663, Ext. 51.

Date: AUGUST 7, 1980

Time: The Planning Commission meeting will commence at 1:00 p.m.

Place: Council Chambers
City Hall

Note: Continuances will not be granted unless there are exceptional circumstances.

The Planning Commission will hear the agenda items in the order that they appear on the agenda.

APPLICATION TO CITY OF SANTA BARBARA PLANNING COMMISSION

TYPE OF REQUEST: (circle appropriate item) [Modification], Special Use Permit, Variance, Conditional Use Permit, Rezoning, [Site Plan Approval]

DATE RECEIVED: _____

I hereby request approval of a Parking modification & site plan approval under provisions of Section(s) 28.92.026(a.1) & 28.54.130 or Title 28 of the Municipal Code of the City of Santa Barbara, the Zoning Ordinance, as applied to Parcel No. 37-192-01, which is located at 315 West Haley Street, in the City of Santa Barbara in a C-P Zone.

I desire this modification (type of request) in order to: (be specific) allow construction of a 4475 s.f. office building with 18 offstreet parking spaces in lieu of 22 as required by C-P zone.

Reason for request: (attach a separate letter if necessary) A ratio of 1 space per 250 s.f. of building area is consistent with parking needs for office use. C-P use is basically retail use where more parking is necessary. As this use is for an architects office, the parking ratio of 1/250 is reasonable and consistent with the parking ordinance. (Note! the applicant is willing to make office use only a condition of this approval.

Letter Attached: Yes _____ No ✓

I hereby authorize the above person(s) to act as my agent(s) in all matters pertaining to this modification application.

THE FOLLOWING MUST BE FILED BEFORE THE APPLICATION CAN BE PROCESSED: (Also see reverse side)

1. Application Form, one (1) copy.
2. Filing Fee, in the following amount:
   Modification - $100.00 per lot
   Special Use Permit - $50.00 for each additional dwelling unit
   Variance - $200.00 plus $10.00 for each additional lot
   Conditional Use Permit - $200.00 plus $10.00 for each additional lot
   Rezoning - $500.00 plus $10.00 for each additional lot
   Site Plan Approval - No fee
3. Ownership List, as set forth on the attached list. Not required for site plan approval.
4. Six (6) copies of plans, (except rezoning applications) containing information as set forth on the back of the application. Rezonings require two (2) copies of the assessor's parcel map with the properties proposed for rezoning marked in red.
5. Transparency- 8½" x 10" size
6. Evidence that the Environmental Assessment has been completed.
7. Justification of the particular request as set forth on the back of the application.

NOTE:

Regular Planning Commission meeting days are the first and third Thursdays of each month. The deadline for filing all of the items listed below is 5:00 p.m. on the 23rd day preceding the Planning Commission meeting day at which this request is to be heard. The deadline days regularly occur, therefore, on Tuesdays, and on a Monday when Tuesday is a holiday.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

APPLICATION CHECK LIST

1. Application is on the other side of this form.

2. Filing Fee, see front of application.

3. Ownership List, attached

4. Six (6) copies of a site plan drawn to scale (8½" x 11" sheet or multiple thereof) and showing:
   a. Dimensions of the lot(s) including street locations and net lot area, where applicable.
   b. Dimensions of existing and proposed buildings and structures showing setbacks from property lines.
   c. Layout and dimensions of parking and driveways showing number of parking spaces.
   d. Identification and dimensions of any proposed changes.
   e. Landscape plan to show the following:
      (1) All areas to be landscaped including areas to be left in natural condition.
      (2) All proposed and existing trees with those to be removed so indicated.
   f. Scale and North arrow.

5. Transparency 8½" x 10"

6. Negative Declaration, Environmental Impact Report, or Statement that item is categorically exempt.

7. Justification. In order to approve a request the Planning Commission must make the appropriate findings. The applicant must provide this information.
   a. MODIFICATIONS
      (1) The granting of a modification of yard, or lot area regulations is necessary to secure an appropriate improvement on the property, to prevent unreasonable hardship, or to promote uniformity of improvement.
      (2) The granting of a modification of fence, wall, or hedge regulations is necessary to secure an appropriate improvement on the lot in question.
      (3) The granting of a modification of parking requirements will not be inconsistent with the purposes and intent of the Zoning Ordinance.
   b. SPECIAL USE PERMIT
      (1) The special use permit is necessary to secure an appropriate improvement on the property, to prevent unreasonable hardship, or to promote uniformity of improvement
   c. VARIANCE
      (1) There are exceptional or extraordinary circumstances or conditions applicable to this property, or to the intended use thereof, that do not apply generally to the property or class of use in the same zone or vicinity.
      (2) The granting of the requested variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or vicinity in which this property is located.
      (3) The requested variance is necessary for the preservation and enjoyment of a substantial property right of the applicant; said property right being possessed by other property in the same zone and vicinity.
      (4) The granting of this variance will not adversely affect the comprehensive general plan.
   d. CONDITIONAL USE PERMIT
      (1) Such use is deemed essential or desirable for the public convenience and welfare and is in harmony with the General Plan.
      (2) Such use will not be materially detrimental to the public peace, health, safety, or general welfare and will not materially affect property values in the neighborhood involved.
      (3) This commission approves the location and site development plans, drawings of buildings and landscaping of the proposed use.
      (4) The proposed use is one permitted in the zone for which it is proposed, upon the granting or a conditional use permit.
   e. REZONING
      (1) That the rezoning is in the public necessity, convenience, general welfare, or is good zoning practice.
   f. SITE PLAN APPROVAL
      No specific findings are required.

APR 30 1980
ARCHITECTS

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

80-01 315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

COMMUNITY DEVELOPMENT DEPARTMENT

CITY HALL · DE LA GUERRA PLAZA · SANTA BARBARA · CALIFORNIA 93102 · TEL. (805) 963-0611

REDEVELOPMENT · ENVIRONMENTAL REVIEW

PLANNING · ZONING · BUILDING · HOUSING

DATE: April 25, 1980

TO: The County Clerk
Post Office Drawer C-C
Santa Barbara, CA 93102

SUBJECT: CEQA NEGATIVE DECLARATION, PROJECT NO. SB-27-80

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970", as amended to date, a Negative Declaration is hereby made on the project listed below:

315 West Haley Street: A proposal by Lenvik and Minor to construct an 8,000 square foot two-story retail and office building on Assessor's Parcel No. 37-192-01. Forty (40) off street parking spaces to be provided. Current zoning is C-P (restricted commercial) and R-3 (multi-family residential).

The reason for the determination that a Negative Declaration is appropriate:

The Environmental Review Committee found that there are no significant adverse environmental effects associated with the project under the following conditions:

1. Noise attenuation as per Noise Element standards.
2. Bicycle racks to be provided. Note to Planning Commission that property may be better suited to commercial zoning. ERC commends plan and information provided.

An Initial Study prepared by the Environmental Analyst is available at 1236 Chapala Street. Appeals to the determination that a Negative Declaration is appropriate may be made to the City Clerk, City of Santa Barbara, within ten (10) days of the above date. A fee is required to defray the cost to the City of appellant action.

1.0 OVERVIEW AND SCOPE OF WORK

1.1 **Purpose:** The purpose of this Phase I Environmental Site Assessment (ESA) was to: conduct a thorough inspection of the property; review the readily available past and current land use data for indications of the manufacture, use, storage and disposal of hazardous substances at the study site; evaluate the data and render findings for the potential of site contamination resulting from past or present land-use activities, and to the extent possible, adjacent off-site operations; analyze and interpret data obtained through the database search; and to provide recommendations for further site investigations, as appropriate.

1.2 **Assumptions and Limitations:** This report was designed to meet the standard practice for environmental site assessments, as outlined by the American Society for Testing and Materials (ASTM), in its Phase I ESA guidance document, E-1527-00. PHR's duties, liabilities, and obligations, and Statement of Work are set forth in its proposal dated February 16, 2001. The scope of work for this report did not include subsurface exploration, soil or water sampling, or evaluation of geotechnical conditions or hazards.

The professional opinions presented herein apply to site conditions and regulatory standards at the time of the investigation. The passage of time may result in a change in the environmental circumstances at the study site and surrounding properties. Regulatory standards applicable to the subject site are subject to change as a result of legislation or changes in implementation guidelines.

This document was prepared for the sole use of the Haley Land Company, its representatives and assignees. PHR intends that this document be used only in its entirety. Others who draw conclusions based on information drawn from portions of this report should independently determine the adequacy of the information for their intended use and time.

The findings and recommendations included in this report reflect PHR's opinion based on the sources cited only, and should not be construed as legal opinions. These sources are believed, but not guaranteed, to be reliable. PHR is not responsible for information withheld by agencies, client, or other sources.

2.0 SITE LOCATION AND DESCRIPTION

2.1 **Street Address and Location:** 315 West Haley Street, Santa Barbara, Santa Barbara County, California. The site is a rectangular-shaped parcel located on the southeast side of West Haley Street, northeast of Castillo Street. The APN for the site is 37-192-01.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

2.2 **Type of Property and Current Use:** The property is currently zoned C-P for commercial/office uses. The property contains an office building with the following occupants:

Suite 101 – Tryon Company
Suite 102 – Work Training Programs
Suite 201 – MR Johnson, CPA; Hughes, Gerhardt and Tritch; Stathis and Lishman, CPA
Suite 315 – Lenvik and Minor, architects

2.3 **Improvements on Property:** The subject site consists of a two-story, 8,560 square-foot office building, located on approximately 10,745 square feet of land. The building is owned by the Haley Land Company, which leases the land from Liselotte MacFarlane. The building has a wood-shingle exterior and a flat gravel roof. Access to the second floor is via two exterior stairwells on the northwest and southeast ends of the building. The building has no elevator.

The interior of the suites consist of carpeting, ceramic floor tiles, and drywall. The ceilings in all of the suites, except for Suite 315, are flat drywall. The ceiling in Suite 315 is wood. Suites 101, 102, and 315 have private restrooms, while the restroom for Suite 201 is located in the exterior hallway. The compressors for the HVAC equipment are located outside, while air handlers are located inside the building on each floor.

Parking for the building is located on an asphalt-paved lot adjoining the subject site to the southwest. The lot is leased from the City of Santa Barbara. A concrete enclosure for a trash dumpster is located in the southern corner of the leased parking lot.

3.0 SITE HISTORY

3.1 **City Directories:** According to the city directories at the Santa Barbara Public Library, a private residence was listed at the subject address of 315 West Haley Street in 1920. Private individuals were listed at the address until approximately 1975, when the address was identified as vacant. The address itself was not listed in the 1978 directory, and did not appear again until 1986. At that time, the address was listed as an office building with Union Oil Company of California, The Reading Game (a reading school), Lenvik and Minor architects, and Coast Village Engineering Group noted as tenants. No changes to the tenants were listed in 1988, and the Multivest Real Estate Corporation, Britannica Learning Center, Lenvik and Minor, and Coast Village Engineering appeared in 1991.

3.2 **Aerial Photographs:** Aerial photographs were reviewed at the University of California Santa Barbara (UCSB) Map and Imagery Laboratory.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

A house and small detached shed appear on-site in aerial photographs from 1938, 1947, 1956, and 1967. The subject site appeared as it does currently in aerials from 1986 and 1997. No visible evidence of soil discoloration, significant dumping or other environmental concerns on the subject site was observed in the photographs reviewed.

3.3 **Maps:** A Sanborn map from 1892 depicts the subject site as containing a small shed on the eastern end of the property. On a 1907 Sanborn map, the subject site contains a wagon house on the northeast end of the site, and is depicted as part of the Show and Hunt wood yard. Sanborn maps from 1930, 1950, and 1969 all show a single-family dwelling with a detached auto garage on the center of the site. No other structures are depicted on-site.

3.4 **Building Permits:** The original construction permit for the previous on-site house was not found in the City building files. The earliest document in the file was dated 1970 and was a notice from the City of Santa Barbara stating that the on-site dwelling was unfit for habitation. Several other notices declaring the house unfit were issued through 1977, when the City ordered the house to be demolished. A permit for the demolition of the building was issued in April 1977. A permit was issued to Lenvik and Minor for the construction of the shell of a two-story office building in 1981. A permit was issued in 1983 to convert the existing parking garage on the first floor of the building to additional tenant spaces. Permits for various tenant improvements were issued in 1984, and a Certificate of Occupancy was issued in 1984 as well.

3.5 **Interviews:** PHR interviewed Edwin Lenvik, co-owner of the subject building. Mr. Lenvik stated that he and his partners had leased the then vacant property in 1980, and began construction of the subject building in 1982-1983. Originally, the first floor of the building was used for parking, but was converted to office space in 1983-1984 when they leased the adjoining parcel to use as a parking lot. Mr. Lenvik stated that the building has only been used for office purposes since its construction.

4.0 PUBLIC AGENCY RECORDS SEARCH

4.1 **Fire Department:** The Santa Barbara County Fire Department, Protection Services Division, Hazardous Materials Unit, has no files for the subject site. The Santa Barbara City Fire Department files contain only fire safety information for the subject site.

4.2 **County Health Authorities:** The Santa Barbara County Environmental Health Department is now under the auspices of the County Fire Department, Protection Services Division (see above).

4.3 **Water Quality Control Dept. or District:** The Regional Water Quality Control Board (RWQCB), Central Coast Region, has no records of any spills, leaks, or releases at the subject site.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

4.4 **State Department of Toxic Substances Control:** The Department of Toxic Substances Control (DTSC) has no files for the subject site.

5.0 SITE INVESTIGATION AND REVIEW OF HAZARDS

The site inspection was conducted by Carol Noland, REA I, on March 9, 2001.

5.1 **Topography:** The property has a surface elevation of approximately 20 feet above mean sea level. The property slopes to the east.

5.2 **Soils/Geology:** According to a soil survey of Santa Barbara County, published by the U.S. Department of Agriculture, soils on the subject site consist primarily of Ballard fine sandy loam. Soils of the Ballard series are gently sloping to moderately sloping, well-drained soils on alluvial fans and low terraces of sedimentary origin. The surface is a dark brown fine sandy loam approximately 23 inches thick, while the subsoil is a reddish brown stony and very stony clay loam. Permeability is moderate, surface runoff is medium, and the erosion hazard is moderate. [*Soil Survey, Santa Barbara County, California, South Coastal Part, Interim Report,* August 1977]

5.3 **Hydrology:** According to the Santa Barbara County Department of Public Works, groundwater in the area measures between 10 and 20 feet below ground surface. Groundwater moves to the south/southeast toward the Pacific Ocean.

5.4 **Chemicals and Hazardous Substances:** A small amount of cleaning supplies were noted on-site. Lenvik and Minor uses small amounts of ammonia in its blueprint reproduction machines. No evidence of spillage or improper storage or use of the ammonia was identified.

5.5 **Hazardous/Regulated Waste Disposal:** No hazardous waste was noted on-site. Domestic trash is picked up from the site by BFI.

5.6 **Polychlorinated Biphenyls (PCBs):** No transformers were observed on the subject site. However, a pole-mounted transformer is located to the southwest of the site. The transformer appeared to be in good condition at the time of the site inspection, with no evidence of leaks or PCB-warning labels.

5.7 **Asbestos-containing Materials (ACM):** During the site inspection, no suspect ACMs were noted. Mr. Lenvik stated that no ACMs were used in the construction of the building.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

5.8 **Pits, Sumps, Drywells, and Catchbasins:** No such subsurface features were noted on-site. Mr. Lenvik indicated that the subject site was connected to the municipal sewer system, and that no septic tanks were located on the property.

5.9 **On-site Aboveground and Underground Storage Tanks:** No evidence of current on-site aboveground or underground storage tanks was observed during the site inspection. Mr. Lenvik stated that no underground storage tanks were currently or had been located on-site.

5.10 **Landfills:** No regulated or licensed landfills have operated on-site. No dumping was noted on-site.

6.0 ADJACENT AND NEARBY LAND USES

6.1 **Current Adjacent Property Uses:** The adjacent properties within a one-quarter mile radius of the study site were visually examined during the site inspection to identify current use, and any indicators of the use or release of hazardous or toxic substances.

Adjacent to the southeast of the subject site is a vacant lot with a cement foundation. St. Paul Dry Cleaners, which is listed as a small quantity hazardous waste generator, is located over 100 feet to the southeast and downgradient of the site. Adjacent to the south and southwest is a strip of undeveloped land followed by Castillo Street. Several residences are located adjacent to the east and northeast. To the northwest, across Haley Street, are two office buildings.

7.0 ENVIRONMENTAL DATABASE RECORD SEARCH

An environmental database search report dated 02-23-2001, including Federal, State, and local lists of registered and contaminated sites, as well as sites using hazardous substances, was examined regarding the subject site and nearby properties.

7.1 **U.S. EPA: National Priority List (NPL):** Sites qualified to receive funding under the Superfund provision of CERCLA, within a one mile radius of the subject site. The study site was not listed as an NPL site. No NPL sites were listed within one mile of the subject site.

7.2 **California EPA: Annual Work Plan (AWP):** Sites targeted for abatement by Cal-EPA under the Annual Work Plan (formerly Bond Expenditure Plan), within a one mile radius of the subject site. The study site was not listed as an active AWP site. No AWP sites were found in the database.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

7.3 **U.S. EPA: Comprehensive Emergency Response, Compensation and Liability Information System (CERCLIS):** Potential Superfund sites, within a ½ mile radius of the subject site. The study site was not listed as a CERCLIS site. No CERCLIS sites were listed within the specified range.

7.4 **RCRA Violators and Transfer, Storage, and Disposal (TSD) Sites within 1 Mile; RCRA Generators on the Subject Property & Adjoining Properties:** All TSD and facilities generating hazardous wastes are required to register with the U.S. EPA or with an equivalent state agency. This list does not signify contaminated sites. Rather, it lists generators or other handlers of small to large quantities of hazardous wastes who are complying with federal reporting requirements. The most recent available lists were consulted. One RCRA Violator, the Safety Kleen site at 214 West Montecito Street, ¼ mile east of the subject site, is listed. This site is not located in an upgradient direction and is not expected to impact the subject site. No TSD sites were listed.

Twenty RCRA generators were reported, none of which have reported active releases of hazardous materials. None of the RCRA generators are expected to impact the subject site.

7.5 **Emergency Response Notification System (ERNS):** Information collected by the U.S. EPA and the Department of Transportation concerning unauthorized releases of oil and hazardous substances. No releases were reported for the subject site.

7.6 **Registered Underground Storage Tanks (USTs):** Information collected by the California Water Quality Control Board concerning registered USTs. The subject site does not appear on the registered underground tank list. Thirteen sites appear on the registered UST list, eleven of which also appear on the LUST list (see Section 7.7).

7.7 **Leaking Underground Storage Tanks (LUST):** The most recent California Regional Water Quality Control Board listing of LUST sites within ½ mile of the subject site was reviewed. The subject site does not appear on the LUST list. Sixty-nine LUST sites were reported in the database, forty-five of which are closed, and are not expected to impact the subject site.

Of the remaining sites, nine are potentially upgradient of the subject site. None of those sites is located at a distance closer than ¼ mile from the subject site. However, the potential for those sites to impact the subject site is not known.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

7.8 **California Waste Management Board: Sanitary Landfills and Disposal Sites (SWIS):** Active and inactive landfills, and active and inactive transfer facilities within one mile of the subject site. Two SWIS sites were identified within the specified range, both of which are located over ¾ mile east of the subject site and are not expected to impact it.

7.9 **California EPA: California Abandoned Sites Program (CALSITES):** A preliminary list of potential hazardous waste sites. Cal-EPA has determined that many of these sites require no further action, and that many sites pose no significant threat to the public or the environment. Three sites were identified, none of which are located upgradient of the subject site.

8.0 PERSONS PERFORMING PHASE I ESA

8.1 **Registered Environmental Assessor:** Carol Noland, REA I #06470.

8.2 **Field Researcher(s) and Writer:** Carol Noland.

8.3 **Project Manager:** Ronald L. Nye, Senior Project Manager.

8.4 **Report Reviewers:** Ronald L. Nye and Robert Cashier, Director of Environmental Programs.

9.0 SUMMARY AND RECOMMENDATIONS:

9.1 **Findings and Conclusions:** The subject site, which contains a two-story office building, contained a single-family residence from at least 1920 until 1977, when the building was demolished. The current office building was constructed in 1982, and originally had parking under the building on the first floor. The first floor was converted to office space in 1983 when the adjacent lot was leased for parking. No evidence of any environmental concerns was noted on the property, and no chemicals, except for small amounts of cleaning supplies and ammonia, are used on-site. In addition, no suspect asbestos-containing materials were identified on-site.

The site is surrounded primarily by residences, office buildings, and vacant land. Several active LUST sites are located within ½ mile of the subject site, but their potential to impact the subject site is not known.

9.2 **Recommendations On Further Investigations:** Based on the findings of this investigation, PHR recommends no additional investigation on-site.

INTRODUCTION

This document reports the findings of BBL's investigation of environmental concerns in the vicinity of 315 W Haley St, Santa Barbara. It is divided in the following segments:

- **Map** - showing the location of the identified sites relative to the subject site. A total of 144 separate sites were identified.
- **Topographic Map** - showing the surrounding area of the subject site.
- **Summary** - listing the identified sites by street names.
- **Final Report** - describing the sources investigated and the resulting findings:

Federal sources			
National Priority List	no sites	within 1 mile radius.	Page 1
CERCLIS	no sites	within half of a mile.	1
NFRAP	1 site	within a quarter of a mile.	1
Federal Facilities	no sites	within half of a mile.	2
Emergency Response Notification System	4 sites	within a quarter of a mile.	2
Site Enforcement Tracking System	no sites	within half of a mile.	3
Enforcement Docket System (DOCKET/CDETS)	no sites	within a quarter of a mile.	3
C-Docket	no sites	within a quarter of a mile.	3
RCRA Violators List	1 site	within 1 mile radius.	3
Federal Enforcement Dockets	no sites	within a quarter of a mile.	4
California State sources			
Annual Work Plan	no sites	within 1 mile radius.	4
CALSITES	3 sites	within half of a mile.	4
CALSITES - No Further Action	11 sites	within a quarter of a mile.	5
Cortese	no sites	within half of a mile.	6
Leaking Underground Storage Tanks	69 sites	within half of a mile.	7
Solid Waste Information System	2 sites	within 1 mile radius.	19
Well Investigation Program	3 sites	within 1 mile radius.	19
Drinking Water Program	no sites	within half of a mile.	20
Regional sources			
Toxic Releases	2 sites	within half of a mile.	20
Toxic Pits	no sites	within 1 mile radius.	20
Solid Waste Assessment Test - Regional	no sites	within 1 mile radius.	21
Operating permits			
RCRA Generators	20 sites	within a quarter of a mile.	21
RCRA - TSD Facilities	no sites	within 1 mile radius.	24
SARA Title III, section 313 (TRIS)	no sites	within a quarter of a mile.	24
Nuclear Regulatory Commission Licensees	no sites	within a quarter of a mile.	24
PCB Waste Handlers Database	no sites	within a quarter of a mile.	24
Permit Compliance System (PCS)	no sites	within a quarter of a mile.	25
AIRS Facility System (AFS)	no sites	within a quarter of a mile.	25
Section Seven Tracking System	no sites	within a quarter of a mile.	25
FIFRA/TSCA tracking system	1 site	within a quarter of a mile.	25
Federal Facilities Information System (FFIS)	no sites	within a quarter of a mile.	25
Chemicals in Commerce Information System	no sites	within a quarter of a mile.	25
FINDS EPA Facility Index System	no sites	within a quarter of a mile.	26
Hazardous Waste Information System	71 sites	within a quarter of a mile.	26
Underground Storage Tanks	13 sites	within a quarter of a mile.	35

ENVIRONMENTAL RECORDS SEARCH

LISTED BY SOURCE

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

INTRODUCTION

BBL has used its best effort but makes no claims as to the completeness or accuracy of the referenced government sources or the completeness of the search. Our records are frequently updated but only as current as their publishing date and may not represent the entire field of known or potential hazardous waste or contaminated sites. To ensure complete coverage of the subject property and surrounding area, sites may be included in the list if there is any doubt as to the location because of discrepancies in map location, zip code, address, or other information in our sources. For additional information call 619 793-0641.

The following government sources have been searched for sites within one mile radius, unless otherwise stated, of the subject location.

FEDERAL SOURCES

NPL National Priority List

EPA has prioritized sites with significant risk to human health and the environment. These sites receive remedial funding under the Comprehensive Environmental Response Conservation and Liability Act (CERCLA).

No listings within 1 mile radius of the subject site.

CERCLIS Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS is a database used by the EPA to track activities conducted under the Comprehensive Environmental Response and Liability Act CERCLA (1980) and the amendment the Superfund Amendments and Reauthorization Act SARA (1986).

Sites to be included are identified primarily by the reporting requirements of hazardous substances Treatment, Storage and Disposal (TSD) facilities and releases larger than specific Reportable Quantities (RQ), established by EPA.

Using the National Oil and hazardous Substance Pollution Contingency Plan(National Contingency Plan) the EPA set priorities for cleanup.

The EPA rates National Contingency Plan sites according to a quantitative Hazard Ranking System (HRS) based on the potential health risk via any one or more pathways: groundwater, surface water, air, direct contact, and fire/explosion.

The EPA and state agencies seek to identify potentially responsible parties(PRP) and ultimately Responsible Parties (RP) who can be required to finance cleanup activities, either directly or through reimbursement of federal Superfund expenditures.

No listings within half of a mile radius of the subject site.

NFRAP No Further Remedial Action Planned sites (CERCLIS)

As of February 1995, CERCLIS sites designated 'No Further Remedial Action Planned' NFRAP have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the site being placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

EPA has removed these NFRAP sites from CERCLIS to lift unintended barriers to the redevelopment of these properties. This policy change is part of EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens promote economic redevelopment of unproductive urban sites.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

This list has been researched within a quarter of a mile radius of the subject site.

City: SANTA BARBARA
Map Loc: 24 - within 1/4 mile E of the subject
Status: EPA ID#: CAT000613984
Discovery of this Hazardous Waste site was brought to EPA's attention on 01/01/91. An additional Preliminary Assessment was completed on 08/23/91.

FEDFAC Federal Facilities

As part of the CERCLA program, federal facilities with known or suspected environmental problems, the Federal Facilities Hazardous Waste Compliance Docket is tracked separately to comply with a Federal Court order.

No listings within half of a mile radius of the subject site.

ERNS Emergency Response Notification System

The ERNS is a national computer database used to store information on unauthorized releases of oil and hazardous substances. The program is a cooperative effort of the Environmental Protection Agency, the Department of Transportation Research and Special Program Administration's John Volpe National Transportation System Center and the National Response Center.

There are primarily five Federal statutes that require release reporting the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) section 103; the Superfund Amendments and Reauthorization Act (SARA) Title III Section 304; the Clean Water Act of 1972(CWA) section 311(b)(3); and the Hazardous Material Transportation Act of 1974(HMTA section 1808(b).

This list has been researched within a quarter of a mile radius of the subject site.

SETS Site Enforcement Tracking System (SETS)

When expanding Superfund monies at a CERCLA (Comprehensive Environmental Response, Compensation and Liability Act) Site, EPA must conduct a search to identify parties with potential financial responsibility for remediation of uncontrolled hazardous waste sites. EPA regional Superfund Waste Management Staff issue a notice letter to the potentially responsible party (PRP). The status field contains the EPA ID number and name of the site where the actual pollution occurred.

No listings within half of a mile radius of the subject site.

DO Enforcement Docket System (DOCKET)/Consent Decree Tracking System (CDETS)

DOCKET tracks civil judicial cases against environmental polluters, while CDETS processes court settlements, called consent decrees.

No listings within a quarter of a mile radius of the subject site.

CD Criminal Docket System (C-DOCKET)

The Criminal Docket System is a comprehensive automated system for tracking criminal enforcement actions. C-Docket handles data for all environmental statues and tracks enforcement actions from the initial stages of investigations through conclusion.

No listings within a quarter of a mile radius of the subject site.

RCRA RCRA Violators List (CORRACTS)

The Resource Conservation and Recovery Act of 1976 provides for "cradle to grave" regulation of hazardous wastes. RCRA requires regulation of hazardous waste generators, transporters, and storage/treatment/disposal sites. Evaluation to potential violations, ranging from manifest requirements to hazardous waste discharges, is typically conducted by the US EPA. This database is also known as Corrective Action Report (CORRACTS). If enforcement is required, it is typically delegated to a state agency.

CA PRIORITIZATION
STABILIZATION MEASURES EVALUATION

FD Federal Enforcement Dockets

The US EPA, Office of Enforcement, maintains a list of sites under enforcement by the US EPA.

No listings within a quarter of a mile radius of the subject site.

CALIFORNIA STATE SOURCES

AW Annual Work Plan (previously known as Bond Expenditure Plan)

The California Health and Safety code, as amended by AB 129, requires the California Environmental Protection Agency to develop a site-specific expenditure plan as the basis for an appropriation of California Hazardous Substance Cleanup Bond Act of 1984 funds.

The Agency is also required to update the report annually and report any significant adjustments to the Legislature on an ongoing basis. The plan identifies California hazardous waste sites targeted for cleanup by responsible parties, the California and the Federal Environmental Protection Agency over the next five years.

Status Codes:		
	BKLG	Backlog, Potential Annual Work Plan Site
	AWP	Active Annual Work Plan site
	COM	Certified, but still in Operation & Maintenance mode
	CERT	Certified after remediation
	DLST	Delisted from the AWP
	REFRC	Former AWP site referred to RCRA
	REFRW	Former AWP site referred to the Regional Water Quality Board

No listings within 1 mile radius of the subject site.

CALS CALSITES

The Historical Abandoned Site Survey Program identified certain potential hazardous waste sites. The identification of these sites were generally not made via sampling and site characterization, they were made as a result of file searches and windshield surveys. Some of the sites may have had a site inspection with sampling.

The information has been compiled into this database by the California Environmental Protection Agency, Department of Toxic Substance Control (DTSC) in accordance with Section 25359.6 of the California Health and Safety Code.

This database was previously known as The Abandoned Sites Program Information System ASPIS.

Status Codes:		
	PEARL	Preliminary Endangerment Assessment Required, Low priority
	PEARM	Preliminary Endangerment Assessment Required, Medium priority
	PEARH	Preliminary Endangerment Assessment Required, High priority
	SSR	Site Screening Required
	HRR	Hazard Ranking Required
	PRPR	Potential Responsible Party Search Required
	EPA	EPA is the lead agency
	RCRA	Mitigated under the RCRA permitting program
	RWQCB	Mitigated under the lead of the Regional Water Quality Boar
	CNTY	County lead
	OAL	Other Agency lead

This list has been researched within half of a mile radius of the subject site.

Site: SANTA BARBARA REGIONAL GROUNDWATER
Address: CENTRAL SANTA BARBARA
City: SANTA BARBARA
Status: 42990003 010896 NONCLASSIFIABLE ESTABLISHMENTS
Contaminants: HALOGENATED SOLVENTS
Numerous potential responsible parties (PRP) and effected parties have been identified as the source(s) to tetrachloroethylene (PCE), trichloroethene (TCE) and dichloroethene (DCE) to shallow groundwater. One source a dry cleaner, has been identified as the likely source of PCE in two municipal drinking water supply wells. A deep production well used onsite is suspected as working as a conduit for contamination moving from the shallow zone to the deep water zone. Individualized groundwater treatment units have been installed and working. CalTrans conducted some groundwater treatment while de-watering area for construction. CalTrans has also conducted soil cleanup. The Regional Board has required property owners to install monitoring wells as contaminants are identified or tracked from monitoring wells. PRPs are dry cleaners and industrial manufacturers.
The Department of Toxic Substances Control (DTSC) discovered three municipal water supply wells impacted from reviewing Regional Board, Central Coast files. Two additional wells were identified reviewing the Department of Health Services, Office of Drinking Water data collected from tests required of water suppliers. (12/27/95)

CORTESE State of California Office of Planning and Research

This database is a consolidation of information from various sources. It is maintained by the State Office of Planning and Research and lists potential and confirmed hazardous waste or substances sites.

Facilities that have been reported elsewhere in this report will not be included in the listing below.

Status Codes:	WRCBT	Tank leaks. Compiled by Water Resource Control Board
	DHS1	Abandoned hazardous waste site. Compiled by Toxic Substance Control Div. of DHS
	DHS2	Contaminated public water drinking wells serving less than 200 connections. Compiled by Env. Health Div. of DHS
	DHS3	Contaminated public water drinking wells serving more than 200 connections
	DHS5	Sites pursuant to section 25356 of the Health and Safety Code (see BEP)
	CWMB	Solid waste disposal sites with known migration of hazardous waste

No listings within half of a mile radius of the subject site.

LUST Leaking Underground Storage Tanks - California State

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

The Leaking Underground Storage Tanks Information System is maintained by the State Water Resource Board pursuant to Section 25295 of the Health and Safety Code.

Status Codes:	0	No action
	1	Leak being confirmed
	3A	Prel site assessment workplan submitted
	3B	Prel site assessment underway
	5C	Pollution characterization
	5R	Remediation plan
	7	Remedial action underway
	8	Post remedial action monitoring
	9	Case closed
	P	Case purged from agency list

This list has been researched within half of a mile radius of the subject site.

1,400 ppb of PCE (action level 5.0) was reported on 01/02/86 by DHS-AB21.

WQ Drinking Water Program

The California Health and Safety Code section 116275-116300 stipulates that it is the intent of the Legislature to improve laws governing drinking water quality to improve upon the minimum requirements of the federal Safe Drinking Water Act Amendments of 1986, to establish primary drinking water standards that are at least as stringent as those established under the federal Safe Drinking Water Act, and to establish a program under this chapter that is more protective of public health than the minimum federal requirements.

In order to provide for the orderly and efficient delivery of safe drinking water the State Department of Health Services collect information on the quality of public drinking water wells under the California Drinking Program.

Below, the latest and maximum analysis of contaminants are reported (only positive reading are included). MCL is the Maximum Contaminant Level or enforceable drinking water standard. RPHL is the Recommended Public Health Level. Additional information is available from BBL upon request.

No listings within half of a mile radius of the subject site.

REGIONAL SOURCES

NT Toxic Releases

The California Regional Water Quality Control Boards or local Department of Health Services keeps track of toxic releases to the environment. These lists are known as Unauthorized Releases, Spill, Leaks, Investigations and Cleanups (SLIC), Non-Tank Releases, Toxics List or similar, depending on the local agency.

This list has been researched within half of a mile radius of the subject site.

Map Loc: 67 - within 1/4 mile NE of the subject
Status: 9 - Case Closed.

TPC Toxic Pits

The Toxic Pits Clean-Up Act (Katz Bill) places strict limitations on the discharge of liquid hazardous wastes into surface impoundment, toxic ponds, pits and lagoons. Regional Water Quality Control Boards are required to inspect all surface impoundment annually, in addition, every facility was required to file a Hydrogeological Assessment Report. Recent legislation allows the Department of Health Services to exempt facilities that closed on or before December 31, 1985, if a showing is made that no significant environmental risk remains (AB1046).

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Special exemption provisions have been created for surface impoundment that receive mining wastes.

No listings within 1 mile radius of the subject site.

SWAT(R) Solid Waste Assessment Test - Regional

This program, provided for under the Calderon legislation (Section 13273 of the Water Code), requires that disposal sites with more than 50,000 cubic yards of waste provide sufficient information to the regional water quality control board to determine whether or not the site has discharged hazardous substances which will impact the environment.

Site operators are required to file Solid Waste Assessment Test reports on a staggered basis. Operators of the 150 highest ranking (Rank 1) sites were required to submit Solid Waste Assessment Tests by July 1, 1987, Rank 2 in 1988 and so on.

Operators submit water quality tests to the Regional Water Quality Control Board, describing surface and groundwater quality and supply; and the geology within 1 mile of the site. Air quality tests are submitted to the local Air Quality Management District or Air Pollution Control District.

This program is currently not funded and thus not updated.

Status Codes: Facilities or sites are ranked within each region on a scale 1-15 according to priority.

No listings within 1 mile radius of the subject site.

OPERATING PERMITS

Various agencies issue operating permits or regulate the handling, movements, storage and disposal of hazardous materials and require mandatory reporting. The inclusion in this section does not imply that an environmental problem exists presently or has in the past.

The sources referenced below have been searched within half a mile radius, unless otherwise stated, of the subject site.

RCRA-G Resource Conservation and Recovery Information System - Generators

The Environmental Protection Agency regulates generators of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste generators are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a state equivalent form. The notification form provides basic identification information and specific waste activities.

Status Codes: L - Generators who generate at least 1000 kg/mo of non-acutely hazardous waste (or 1 kg/mo of acutely hazardous waste).
S - Generators who generate 100 kg/mo but less than 1000 kg/mo of non-acutely hazardous waste.
T - Transporter.

RCRA-D Resource Conservation and Recovery Information System - Treatment, Storage & Disposal

The Environmental Protection Agency regulates the treatment, storage and disposal of hazardous material through the Resource Conservation and Recovery Act (RCRA). All hazardous waste TSD facilities are required to notify EPA of their existence by submitting the Federal Notification of Regulated Waste Activity Form (EPA Form 8700-12) or a state equivalent form as well as part A (EPA form 8700-23) and Part B of their Hazardous Waste Permit Application.

Status Codes:		
	I	Incinerator
	T	Storage/Treatment facility other than Incinerator
	D	Land Disposal Facility

No listings within 1 mile radius of the subject site.

SARA SARA Title III, section 313 (TRIS)

Title III of the Superfund Amendments and Reauthorization Act, Section 313, also known as Emergency Planning and Community Right-to-Know Act of 1986 requires owners or operators of facilities with more than 10 employees and are listed under Standard Industrial Classification(SIC) Codes 20 through 39 to report the manufacturing, processing or use of more than a threshold of certain chemical or chemical categories listed under section 313. This data base is also known as Toxic Release Information System (TRIS).

Below summary information for the last five year period is reported grouping the releases into air, water, underground injection, land, public offsite treatment (potw) and transportation offsite.

No listings within a quarter of a mile radius of the subject site.

NC Nuclear Regulatory Commission Licensees

The Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards has been mandated (10 CFR Ch 1.42) to protect the public health and safety, the common defense and security, and the environment by licensing, inspection, and environmental impact assessment for all nuclear facilities and activities, and for the import and export of special nuclear material.

No listings within a quarter of a mile radius of the subject site.

PCB PCB Waste Handlers Database

The U.S. Environmental Protection Agency tracks generators, transporters, commercial stores and/or brokers and disposers of PCB's in accordance with the Toxic Substance Control Act.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

No listings within a quarter of a mile radius of the subject site.

PCS Permit Compliance System

PCS is a database which contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS was developed by The U.S. Environmental Protection Agency to meet the information needs of the NPDES program under the Clean Water Act. PCS tracks permit, compliance, and enforcement states of NPDES facilities.

No listings within a quarter of a mile radius of the subject site.

AFS AIRS Facility System

AFS contains emissions and compliance data on air pollution point sources tracked by the U.S. EPA and state and local environmental regulatory agencies. There are seven "criteria pollutants" for which data must be reported to EPA and stored in AIRS: PM10 (particulate matters less than 10 microns in size), carbon monoxide, sulfur dioxide, nitrogen dioxide, lead, reactive volatile organic compounds (VOC), and ozone.

AFS replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aeromatic Data (SAROAD).

No listings within a quarter of a mile radius of the subject site.

PE Section Seven Tracking System (SSTS)

SSTS evolved from the FIFRA and TSCA Enforcement System (FATES). SSTS tracks the registration of all pesticide producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and devices that are produced, sold or distributed each year.

No listings within a quarter of a mile radius of the subject site.

FIFRA FIFRA/TSCA Tracking System/ National Compliance Database (FTTS/NCDB)

NCDB supports implementation of the Federal Insecticide, Fungicide and Rodenticide Control Act (FIFRA) and the Toxic Substance Control Act (TSCA).

This list has been researched within a quarter of a mile radius of the subject site.

UST Permitted Underground Storage Tanks - State Water Quality Control Board

The Corteses Bill (AB2013), enacted in 1983, required registration of all underground storage tanks (UST) with the State Water Quality Control Board by July 1, 1984. About 176,000 tanks and surface impounds were registered between 1984 and 1987. An amendment (AB 1413) was passed in 1987, effectively removing the State Board from the registration process starting January 1, 1988. The data reflects the information collected by the state between 1984 and 1987 as well as recent time and includes all tanks and surface impounds in use or closed after 1974.

Home and farm heating fuel tanks with capacities of 1,100 gallons or less and "structures such as sumps, separators, storm drains, catch basins, oil field gathering lines, refinery pipelines, lagoons, evaporation ponds, well cellars, separation sumps, lined and unlined pits, sumps and lagoons" except those defined as UST under HSWA or may be regulated to protect water quality under the Porter-Cologne Water Quality Control Act are excluded.

This list has been researched within a quarter of a mile radius of the subject site.

Owner:	Pathpoint, A California Nonprofit Public Benefit Corporation
Property:	315 W. Haley Street Santa Barbara, CA 93101

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties*. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

Please be advised that any provision contained in this document, or in a document that is attached, linked or referenced in this document, that under applicable law illegally discriminates against a class of individuals based

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

upon personal characteristics such as race, color, religion, sex, sexual orientation, gender identity, familial status, disability, national origin, or any other legally protected class, is illegal and unenforceable by law.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Dated as of July 03, 2024 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

Pathpoint, A California Nonprofit Public Benefit Corporation

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A FEE AS TO PARCEL(S) 1, AN EASEMENT AS TO PARCEL(S) 2

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2024-2025, a lien not yet due or payable.

2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

3. An unrecorded lease dated SEPTEMBER 20, 1980, executed by LISOLOTTE M. MACFARLANE as lessor and HARLAN DEGROODT, EDWIN LENVIK AND KENNEITH MONOR as lessee, as disclosed by a MEMORANDUM OF LEASE recorded DECEMBER 22, 1980 as INSTRUMENT NO. 1980-52902 of Official Records.

   Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records.

4. An easement for INGRESS, EGRESS AND UTILITIES and incidental purposes, recorded JANUARY 03, 1984 as INSTRUMENT NO. 1984-70 of Official Records.
   In Favor of: RICHARD GODKIN AND DEVON GODKIN
   Affects: AS DESCRIBED THEREIN

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

5. Covenants, conditions, restrictions and easements in the document recorded JANUARY 19, 1984 as INSTRUMENT NO. 1984-3446 of Official Records, but deleting any covenant, condition, or restriction, if any, indicating a preference, limitation, or discrimination based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, handicap, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, to the extent that such covenants, conditions or restrictions violate applicable state or federal laws. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

6. The terms and provisions contained in the document entitled RECOGNITION AND ATTORNMENT AGREEMENT, executed by and between HALEY LAND COMPANY, A CALIFORNIA GENERAL PARTNERSHIP, THE CITY OF SANTA BARBARA and SANTA BARBARA BANK & TRUST, recorded AUGUST 14, 1992, as Instrument No. 1992-63950 of Official Records.

7. The terms, provisions and easement(s) contained in the document entitled "COLLATERAL ASSIGNMENT OF EASEMENT RIGHTS" recorded SEPTEMBER 01, 1992 as INSTRUMENT NO. 1992-68687 of Official Records.

8. A deed of trust to secure an original indebtedness of $1,326,000.00 recorded June 30, 2015 as INSTRUMENT NO. 2015-34488 OF OFFICIAL RECORDS.

Dated:	June 11, 2015
Trustor:	PATHPOINT, A CALIFORNIA NONPROFIT PUBLIC BENEFIT CORPORATION
Trustee:	UNIONBANCAL MORTGAGE CORPORATION, A CALIFORNIA CORPORATION
Beneficiary:	MUFG UNION BANK, N.A

The terms and provisions contained in the document entitled "SUBORDINATION OF LEASE (TO DEED OF TRUST)" recorded June 30, 2015 as INSTRUMENT NO. 2015-34489 of Official Records.

The effect of a document entitled "PARTIAL RECONVEYANCE", recorded April 03, 2018 as INSTRUMENT NO. 2018-13162 of Official Records.

9. The fact that the land lies within the boundaries of the CENTRAL CITY Redevelopment Project Area, as disclosed by various documents of record.

10. Any easements and/or servitudes affecting easement parcel(s) 2 herein described.

11. Water rights, claims or title to water, whether or not shown by the Public Records.

12. Rights of parties in possession.

Prior to the issuance of any policy of title insurance, the Company will require:

13. With respect to PATHPOINT, A CALIFORNIA NONPROFIT PUBLIC BENEFIT CORPORATION:
    a. Evidence that the corporation is properly formed and in good standing in the state of its domicile.
    b. An official copy of the bylaws for the corporation.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

c. A copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
d. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

1. General and special taxes and assessments for the fiscal year 2023-2024.

First Installment:	$994.04, PAID
Penalty:	$0.00
Second Installment:	$994.03, PAID
Penalty:	$0.00
Tax Rate Area:	02-042
A. P. No.:	037-192-001

2. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 315 West Haley Street, Santa Barbara, CA.

3. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

   None

The map attached, if any, may or may not be a survey of the land depicted hereon. First American expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE [(07-01-2021) v. 01.00]

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
      i. the occupancy, use, or enjoyment of the Land;
      ii. the character, dimensions, or location of any improvement on the Land;
      iii. the subdivision of land; or
      iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.
   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a. or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 19:	1% of Policy Amount Shown on Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 21:	1% of Policy Amount Shown on Schedule A or $2,500 (whichever is less)	$5,000

ALTA OWNER'S POLICY [(07-01-2021) V. 01.00]
CLTA STANDARD COVERAGE OWNER'S POLICY [(02-04-22) V. 01.00]
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.

2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7. The 2021 CLTA Standard Coverage Owner's Policy will include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas,

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

RE: Substantial Conformance Determination
315 W. Haley St., Sansum Diabetes Research Institute
(APN: 037-192-001)
PLN2024-00121 and PC Resolutions 34 and 35

Dear Mr. Laass:

Planning Staff has reviewed the request by the County of Santa Barbara to remove the limitation on medical office use from the subject property.

On July 7, 1983, the Planning Commission approved a Conditional Use Permit (CUP) to allow off-site parking on an adjacent residentially-zoned parcel, and a Modification to allow 34 parking spaces rather than the 43 required by the zoning ordinance for a proposal to add approximately 4,000 square feet to an existing commercial structure of approximately 4,500 square feet. This approval was appealed to City Council, who ultimately denied the appeal on September 20, 1983. City Council adopted their Decision and Findings on December 20, 1983, which included conditions of approval A-F. Condition D required a deed restriction limiting the building to general office and prohibiting medical office use.

At the time of their approval, the subject parcel was zoned C-P (Restricted Commercial) and R-4 (Hotel/Motel/Multiple Residential). The required parking for development in the C-P zone was 1 space per 200 square feet. Therefore, the project required a total of 43 parking spaces. The project proposed 34 parking spaces on an adjacent lot zoned R-4, thereby requiring a CUP and Parking Modification.

Development on the site was initially approved in 1980, and at that time it was limited to office uses because traffic generated by office uses was generally 1/3 that of retail use. When the addition to the building was proposed in 1983, a parking modification was requested, and in order to make the finding that the parking modification was appropriate, medical office use was prohibited, as it has significantly higher parking demand and trip generation rates than general office.

The subject parcel is currently zoned C-R (Commercial Restricted), and the adjacent parking lot has the same nonresidential zoning. The current parking requirement for office use is 1 space per 250 square feet, whether it's a medical/dental or business/professional office use. Given the change in zoning and parking requirements that have been enacted since this parcel was developed, a CUP and parking modification are no longer required. The existing development consists of 8,560 square feet of nonresidential office use, which requires 34 parking spaces. As

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

such, the limitation on medical office use is no longer applicable. The proposed use by Behavioral Wellness qualifies as both general office and medical office.

Therefore, we have determined that the request to remove the medical office prohibition is in substantial conformance with the prior approvals. I will prepare the document for a Release of Covenants and send that to you as soon as it is ready for your signature.

If you have any questions regarding this matter, please contact me at ADebusk@SantaBarbaraCA.gov or 805-564-5564.

Sincerely,

Allison De Busk
City Planner

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties*. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

Please be advised that any provision contained in this document, or in a document that is attached, linked or referenced in this document, that under applicable law illegally discriminates against a class of individuals based

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

upon personal characteristics such as race, color, religion, sex, sexual orientation, gender identity, familial status, disability, national origin, or any other legally protected class, is illegal and unenforceable by law.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Dated as of July 03, 2024 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

Pathpoint, A California Nonprofit Public Benefit Corporation

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A FEE AS TO PARCEL(S) 1, AN EASEMENT AS TO PARCEL(S) 2

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2024-2025, a lien not yet due or payable.

2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

3. An unrecorded lease dated SEPTEMBER 20, 1980, executed by LISOLOTTE M. MACFARLANE as lessor and HARLAN DEGROODT, EDWIN LENVIK AND KENNEITH MONOR as lessee, as disclosed by a MEMORANDUM OF LEASE recorded DECEMBER 22, 1980 as INSTRUMENT NO. 1980-52902 of Official Records.

   Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records.

4. An easement for INGRESS, EGRESS AND UTILITIES and incidental purposes, recorded JANUARY 03, 1984 as INSTRUMENT NO. 1984-70 of Official Records.
   In Favor of: RICHARD GODKIN AND DEVON GODKIN
   Affects: AS DESCRIBED THEREIN

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

5. Covenants, conditions, restrictions and easements in the document recorded JANUARY 19, 1984 as INSTRUMENT NO. 1984-3446 of Official Records, but deleting any covenant, condition, or restriction, if any, indicating a preference, limitation, or discrimination based on race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, familial status, marital status, disability, handicap, veteran or military status, genetic information, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, to the extent that such covenants, conditions or restrictions violate applicable state or federal laws. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

6. The terms and provisions contained in the document entitled RECOGNITION AND ATTORNMENT AGREEMENT, executed by and between HALEY LAND COMPANY, A CALIFORNIA GENERAL PARTNERSHIP, THE CITY OF SANTA BARBARA and SANTA BARBARA BANK & TRUST, recorded AUGUST 14, 1992, as Instrument No. 1992-63950 of Official Records.

7. The terms, provisions and easement(s) contained in the document entitled "COLLATERAL ASSIGNMENT OF EASEMENT RIGHTS" recorded SEPTEMBER 01, 1992 as INSTRUMENT NO. 1992-68687 of Official Records.

8. A deed of trust to secure an original indebtedness of $1,326,000.00 recorded June 30, 2015 as INSTRUMENT NO. 2015-34488 OF OFFICIAL RECORDS.

Dated:	June 11, 2015
Trustor:	PATHPOINT, A CALIFORNIA NONPROFIT PUBLIC BENEFIT CORPORATION
Trustee:	UNIONBANCAL MORTGAGE CORPORATION, A CALIFORNIA CORPORATION
Beneficiary:	MUFG UNION BANK, N.A

The terms and provisions contained in the document entitled "SUBORDINATION OF LEASE (TO DEED OF TRUST)" recorded June 30, 2015 as INSTRUMENT NO. 2015-34489 of Official Records.

The effect of a document entitled "PARTIAL RECONVEYANCE", recorded April 03, 2018 as INSTRUMENT NO. 2018-13162 of Official Records.

9. The fact that the land lies within the boundaries of the CENTRAL CITY Redevelopment Project Area, as disclosed by various documents of record.

10. Any easements and/or servitudes affecting easement parcel(s) 2 herein described.

11. Water rights, claims or title to water, whether or not shown by the Public Records.

12. Rights of parties in possession.

Prior to the issuance of any policy of title insurance, the Company will require:

13. With respect to PATHPOINT, A CALIFORNIA NONPROFIT PUBLIC BENEFIT CORPORATION:
    a. Evidence that the corporation is properly formed and in good standing in the state of its domicile.
    b. An official copy of the bylaws for the corporation.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

c. A copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
d. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

1. General and special taxes and assessments for the fiscal year 2023-2024.

First Installment:	$994.04, PAID
Penalty:	$0.00
Second Installment:	$994.03, PAID

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE [(07-01-2021) v. 01.00]

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
      i. the occupancy, use, or enjoyment of the Land;
      ii. the character, dimensions, or location of any improvement on the Land;
      iii. the subdivision of land; or
      iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.
   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a. or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 19:	1% of Policy Amount Shown on Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 21:	1% of Policy Amount Shown on Schedule A or $2,500 (whichever is less)	$5,000

ALTA OWNER'S POLICY [(07-01-2021) V. 01.00]
CLTA STANDARD COVERAGE OWNER'S POLICY [(02-04-22) V. 01.00]
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.

2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7. The 2021 CLTA Standard Coverage Owner's Policy will include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas,

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

San Luis Obispo, CA 93401

Dear Selection Committee:

studio 2G Architects, LLP is pleased to submit our qualifications and proposal for the Elevator/Lift Feasibility Study and Design Services for the Santa Barbara County BeWell Haley Street Project. We are a woman owned (WOSB, WBE), LEED-certified architecture firm based in the Central Coast of California, with a commitment to sustainable, cost-effective design solutions for civic clients with community wellness in mind. Our team is pleased to have the opportunity to show you our passion, experience, and qualifications for consideration to this important project.

About studio 2G:

studio 2G was founded in 2005 and is registered with the California Secretary of State and operates as a Limited Liability Partnership (LLP). Our firm is led by three partners and supported by a dedicated team of eight architectural and administrative staff. Over the past five years, our **staffing structure has remained consistent**, reflecting a stable and collaborative organizational culture. **Ashley Mayou**, one of our partners and licensed architects, will serve as the **Project Architect and main point of contact for this project**.

Our team brings extensive experience delivering complex renovation and accessibility upgrade projects for civic and federal clients. We are currently working with the **County of Santa Barbara on the BeWell (Tecolote) House renovation**—an active behavioral health facility modernization project that is currently under construction. Our portfolio also includes the **design and implementation of elevator systems** across California for agencies such as NASA, the National Archives and Records Administration (NARA), and the U.S. General Services Administration (GSA), where we have addressed diverse challenges related to code compliance, historic preservation, and operational continuity.

Project Understanding:

We understand that the County of Santa Barbara is seeking a **qualified design team to lead the feasibility study, design, and construction support** for the installation of a new elevator or lift at the BeWell facility on Haley Street. Key project elements include:

- **Conducting a feasibility study** to evaluate elevator/lift placement options, assess existing building conditions, and ensure compliance with ADA, CEQA, BHCIP, and other applicable codes and guidelines.
- **Developing complete bid-ready construction documents**, including architectural, structural, MEP, and site-related components, in alignment with County standards and CSI formatting.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Cover Letter

- **Supporting the County through permitting and construction**, including participation in the bidding process, construction administration, site observations, and final closeout.
- **Integrating sustainable design strategies** to align with the County's Net Zero Energy (NZE) policy and broader environmental goals.
- **Delivering a safe, accessible, and functional facility** that enhances behavioral health services for the community.

Requirements:

- We acknowledge any and all addenda issued as part of this RFQ/P and confirm that we have reviewed all associated documentation thoroughly.
- studio 2G Architects understands that this proposal may become a matter of public record. If it becomes necessary to protect any portion of our submission as proprietary, we will submit such material separately with a legal citation and rationale in accordance with the California Public Records Act. At this time, however, we are not requesting confidentiality for any portion of this submission.

Thank you for the opportunity to submit our qualifications. We look forward to collaborating with Santa Barbara County on this important project and to supporting the County's commitment to inclusive access and behavioral wellness infrastructure.

Collings & Associates | Principal |30+ yrs of experience

Al brings more than 30 years of experience in numerous fire protection arenas, including system design, code consulting, egress modeling, and as a former Authority Having Jurisdiction with the University of California as a Designated Campus Fire Marshal. Mr. Yakel has extensive experience in the application of the Building and Fire Codes, and the requirements of California Title 19 and 24. He has been involved in a wide variety of fire and life safety projects, including the review and approval of plans and specifications for new construction and tenant improvements. Our firm has recently completed several library specific projects which have included all levels of fire protection including fire alarm, fire suppression, life safety and code consulting. We are well versed in the code requirements and needs of the fire service to provide a comprehensive fire protection solution.

Architecture + Interior Design

SDVOSB | DVBE | DBE | WOSB | WBE | SB (micro) | HUBZone

Founded in 2005, studio 2G Architects, LLP is an award-winning Architectural + Interiors firm based in San Luis Obispo, CA. We offer comprehensive architectural services, including pre-design, schematic design, design development, construction documents, and construction administration, along with interior design and prime project management services. Our firm is a partnership of three licensed architects supported by eight talented staff members.

Studio 2G Architects has a strong history of working with public agencies at the local, state, and federal levels. We've completed elevator projects for GSA, NARA, and NASA, each requiring close coordination and attention to code and accessibility standards. Our public work spans civic buildings, health facilities, and community infrastructure, often in active, occupied settings.

We also hold on-call contracts with the City of San Luis Obispo, Santa Barbara County, and several federal agencies. These include a mix of assessments, renovations, and accessibility upgrades. Recent projects in Santa Barbara County include the BeWell Tecolote House renovation, currently under construction, and the Isla Vista Community Services ADA path of travel project.

CURRENT ON-CALL GOVERNMENT CONTRACTS

- **City of San Luis Obispo On-Call**
  - Heidi Gibson and Ashley Mayou, Laura Gough QA/QC
  - No set end date; multiple teams on-call
- **GSA Region 9 Zone 2 & 3 IDIQ (Northern & Southern California)**
  - Heidi Gibson and Ashley Mayou, Laura Gough QA/QC
  - Ending late 2024; multiple teams on-call
- **USACE LA District MATOC**
  - Heidi Gibson and Ashley Mayou, Laura Gough QA/QC
  - No set end dare; multiple teams on-call
- **Fresno Housing Authority**
  - Laura Gough and Ashley Mayou, Heidi Gibson QA/QC
  - Ending in 2027; multiple teams on-call
- **UCSC Faculty Housing**
  - Laura Gough and Ashley Mayou, Heidi Gibson QA/QC
  - No set end date; only design team on-call

Team Experience

STUDIO 2G TEAM & SUBCONSULTANTS

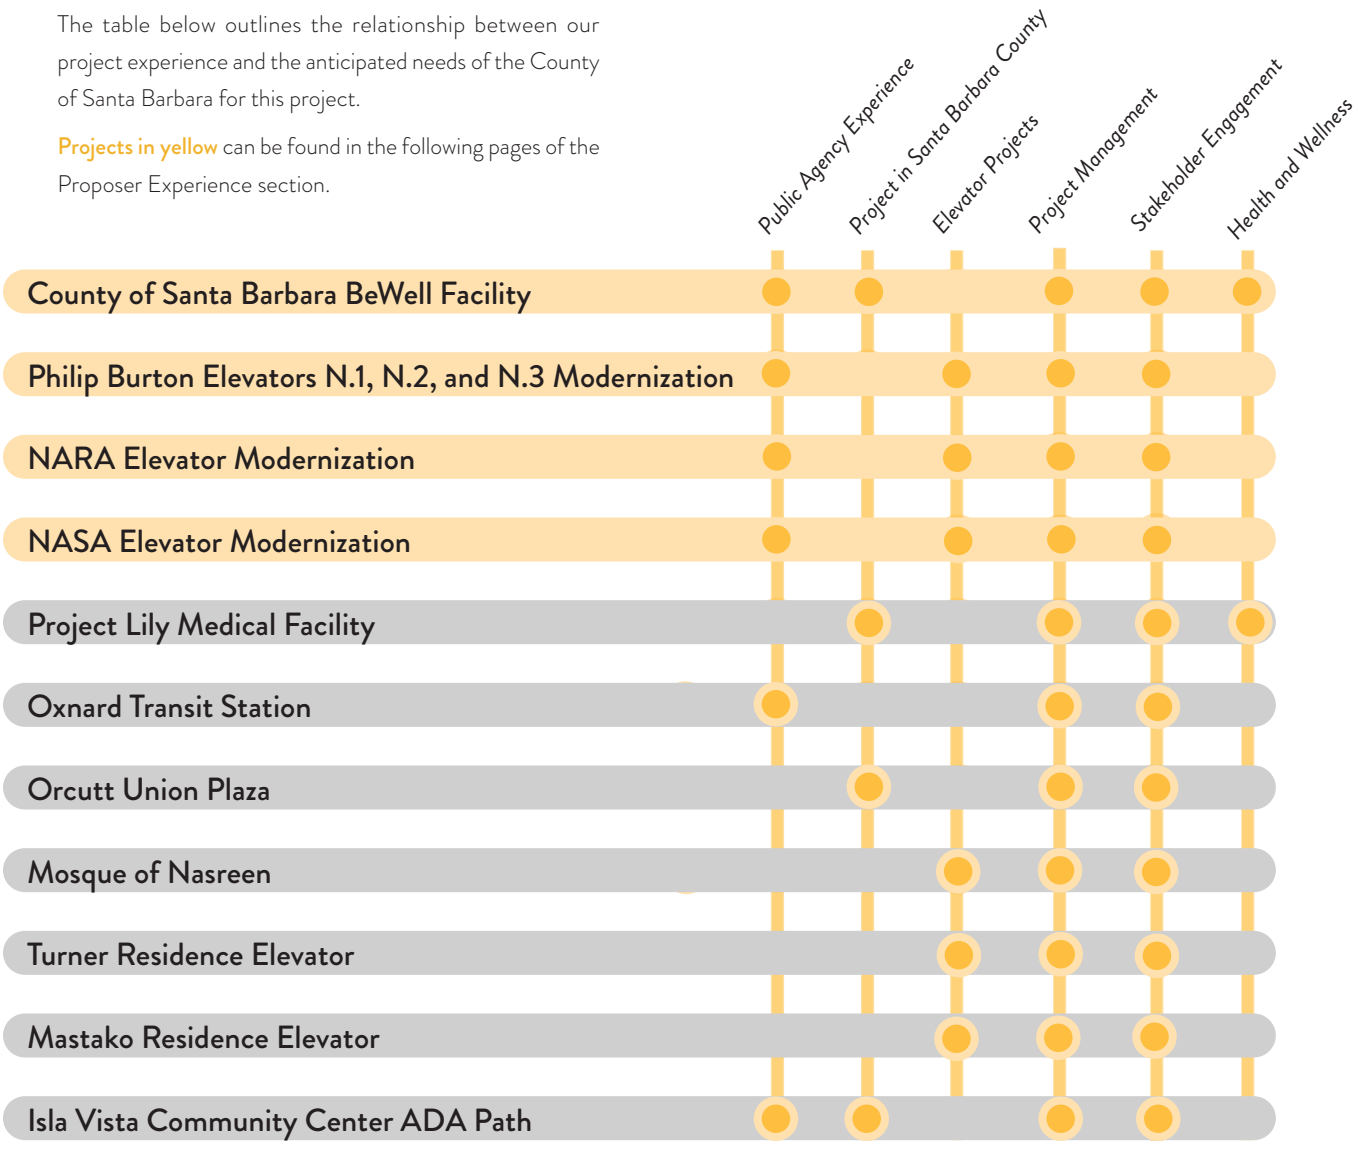
To support this project, studio 2G Architects has assembled a team of trusted consultants with whom we share a strong, proven history of collaboration—particularly in the public sector. Our partnerships span multiple years and projects, building a foundation of trust, efficiency, and consistent performance that directly benefits our clients.

BMA+ (mechanical and plumbing) and JMPE (electrical) have partnered with studio 2G on numerous government and institutional projects, including the **NASA Elevator Modernization** and the ongoing **Santa Barbara County BeWell Facility** renovation. Ashley & Vance Engineering (structural) has been a key teammate on projects such as the **Santa Barbara County BeWell Facility** renovation and the **Isla Vista ADA Path of Travel** project, bringing deep experience in structural upgrades within existing civic facilities. These long-term teaming relationships allow us to deliver fully integrated, well-coordinated design solutions essential for complex, multi-discipline public works like the Haley Street Project.

PROJECT EXPERIENCE

The table below outlines the relationship between our project experience and the anticipated needs of the County of Santa Barbara for this project.

Projects in yellow can be found in the following pages of the Proposer Experience section.



Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

County of Santa Barbara BeWell Facility

Santa Barbara, CA | Construction Cost $1.4M | 2,804 SF | Under Construction

Ashley Mayou was the project manager and interior designer for the 2,804-square-foot space, while **Laura Gough** was the Project Architect for the Santa Barbara County BeWell Facility. Originally built over 50 years ago as a residential facility for disabled adults, the site is now being revitalized to support approximately 12 individuals receiving **behavioral health services** through the County's BeWell Department.

The project involved a comprehensive interior overhaul, including hazardous material abatement, roof replacement, upgraded windows and doors, and a **reconfigured layout to better suit the program's needs**. All-new finishes, lighting, mechanical, and plumbing systems were incorporated, along with modern fixtures and equipment to enhance both functionality and comfort. Our cost estimating subcontractor played a key role in the project by completing several cost estimates to help guide budgeting and decision-making throughout the renovation process. We also coordinated with the CO, Lou Gibilisco, and the County to bring complete deliverables on time.

Accessibility was also a priority, with the addition of a new ADA-compliant exterior patio and upgraded walkways leading to multiple building entrances. These improvements ensure that the facility aligns with BeWell's operational requirements, creating a safe, supportive, and welcoming environment for residents.

Philip Burton Elevators N.1, N.2, and N.3 Modernization

Oakland, CA | Construction Cost $2.5M | 4,495 SF | Completed 2024

Ashley Mayou acted as Project Architect and provided architectural construction documents and support for the full modernization of three passenger elevators to improve reliability, performance, and code compliance.

The project included upgrades to elevator equipment, cabs, controls, lobbies, and machine rooms. Careful attention was given to preserving the building's historic character, with lobby and cab finishes designed to match the original aesthetic while meeting current accessibility and safety standards.

NARA Elevator Modernization

San Bruno, CA | Construction Cost $1.5M | 1,980 SF | Completed 2023

Ashley Mayou acted as Project Architect and provided architectural construction documents to support the modernization of two elevators at the National Archives and Records Administration (NARA) facility. The project focused on improving performance, reliability, and safety while bringing all systems up to current code. This included upgrading the elevator controls, electrical systems, and HVAC components to ensure consistent operation and compliance with modern standards.

One of the existing passenger elevators was converted into a freight elevator to better support NARA's archival operations. This conversion involved new guide rails and structural upgrades to increase the elevator's load capacity, allowing staff to more efficiently transport records and materials throughout the facility.

NASA Elevator Modernization

Moffett Field, CA | Design Contract $40,000 | Under Construction

Ashley Mayou acted as Project Architect and provided architectural construction documents and support for the replacement of an inoperable elevator at Moffett Field.

The project included replacing the existing single car hydraulic elevator with new complete hydraulic elevator system within the existing poured in place concrete shaft, pit and concrete roof. The original elevator was out of service due to a failure of the existing piston. A new elevator installation was necessary to return ADA access back to the upper levels of the building. The elevator is accessed from the exterior and is in a coastal environment so special consideration was made to finishes and enclosures due to the environmental impacts.

PROPOSED WORK PLAN, TIME SCHEDULE, AND WORKLOAD »

Shale Oak Winery
CCGB Green Award Winning New Build
studio 2G Architects, LLP

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Proposed Work Plan, Time Schedule, and Workload

Proposed Work Plan

studio 2G Architects proposes a structured, three phase work plan that aligns with the County of Santa Barbara's goals, regulatory requirements, and the tentative project schedule as outlined in the RFQ/P. Our approach emphasizes clear communication, compliance with all applicable codes and funding requirements, and collaboration with County departments to ensure timely, cost effective project delivery.

Phase 1: Project Initiation & Feasibility Study

- Conduct kickoff meeting with County stakeholders to confirm objectives, schedule, and communication protocols
- Review existing drawings, environmental reports, and site conditions
- Conduct site visits, measurements, and code compliance analysis (ADA, CEQA, BHCIP, CBC)
- Identify feasible elevator/lift locations and prepare Rough Order of Magnitude (ROM) cost estimates
- Provide a feasibility report outlining preferred design alternatives, path-of-travel upgrades, and Net Zero Energy (NZE) considerations

Estimated Duration: 6–8 weeks

Phase 2: Design Development & Construction Documents

- Develop 50%, 95%, and 100% Construction Documents with full architectural, structural, MEP, civil, and signage integration
- Prepare detailed technical specifications in CSI format
- Coordinate with County staff and permitting agencies (City of Santa Barbara, utility providers)
- Integrate sustainability and NZE strategies as applicable
- Submit permitting documents and respond to review comments

Estimated Duration: 10–14 weeks design, 4-6 weeks permitting

Phase 3: Construction Administration & Closeout

- Preparation of answers to Bidding RFIs and final Addendum with updated plans and specifications
- Respond to contractor RFIs, submittals and change order requests in a timely manner (within 7 working days)
- Attend pre-construction and weekly project meetings
- Conduct regular site observations (minimum 3 per month) and provide punch list coordination
- Allowance for three site visits as needed for unforeseen conditions
- Prepare cost request documents for county initiated changes
- Support County with inspections, and project closeout documentation including punch list creation and site walk.

Estimated Duration: Construction timeline dependent (estimated 4–6 months)

Workload and Capacity

studio 2G Architects currently maintains a balanced portfolio of civic and public agency projects and **has the capacity to dedicate appropriate resources to the BeWell Haley Street Project without delay.** With three partners and six architectural support staff, our firm structure enables senior-level involvement throughout all phases of work. We have no anticipated staffing changes and confirm that we are fully available to perform the scope of services described in this RFQ/P in accordance with the proposed timeline.

We also have longstanding relationships with a network of experienced **subconsultants**, which we have brought onto this project (structural, MEP, civil, fire, and cost estimators), who are **aligned with our schedule and committed to timely delivery of all scope elements.**

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Proposed Work Plan, Time Schedule, and Workload

Time Schedule

Studio 2G Architects is fully prepared to begin work immediately upon receipt of the Notice to Proceed, which the County has **tentatively scheduled for September 12, 2025**. Our team is organized to mobilize quickly, holding capacity in our current workload to prioritize project startup and coordination meetings with County staff. We understand that this project requires a phased approach, beginning with a feasibility study and culminating in construction support, and we have structured our internal team and consultant commitments accordingly.

Based on the County's published selection timeline and our understanding of the scope, we anticipate the following overall project schedule:

Deliverables

STUDIO 2G AND OUR TEAM ARE CAPABLE OF COMPLYING WITH ALL THE SOFTWARE DELIVERABLE REQUIREMENTS OF THE COUNTY OF SANTA BARBARA FOR THIS PROJECT.

A. CAD Drawings in AutoCAD (version)

- Any version up to 2023 can be used. If the county has a preference on the version we can comply. Note: When you save an AutoCAD file that is newer than 2018 AutoCAD still saves these files as an AutoCAD 2018 file for compatibility between versions.

B. Word Documents in Microsoft Word

- We have the software for both Microsoft Word and Google Docs. If collaboration is desired we typically use Google Docs and then export to Microsoft Word, but we do have the capability to work directly in the Microsoft Word software.

C. Spreadsheets in Microsoft Excel

- We have the software for both Microsoft Excel and Google Sheets. If collaboration is desired we typically use Google Sheets and then export to Microsoft Excel, but we do have the capability to work directly in the Microsoft Excel software.

D. Schedules in Microsoft Projects

- We use the cloud based software called Smartsheets for all scheduling and it has the same features as Microsoft Projects. This cloud based software updates in real time and allows you to share the page for others to log in for free. You can also publish the page so that anyone with the link can view without needing to log in at all.
- This has been an approved alternative to using Microsoft Projects in our past experience with the County of Santa Barbara. If this is not acceptable we are also capable of utilizing Microsoft Projects.

E. Databases as necessary for compiling, storing and accessing the Project records in a commonly available format.

- We use both Google Drive and Smartsheets to store project data and we make the files available to the team to access project records. Google Drive is the main platform we use and will hold all data. Some data, if relevant, will also be stored on our Smartsheets Weekly Tracker where we keep track of the weekly progress, as well as on Smartsheets Submittal and RFI trackers during construction administration. This is both for easy access and to be able to easily assign due dates to relevant tasks.

F. Bluebeam and BIM

- We have the capability of using bluebeam.
- We are capable of providing BIM files for this project as well as performing BIM clash detections.
- Based on this Scope of Work we are assuming BIM is not required, but if it is required we have the capability.

G. Procore Construction Management Software

- We have the capability of using Procore.
- Contractors set-up Procore during the construction process and the design team is given access to respond to the construction submittals and RFIs through the program.

This Cost Proposal includes all items listed in the RFP.
Some task items may be unnecessary due to the size and scope of the project.
We are open to negotiation on this cost proposal.

Phase 1: Project Initiation and Feasibility Study	**$53,229.14**
Review County-provided drawings and environmental reports.	**$8,538.46**
Review Existing Building conditions (Two Site Visits)	**$12,924.32**
Meeting with Client	**$4,691.34**
Code Analysis (ADA and State) including BHCIP guidelines	**$4,737.38**
NZE Analysis	**$2,683.88**
ROM Cost Estimate for Two Design Options	**$2,931.64**
CEQA Coordination	**$2,876.76**
Preparation of Feasibility Study Documents	**$13,845.36**
Phase 2: Complete Design and Construction Documents	**$186,082.16**
Architecture / Project Management (Design and Construction Documents)	**$27,293.20**
Structural (Design and Construction Documents)	**$28,563.88**
MEP and Fire (Design and Construction Documents)	**$10,528.88**
Civil (Design and Construction Documents)	**$18,363.88**
Survey:	
Boundary Survey/Set Property Monuments (as req'd by State Law)	**$11,943.88**
Plot Easements from Title Report	**$1,150.00**
Topographic Ground Survey	**$5,520.00**
Landscape (Design and Construction Documents)	**N/A**
Net Zero Energy Design	**$1,408.92**
Entitlements	**$7,430.72**
Specifications	**$11,770.20**
Signage	**$6,168.68**
Project Schedule	**$1,002.80**
Cost Estimates and Value Engineering (50%, 95% and 100%)	**$16,955.52**
Permitting	**$23,615.56**
Meeting with Client	**$14,366.04**
Phase 3: Construction Support and Administration	**$130,949.24**
Bidding RFIs	**$12,726.84**
Bidding Addenda (Final Plan and Spec Updates)	**$6,524.84**
Construction Admin RFI, Submittal and CO reviews	**$26,632.04**
Potential Cost Request Preparation, for County Initiated Changes	**$2,871.36**
Issue Additional Instructions / Clarifying Documents	**$4,535.52**
Construction Site Visits (Three per month for Four Months) *We recommend less frequent site visits for a project of this size.*	**$26,793.16**
Additional Site Visits for Unforseen Conditions (Three)	**$11,712.04**
Punch List Development	**$5,220.68**
Punch List Site Visit	**$4,650.68**
Schedule of Values / Pay Request Review	**$1,435.68**
Construction Project Meetings with Contractor and Client	**$15,621.04**
Record drawings, Project documents and operation and maintenance manuals	**$12,225.36**

Total Design Scope Fees	**$370,260.54**

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Scope of Work Clarifications:

- **General**
  a. Scope of Feasibility study and CD's through construction based on the RFP
  b. Record drawings to be based on Contractor mark-ups.
- **Civil Engineering**
  a. Provide civil engineering services for the precision grading and drainage around the proposed elevator area; the two existing ADA stalls that are part of the City of Santa Barbara's asphalt concrete parking lot; and a proposed sidewalk from the new elevator to the ADA parking stalls.
  b. Services are to include preliminary grading analysis and design for construction document preparation. Existing drainage patterns are to remain.
- **Structural Engineering**
  a. Provide structural engineering plans, details, and calculations in support of the new elevator/lift.
  b. The existing structure is assumed to consist of conventional Type V wood framing with open-web trusses for the roof and floors; a combination of steel frames, plywood shearwalls, and CMU shear walls, and slab-on-grade foundations.
  c. As part of the elevator/lift remodel and addition, existing bearing and shear elements will be affected.
  d. New beams, posts, shear elements, and foundations will be required as necessary to support the existing and new loads.
  e. A partial lateral analysis will be performed for the affected areas of the existing structure only (southwest wall line). Conventional foundations are anticipated and shall be designed in accordance with the project soils report.
- **Fire Protection Engineering**
  a. Fire & life safety feasibility study.
  b. Fire alarm and Fire sprinkler upgrade drawings to accommodate elevator upgrade.
- **Energy Consultant**
  a. One site visit in Phase 1, plus 2 team meetings online
  b. Review of NZE policy for project applicability
  c. Energy Model with elevator process load for ZNE report
  d. Participate in selection of efficient HVAC system, design and engineering by mechanical engineer
  e. Advise on efficient envelope assemblies
  f. NZE Report

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Assumptions:

1. In the event the actual construction bids exceed the 100% design estimate by more than 10%, and the County elects - for any reason whatsoever - not to move forward with award of a construction contract based on the bid results, the Consultant shall provide re-design services at no additional cost to the County to bring the Project back to the 100% Design Budget. Re-design modifications shall be coordinated with and approved by the County prior to plan and specification revisions. The timeline for such revisions shall be three (3) weeks from the date of notification from the County.
2. Site work will be on two separate legal parcels (APNs). The building is on 315 W. Haley (APN 037-192-001) - the modification/addition to the structure for the elevator and a portion of site work will be on this parcel. Additional site work will take place on the City of Santa Barbara owned parking lot on 319 W. Haley (APN 037-192-012) in the form of ADA compliant path of travel from the elevator to the two existing ADA parking stalls. The condition of these parking stalls will require repaving. To keep the project from exceeding 500 SF of new and/or replaced impermeable surface, to meet the City of Santa Barbara Creek's Division Tier 1 requirements, a portion of the new hardscape will have to be constructed with permeable pavement.
3. Since site improvement work will be on two separate parcels, it may require two separate permit applications.
4. No site retaining walls requiring engineering calculations will be required. ("Garden wall" height only if necessary.)
5. Owner to provide title report to Ashley & Vance prior to scheduling the survey work.
6. While Ashley & Vance will make every effort to keep the project in the lowest SWMP Tier by trying to propose solutions that limit the amount of new impermeable surface, a Geotechnical Engineer may be necessary to provide information on seasonal high groundwater and subgrade conditions if infiltration will be required to meet SWMP requirements; and/or for subgrade conditions for new permeable pavements.
7. Prevailing Wage Rate is required for all field work (to impact survey field work).
8. BIM / COBie document submittals are not required.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Exclusions:

- **General**
    a. Jurisdictional fees are excluded.
    b. BIM / COBie documents.
- **Civil Engineering**
    a. Storm water management (until we know extent of new/replaced impermeable surface) beyond Tier 1 (see "ASSUMPTIONS")
- **Structural Engineering**
    a. A full gravity and/or lateral analysis and upgrade of the entire existing structure, soils engineering, retaining walls, temporary shoring, ornamental architectural metals (canopies, awnings, sunshades, signs, bike racks, etc.) and their associated anchorage.
- **Fire Protection Engineering**
    a. Fire flow Test
    b. Fire protection system commissioning
- **Energy Consultant**
    a. Renewable energy system design
    b. Construction Phase Services

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

EXHIBIT B-2025 HOURLY FEE SCHEDULE AND REIMBURSABLE EXPENSES

DATE: Effective as of January. 1 2025

The following fee schedule is for services rendered on an hourly arrangement:

POSITION	HOURLY RATE
Sr. Managing Principal	$237.13 - $274.85 / Hour
Jr. Managing Principal	$196.74/ Hour
Sr. Project Architect	$189.16 - $208.57 / Hour
Project Architect	$169.79 - $179.46 / Hour
Sr. Project Manager	$184.07 - $189.59 / Hour
Project Manager	$172.82 - $177.49 / Hour
Jr. Project Manager	$168.15 / Hour
Job Captain	$149.46 - $172.82 / Hour
Jr. Job Captain	$142.48 / Hour
Arch Associate 2	$136.42 - $146.52 / Hour
Arch Associate 1	$126.11 - $134.02 / Hour
CAD Technician	$110.93 / Hour
Administration	$65.00 / Hour

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Hourly Rate Schedule

As of January 1st, 2025, the hourly billing rates for projects shall be as follows:

Principal Engineer	$265
Senior Engineer	$225
Project Engineer	$185
Design Engineer	$155
Office / Clerical	$105

Principal LEED AP:	$185/hour
Principal Energy Analyst:	$185/hour
LEED PM/Analyst	$155/hour
Tech	$120/hour

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Mechanical Engineering Consultants, Inc. Rate Schedule for 2025

Description	Rate($/hr)
Principal	250.00
Senior Engineer	225.00
Engineer/Senior Designer	205.00
Assistant Engineer 1	190.00
Assistant Engineer 2	180.00
Title 24 Energy Analyst	160.00
Senior Drafter	160.00
Drafter	145.00
Technical Assistant	130.00

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

This Cost Proposal is for services only relating to the design of a Lift for the Behavior Wellness – Haley Street Project.

Phase 1: Project Initiation and Feasibility Study	**$25,452.32**
Review County-provided drawings and environmental reports.	**$2,938.54**
Review Existing Building conditions (One Site Visit)	**$3,391.64**
Meeting with Client (Bi-Weekly, Virtual, 1 hour, 4 Meetings)	**$2,347.76**
Code Analysis (ADA and State) including BHCIP guidelines	**$4,307.38**
ROM Cost Estimate for Lift Design	**$1,931.64**
Preparation of Feasibility Study Documents	**$10,535.36**
Phase 2: Complete Design and Construction Documents	**$121,999.04**
Architecture / Project Management (Design and Construction Documents)	**$17,389.94**
Structural (Design and Construction Documents)	**$17,463.88**
Electrical (Design and Construction Documents) (Mechanical, Plumbing and Fire Protection no longer have project scope)	**$5,443.88**
Civil (Design and Construction Documents)	**$8,313.88**
Survey:	
Boundary Survey/Set Property Monuments (as req'd by State Law)	**$11,943.88**
Plot Easements from Title Report	**$1,150.00**
Topographic Ground Survey	**$5,520.00**
Landscape (Design and Construction Documents)	**N/A**
Specifications	**$10,280.20**
Project Schedule	**$1,002.80**
Signage (Assumes signage needed for ADA parking and Lift for wayfinding are required. Monument signage is excluded)	**$2,099.38**
Cost Estimates and Value Engineering (50%, 95% and 100%)	**$13,975.52**
Permitting	**$21,016.28**
Meeting with Client (Bi-Weekly, Virtual, 1 hour, 10 Meetings)	**$6,399.40**
Phase 3: Construction Support and Administration	**$77,679.19**
Bidding RFIs	**$8,100.48**
Bidding Addenda (Final Plan and Spec Updates)	**$5,504.84**
Construction Admin RFI, Submittal and CO reviews	**$19,620.55**
Potential Cost Request Preparation, for County Initiated Changes	**$4,371.36**
Issue Additional Instructions / Clarifying Documents	**$4,535.52**
Construction Site Visits (Two Site Visits)	**$7,583.52**
Additional Site Visits for Unforseen Conditions (One Site Visit)	**$3,591.76**
Punch List Development	**$4,052.84**
Punch List Site Visit (One Site Visit)	**$3,591.76**
Schedule of Values / Pay Request Review	**$1,435.68**
Construction Project Meetings with Contractor and Client (Bi-Weekly, Virtual, 1 hour, 12 Meetings)	**$7,043.28**
Record drawings, Project documents and operation and maintenance manuals	**$8,247.60**

Total Design Scope Fees	**$225,130.55**

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Scope of Work Clarifications:

- **General**
    a. Scope of Feasibility study and CD's through construction based on the RFP
    b. Record drawings to be based on Contractor mark-ups.

- **Civil Engineering**
    a. Provide civil engineering services for the precision grading and drainage around the proposed elevator area; the two existing ADA stalls that are part of the City of Santa Barbara's asphalt concrete parking lot; and a proposed sidewalk from the new exterior lift to the ADA parking stalls.
    b. Services are to include preliminary grading analysis and design for construction document preparation. Existing drainage patterns are to remain.
    c. Prepare documentation for up to a Tier 2 SWMP Analysis for each parcel.
- **Structural Engineering**
    a. Provide structural engineering plans, details, and calculations in support of the new lift.
    b. The existing structure is assumed to consist of conventional Type V wood framing with open-web trusses for the roof and floors; a combination of steel frames, plywood shearwalls, and CMU shear walls, and slab-on-grade foundations.
    c. As part of the lift remodel and addition, existing bearing and shear elements will be affected.
    d. New beams, posts, shear elements, and foundations will be required as necessary to support the existing and new loads.
    e. A partial lateral analysis will be performed for the affected areas of the existing structure only (southwest wall line). Conventional foundations are anticipated and shall be designed in accordance with the project soils report.
- **Fire Protection Engineering**
    a. Assumed not in scope due to the scope being reduced to a lift design only.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

- **Electrical Engineering**
  a. I. Phase I:
     - Site review of existing conditions.
     - Summary report.
  b. II. Phase II:
     - Coordination meetings.
     - Electrical construction drawings.
       - 1. Single line diagram.
       - 2. Panel schedules.
       - 3. Fixture schedule.
       - 4. Single line diagram.
       - 5. Electrical floor plans.
       - 6. Electrical notes and details.
       - 7. Electrical load calculations.
       - 8. Electrical specifications.
  c. III. Phase III:
     - Permitting support.
     - Bidding support.
     - Limited construction support.
  d. IV. Scope of Work:
     - Electrical to new lift.
     - Lighting at elevator landings.
     - Smoke detectors elevator landings.
     - New feeder from panel.
- **Energy Consultant**
  a. One site visit in Phase 1, plus 2 team meetings online
  b. Review of NZE policy for project applicability
  c. Energy Model with elevator process load for ZNE report
  d. Participate in selection of efficient lift system.
  e. Advise on efficient envelope assemblies
  f. NZE Report

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Assumptions:

1. In the event the actual construction bids exceed the 100% design estimate by more than 10%, and the County elects - for any reason whatsoever - not to move forward with award of a construction contract based on the bid results, the Consultant shall provide re-design services at no additional cost to the County to bring the Project back to the 100% Design Budget. Re-design modifications shall be coordinated with and approved by the County prior to plan and specification revisions. The timeline for such revisions shall be three (3) weeks from the date of notification from the County.
2. Site work will be on two separate legal parcels (APNs). The building is on 315 W. Haley (APN 037-192-001) - the modification/addition to the structure for the elevator and a portion of site work will be on this parcel. Additional site work will take place on the City of Santa Barbara owned parking lot on 319 W. Haley (APN 037-192-012) in the form of ADA compliant path of travel from the elevator to the two existing ADA parking stalls. Condition of these parking stalls require repaving. To keep the project from exceeding 2,000 SF of new and/or replaced impermeable surface, to meet the City of Santa Barbara Creek's Division Tier 2 requirements, a portion of the new hardscape may have to be constructed with permeable pavement. Additionally, Tier 2 SWMP requirement will be met by the "25% Rule" - that is, for every 4 SF of new and/or replaced impermeable surface that equivalent will be directed to 1 SF of landscaped area sloping no more than 7%.
3. Since site improvement work will be on two separate parcels, it may require two separate permit applications.
4. No site retaining walls requiring engineering calculations will be required. ("Garden wall" height only if necessary.)
5. Owner to provide title report to Ashley & Vance prior to scheduling the survey work.
6. While Ashley & Vance will make every effort to keep the project in the lowest SWMP Tier by trying to propose solutions that limit the amount of new impermeable surface, a Geotechnical Engineer may be necessary to provide information on seasonal high groundwater and subgrade conditions if infiltration will be required to meet SWMP requirements; and/or for subgrade conditions for new permeable pavements.
7. Prevailing Wage Rate is required for all field work (to impact survey field work).
8. BIM / COBie document submittals are not required.

Docusign Envelope ID: 3773F87A-0B89-4932-BA2C-CA8383B3EEAD

Exclusions:

- **General**
    a. Jurisdictional fees are excluded.
    b. BIM / COBie documents.
- **Civil Engineering**
    a. Storm water management beyond Tier 2 (see "ASSUMPTIONS")
- **Structural Engineering**
    a. A full gravity and/or lateral analysis and upgrade of the entire existing structure, soils engineering, retaining walls, temporary shoring, ornamental architectural metals (canopies, awnings, sunshades, signs, bike racks, etc.) and their associated anchorage.
- **Fire Protection Engineering**
    a. All fire protection engineering
    b. Fire flow Test
    c. Fire protection system commissioning
- **Electrical Engineering**
    a. EV charger
    b. Site lighting
    c. PV solar system design
    d. Security system design
    e. Electrical service revisions
- **Energy Consultant**
    a. Renewable energy system design
    b. Construction Phase Services
- **Mechanical and Plumbing**
    a. All mechanical and plumbing engineering
