Supervisors:

At Cottonwood Canyon Vineyard and Winery we support Items 2 and 3. In addition, Cottonwood has a large amount of interior space to provide in access of 20 visitors at a time and maintain the spacing required to safely serve those customers. Being able to continue to serve wine to generate revenue is the only venue for which we can sustain our operations and welcome the opportunity to allow those wineries in Santa Barbara who could also provide this service since no formula "fits all" and we should be given the opportunity to be treated individually.

Thank you for the consideration.
