**Subject:** Goleta Beach 2.0

Dear Council members

- I support the Goleta Beach 2.0 project which will protect Goleta Beach Park in an environmentally responsible way.
- The project will add an acre of sandy beach to Goleta Beach Park, which will be open for public recreation, such as bird watching, beach parties, sun-tanning, and sand castle building.
- Goleta Beach 2.0 maintains protections for the restaurant, while enhancing safe access for bikes, pedestrians, and autos, offering a new MTD bus stop, and providing overflow parking.
- The project follows the advice of the Coastal Commission, which has ultimate approval authority.

Please support it also.  
Thank you for your consideration
