

Attachment 1

Franzen-Hill

Fueling Facilities System Design, Construction & Maintenance
California Licensed Contractor No. 304147
Since 1971

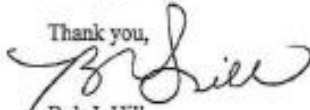

To whom it may concern:

Franzen-Hill Corporation Patent holder of the Hill-Vac Phase 11 Vapor recovery system has approved McLellan Equipment of Hanford, California to install and pretest the Hill-Vac system.

McLellan has worked with Hill-Vac to develop a pump system that keeps the Hill-Vac system in compliance. This is a complex system that requires Hill-Vac trained personnel to do this installation.

McLellan Equipment is the only authorized Hill-Vac dealer and warranty facility for the State of California. McLellan Equipment has been a dealer for the Hill-Vac system since January 2007.

Thank you,

Bob J. Hill
Vice-President
Franzen-Hill Corporation
