Robin Renken Las Vegas NV 89108 United States 12/6/16
Traveling around the country, vacation rentals allow people to get a real feel for an area. Not just as tourists, but to get to know the heart of an area and it's people. You then are invested in that area and care about what happens to it. While short term rentals help with economic growth in an area, they do much more. They make our world a smaller place that has the ability to care more deeply for those around us and across the country or the globe.

I rent space in my own home as STR and would not consider long term as I like to keep the space free for visiting family as needed. I am in the city so have had to change to 30+ night rentals. This means less \$ so I've had to rent out more often which means higher water usage and parking issues. Our neighbors have never had any problems with our guests and SB county has become a second home to me and that was all because STR gave me and wife the ability to stay there and feel like it was our home.
