

Revisions

- 1st ¶ on page 3 “...(99.2 percent versus 90.4 percent, or 25 out of 50 sources ...). The addition of possibly 18 more projects ...”.
- Item 5 on page A-5 beginning with 5th line – “Eight of 50 Another 17 sources ...” Also addition of new source no. 18 and related revisions to 10,000 capture rate and total emissions to read 90.4% and 648,048, respectively.

Revisions

- Item 6 on pp. A-6 & A-7.
 - 50 rather than 49 sources with 648,048 rather than 646,213 MTCO2e.
 - 8th & 9th lines, 26 rather than 25 sources accounting for 643,124 rather than 641,289 MTCO2e.

Revisions

- 15th line, insert the following before sentence that begins with “This capture rate...”
 - “As was found by the Planning Commission, the addition of possibly only 17 more projects being subject to the threshold of 1,000 MTCO2e as compared to a threshold of 10,000 MTCO2e is an acceptable administrative task.”
