Dear Chairman Carbajal,

I am the owner of a home at 735 Glen Eagles Drive in Orcutt, which is the area contiguous to the proposed Keysite 30 project.

Over the years, I have been aware of the projects that Mrs. Hunter has built and all of them have been of top quality and highly esthetic designs.

I have carefully studied the design of Keysite 30, and note that there is an extremely large percentage of the land - probably close to 70% - which is devoted to open space. This space will certainly be an asset to the community of Orcutt and to the County of Sant Barbara.

I strongly believe that Keysite 30 should be chosen for rezoning.

Sincerely,

Margaret M. Midling
