Background:

Economic growth continues to increase at a moderate pace at a rate of 1.3% quarter. The unemployment rate fell to 7.8% in September as employers hired more part-time workers. Activity levels in the housing sector remained low but market conditions were showing signs of improvement as homes were selling at a faster pace. Inflation increased from 1.7% to 2% due to an increase in energy prices. Longer-term inflation expectations remained stable.

The Federal Open Market Committee (FOMC) issued this statement at its September meeting "To support continued progress toward maximum employment and price stability, the Committee expects that a highly accommodative stance of monetary policy will remain appropriate for a considerable time after the economic recovery strengthens. In particular, the Committee also decided today to keep the target range for the federal funds rate at 0 to ¼ percent and currently anticipates that exceptionally low levels for the federal funds rate are likely to be warranted at least through mid-2015." The target range of 0 to ¼ percent was set by the FOMC in December 2008, where it has remained since. The FOMC will meet next quarter October 23-24 and December 11-12. The committee's focus is to seek monetary and financial conditions that will foster price stability and promote sustainable growth in output.

This quarterly report is being submitted to you as required by California Government Code section 53646 (b). In addition, California Government Code section 53646 (b) (3) requires the Treasurer-Tax Collector to include a statement in the Treasurer's Report affirming the ability of the Santa Barbara County Investment Pool to meet expenditure requirements for the next six months.

This report was reviewed and discussed by the Treasury Oversight Committee at its quarterly meeting. The Treasury Oversight committee promotes the public interest and is governed by California Government Code sections 27130 through 27133.
