"Installation Date" means the date of issuance of the keys that enable the use of the Licensed Software. During the annual term of a customer's maintenance and support contract, customer may request termination of maintenance and support on any of their licenses by notifying GE of the change. Upon receipt of customer's written notification, GE will deactivate the license or licenses, which will terminate maintenance and support on those license or licenses. Because maintenance and support are provided on an annual term, no credits or refunds are issued on deactivated licenses for the remaining months of the annual term. Maintenance and support on deactivated licenses will not be renewed or billed at the annual contract renewal date, provided customer notifies GE of license deactivation within 60 days prior to annual contract renewal date.
