

ID Number	Field	Lease	Well	API	Status	Comment
1	Barham Ranch	Barham	5	08300988	Active	Former producing well drilled pre-1974, converted to water disposal in 2006. Barham Ranch "Old Area" had no productive limit polygon on the 1974 map, just a cross section.
2	Casmalia	Peshine	1A	08300929	Active	Converted from a production well to a wastewater disposal well pre-primacy (1978). Should have been exempted.
3	Casmalia	Peshine	46	08321989	Active	Post-primacy. Drilled as a production well, initially tested as water with 10% oil and it was left idle until converted to disposal.
4	Casmalia	Tompkins	7	08300952	Active	Converted from a production well to a wastewater disposal well pre-primacy (1965). Should have been exempted.
5	Cat Canyon	Williams Holding	C.H. 2WD	08301482	Idle	Post-primacy (approved 1981). Idle since 1982.
6	Cat Canyon	Cantin	39	08321859	Active	This well should not have been on DOGGR list of wells of concern. The wrong project project code was entered in CalWIMS. Well is located within the 1974 area.
7	Cat Canyon	Pyramid-DT	32X	08320724	Proposed	Former producing well drilled pre-1974, online shading layer is not correctly projected onto the DOGGR online base map. Newly converted to wastewater disposal and has not begun injecting yet. DOGGR does not have a Monterey only water analysis but expects it to be much greater than 10,000 mg/L TDS.
8	Cat Canyon	Los Flores	3-21	08301242	Idle	Former producing well drilled pre-1974, online shading layer is not correctly projected onto the DOGGR online base map, should be exempted. Converted pre-primacy (1975), idle since 1979.
9	Lompoc	Orcutt Fee	23-35	08320906	Idle	Former producing well drilled after 1974. Converted to wastewater disposal in 2007, never injected, terminated 2011.
10	Lompoc	Jesus Maria	A31-19	08322150	Active	Former producing well drilled after 1974. Converted to injection in 2003. Operator is preparing an aquifer exemption.
11	Lompoc	Jesus Maria	A83-19	08321866	Active	Former producing well drilled after 1974. Converted to injection in 2003. Operator is preparing an aquifer exemption.
